STATE OF WYOMING

**INTRODUCTORY
SECTION**

**For Fiscal Year Ended
June 30, 2014**

Cynthia I. Cloud, CPA, State Auditor

December 19, 2014

State Capitol
Cheyenne, Wyoming 82002
Telephone: 307/777-7831
FAX: 307/777-6983

TO: The Honorable Matthew H. Mead, Governor,
Members of the Legislature, and the
Citizens of the State of Wyoming:

It is my privilege to present the Comprehensive Annual Financial Report (CAFR) of the State of Wyoming as of and for the fiscal year ended June 30, 2014. In accordance with law (W.S. 9-1-403(a)(v)) the State Auditor provides annual financial statements prepared in conformance with generally accepted accounting principles (GAAP).

The CAFR is the primary means of reporting the State of Wyoming's financial activities. McGee, Hearne & Paiz, LLP, certified public accountants, has independently audited the State of Wyoming's financial statements. The independent audit is performed annually to provide reasonable assurance that the financial statements of the State of Wyoming are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the State of Wyoming's financial statements for the fiscal year ended June 30, 2014 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of the CAFR.

Management's discussion and analysis (MD&A) immediately follow the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The CAFR consists of representations by the management of each State entity concerning the finances of the State of Wyoming. Responsibility for both the accuracy of the data and the completeness and reliability of the information, including all disclosures, rests with the State. To provide a reasonable basis for making these representations, the State has established an internal control framework that is designed both to protect the State's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the State of Wyoming's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the State's framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. This is the established and accepted standard. The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. To the best of my knowledge and belief, this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the State of Wyoming is part of a broader, federally mandated "single audit" designed to meet the special needs of federal grantor agencies. The standards governing single audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the State of Wyoming's separately issued Compliance Report.

Profile of the Government

On July 10, 1890, the State of Wyoming, known as the 'Equality State,' was the 44th state admitted to the Union. Located in the Rocky Mountain section of the western United States, Wyoming is bounded on the north by Montana, on the east by South Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. It is the ninth largest state in the United States, containing 97,914 square miles. The 2010 Census put Wyoming's population at 563,626. Wyoming is home to two of the country's foremost national parks, Yellowstone National Park and Grand Teton National Park, as well as the first designated national monument, Devil's Tower.

The executive branch of Wyoming government is comprised of a Governor, Secretary of State, State Auditor, State Treasurer, and the Superintendent of Public Instruction, all of whom are elected by statewide vote every four years. The legislative branch of government is comprised of 30 state senators and 60 state representatives. The term of office for senators is four years, with 15 of the members being elected at a general election at which a President of the United States is elected, and the balance are elected at the next general election. The entire body of the House of Representatives is elected every two years for a two-year term.

The State of Wyoming provides a full range of services to its constituents. The principal departments of Wyoming Government are: Administration and Information, Agriculture, Attorney General, Department of Audit, Corrections, Engineer, Environmental Quality, Family Services, Game and Fish, Health, Revenue, State Parks and Cultural Resources, Transportation, Workforce Services and Enterprise Technology Services.

Among the some 21 separate operating agencies are seven entities which are legally separate but considered as component units of the State of Wyoming, as the State has significant operational and/or financial relationships with them. Seven of the component units' financial data are reported in columns separate from the financial data of the primary government (the State). Those organizations are the University of Wyoming, Department of Transportation, Wyoming Community Development Authority, Wyoming Pipeline Authority, Wyoming Infrastructure Authority, Wyoming Business Council, and Wyoming Lottery Corporation. Additional information on all seven of these legally separate entities can be found in Note 1 in the notes to the financial statements.

Budgetary Process

The biennial budget serves as the foundation for the State of Wyoming's financial planning and control. Wyoming statutes require the Governor to prepare and submit a biennial budget to the Legislature every even-numbered year. Budgets are prepared for a biennial period and are augmented, if necessary, with supplemental appropriations during the legislative sessions conducted in odd-numbered years. Budgets are adopted at the program level by agency. The Legislature may add, change, or delete any budget items proposed by the Governor. The Governor may authorize changes and revisions to approved budgets during the budget term, including increasing appropriations in the event of federal revenue above the initial budget approved by the Legislature. Budget-to-actual comparisons are provided in the CAFR for each individual governmental fund for which an appropriated biennial budget has been adopted. For the general fund and the foundation program fund, this comparison is presented as part of the required supplementary information. For governmental funds other than the major funds, this comparison is presented in the supplementary information section of the CAFR.

Long Term Financial Planning

The State of Wyoming incorporates revenue forecasting for two principal areas: general government operations and public school financing.

For general government the State utilizes the efforts of the Consensus Revenue Estimating Group (CREG). CREG was created by mutual informal agreement between the executive and legislative branches in 1983 as a result of the need for reliable and consistent revenue estimates which could be used by the executive branch and the Legislature in the budgeting process. CREG is composed of members from various professional fields and governmental organizations, including legislative and executive branch representatives.

The CREG Report contains the following information:

- (i) Projections for major revenue sources to the General Fund are detailed including sales and use taxes, pooled interest, Permanent Wyoming Mineral Trust Fund interest, and severance taxes.
- (ii) The severance tax forecast details projected production, price and expected severance tax receipts for each major mineral and the report shows expected distributions of severance taxes to each fund or account that receives the taxes;
- (iii) The federal mineral royalty forecast also details projected production, price and expected royalties for oil, natural gas and coal and details the expected distribution of royalties to each fund or account that receives the royalties;
- (iv) The report also projects income derived from investment of the Common School Permanent Land Fund and projects total State-assessed valuations to project the amount of revenue generated by the assessment of twelve mills to support education.

School Finance

The Legislature is required to define the proper combination of educational goods and services every child in Wyoming should receive. The State has a continuing process to determine the resources needed to provide proper combination of educational goods and services and to ensure that school districts have adequate funding to provide those goods and services. The present day funding model is recalibrated every five years.

The funding model consists of three major components:

1. Legislation enacting the model. This includes the statutory language to fund schools, and an appendix, which outlines specific funding decisions made by the Legislature.
2. A set of linked worksheets which compute school and district funding allocations.
3. Additional worksheets developed by the Wyoming Department of Education to distribute funds to the school districts.

The State also has a legislatively approved plan for construction and major maintenance of State education facilities, including for the University of Wyoming.

Major Initiatives

SIPA. During the 2013 Legislative Session, legislation was enacted which created the Strategic Investment Projects Account (SIPA). The source of funding for this initiative was the excess earnings the State Treasurer's Office generated from recognized capital gains. The amount of excess earnings was limited to \$90 million. While the legislation is not specific as to what specific items may be funded, the legislation does indicate the intent is to expend these funds for "one-time" expenditures. The legislature has continued deposits of unprofiled investment earnings for one time projects during fiscal year 2014.

Large Projects Account. This account was created by legislation enacted during the 2014 Legislative Session to provide loans related to economic development projects approved by the state loan and investment board. Funding for this account was a transfer of \$25 million from SIPA. No loans had been applied for or approved at June 30, 2014 or by the date of this letter.

State Facilities Construction Account. During the 2014 Legislative Session, legislation was enacted which created this account. The source of funding is \$20 million transferred from SIPA for future department of health facility construction.

Education. The Hathaway Scholarship Program. Hathaway scholarships are scholarships designed to provide an incentive for Wyoming students to prepare for and pursue postsecondary education within Wyoming. The higher education program consists of four separate merit scholarships, each with specific eligibility requirements, and a need-based scholarship for eligible students, which supplements the merit awards.

Hathaway Merit Scholarships became available for eligible recipients beginning with the class of 2006 for the fall semester. Funding: 80% of the funds appropriated for the Hathaway Scholarship Program are for the Hathaway Merit Scholarships and 20% of the funds are for Hathaway Need-Based Scholarships. Hathaway scholarships are for attendance at the Wyoming postsecondary eligible institutions. Hathaway scholarships are not entitlements, and are subject to legislative appropriation. The Legislature has the authority to modify or terminate the Hathaway Scholarship Program at any time and to amend the requirements for eligibility.

The School Foundation Program Reserve Account was created by legislation enacted during the 2014 Legislative Session. The source of funding consisted of \$60 million from the General Fund and \$40 million from SIPA. The purpose of this account will be to protect the level of K-12 spending due to economic volatility.

Capital Projects. Major capital outlay items, which are underway or completed this fiscal year include:

- The Science, Technology, Engineering and Mathematics (STEM) Building—UW-\$50 million
- The Engineering Building—UW-\$55 million

Architectural design continued through fiscal year 2014 for the Capitol Building Rehabilitation and Restoration Project with expenditures totaling \$3.9 million to date. During the 2014 Legislative Session, \$259 million was appropriated from the Capitol Building Rehabilitation and Restoration Fund for the Capitol Building Rehabilitation and Restoration Project to proceed with level III design and construction for renovation, rehabilitation, restoration and addition to the

state capitol building, the Herschler state office building and the connection between the two buildings. The Capitol Building Rehabilitation and Restoration Fund had a balance of \$101.6 million at June 30, 2014. During the 2014 Budget Session, the legislature appropriated \$37,500,000 from the General Fund to the Capitol Building Rehabilitation and Restoration Fund. The State Treasurer and State Auditor are authorized to utilize interfund loans from the Permanent Wyoming Mineral Trust Fund for deposit to the Capitol Building Rehabilitation and Restoration Fund as necessary to meet appropriations from that fund and contract obligations of the Department of Administration and Information incurred for this project. There were no interfund loans outstanding at June 30, 2014.

The State has also authorized a major water project for the city of Gillette, which is ongoing. The end result of the project will be a reliable water supply for the city. The project is being funded with grant and loan appropriations from the State as well as local government funding from a capital facilities tax. To date the State has committed approximately \$190 million from various sources which include grant funding from the budget reserve account, water development account III, general fund, abandoned mine land funds, strategic investments and project account and loan funding from the permanent mineral trust fund.

State Investments. During fiscal year 2014, the state treasurer rebalanced investment managers who went above their maximum asset allocation range. This rebalancing resulted in \$430 million of the total \$468 million generated in realized gains.

State Economy

Wyoming's economic well-being continues to depend primarily on the mineral industry. Revenues to the State of Wyoming come from severance taxes, ad valorem taxes on real and personal property, federal mineral royalties from production on federal lands in Wyoming, and sales and use taxes.

According to the publication *Economic Summary: 2Q2014* which is through the second quarter ending June 30, 2014, prepared by the Division of Economic Analysis (EA) of the Department of Administration and Information, the economic data has been encouraging for the national economy and points to an acceleration in 2015. The gross domestic product appears to have accelerated from the 2.0% pace that had prevailed throughout the recover to about 3.0%. Payroll employment growth rate has been the highest since 2006, and more of the new jobs are also higher paying than those created earlier in the recovery. High stock values, record low debt burdens, and rebounding house prices are supporting consumer spending.

The Division of Economic Analysis in its report indicated that Wyoming's economy regained strength gradually starting in the third quarter of 2013, thanks to rebounding natural gas prices, expansion of oil drilling, and the strength of service providing industries. The unemployment rate dropped to 3.8%, while the U.S unemployment rate was at 6.2%. A vast majority of industrial sectors in Wyoming exhibited job growth during the period, with wholesale trade and the construction industries demonstrating the fastest annual increase, at 3.1 and 3.0 percent, respectively. Wyoming's pivotal industry, mining (including oil & gas extraction) showed a slight job addition in the second quarter, which was the first year-over-year growth since the second quarter of 2012.

At their October 2014 revenue forecast meeting the State's revenue estimating group decreased their revenue projections for the balance of the 2015-2016 biennium for the traditional spending funds (General Fund and Budget Reserve Fund) by \$14.8 million, while noting that these traditional spending funds had recognized revenue above projections for Fiscal Year 2014 by \$377.2 million, largely from capital gains.

For additional information on the State of Wyoming's economy, and the latest CREG revenue projections, the reader is directed to the Division of Economic Analysis (EA) of the Department of Administration and Information. The web address is <http://eadiv.state.wy.us>.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Wyoming for its CAFR for the fiscal year ended June 30, 2013. This was the seventeenth year that the State has received this prestigious award. In order to be awarded a Certificate of Achievement, the State must publish an easily readable and efficiently organized CAFR. This report must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. A copy of the GFOA certificate is included in the introductory section of the CAFR.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The CAFR represents the responsibility of the State Auditor to give the citizens of Wyoming an accurate picture of the financial condition of their State government. Great strides have been made in the past few years to improve our State's accounting and financial reporting: implementation of GAAP, preparation of the CAFR, an independent audit of our financial statements, and implementation of various Governmental Accounting Standards Board (GASB) standards. All have contributed to better financial management. My appreciation goes out to the Legislature and our staff for making these improvements possible.

In conclusion, I believe this report provides information beneficial in evaluating the financial activity of the State of Wyoming. The State Auditor's Office would like to express our appreciation to the fiscal officers and staff throughout State government for their dedicated efforts in assisting us in the completion of this report.

I would also like to express my thanks to the dedicated staff within the State Auditor's Office, who continue to take great pride in this report. I am proud to have them on my team as we reaffirm our commitment to providing the citizens of Wyoming excellence in financial reporting.

Thank you!

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Honorable Governor, Members of the Legislature
State of Wyoming
Cheyenne, Wyoming

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming (the "State"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Wyoming Community Development Authority, the Wyoming Pipeline Authority, the Wyoming Infrastructure Authority, or the Wyoming Department of Transportation, which are shown as discretely presented component units. In addition, we did not audit the financial statements of the University of Wyoming Foundation (the "Foundation"), a component unit of the University of Wyoming, which is included in the balances for the University of Wyoming (the "University"), a discretely presented component unit of the State. The Foundation represents approximately 35% of the total assets and 16% of the total revenues of the University. Those statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Wyoming Community Development Authority, the Wyoming Pipeline Authority, the Wyoming Infrastructure Authority, the Wyoming Department of Transportation, and the Foundation portion of the University, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 16 through 30 and budgetary comparison information and infrastructure modified approach information on pages 133 through 141 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The combining and individual nonmajor fund financial statements and the schedules of revenue and expenditures (budget and actual) on pages 143 through 211 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedules of revenue and expenditures (budget and actual) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedules of revenue and expenditures (budget and actual) are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section on pages 3 through 11 and the statistical section on pages 213 through 272 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

STATE OF WYOMING

**MANAGEMENT'S
DISCUSSION
AND ANALYSIS**

**For Fiscal Year Ended
June 30, 2014**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The State Auditor's Office offers readers of the State of Wyoming's financial statements this narrative overview and analysis of the financial activities of the State of Wyoming for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 4-8 of this report.

Financial Highlights

Government-Wide:

- The assets of the State of Wyoming exceeded its liabilities as of June 30, 2014 by \$18.8 billion (reported as net position). This is an increase of \$2.1 billion from June 30, 2013. Of this amount, \$5.5 billion is unrestricted net position that may be used to meet the government's ongoing obligations. Component units reported net position of \$7.6 billion.

Fund Level:

- As of June 30, 2014, the State of Wyoming's governmental funds reported combined ending fund balances of \$17.4 billion, an increase of \$2.0 billion.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$2.5 billion. The previously reported unreserved fund balance was \$2 billion. This change can be attributed in part to an increase of \$137 million in reserve accounts which are a part of the General Fund since implementing GASB Statement 54. No one particular item accounts for the rest of the increase.
- All governmental funds reported a total of \$376 million in Deferred Inflow of Resources. Of this amount \$294 million represented property taxes for the School Foundation Program and \$68.7 million represented sequestered federal mineral royalty revenues due from the federal government.
- The enterprise funds reported a net position at year-end of \$524.5 million, an increase of \$91.5 million from June 30, 2013. This increase is largely attributable to a net increase in fair market value of investments of \$65 million for fiscal year 2014 compared to a net decrease of \$22.6 million in the prior year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the State of Wyoming's basic financial statements. Financial reporting is intended to provide external parties that read financial statements with information that will help them to make decisions or draw conclusions about an entity. These parties do not always have the same specific objectives. In order to address the needs of as many parties as reasonably possible, the State's annual report consists of three major sections in accordance with required reporting standards: Management's Discussion and Analysis (MD&A), the basic financial statements, and required supplemental information. The State of Wyoming's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the State of Wyoming's finances, in a manner similar to a private-sector business. The State's government-wide financial statements include the *statement of net position* and *statement of activities*. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting.

- The purpose of the *statement of net position* is to report all of the assets held and liabilities owed by the State. The State reports all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred. The difference between the State's total assets and total liabilities is titled *net position* and this difference is similar to the owner's equity presented by a private-sector business.

The government-wide statement of net position can be found on page 32 of this report.

- The purpose of the *statement of activities* is to present all the revenues and expenses of the State of Wyoming. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a private-sector business in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the State. Revenues are recorded when

earned regardless of when the cash will be received and expenses are recorded even though they may not have been paid during the current period (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide statement of activities can be found on pages 34-35 of this report.

Both statements report three activities:

- *Governmental Activities* – Most of the State's basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- *Business-type Activities* – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Workers' compensation and the State's unemployment compensation services are examples of business-type activities.
- *Component Units* – Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The State has 3 authorities, 1 university, 2 state agencies and 1 corporation that are reported as discretely presented component units of the State.

Fund financial statements. The major fund financial statements begin on page 36 and provide more detailed information about the State's most significant funds – not the State of Wyoming as a whole. Funds are accounting devices that the State uses to keep track of specific sources of funding and spending. Except for the general fund, a specific fund is established to satisfy legal requirements established by external parties or governmental statutes or regulations. The State of Wyoming establishes other funds to control and manage money for particular purposes or to show that it is properly using certain resources. All of the funds of the State of Wyoming can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** Most of the State's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending.

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures, and change in fund balances. The statements are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements. All of the State's programs are included in the governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out in a short period of time. For example, amounts reported on the balance sheet include items such as cash and receivables collectable within a short period of time, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid in a short period after the end of the fiscal year. The difference between a fund's total assets and liabilities is labeled as the fund balance. The unassigned portion of fund balance generally indicates the amount that can be used to finance next year's activities.

The operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid in cash, respectively, during the current period or very shortly after the end of the year. Consequently, the governmental funds statements provide a short-term view that helps determine if there are more or fewer financial resources to finance the State's programs. Because this information does not encompass the long-term focus of the government-wide statements, we provide an analysis reconciling the total fund balances to the amount of net position reported in the statement of net position.

Also, there is an analysis following the statement of revenues, expenditures, and changes in fund balances that reconciles the change in net position of the governmental activities presented in the government-wide statement of activities to the change in fund balance presented in the statement of revenue expenditures and changes in fund balance. These two reconciliation schedules (pages 37 and 39) provide an analysis of transitioning from modified accrual accounting (Fund Basis) to full accrual accounting (Government-wide Basis). The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Internal service funds are reported as governmental activities, but reported as proprietary funds in the fund financial statements.

- Unless due and payable, long-term liabilities, such as capital lease obligations, compensated absences, bonds payable, and others only appear as liabilities in the government-wide statements.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- **Proprietary funds.** When the State charges customers for the services it provides, whether to outside customers or to other state agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting: the same method used by private sector businesses. Enterprises funds report activities that provide supplies and services to the general public. An example is the State Workers' Compensation Fund. Internal service funds report activities that provide supplies and services for the State's other programs and activities-such as the State's Information Technology Division. Internal service funds are reported as governmental activities on the government-wide statements since their primary purpose is to support those activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise funds are broken out between major and non-major. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the supplementary information section of this report.

The basic proprietary fund financial statements can be found on pages 40-42 of this report.

- **Fiduciary funds.** The State acts as a trustee or fiduciary for its employee pension plan. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These statements include pension, investment trust, private purpose, and agency funds, which use accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

The basic fiduciary fund financial statements can be found on pages 43-44 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 45-132 of this report.

Required Supplementary Information is presented that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparisons schedules primarily prepared on a biennial basis. Also included is a discussion of the Wyoming Department of Transportation (DOT) and how they account for infrastructure assets using the modified approach.

Required supplementary information can be found on pages 133-142 of this report.

Other Supplementary Information includes combining statements referred to earlier in connection with non-major governmental, enterprise, internal service and fiduciary funds that are presented immediately following the required supplementary information.

Other supplementary information can be found on pages 143-211 of this report.

Government-Wide Financial Analysis

As noted earlier, net position, which is the residual of all financial statement elements presented in a statement of financial position, may serve over time as a useful indicator of a State's financial position. In the case of the primary government (State of Wyoming), the net position of the State is at \$18.8 billion at the close of fiscal year 2014. This was an increase of \$2.1 billion for the fiscal year. The increase for the fiscal year was attributable, in large part, to investment returns that produced \$1.7 billion, an increase of \$853 million over the prior year due to the State Treasurer's Office's continued rebalancing of the State's investment portfolio. In addition, a prior period adjustment was made to correct an error found in the calculation of the due to component unit for fiscal year 2013.

The following condensed financial information was derived from the government-wide Statement of Net Position:

State of Wyoming's Net Position for Fiscal Year Ended June 30, 2014						
	Governmental Activities		Business-Type Activities		Total Primary Government

The investments in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding, is \$865.3 million. The State of Wyoming uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending. Although the State of Wyoming's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State of Wyoming's net position, \$12.4 billion, represents resources that are subject to restrictions on how they may be used. The remaining balance of unrestricted net position is \$5.5 billion.

The majority of the current assets of \$24.4 billion is comprised of various cash and pooled investments of \$21.8 billion, and accounts receivable, due from other governments and loan receivables (including interest receivable) of \$2.3 billion. The remaining amount is comprised of other assets such as inventory and prepaid expenses and amounts on deposit with the United States Treasury.

The current liabilities of \$4.6 billion are comprised of various items: \$2.6 billion is related to liabilities under security lending; \$329 million is related to claims and benefits payable, current portion of bonds payable and compensated absences (refer to Note 8 for additional detail); \$1.6 billion is related to various accounts payable. The amount due to component units \$67.1 million, represents the unspent appropriations allocated to discretely presented component units. The remaining amount is made up of various other liabilities.

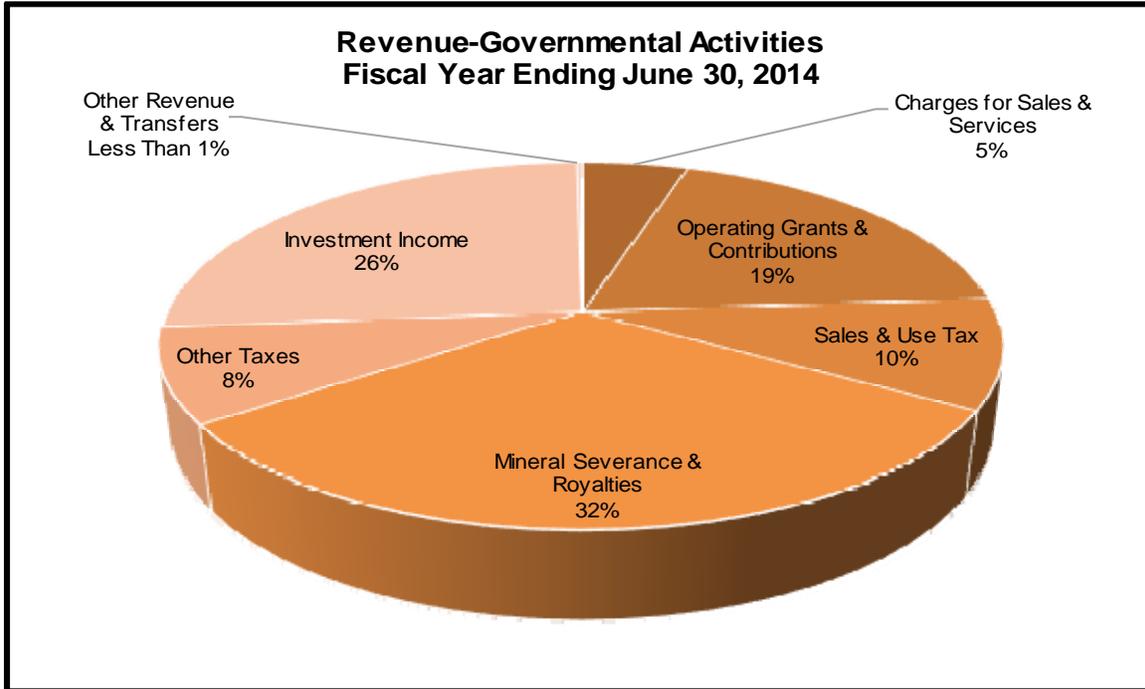

The majority of the long-term liabilities of \$1.7 billion is comprised of claims and benefits payable of \$1.6 billion, compensated absences of \$11 million and bonds payable of \$26.4 million. The State's estimated GASB 45 OPEB liability is \$72.9 million. OPEB represents the State's Other Post-Employment Benefits other than pension benefits.

The State had as of June 30, 2014, deferred inflows of resources related to property taxes of \$290 million.

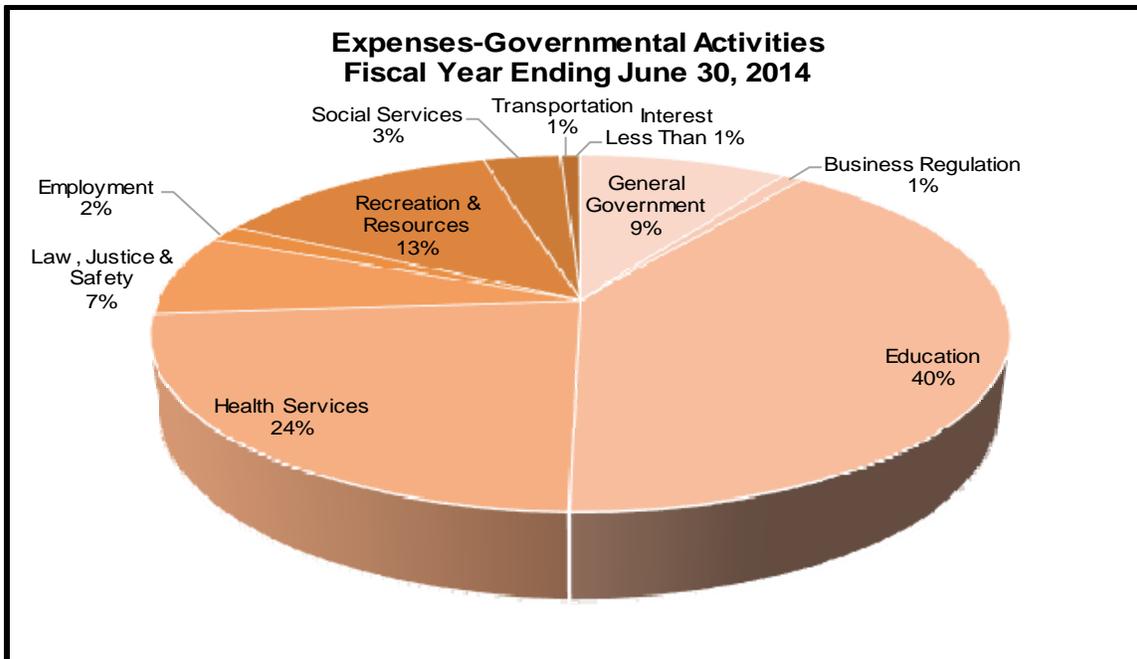

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

State of Wyoming Statement of Activities for Fiscal Year Ended June 30, 2014

The chart below represents revenues of the governmental activities for the fiscal year:

The following chart represents expenses of the governmental activities for the fiscal year:

Business-type activities

The net position of the business type activities increased by \$91.5 million during the fiscal year. This increase is largely attributable to a net increase in fair market value of investments of \$65 million for fiscal year 2014 compared to a net decrease of \$22.6 million in the prior year.

Financial Analysis of the State of Wyoming's Funds

As noted earlier, the State of Wyoming uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the State of Wyoming's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources, as stated earlier. Such information is useful in assessing the State of Wyoming's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2014, the State of Wyoming's governmental funds reported combined ending fund balances of \$17.4 billion, an increase of \$2.0 billion. Of this total fund balance, \$11 billion, is classified within the permanent funds as nonexpendable-corpus. Fiscal year 2011 marked the first year of implementing GASB Statement 54. This statement created a new fund balance hierarchy. The classifications of this new hierarchy are: non-spendable, restricted, committed, assigned and unassigned. These classifications are further discussed in Note 1 (C) and Note 12.

General Fund. The general fund is the chief operating fund of the State of Wyoming. At the end of the current fiscal year, unassigned fund balance of the general fund was \$2.5 billion, while total fund balance was \$3.7 billion. The net change in fund balance for 2014 in the general fund was a \$465 million increase. The majority of the unassigned fund balance (\$2.1 billion of \$2.5 billion) is attributable to the Legislative Stabilization Reserve Fund (\$1.6 billion), and the Budget Reserve Fund (\$426 million). A more detailed comparative analysis of the activity for the General Fund can be found on pages 23-26, of this MD&A.

The State Auditor is required by statute to sweep the General Fund's unappropriated fund balance at the end of a biennium to the Legislative Stabilization Reserve Fund. Because this fund is now part of the General Fund for financial reporting purposes, these transfers will net to zero for financial reporting purposes. For the 2013-2014 biennium this amount was \$20.1 million. The State Auditor is also required by statute to sweep the Budget Reserve Fund's balance in excess of required reserves at the end of a biennium to the Legislative Stabilization Reserve Fund. For the 2013-2014 biennium the amount to be transferred is \$348.6 million.

Foundation Program Fund. The restricted fund balance at June 30, 2014 totaled \$137.4 million, a net decrease in fund balance of \$169.2 million. This fund carries a legislative restriction on its unobligated, unencumbered fund balance which states it shall not exceed \$100 million. For fiscal year 2012 and the biennium ending June 30, 2012, the restricted fund balance in excess of \$100 million is to be transferred to the School Capital Construction Fund. The amount of this sweep in excess of \$100 million for fiscal year 2012 was \$195.3 million. The Legislature waived this sweep for fiscal year ending 2013. For fiscal year 2014, the amount of this sweep is \$275.4 million. The decrease in fund balance is attributable to this sweep.

Common School Land Fund. As of June 30, 2014, this fund balance totaled \$3.3 billion, all of which, except for \$65 thousand is in the nonspendable-corpus portion of fund balance. This is a net increase in non-spendable fund balance of \$634.5 million for the year.

Permanent Mineral Trust Fund. Nonspendable-corpus fund balance at June 30, 2014, totaled \$6.9 billion, a net increase in nonspendable-corpus fund balance \$899.9 million for the year

Proprietary funds. The State of Wyoming's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

- The enterprise funds reported a net position at year-end of \$524.5 million, an increase of \$91.5 million from June 30, 2013. This increase is largely attributable to a net increase in fair market value of investments of \$65 million for fiscal year 2014 compared to a net decrease of \$22.6 million in the prior year.

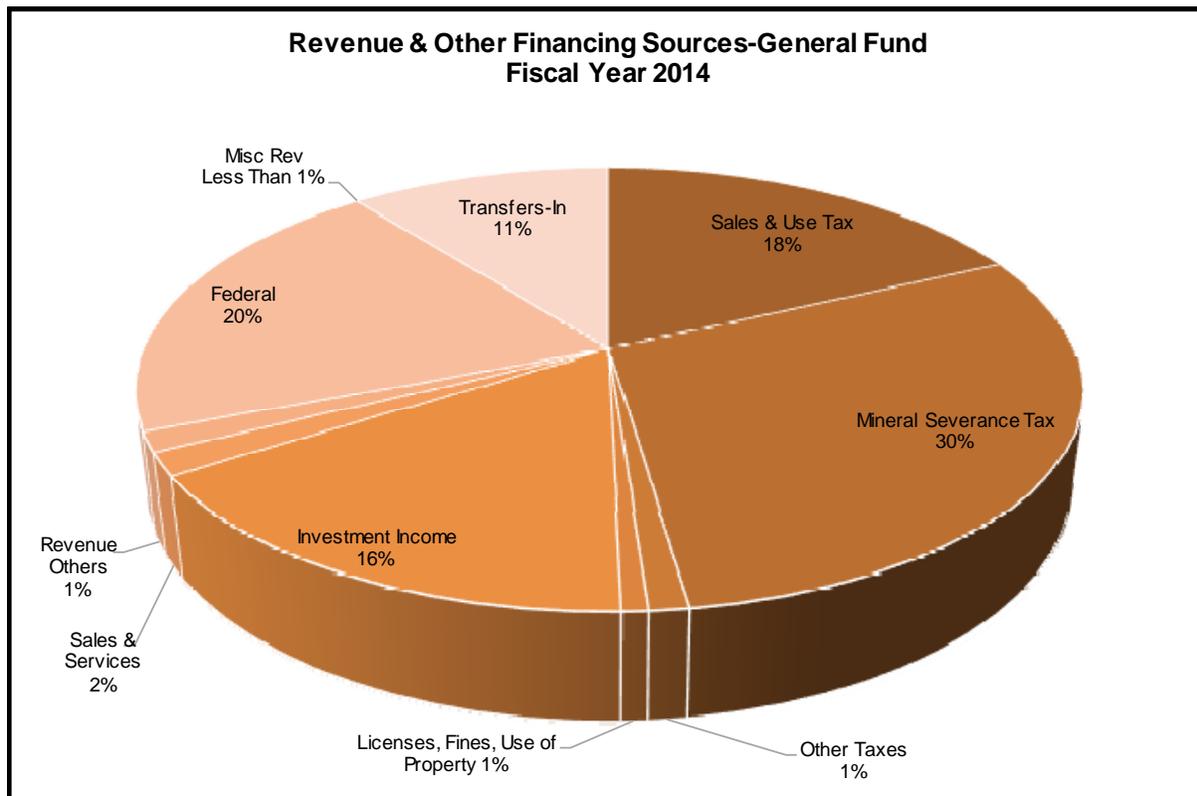

General Fund Budgetary Highlights

During the 2014 Legislative Budget Session, the 2015-2016 Biennial Appropriations were approved for the General Fund totaling \$3.4 billion. Major budgetary items are briefly summarized below:

- \$69 million for major maintenance;
- \$175 million for local governments;

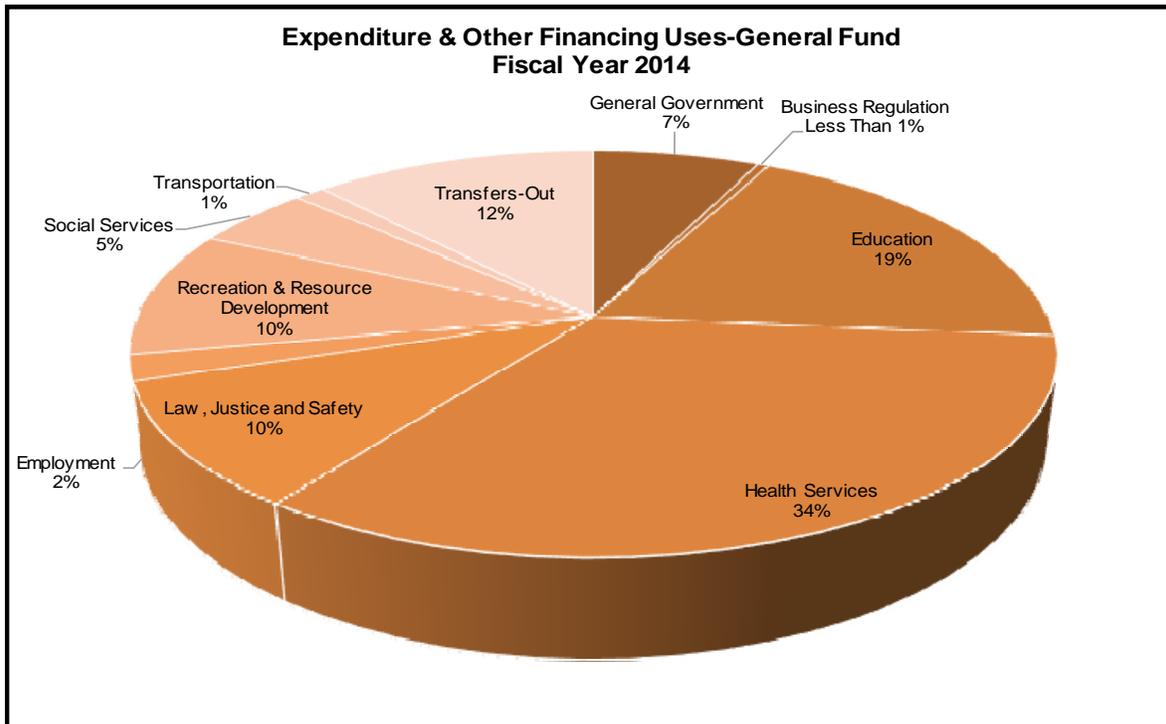

- \$403 million for University of Wyoming;
- \$257 million for State Aid to Community Colleges;
- \$46 million for Community College construction in progress;
- \$472 million for public safety and corrections programs;
- \$171 million for employment and economic development;
- \$958 million for health programs;
- \$158 million for social services programs;
- \$191 million for parks and natural resource programs;
- \$200 million for general government.

The total general fund revenues are presented in a pie chart below to display how sources relate to total revenue. The table on the following page shows the change in 2013 and 2014 revenue sources. On pages 25-26, General Fund expenditures are similarly presented, depicting functions as they relate to total expenditures.

As shown in the table following, total Revenues increased overall by \$344.3 million or 14%, while Other Financing Sources (transfers-in) decreased 47% or \$291.1 million in fiscal year 2014. Investment income increased \$195.7 million due to continued rebalancing of the investment portfolio by the State Treasurer's Office. Sales and use tax increased \$52.6 million over the prior year due to increases occurring in nearly all economic industries with the largest growth being in the mining sector, and mineral severance tax increased \$71 million due to enhanced production and associated taxation of oil. Another factor affecting federal mineral royalties was the federal government sequestering approximately 7.2% of each distribution. In October, the federal government paid the sequestered amounts, which totaled approximately \$68.7 million for fiscal year 2014. These amounts were recognized as revenue for fiscal year 2014. The decrease in Other Financing Sources (transfers-in) is due to less transfers required by the Legislature.

General Fund Revenue and Other Financing Sources for Fiscal Year Ended June 30, 2014				
	FY13	FY14	Increase (Decrease)	Percent Change
Taxes:				
Sales & Use	\$ 504,441,923	\$ 557,051,121	\$ 52,609,198	10%

Transfers-In	618,414,492	327,252,144	(291,162,348)	-47%
Total Other Financing Sources	618,414,492	327,356,179	(291,058,313)	-47%
Total Revenue & Other Financing Sources	\$ 3,024,519,687	\$ 3,077,744,373	\$ 53,224,686	2%

As shown in the table following, overall Expenditures decreased by 2% or \$58.3 million and Other Financing Uses also decreased by 54% or \$356.2 million in fiscal year 2014. The change in other financing sources (transfers out) was a result of less transfers that were required by the Legislature. The change for business regulation and education were primarily related to the establishment of payables to component units for appropriations owed component units as of June 30. The amount owed to the Wyoming Business Council in the prior year was determined to be overstated by \$67.4 million and the amount owed to the University of Wyoming was determined to be overstated by \$55 million. A prior period adjustment of \$122.4 million was recorded to adjust the beginning fund balance for fiscal year 2014.

General Fund Expenditures and Other Financing Sources for Fiscal Year Ended June 30, 2014				
	FY13	FY14	Increase (Decrease)	Percent Change

Capital Asset and Debt Administration

Capital Assets. The State of Wyoming's net investment in capital assets, for its governmental and business type activities as of June 30, 2014, amounts to \$865.3 million (net of accumulated depreciation and debt). This investment in capital assets includes land, buildings and systems improvements, machinery and equipment, intangibles, and park facilities.

Major capital asset events during the current fiscal year included the following:

- Architectural design continues for the Capitol Building renovation with total accumulated expenditures of \$3.9 million at the close of the fiscal year.
- Military Department – Continuing construction on Camp Guernsey Army Airfield land improvements with total accumulated expenditures of \$9.1 million at the close of the fiscal year.
- Completion of State Parks Curt Gowdy Visitors Center - \$2.4 million capitalized.
- Construction continues on Michael B Enzi Stem building to be contributed to University of Wyoming upon completion – total accumulated expenditures were \$9 million at the close of the fiscal year.
- Internally Generated Software Projects completed for various agencies - \$2.9 million capitalized.

More detailed information about the State's incomplete construction in progress is presented in Note 13 to the basic financial statements, on page 125.

At the end of the fiscal year 2014, the State had invested \$894.3 million, net of accumulated depreciation, in a broad range of capital assets (see the table below). The accumulated depreciation as of June 30, 2014, totaled \$564.2 million.

Capital Assets, Net of Depreciation for Fiscal Year Ended June 30, 2014

Additional information on the State of Wyoming's capital assets can be found in Note 5 on pages 86-89 of this report.

The State's Department of Transportation (DOT), a component unit of the State, is responsible for the majority of the infrastructure (consisting of roadways and bridges). As allowed by GASB Statement No. 34, DOT has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, DOT expenses certain maintenance and preservation costs and does not report depreciation expense. More detailed information about the DOT capital assets and the reporting criteria are available in the Wyoming Department of Transportation Component Unit Financial and Compliance Report as of September 30, 2013 and on pages 140-141 of this report. DOT's goal is to maintain 85% of its National Highway System bridges and its non-National Highway System bridges in Excellent, Good, and Fair condition (i.e. 15% or less in Poor condition). In 2013, 95.8% of all NHS bridges were rated fair or above and 93.5% of non NHS bridges were rated fair or above. DOT's policy is to maintain its National Highway System streets at an average rating of 3.25 and its non-National Highway System streets at 3.00, on a 0-5 point scale. In 2013, the National Highway System streets rated 3.54 and the non-National Highway System rated 3.23.

DOT estimated maintenance and preservation expenditures on infrastructure assets of \$422.1 million for the year ended September 30, 2013. Actual expenditures on infrastructure for maintenance and preservation were \$371.4 million, a difference of \$50.7 million. The difference is due to the size of the projects, with larger projects taking a longer period of time to complete, and projects that were let late in the prior fiscal year and work was not started until this year.

Bonded debt

The State did not issue any new debt for fiscal year 2014 either as new or as refunding of old debt.

At the end of the current fiscal year, the State of Wyoming had total bonded debt outstanding of \$28.6 million. This amount represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The State of Wyoming has a debt limitation for revenue bonds relating to capital construction in the amount of \$105 million, which is significantly in excess of the outstanding revenue bond debt.

Additional information on the State of Wyoming's long-term debt can be found in Note 8 on pages 92-107 of this report.

Economic Outlook and Condition

National Economy

According to Moody's Analytics, the global economic environment remains mixed, but the broad picture still points to an acceleration in 2015. Global GDP growth is expected to be above 3.0% in the next a couple of years compared to around 2.5% this year. The U.S. will assume a stronger locomotive role as its expansion speeds up. Improving global demand, weaker currencies, and moderate fiscal stimuli will support emerging economies. Europe's long-term prospects largely depend on policymakers' commitment to structural reforms to increase investment and productivity.

Recent economic data have been encouraging for the U.S. economy. GDP rebounded sharply from its first quarter slump which was mainly caused by the extraordinary winter weather. The underlying growth drivers remain solid and GDP appears to have accelerated from the 2.0% pace that has prevailed throughout the recovery to about 3.0 percent. Payroll employment growth rate has been the highest since 2006, and more of the new jobs are also higher paying than those created earlier in the recovery. High stock values, record low debt burdens, and rebounding house prices are supporting consumer spending. However, the labor market still has considerable slack, particularly, underemployment remains high. A large number of people were out of work for more than six months and many of them left the labor force.

(Source: Dr. Wenlin Liu, Economics and Analysis Division-*Economic Summary: 2Q2014*)

Wyoming's Economy

It is no secret that Wyoming has the least diversified economy of the 50 states. Wyoming is dependent on the revenues and the employment from the extraction industry. This revenue drives the major state revenues of mineral severance taxes, interest from the Permanent Mineral Trust Fund, mining employment drives related sales and use tax collections, a gross products tax levied on mineral production and federal mineral royalties. These revenues continue to play an ever increasing role in the funding of general operations of state government, for city, town and county government, for primary and secondary education, and for school and general capital construction.

Employment

Compared to a year ago, total employment for the state increased by 1.1 percent, or 3,290 jobs in the second quarter of 2014, a continued improvement from the previous quarter. Wyoming's unemployment rate dropped to 3.8 percent in the quarter, while in the U.S., it fell to 6.2 percent. A vast majority of industrial sectors in the state exhibited job growth during the period, with wholesale trade and the construction industries demonstrating the fastest annual increase, at 3.1 and 3.0 percent, respectively. The state's pivotal industry, mining (including oil & gas extraction) showed a slight job addition in the second quarter, which was the first year-over-year growth since the second quarter of 2012. Though natural gas spot price has been sliding since the past winter spike, it was stabilizing recently and was still higher than a year ago. Most importantly, oil drilling in the state continued to expand, and even appeared to accelerate, backed by about twice as many applications to drill as the previous year. Mainly hindered by the decline in natural gas prices in early 2012, Wyoming's economic recovery slowed down in the second half of 2012 and the first half of 2013. The mineral extraction industry lost jobs and total employment growth was weak during that period. However, the state's economy regained strength gradually starting in the third quarter of 2013, thanks to rebounding natural gas prices, expansion of oil drilling, and the strength of service providing industries.

Personal Income and Earnings

Wyoming's total personal income grew 3.6 percent in the second quarter of 2014 from the previous year. U.S. personal income also increased 4.1 percent during the same period. Personal income is the income received by all residents from all sources. It is the sum of wage & salary and proprietors' earnings; dividends, interest, and rental income; and personal transfer receipts, such as SSI (Social Security Income), Medicare and Medicaid benefits. Total earnings in the state grew 3.9 percent annually in the quarter, while dividends, interest, and rental income grew 2.9 percent. The earnings for nearly all the state's industries demonstrated increases from a year ago. The farm sector increased fastest, at 25.2 percent. The earnings for construction and manufacturing industries also grew 11.4 and 11.7 percent over the year, respectively. Only other services and the government sector experienced slight decreases from a year ago in the quarter.

Housing

The state's home price appreciation rate appears to be higher in 2014 than previous year, while it is decelerating for the national average during the same period. During the recent recession, the slump in Wyoming's real estate market was not as steep as that of the U.S. as a whole, and it also turned around faster than the national market. Due to inventory build-up and weak demand, Wyoming's home prices started to decline in the second quarter of 2008. The housing market was down further in 2009 when the price contraction of 4.6 percent in the state was the deepest since the late 1980s. Along with the national trend, home prices dropped again in 2010, but at a lower rate of 2.4 percent. While it continued to decline in the U.S., Wyoming's housing market, turned around in the third quarter of 2011, after more than two years of decline. The U.S. housing market finally turned around at the beginning of 2012 and performed strongly throughout 2013 with increases in home sales, construction, and prices. Meanwhile, Wyoming's housing market was less robust than the national market in 2013, partly due to slower population and employment growth than the previous year.

Taxable Sales

Based on sales and use tax collections, total taxable sales in the state amounted to \$5.2 billion in the second quarter of 2014, an increase of 13.5 percent from the second quarter of 2013, the third consecutive quarter of double-digit growth. Increases occurred across nearly all economic industries, with the largest growth in the mining sector which contributed 39.1 percent of the total increase for the quarter. About half of taxable sales occurred in the mining (including oil and gas extraction) and retail trade industries. The state does not impose a sales tax on the production of minerals, but rather on the supplies, equipment, and services used in mineral extraction. Due to increased energy activities driven by the strong expansion of oil exploration and the rebound of natural gas price, sales of equipment and services in the mining sector demonstrated year over year growth of 27.9 percent for the second quarter of 2014, the second fastest increase since the fourth quarter of 2010. Retail trade taxable sales grew 7.7 percent, while the leisure & hospitality industry increased 9.5 percent. For the public administration sector, taxes are primarily generated through automobile sales, and it showed 9.7 percent annual increase in the quarter. Across the state, twenty counties experienced growth in taxable sales, led by Johnson (60.7%) and Platte (52.2%). Most counties with strong growth in taxable sales were associated with increased activities in mineral extraction and exploration, such as in Northeast, Central, and Southeast regions. Southwest Wyoming showed improvement, but still lagged behind the rest of the state in the second quarter, possibly reflecting a continued slowing in natural gas exploration and production activity in the area.

Tourism

The number of recreational visitations to Yellowstone National Park reached 1,011,037 in the second quarter of 2014, up 7.3 percent from the previous year, while it increased 2.2 percent to 760,653 in Grand Teton National Park during the same period. The lodging sales in the state during the second quarter were 11.4 percent higher than a year ago. As the state's main tourism attraction area, Teton County's lodging sales experienced another notable annual increase of 9.5 percent for the quarter. Steady improvement in the national labor market and rising asset prices are good for Wyoming tourism.

Agriculture

The index of prices received by farmers for all U.S. livestock and products in the second quarter of 2014 was higher than the previous quarter and one year ago. Reduced cattle inventory from the multiyear drought, strong beef exports, and recovery in domestic demand pushed livestock prices to all-time high. Consequently, total farm earnings in the state also reached a new record, \$435 million in the second quarter, which was significantly higher than the previous quarter and prior year levels. In the last few years, livestock producers have experienced sharply higher feed costs. However, a record crop yield for 2013 has pushed prices down substantially – to the lowest level in four years recently. Lower crop prices should lead to lower feed costs and improved profitability for livestock producers, but it directly hurts crop growers.

Revenue

Investment income into the state general fund, including income from the Permanent Wyoming Mineral Trust Fund and state agency pooled income accounts, reached \$335.9 million in the second quarter of 2014, which was less than the amount recorded a year ago, but still nearly double the amount set two years ago. The huge boosts in the second quarters were due to the net realized capital gains being distributed at the end of each fiscal year, which ends on June 30. The \$226.2 million in mineral severance taxes generated in the second quarter of 2014, was lower than the previous quarter, but was 12.1 percent higher than the previous year level.

Reconciliation of the Balance Sheet to the Statement of Net Position

June 30, 2014

Fund balances—total governmental funds	\$ 17,386,873,794
Amounts reported for <i>governmental activities</i> in the Statement of Net Position are different because:	
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	877,966,106
Other assets are not available to pay for current-period expenditures and therefore are deferred in the funds.	90,625,904
Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology, and transportation to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position.	87,109,354
Some liabilities are not due and payable in the current period and therefore are not reported in the fund.	<u>(210,281,394)</u>
Net position of governmental activities	<u>\$ 18,232,293,764</u>

The notes to the financial statements are an integral part of this statement.

Reconciliation of the Statement of Revenues, Expenditures & Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2014

Net change in fund balances—total governmental funds	\$ 2,003,241,814
<p>Amounts reported for <i>governmental activities</i> in the Statement of Activities are different because:</p>	
<p>Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays of \$68,820,116 exceed the net book value on disposal of capital assets (\$3,105,733) and depreciation (\$59,885,765).</p>	5,828,618
<p>Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.</p>	22,384,036
<p>Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.</p>	2,260,000
<p>Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.</p>	8,058,725
<p>Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology, and transportation to individual funds. The net revenue (expense) of internal service funds is included in governmental activities in the Statement of Activities.</p>	<u>(15,873,290)</u>
Change in net position of governmental activities	<u>\$ 2,025,899,903</u>

The notes to the financial statements are an integral part of this statement.

Notes to the Basic Financial Statements

For the Year Ended June 30, 2014

NOTE 1 Summary of Significant Accounting Policies

A. Reporting entity

The basic financial statements include all funds of the primary government, which is the State, as well as the component units that are determined to be included in the State's financial reporting entity. The decision to include a potential component unit in the State's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria the following is a brief review of certain entities included in the State's reporting entity.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus*, entities with which the State has significant operational or financial relationships, such as boards, commissions, and authorities are considered component units. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions be reported with the balances and transactions of the State. The State has no blended component units as of June 30, 2014.

Discretely presented component units are reported in separate columns in the government-wide statements to reflect that they are legally separate from the State.

The Governor appoints the governing boards with the advice and consent of the Senate for all discretely presented component units. The State has an ability to impose its will on all discretely presented component units. Except for the Wyoming Community Development Authority and the Wyoming Lottery Corporation, all other component units would be included under the provisions of fiscal dependency due to the level of budget provided by the State.

The following organizations comprise the State's discretely presented component units:

The Wyoming Department of Transportation (DOT) administers the State's construction and maintenance programs for roads and bridges and is legally separate from the State. The Governor with the advice and consent of the Senate appoints a voting majority of the DOT's Commission and is able to remove appointed board members at will. The financial information included for DOT relates to its fiscal year ended September 30, 2013.

The Wyoming Community Development Authority (WCDA) is an independent authority that provides low interest financing for Wyoming home buyers. WCDA issues negotiable notes and bonds to fulfill its purpose. Neither the faith and credit nor taxing power of the State may be pledged for the amounts so issued. The Governor with the consent of the Senate appoints a majority of WCDA board members and the State authorizes WCDA bond issuances; thereby, WCDA is financially accountable to the State.

The Wyoming Business Council (WBC) is an independent authority that provides economic development and growth for the State. The Governor with the consent of the Senate appoints all of the directors and the State provides a material subsidy to WBC.

The University of Wyoming (University) is a public land grant research university serving as a statewide resource of higher education. The University of Wyoming is governed by a board made up of twelve members appointed by the Governor with the consent of the Senate and receives significant support from the State.

The Wyoming Pipeline Authority (WPA) is an independent authority created to plan, finance, construct, develop, acquire, maintain, and operate a pipeline system or systems within or outside the State of

Wyoming. The governing board is appointed by the Governor with the consent of the Senate. The Wyoming Pipeline Authority is dependent upon the State to finance its operating costs.

The Wyoming Infrastructure Authority (WIA) is an independent authority created to diversify and expand the State's economy through improvements in Wyoming's electric transmission infrastructure and to facilitate the consumption of Wyoming energy. The Wyoming Infrastructure Authority will participate in planning, financing, constructing, developing, acquiring, maintaining, and operating electric transmission facilities and their supporting infrastructure. The Governor with the consent of the Senate appoints the five-member board, and the State now provides funding through general fund appropriations.

The Wyoming Lottery Corporation (WLC) is an independent corporation that operates lottery games. The Governor with the consent of the Senate appoints the nine-member board. The state receives a financial benefit; therefore, the state is financially accountable for the corporation.

B. Basis of Presentation

The accompanying financial statements of the State of Wyoming have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) applicable to governmental organizations in the United States. Such principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the standard-setting body for establishing governmental accounting and financial reporting principles in the United States of America.

The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. Financial data for the Wyoming Retirement System (WRS), Wyoming Department of Transportation (DOT), University of Wyoming (University) including its component unit, the University of Wyoming Foundation (Foundation), Wyoming Community Development Authority (WCDA), Wyoming Business Council (WBC), Wyoming Pipeline Authority (WPA), Wyoming Infrastructure Authority (WIA), and the Wyoming Lottery Corporation (WLC) have been derived from reports prepared by those organizations, based on independent accounting systems maintained by them.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The **Statement of Net Position** presents the reporting entities' non-fiduciary assets and liabilities, with the difference reported as net position. Net position is allocated to the following four categories:

- **Net Investment in capital assets** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- **Restricted net position – expendable** includes resources in which the State is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.
- **Restricted net position – nonexpendable** consists of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal. Constraints may also be imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** – consists of net positions that do not meet the definition of the three preceding categories. Unrestricted net position often is designated to indicate that management does not consider them to be available for general operations. Unrestricted net positions often have constraints on resources that are imposed by management, but can be removed or modified.

The **Statement of Activities** demonstrates the degree, to which the direct expenses, of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable within a specific function or segment. The cost allocation by internal service is included in the direct expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

Restricted fund balance generally refers to whether the State could be forced by external entities to use resources within the fund for a specific purpose.

Committed fund balance generally refers to the commitment of resources by the State's highest decision making authority. For the State of Wyoming that is considered to be the Legislature, which by statute, creates a fund and authorizes the collection of certain revenues for the use of the fund. It would require formal action by the Legislature to change the commitment of resources.

Assigned fund balance refers to that portion of fund balance allocated by the persons responsible for the operation of the fund's activities and delegated the authority to assign amounts to be used for specific purposes.

Unassigned fund balance refers to that portion of a fund balance that is available for any purpose. The General Fund is the only governmental fund to have a positive unassigned fund balance.

D. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements, proprietary fund financial statements, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Revenues are classified by either program revenues or general revenues. Program revenues include 1) charges to customers or applicants for goods and services, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues consist of all revenues not considered program revenue. All taxes are considered general revenues. Certain indirect costs have been allocated to functional activities.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available, except for property taxes, if they are collected within 60-75 days of the end of the current fiscal period. Property taxes are considered available if they are collected within 60 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred, same as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Sales and use tax, mineral severance tax, federal mineral royalty tax, various other taxes and licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual accounting and have been recognized as revenues of the current fiscal period. The statutory basis for recognizing mineral severance taxes for apportionment purposes differs from the basis used to recognize revenue in the accompanying financial statements. All other revenue items are considered to be measurable and available only when cash is received by the State.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of operations.

The State uses funds and component units to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

Governmental Funds:

The State reports the following major governmental funds:

- a. General Fund is the primary operating fund of the State and accounts for all financial resources except those required to be accounted for in another fund.
- b. Foundation Program Fund accounts for federal mineral royalties, mineral severance tax, and other revenue sources which are restricted for payments to school districts. The other revenue sources include state levied 12 mill property tax, school district recapture amounts, and interest income earned on the Common School Land Fund.
- c. Common School Land Fund accounts for land donated to the State. The revenue earned by this fund is restricted for the purpose of establishing, maintaining, and supporting school facilities.
- d. Permanent Mineral Trust Fund accounts for a portion of the severance tax. The interest earned by this fund is restricted for distribution to specific funds.

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the State has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Revenue and expenses are classified as operating and non-operating. Operating revenues and expenses generally result from providing goods and services. All other revenues and expenses are reported as non-operating.

The State reports the following major enterprise fund:

- a. Workers' Compensation Insurance Fund accounts for activities of the Wyoming Workers' Compensation Insurance Fund that provides workers' compensation insurance to the government and private businesses.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units on a cost-

reimbursement basis. The Internal Service Funds include the Computer Technology Fund, Motor Vehicle Fund, Group Insurance Fund, Wyoming Surplus Property Fund, Personnel/Training Fund, and the State Self Insurance Fund.

Fiduciary Funds:

- a. Pension Trust Funds account for the assets held by WRS, as trustee, for nine retirement systems. The financial information included for WRS relates to its fiscal year ended December 31, 2013. WRS is legally separate from the State, however the State appoints a voting majority of the WRS board, sets the contribution requirements, and has a fiduciary responsibility for WRS assets.
- b. Private-Purpose Trust Fund accounts for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments (i.e., unclaimed property/escheat property).
- c. Investment Trust Fund accounts for the assets belonging to Wyoming municipalities invested by the State Treasurer (i.e., WYO-Star).
- d. Agency Funds account for assets that the State holds on behalf of others as their agent.

E. Assets, liabilities, and net position or equity

1. **Deposits and Investments.** Current statutes require all cash and investments of State agencies other than those of the University and the WRS to be pooled and invested by the State Treasurer's Office. The State Treasurer maintains different cash and investment pools for the Common School Land Fund, Permanent Mineral Trust Fund, Workers' Compensation Insurance Fund, Wyoming Tobacco Settlement Fund, the Hathaway Scholarship Trust Fund, the Higher Education Trust Fund, and one cash and investment pool for the remainder of the fund types. Earnings from the cash and investment pools are credited monthly, utilizing a formula based on the average daily balance, to the applicable accounts and funds. The majority of the funds maintained by the State are not legally allowed to earn interest. The interest earned by these funds is credited directly to the General Fund. The State reports all investments at fair value, except for investments in participating interest-earning investment contracts having a remaining maturity at the time of purchase of one year or less. Participating interest earning investment contracts having a remaining maturity at the time of purchase of one year or less are recorded at amortized cost. For the purpose of the Statement of Cash Flows the State considers all assets held in the cash and investment pool to be cash equivalents because the investments are not identifiable to specific funds and the assets can be withdrawn at any time, similar to a demand deposit account.
2. **Receivables and Payables.**
 - a. **Due to Due From.** During the course of operations numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "Due from Other Funds" or "Due to Other Funds" on the Balance Sheet. See Note 6.
 - b. **Property Taxes.** The counties in the State levy property taxes in the first half of August and submit a portion of the tax levy to the State. The tax levy is divided into two billings: the first billing is mailed in the first half of September, generally September 1; the second billing is generally mailed on March 1. The billings are considered due upon receipt by the taxpayer. The taxpayer has the option of paying the full amount on December 31. Each year property taxes are assessed as of January 1.
 - c. **Advances to other funds and component units.** Inter-fund loans receivable are reported as advances and are offset equally by a fund balance reserve account that indicates they do not constitute expendable available financial resources and therefore are not available for appropriation.
3. **Inventories and Prepays.** Inventories and prepays are accounted for using the purchases method. Inventories are reported in the proprietary funds using the lower of average cost or market. In the governmental fund types inventories are accounted for at cost or average cost on a first-in, first-out

basis. However, as inventories on hand at June 30, 2014 are significant, they have been recorded as assets in the governmental funds. Inventories are reported by the University at the lower of cost (first-in, first-out) or market, except for livestock inventory that is reported at net realizable value. The Department of Transportation's inventories are valued at average cost, less an allowance for obsolete items and charged to expenditures when consumed.

4. **Securities lending collateral.** Securities on loan for cash collateral are reported in the Statement of Net Position. Liabilities resulting from the security lending transactions are also reported. Additional disclosures describing security-lending transactions are provided in Note 3.
5. **Capital assets.** Capital assets, which include property, plant and equipment, and infrastructure assets are reported in the governmental or business-type activities columns in the government-wide financial statements (Statement of Net Position). Capital assets are stated at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are stated at their estimated fair market value on the date received. The State currently does not capitalize interest costs incurred during construction, except on business-type activities. Capital assets of the business-type activities are capitalized in the fund in which they are utilized.
 - a. **Property, plant and equipment.** The State capitalizes all buildings, land, and other capital assets that have a value or cost equal to or greater than the capitalization threshold for its asset type at the date of acquisition and has a useful life that extends beyond a single reporting period. The State's capital assets are depreciated over their useful lives using the straight-line method. Capital asset thresholds and estimated useful lives are as follows:

Asset Type	Estimated Life	Capitalization Threshold
Buildings	5-40 years	\$ 50,000
Improvements	5-25 years	50,000
Land	N/A	Capitalize All
Equipment	3-17 years	5,000
Vehicles	3-7 years	5,000
Infrastructure	40 years	1,500,000
Works of Art/Historical Treasures	N/A	Exemption
Intangible-Purchased Software	3-15 years	5,000
Intangible-Internally Generated Software	3-15 years	2,000,000
Intangible-Easements	3- Indefinite	500,000

- b. **Intangible Assets.** The State implemented GASB 51 *Accounting and Financial Reporting for Intangible Assets* effective July 1, 2009. Examples of intangible assets include software, software licenses, internally generated software, land use rights, easements, patents, and trademarks.
 - c. **Infrastructure.** Infrastructure assets can include roads, bridges, lighting systems, drainage systems, flood control systems, and rest areas. The primary government will have infrastructure in the State Parks and Cultural Resources Division and the Department of Game and Fish and may report infrastructure on a network and subsystem basis. The Department of Transportation (DOT) reports most of the infrastructure assets for the State. DOT's capitalization level for infrastructure is \$250,000. In accordance with the alternative approach to depreciating infrastructure assets permitted by GASB Statement No. 34, DOT has elected to expense all infrastructure related expenditures, except for those expenditures related to additions to or improvement of infrastructure assets, in lieu of depreciating infrastructure assets. In order to utilize the alternative system, DOT must maintain an asset management system which will assess asset condition and must maintain infrastructure assets at the condition level established by the DOT. Infrastructure acquired prior to fiscal years ending after June 30, 1980 are reported.
 - d. **Art and the Wyoming State Museum Collection.** The State has not capitalized works of art, historical treasures and artifacts contained in the collections of the Wyoming State Museum. The collection is held for public exhibition, education, or research in furtherance of public service, protected, kept unencumbered, cared for, preserved, and subject to an

organizational policy that requires the proceeds from sales of collection items to be used to maintain the existing collection.

6. **Compensated absences.** Employees of different State agencies earn vacation leave based on their number of years of service and sick leave of one day per month. Employees that are vested are allowed to accumulate up to 384 hours of vacation leave for the year ending December 31. In addition, employees are paid for one half of accumulated sick leave upon termination of employment with a maximum payment for one half ($\frac{1}{2}$) of 960 hours. The amount of vested accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a liability of the governmental funds in the governmental fund financial statements. Amounts of vested accumulated leave not expected to be liquidated with expendable available financial resources are not reported by the governmental funds in the governmental fund financial statements. All vested accumulated leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.
7. **Unearned revenue.** The State reports unearned revenue on its government-wide statements and its fund financial statements. Unavailable revenue is reported as Deferred Inflow of Resources at the fund level and entity wide level. Unearned revenue arises when resources are received by the State before it can legally claim them, such as when grant funds are received prior to the occurrence of qualified expenditures. In subsequent periods when both revenue recognition criteria are met or when the State has a legal claim to the resources, the liability for unearned revenue is removed and the revenue is recognized. Unavailable revenue arises when revenue does not meet the 'susceptibility to accrual' test, which states the revenue must be both measurable and available to finance expenditures of the current fiscal period, including property tax receivable assessed but not levied.
8. **Long-term obligations.** In the government-wide statements and proprietary fund financial statements, long-term obligations are reported as liabilities. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.
9. **Fund equity.** The State implemented Governmental Accounting Standards Board Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions in 2011. This statement created a new hierarchy for the equity section of governmental funds. This hierarchy is discussed here and in Note 12 of this report. The components of this new hierarchy include nonspendable, restricted or unrestricted (committed, assigned or unassigned).

Nonspendable represents those resources constrained by the State's constitution. Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislature (the highest decision making authority for the State by enacting legislation), such as appropriations or standalone legislation. Assigned fund balance is constrained by management responsible for the operation of a specific program and who has the authority to constrain resources for a specific purpose. The State considers restricted balances to have been spent when both restricted and unrestricted fund balance is available.
10. **Inter-fund transactions.** Inter-fund services provided and used are accounted for as revenue, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide statements. Inter-fund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities. While the effects of inter-fund activity have been eliminated, it should be noted that inter-fund services provided and used are not eliminated in the process of consolidation. See further information in Note 7.

F. Reconciliation of government-wide and fund financial statements

- a. Explanation of certain differences between the governmental fund Balance Sheet and the government-wide Statement of Net Position.

The Reconciliation of the Balance Sheet to the Statement of Net Position includes an item that explains, "Some liabilities are not due and payable in the current period and therefore are not reported in the fund." The details of this \$(210,281,394) difference are shown here:

Bonds Payable	\$ (28,650,000)
Compensated Absences	(54,812,947)
OPEB Obligation	(72,891,578)
Deferred Interest and Interest Payable	(300,992)
Capital Leases	(370,156)
LAUST Liability	(42,663,822)
Benefits Payable	(8,842,074)
Premium Bond Refunding	(1,977,462)
Deferred Charges-Bond Refunding	227,637
Net adjustment to reduce fund balance-total governmental funds to arrive at net position-governmental activities	<u>\$ (210,281,394)</u>

- b. Explanation of certain differences between the Statement of Revenue, Expenditures and Changes in Fund Balance and the government-wide Statement of Activities.

The Reconciliation of the Statement of Revenues, Expenditures and Changes in the Fund Balance to the Statement of Activities includes an item that explains, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds". The details of this \$8,058,725 difference are shown here:

Compensated Absences	\$ 1,700,416
Deferred Bond Interest Payable	1,098,385
Premium Bond Refunding	(1,977,462)
Deferred Charges-Bond Refunding	227,637
Benefits Payable	(591,048)
OPEB Obligation	(6,930,961)
Laust Liability	14,565,443
Capital Leases	(33,685)
Net adjustment to decrease net changes in fund balances-total governmental funds to arrive at change in net position of governmental activities	<u>\$ 8,058,725</u>

G. Beginning Fund Balance/Net Position Restatements

- a. General Fund beginning fund balance was restated by \$122,423,067. This was due to appropriations recorded as due to component unit at June 30, 2013 in error. One appropriation of \$55,000,000 was restricted by legislation to be held by the State Treasurer's Office until released by the legislature which had not occurred at June 30, 2013. Some appropriations for the Wyoming Business Council were determined to have additional eligibility requirements for the funds to be available. There were \$67,423,067 in appropriations of this type recorded at June 30, 2013 that had not met the additional eligibility requirements.

The Foundation Program Fund and the Common School Land Fund beginning fund balances were restated by \$12,417,533 and net to zero. This restatement was due to the movement of the Common School Land Income Sub-Fund from the Common School Land Fund to the Foundation Program Fund.

Based upon the correction of these errors, the General Fund beginning fund balance restatement has been made to the Statement of Revenues, Expenditures and Changes in Fund Balance.

The Statement of Activities reflects a restatement of beginning Net Position:

The governmental activities beginning net assets have been restated by a net increase of \$122,423,067.

University of Wyoming – Prior Period Adjustment

At June 30, 2013, the University reported an asset of \$772,319 related to capitalized bond issuance costs. The total debt issuance cost of \$772,319 has been reported as a restatement of beginning net position for the year ended June 30, 2014.

NOTE 2 Funds and Component Units

The following table lists all of the funds and component units reflected in this financial report:

PRIMARY GOVERNMENT:

NOTE 3 Deposits and Investments

GASB Statement No. 40 *Deposit and Investment Risk Disclosures-An Amendment of GASB Statement No. 3*, addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB 40 also requires disclosure of formal policies related to deposits and investment risks.

In addition, GASB Statement No. 14, *The Financial Reporting Entity*, requires separate deposit and investment risk information to be provided for each of the State's component units. This note includes separate deposit and investment disclosure information for the University of Wyoming, Wyoming Retirement System, Wyoming Business Council, Wyoming Community Development Authority, Wyoming Pipeline Authority, Wyoming Infrastructure Authority and the Wyoming Lottery Corporation. The University of Wyoming, Wyoming Retirement System, and Wyoming Department of Transportation, however, have cash and investments, some of which are held in the State cash and investment pool at June 30, 2014. These investments are included in the respective risk disclosures for the primary government.

MASTER INVESTMENT POLICY

The State Loan and Investment Board (SLIB) consists of the five elected officials – the Governor, Secretary of State, State Auditor, State Treasurer, and State Superintendent of Public Instruction. The SLIB is responsible for fiduciary oversight of the state's non-pension investment portfolio. The SLIB establishes the Master Investment Policy and Sub-Policies (Policy). The SLIB reviews the Policy at least annually by law and updates the Policy throughout the year as needed.

The Policy sets forth roles and responsibilities, acceptable transactions, and performance expectations of the state portfolio. The Policy is aligned with state statutes governing state investments.

Those managing the State's investment program are governed in part by the prudent investor rule contained in the State's Uniform Prudent Investor Advisor Act. This rule states "Trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances of the trust."

The Policy restates the prudent investor principle that "...investments or groups of investments shall not be evaluated in isolation but in the context of the entire investment portfolio and as part of an overall investment strategy of the trust or fund from which the investment is derived, consistent with the policies for such trust or fund established ... by the Board."

The Policy also allows a trustee to delegate investment and management functions that a prudent trustee of comparable skills could properly delegate under the circumstances. The Policy further states the trustee shall exercise reasonable care, skill and caution in:

- a) Selecting an agent;
- b) Establishing the scope and terms of the delegation, consistent with the purposes and terms of the trust; and
- c) Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the terms of the delegation.

It is the stated policy of the Board "to invest public funds of the State of Wyoming (the "State") in a manner that strives for maximum safety, provides adequate liquidity to meet all operating requirements, and achieves the highest possible investment return consistent with the primary objectives of safety and liquidity."

The current Wyoming State portfolio consists of the Permanent Mineral Trust Fund, the Permanent Land Fund, the Common School Permanent Land Fund, the University Permanent Land Fund, the Hathaway Scholarship Fund, the Higher Education Endowment Fund, the Workers' Compensation Fund, the Tobacco Settlement Trust Fund, and the State Agency Pool. The State of Wyoming also invests the Wyoming State Treasurer's Asset Reserve (WYO-STAR), which is Wyoming's local government investment pool. All available funds are invested with the following objectives and priorities:

- a) Safety of principal. Investments are undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio;
- b) Liquidity requirements of anticipated and unanticipated expenditures;

- c) Yield;
- d) Recognition of differing objectives and needs of various fund portfolios;
- e) Conformance with State law and other pertinent legal restrictions;
- f) Maximization of the total rate of return on investment consistent with the foregoing objectives;
- g) Diversification by asset type, security and investment manager in order to smooth the volatility of quarterly returns.

These objectives and priorities apply to the funds as a whole. Specific objectives and priorities are further delineated in each fund's sub-policy. Specific objectives and priorities for individual asset managers are delineated by mandate.

At June 30, 2014, the State had external investment managers for equities, fixed income, real estate, private equity, absolute return, overlay, and cash management strategies.

During fiscal year 2014, the State continued to maintain diversification through asset allocation. State statutes allow monies in the permanent funds to be invested in common stocks not to exceed fifty-five percent (55%). The following schedule reflects Fiscal Year 2014 weightings:

<u>Permanent Funds</u>	<u>Fixed Income and cash equivalents</u>	<u>Equities</u>
Permanent Mineral Trust Fund	45.5%	54.5%
Common School Land Fund	48.2%	51.8%
Permanent Lands Fund Pool	48.3%	51.7%
University Permanent Land Fund Pool	47.5%	52.5%
Hathaway Scholarship Endowment Fund	56.6%	43.4%
Higher Education Endowment Fund	55.8%	44.2%

State law allows the Workers' Compensation Fund an equity allocation of up to 45 percent. The actual percent is set by the direction of the State Department of Workforce Services; it is currently 30 percent.

<u>Enterprise Fund</u>	<u>Fixed Income, cash and cash equivalents</u>	<u>Equities</u>
Workers' Compensation Fund	70.8%	29.2%

The state also invests the following:

	<u>Fixed Income and cash equivalents</u>
State Agency Pool	100%
Tobacco Settlement Trust Fund	100%

The long term (10 plus years) total return expectation is just under 6% for a portfolio with a 50/50 mix of fixed income, cash, and equity. The long term total return expectation for portfolios containing just fixed income and cash is 4%.

The State Treasurer adopted an interpretative policy effective July 1, 2008, for accounting purposes whereby earnings of interest and dividends would be treated as ordinary income and distributed accordingly. The policy also provides that capital losses will be made good from future capital gains and not ordinary income.

For financial reporting purposes, the State Treasurer's policy of deferring the distribution of realized losses is reversed and has no financial impact. Accounting adjustments are made to the State's financial statements such that recognized losses are distributed as if they had been distributed as part of investment income.

Risk exposures for the different funds within the managed fund classifications including the State's managed fiduciary Unclaimed Property Fund are not significantly different than the deposit and investment risks of the primary government. As each risk element is presented, disclosure will specify whether the Policy formally provides for management of the particular risk being discussed.

A. Custodial Credit Risk-Deposits

Deposits that have exposure to custodial credit risk are those which are not covered by depository insurance and are either uncollateralized, collateralized with securities held by the pledging financial institution, or held by pledging financial institution but not in the depositor-government's name.

STATE OF WYOMING

Wyoming Statutes require any deposit not so insured shall be secured by depository bond or approved collateral securities as required by law.

As of June 30, 2014, the State had no deposits exposed to custodial credit risk

Custodial Credit Risk-Agency Funds

Deposits not collateralized and not so required by state law include those funds held on behalf of others. At year-end, \$7.3 million was held in demand and savings bank accounts and \$32 million was held in bank certificates of deposit. These funds are reported in the agency funds.

UNIVERSITY OF WYOMING—Investment Policy

University investment policy specifies that internally invested funds may be invested in a combination of fixed-income, minimal risk instruments, and money market funds. Investment goals for internally invested funds are designed to achieve a return to provide income, protect assets from risk, and maintain liquidity to meet spending requirements. Investments are limited to collateralized bank certificates of deposit, money market funds, or federally guaranteed or insured securities that mature in less than one year. Custodial services are utilized to safeguard the assets and provide monthly reports.

It is the policy of the University to invest endowment funds under a memorandum of agreement with the University of Wyoming Foundation. Investment goals for these funds are designed to achieve donor objectives, protect assets from excessive risk, provide program income and growth of the endowment, and preserve the purchasing power of both the principal and the income. The Foundation Board of Directors reviews and establishes limits on market segment investment concentration, maximum investment in any company, and maximum share of portfolio per manager.

The University oversees the investment of funds for the Advance Payment of Higher Education Costs (APHEC) program. The investment goal for APHEC is the same as for the endowments.

The University also has investments managed by the State of Wyoming Treasurer's Office. These investments are managed under the State of Wyoming Master Investment Policy.

The University has funds on deposit with the Wyoming State Treasurer's pooled investments.

UNIVERSITY OF WYOMING—Custodial Credit Risk-Deposits

At June 30, 2014, the carrying amount of the University's demand deposits in financial institutions was \$34,102,578 and the bank balance was \$35,925,466. All deposits were held by a qualified depository as outlined in the State statutes.

CUSTODIAL CREDIT RISK

At June 30, 2014, the University had \$17,653,777 on deposit with the Foundation. Detailed information on the Foundation's pooled cash and investments is available from the Foundation.

At June 30, 2014, the University had \$1,125,095 restricted for the Reclamation Ecology Endowment.

WYOMING RETIREMENT SYSTEM, WYOMING BUSINESS COUNCIL, WYOMING COMMUNITY DEVELOPMENT AUTHORITY, WYOMING PIPELINE AUTHORITY, WYOMING INFRASTRUCTURE AUTHORITY, WYOMING LOTTERY CORPORATION, AND WYOMING DEPARTMENT OF TRANSPORTATION--Custodial credit risk

As of December 31, 2013, for the Wyoming Retirement System, September 30, 2013, for Wyoming Department of Transportation, and June 30, 2014, for the other component units; none had deposits exposed to custodial credit risk.

B. Investment Risk Categories

GASB Statement 40 requires presentation to discuss those risks associated with investment activity including credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk.

Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment. The minimum credit ratings for investment debt securities as provided in the State's Master Investment Policy for fixed income managers are A1 or equivalent for commercial paper, BBB- for long-term corporate debt, BBB- for mortgage fixed income securities, BBB- for Mortgage-backed securities, and BBB- for Asset-backed securities. Either Standard and Poor's, or Fitch or Moody's ratings are acceptable. If the issue is rated by all three rating agencies, the middle rating will apply. If the issue is rated by two rating agencies, the lower rating will apply. N/R indicates that the investment is not rated. Legislatively authorized investments represent those investments the Treasurer has been directed to invest in by the Legislature and/or approved by the Legislature.

Custodial credit risk is for those investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent, but not in the government's name.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for the State. The information presented is based on concentrations of investments in the State's portfolio.

Interest rate risk is the exposure that the fair value of the State's fixed-income investments fluctuates in response to changes in market interest rates. An element of interest rate risk are those securities which are 'highly sensitive' to changes in interest rates. These highly sensitive securities are separately disclosed.

Foreign currency risk is when changes in foreign exchange rates adversely affect the fair value of an investment. This risk disclosure applies only to investments that are denominated in foreign currencies. The State's Master Investment Policy does not provide a policy for foreign currency diversification.

STATE OF WYOMING

The State's investments at June 30, 2014 are presented here:

STATE OF WYOMING SCHEDULE OF INVESTMENTS JUNE 30, 2014		
	Fair Values	Percent of Total

Total not included on Basic Financial Statements	345,057,265
Total Investments	\$ 19,544,388,713

Custodial Credit Risk

The State does not have any custodial credit risk exposure.

Concentration of Credit Risk

The Wyoming State Treasurer's fixed income portfolio holds \$3,286,843,444 or 26.24% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB), and Government National Mortgage Association (GNMA). These agency securities hold a rating of AA+. While the State's Master Investment Policy sets limits for concentration of investments, it provides that U.S. agency bonds are eligible without limitation.

Credit Risk

The credit risk disclosures for the State's fixed income portion of its investments, not including derivatives, as of June 30, 2014, are presented on the following page:

Interest Rate Risk

The interest rate disclosure for the State's fixed income portion of its investments, excluding money markets but including derivatives, is presented here. The State has chosen the segmented time distribution method for its interest rate disclosure. This method most closely matches how the State manages interest rate risk.

The State has no formal policy with respect to managing interest rate risk within its Master Investment Policy, however, the Policy does provide guidance relative to safety, liquidity, and yield using the following criteria:

- Funds are analyzed by asset class including cash to determine if securities need to be purchased or sold.
- Future needs are determined and current positions are reviewed.
- Economic, market, and interest rate assumptions are considered.
- Securities are selected based on market value, price, and availability.
- Trades are executed to raise cash, to shift maturity, to change asset mix, to enhance yield, and to improve quality.

Maturity assumptions have been made using industry standards and are displayed in the Interest Rate Risk table presented here:

The foreign currency disclosure reports futures contracts, swaps, and forward currency contracts at unrealized gain or loss (URGL) and not at market value (MV) in accordance with industry best practices.

Derivatives

The State of Wyoming permits the use of derivatives by its international equity and external fixed income managers. Examples of derivative instruments permitted, but not limited to, are foreign exchange contracts, financial futures, forwards, options, swaps and swaptions. All derivative instruments utilized are considered "Investment derivative instruments" as defined in GASB 53 "Accounting and Financial Reporting for Derivative Instruments".

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2014, classified by type, and the changes in fair value of such derivative instruments, which are included in investment income, for the year then ended as reported in the 2014 financial statements are as follows:

STATE OF WYOMING

Derivatives—Risks

Credit, interest rate and foreign currency risks affecting derivatives and other applicable investments are addressed in previous sections of Note 3. These risks, applicable to other fixed income and foreign investments, are not substantially different from the same risks affecting applicable derivative instruments.

In addition to the principal risks noted above, Forward Foreign Currencies, Credit Default Swaps, and Interest Rate Swaps are also subject to counterparty risk. In general, counterparty risk is the risk of loss of an amount expected to be delivered under an agreement in the event of the default or bankruptcy of the counterparty. Generally, counterparty risk is controlled through dealing with a number of different counterparties reasonably deemed to be creditworthy by the investment manager.

Derivatives—Counterparty Risk

Counterparty risk with swaps is limited by execution under standardized International Swap and Derivatives Association Agreements. These contracts allow for the mutual exchange of collateral should an overall unsecured market value exceed a certain threshold (e.g., \$250,000). Counterparties which are exchanges or market places are not rated as there is little to no risk associated with them.

STATE OF WYOMING SCHEDULE OF COUNTERPARTY CREDIT RISK June 30, 2014		
Derivative instrument		Counterparty Credit Rating
Futures		
	BOND INDEX FUTURES	A-
Forward Currency Contracts		
	CURRENCY	AA
	CURRENCY	AA-
	CURRENCY	A+
	CURRENCY	A
	CURRENCY	A-

Derivatives—Contingency

Derivative instruments often contain credit-risk-related contingent features that could result in an immediate payment to the counterparty. For example, a material adverse change clause could provide the counterparty with the right to early terminate the derivative agreement. Alternatively, it could provide a basis for renegotiating the agreement if specific events occur, such as a downgrade of the entity's credit rating below investment grade. These provisions may include an obligation to post additional collateral in instances where the credit-risk contingent feature is triggered or the counterparty is provided the right to terminate the agreement early.

Contingent features that could result in the exercise of an early termination right against the counterparty include a credit ratings downgrade of the counterparty below a specified threshold, commonly A-/A3. Additionally, the counterparty may exercise an early termination right against the portfolio in the event assets under management of the portfolio decline by more than 30% in a year or 15% in a month. It is important to note that these contingent features are not compulsory; they are voluntary. Based on discussions with its investment managers, the State has determined the fair value of derivatives with contingent features held in the State's investment portfolio is not significant.

SECURITIES LENDING –PRIMARY GOVERNMENT

State Statutes permit the State Treasurer to lend its securities, through the use of agents, to broker-dealers and other entities with simultaneous agreement to return the collateral for the same securities in the future. The State's agents lend securities, of the type on loan at year-end, for collateral in the form of cash or other securities at 100 percent of value for US Treasury Strips and US Treasury Bills, and 102-105 percent of value for other securities. The State, through its agents, measures the fair value of the securities loaned against the fair value of the collateral on a daily basis. Additional collateral is obtained as necessary to ensure such transactions are adequately collateralized. Securities lent for securities collateral are classified according to the category of the collateral. At year-end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the

borrowers owe the State. The contract with the State's agent requires the agent to indemnify the State if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the State for income distributions by the securities' issuers while the securities are on loan.

The following represents the balances relating to the securities lending transactions at the financial statement date:

Securities Lent	Fair Value of Underlying Securities	Cash Collateral Received/ Securities Collateral Value
Lent for Cash Collateral		
U. S. Governments	\$ 1,232,140,528	\$ 1,261,451,664
U. S. Government Agencies	174,191,152	178,163,110
U. S. Corporate Securities	225,397,936	232,819,307
U. S. Equities	812,135,943	830,796,195
Non U. S. Governments	2,250,477	2,314,575
Non U. S. Corporate Securities	9,636,060	10,172,280
Non U. S. Equities	85,737,841	90,383,116
Total Lent for Cash Collateral	2,541,489,937	2,606,100,247
Lent for Securities Collateral		
U. S. Governments	562,894,091	577,088,787
U. S. Government Agencies	3,386,126	3,511,329
U. S. Corporate Securities	34,917,431	35,945,913
U. S. Equities	614,296	661,024
Non U. S. Equities	66,892	71,379
Total Lent for Bulk (Securities) Lending	601,878,836	617,278,432
Total Securities Lending	\$ 3,143,368,773	\$ 3,223,378,679

Cash collateral is invested in the lending agent's investment pool, which at year-end has a weighted-average maturity of 60 days. As of June 30, 2014, the State's sole security lending agent uses the securities final maturity to calculate the weighted-average maturity. The relationship between the maturities of the investment pool and the State's loans is affected by the maturities of securities loans made by other entities that use the agent's pool, which the State cannot determine. The State cannot pledge or sell collateral securities received unless the borrower defaults. At June 30, 2014, the cash collateral of \$2,606,100,247 was recorded as cash and investments with trustee and as a liability under security lending. The difference between the amount shown here and the amount reflected in the Statement of Net Position of \$2,572,942,286 for the primary government is due to the amounts allocated to component units and private purpose trust fund.

Credit Risk

The credit risk disclosures for the State's securities lending program are presented here:

STATE OF WYOMING

GRAND TOTAL		\$ 2,606,381,491	100.00%	

Custodial Credit Risk

For the State's securities lending program, the State has lent its securities for other securities. These securities have custodial credit risk, and at June 30, 2014 these securities had an amortized cost of \$610,732,855. By investment type there were \$575,507,329 in U.S. Government securities, \$34,563,516 in corporate securities, and \$662,010 in equities.

Concentration of Credit Risk

The State's securities lending program does not have any concentration of credit risk exposure.

Interest Rate Risk

The State has chosen the segmented time distribution method for its interest rate disclosure. This method most closely matches how the State manages interest rate risk. There is minimal interest rate risk due to the average life of the security lending portfolio. The maturity assumptions or average life of the security lending portfolio are displayed in the following table:

STATE OF WYOMING				
INTEREST RATE ORGANIZED BY INVESTMENT TYPE USING SEGMENTED TIME DISTRIBUTION				
SECURITY LENDING AS OF JUNE 30, 2014				
CATEGORY		MARKET		LESS THAN 1 YEAR
CERTIFICATE OF DEPOSIT	\$	530,388,274	\$	530,388,274
REPURCHASE AGREEMENTS		300,090,234		300,090,234
TIME DEPOSIT		462,000,000		462,000,000
YANKEE C/D		914,041,052		914,041,052
TOTAL	\$	2,206,519,560	\$	2,206,519,560

Foreign Currency Risk

The State had no foreign currency exposure in its securities lending program as of June 30, 2014.

UNIVERSITY OF WYOMING

As of June 30, 2014, the University had investments with weighted-average maturities as shown in the following table:

Investment Type	Cost or Amortized Cost	Fair Value	Weighted Average Maturity In Years
US Government Sponsored			
Enterprise Discount Notes	\$ 156,079,893	\$ 156,128,233	0.50
Money Market	978,732	978,732	n/a
Other Investments	975	975	n/a
Mutual Funds	644,525	602,690	n/a
Total Investments	<u>\$ 157,704,125</u>	<u>\$ 157,710,630</u>	

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University's policy for managing its exposure to fair value loss arising from interest rate changes on internally invested funds is to limit the maturity of all securities to less than one year.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The table below shows quality ratings of investments that are rated.

Investment Type	Fair Value	Quality Rating AAA
US Government Sponsored Enterprise Discount Notes	\$ 156,128,233	\$ 156,128,233
Total Investments	<u>\$ 156,128,233</u>	<u>\$ 156,128,233</u>

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the University will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The University does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the University's name.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. Concentration of risk is not addressed in the internal investment policy. At June 30, 2014, the University held securities from the following issuers in excess of 5% of the total portfolio: Farmer Mac 28.29%, Federal Home Loan Bank 33.29%, Federal Home Loan Mortgage Corporation 28.17%, Federal National Mortgage Corporation 7.68%, and U.S. Treasury 1.28%.

UNIVERSITY OF WYOMING—FOUNDATION

University owned endowment funds are held by the Foundation for investment purposes. The investment committee, following the Prudent Expert Rule, carries out the Foundation's investment policy. The Prudent Expert Rule states that a fiduciary shall manage the portfolio "with the care, skill, prudence and diligence, under circumstances then prevailing, and that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and like aims." External managers have been hired to invest in the following asset classes: equities, fixed income, absolute return, private equity/venture capital, hedged equity, and real estate. A long-term target asset allocation strategy has been implemented to achieve required returns while minimizing risk. All investment vehicles selected must be in compliance with the laws of the State of Wyoming, Internal Revenue Code prohibitions on self-dealing or vehicles that would jeopardize the carrying out of the exempt purpose of the Foundation and restrictions on Unrelated Business Taxable Income.

The University and Foundation have invested in alternative investments defined as hedge funds, private equity, venture capital and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2014, the alternative investments held by the Foundation were \$95,609,235.

As of June 30, 2014, the University of Wyoming investments held by the Foundation, primarily in mutual funds, had weighted average maturities, where applicable, as shown in the following tables:

Investment Type	Historical Cost	Fair Value	Weighted Average Maturity in Years
Cash Funds	\$ 12,122,426	\$ 12,122,426	N/A
Real Assets	9,280,718	11,029,153	N/A
Private Equity	25,505,981	30,311,167	N/A
Absolute Return	33,033,711	39,257,078	N/A
Fixed Income	8,299,156	9,862,671	4.64
Hedged Equity	22,474,240	26,708,263	N/A
International Equity	16,330,829	19,407,467	N/A
Domestic Equity	25,238,281	29,993,032	N/A
Liquidity	327,126	388,754	N/A
	<u>\$ 152,612,468</u>	<u>\$ 179,080,011</u>	

Interest Rate Risk

The Foundation has no formal policy addressing interest rate risk.

Credit Risk

The high yield and fixed income bond mutual fund investments are not rated.

Custodial Credit Risk

The Foundation does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the Foundation's name.

Concentration of Credit Risk

The Foundation's investment policy limits concentrations as follows:

1. The initial investment in any one issuer should not exceed 10% of a manager's portfolio (with the exception of U.S. Government securities);
2. The investment with any one issuer should not exceed 15% of a manager's portfolio (with the exception of U.S. Government securities);
3. No purchases of securities of the portfolio manager's organization or of any firm with controlling interest in said organization are to be made.

At June 30, 2014, there were no single issuer investments that exceeded 7% of the total holdings of the Foundation.

The summarized investments of the Foundation at June 30, 2014, are as follows:

Investment Type	Carrying Amount	Market Value
Level 1:		
Money market funds	\$ 36,764,219	\$ 36,764,219
Corporate stocks	55,953,023	61,524,113
Corporate bonds notes	97,770,994	97,430,149
Government obligations	166,694	166,914
Other investments	289,361	314,438
	<u>\$ 190,944,291</u>	<u>\$ 196,199,833</u>
Level 2:		
Real estate	\$ 3,336,000	\$ 3,355,473
Riverbend Ranch	9,120,000	8,208,000
Y Cross Ranch	4,275,397	4,275,397
International equity	17,419,796	25,626,889
Absolute return hedge funds	24,132,735	37,857,977
Long/short hedge funds	29,470,990	43,740,636
	<u>\$ 87,754,918</u>	<u>\$ 123,064,372</u>
Level 3:		
Insurance	\$ 158,891	\$ 158,891
Other investments	8,803	8,805
Liquidating	478,197	125,739
Absolute return hedge funds	45,856,105	85,124,369
Private equity funds	38,787,101	70,306,116
Non-pool real estate and energy funds	231,270	231,270
Real Estate and energy funds	16,013,145	25,303,119
Long/short hedge funds	13,021,526	17,533,544
	<u>\$ 114,555,038</u>	<u>\$ 198,791,853</u>
Combined total	<u>\$ 393,254,247</u>	<u>\$ 518,056,058</u>

WYOMING RETIREMENT SYSTEM

The System's Board has been authorized by the Wyoming Legislature pursuant to State Statutes, to act on behalf of the plan membership in investing and managing monies in the retirement account and in doing so shall exercise the judgment and care that a prudent investor would, in light of the purposes, terms, distribution requirements, and all other circumstances surrounding the monies in the retirement account, including risk and return objectives established by the Board which are reasonably suitable to the purpose of the Wyoming Retirement System. The Board shall evaluate and select target asset classes to enhance returns or reduce risk in the total portfolio and has delegated to staff the responsibility to select strategic asset classes and investment managers.

The following table shows the System's defined benefit plan investments by type as of December 31, 2013:

WYOMING RETIREMENT SYSTEM	
SCHEDULE OF INVESTMENTS BY INVESTMENT TYPE	
AS OF DECEMBER 31, 2013	
Equities-U.S.	\$ 1,750,262,194
Equities-International	2,212,679,425
Fixed Income	1,981,112,233
Cash-Equivalents	241,156,050
Other	720,394,867
Alternative Investments	630,441,461
Total Investments	\$ 7,536,046,230

Credit Risk-Debt Securities

Fixed income grade credits carry an equivalent of a Standard & Poor's rating of A or better. Managers of accounts holding publicly traded non-government debt should select and manage them so as to assure an appropriate balance in maturity, quality, marketability, and adequate diversification with respect to industry and issues.

High yield investments are defined by the System as those debt securities, which carry a Standard & Poor's quality rating of BB or lower. Fund managers who manage these investments should structure a well-diversified portfolio with respect to rating, maturity, duration, yield, industry, and issuer with the intent of minimizing the risk of losses in any single security.

The distribution of quality rating of debt securities in the System's investment portfolio at fair value as of December 31, 2013, is as follows:

WYOMING RETIREMENT SYSTEM	
CREDIT QUALITY FOR SECURITIES WITH CREDIT EXPOSURE	
AS OF DECEMBER 31, 2013	
Quality Rating:	
AAA	\$ 596,226,991
AA	345,934,203
A	264,432,768
BBB	344,077,289
BB	150,041,589
B	179,164,878
Below B	101,234,515
Total Credit Risk Debt Securities	\$ 1,981,112,233

Custodial Credit Risk

Custodial credit risk for deposits of the defined benefit plans is the risk that in the event of a bank failure the Systems' and Plans' deposits may not be returned to them. Deposits subject to this risk are those other than the \$10,240,284 of deposits held by the State Treasurer. These deposits totaling \$241,156,050 are held by the System's primary custodian and are collateralized by commercial paper, repurchase agreements, and money market mutual funds held by the primary custodian or its agents in accounts in the name of the Wyoming Retirement System.

Deposits are presented in the basic financial statements at cost plus accrued interest which is also the market or fair value. At December 31, 2013, the carrying amount of all deposits and the corresponding bank balance totaled approximately \$251 million.

Investment securities within the defined benefit plans are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the System and are held by either the counterparty or the counterparty's trust department or agent, but not in the System's name. Consistent with the System's investment policy, all investments are held by the System's primary custodian and registered in the System's name except for approximately \$268.3 million in real estate holdings.

The System does not have a formal deposit or investment policy for custodial credit risk.

Concentration of Credit Risk

The System expects the domestic investment managers to maintain diversified portfolios by sector and by issuer using the following guidelines in accordance with the System's investment policies.

The policy of the Board is to discourage equity investment managers from holding positions in a single issue whose market value exceeds 5% of the market value of the portfolio. However, exceptions can be made if this percentage of the overall portfolio is exceeded as a consequence of long held positions whose value has grown as a consequence of their strong returns. At December 31, 2013, the System did not hold any single investment with a market value of greater than 5% of its portfolio. The board does not have any formal policy relating to any specific investment related risk.

The Board does not authorize the use of derivatives as speculative instruments or in a leveraged manner such that the risk of loss from a particular position would be materially larger than if actual securities were utilized. Derivatives for the purpose of equitizing cash in a non-leveraged context are acceptable with specific Board authorization.

The purpose of real estate investments is to provide counter cyclical returns, current income, and inflation protection. Funds considered will be comprised primarily of highly-leased properties with reasonable income components. The real estate portfolio, in aggregate, shall be diversified by property type, property size, geographic region, and economic sector exposure. Leverage shall be used sparingly.

Interest Rate Risk

The System is also exposed to investment fair value loss arising from increased interest rates. Duration is a measure of the sensitivity of a debt security's value to rate changes. It is calculated using the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price. More specifically, it is the approximate percentage change in value for a 100 basis point change in rates. The System's investment policy guidelines require that the investment grade debt securities portfolio be maintained with weighted-average portfolio duration of no longer than ten years. No specific investment guidelines exist for other debt securities subject to interest rate risk not included in the investment grade portfolio.

At December 31, 2013, the following table shows investments by investment type, amount, and the effective weighted duration:

WYOMING RETIREMENT SYSTEM		
INTEREST RATE RISK ORGANIZED BY INVESTMENT TYPE USING DURATION METHOD		
AS OF DECEMBER 31, 2013		
Investment Type	Amount	Effective Weighted Duration
Government Securities	\$ 871,887,494	4.07
Asset Backed	22,386,568	1.39
CMO/REMIC	6,537,670	0.01
Commercial Mortgage Backed	56,263,587	1.04
Mortgage Backed Securities	189,196,218	0.44
Corporate Bonds	714,190,960	2.54
Other	120,649,736	0.26
Total Debt Securities	\$ 1,981,112,233	2.81

Foreign Currency Risk

The System also expects its International Security Investment Managers to maintain diversified portfolios by currency denomination; however, no formal policy limits have been established. At December 31, 2013, the System's exposure to foreign currency risk for its short-term and equity securities is as follows:

	International Manager Cash	International Foreign Equities	International Index Equity	International Real Return
Australian Dollar	\$ 1,580,018	\$ 124,682,162	\$ -	\$ -

At December 31, 2013, the System had no debt securities denominated in a foreign currency.

Derivatives

The System permits the use of derivatives by its international equity and external fixed income managers. Examples of derivative instruments permitted, but not limited to, are foreign exchange contracts, financial futures, forwards, options, swaps, and swaptions. All derivative instruments utilized are considered "Investment derivative instruments" as defined in GASB 53 "Accounting and Financial Reporting for Derivative Instruments".

The fair value balances and notional amounts of derivative instruments outstanding at December 31, 2013, classified by instrument in fair value are as follows:

Wyoming Retirement System Derivatives Instruments Disclosure December 31, 2013

Derivative Risks

Credit, interest rate, and foreign currency risks affecting derivatives and other applicable investments are addressed in previous sections of Note 3. These risks, applicable to other fixed income and foreign investments, are not substantially different from the same risks affecting applicable derivative instruments.

In addition to the principal risks noted above, Forward Foreign Currencies, Credit Default Swaps, and Interest Rate Swaps are also subject to counterparty risk. In general, counterparty risk is the risk of loss of an amount expected to be delivered under an agreement in the event of the default or bankruptcy of the counterparty. Generally, counterparty risk is controlled through dealing with a number of different counterparties reasonably deemed to be creditworthy by the investment manager.

Derivative - Contingency

Derivative instruments often contain credit-risk-related contingent features that could result in an immediate payment to the counterparty. For example, a material adverse change clause could provide the counterparty with the right to early terminate the derivative agreement. Alternatively, it could provide a basis for renegotiating the agreement if specific events occur, such as a downgrade of the entity's credit rating below investment grade. These provisions may include an obligation to post additional collateral in instances where the credit-risk contingent feature is triggered or the counterparty is provided the right to terminate the agreement early.

Contingent features that could result in an immediate payment from the counterparty include the event of a downgrade of the counterparty below a specified rating, commonly A-/A3. Additionally, the counterparty can request immediate payment in the event assets under management of the portfolio falls by more than 30% in a year or 15% in a month. It is important to note that these contingent features are not compulsory, rather they are voluntary.

Deferred Compensation (457) Plan Cash and Investments

The cash and investments held within the 457 Plan are comprised of the aggregate holdings of the participant's accounts that are invested in different mutual fund type investment options and cash held on deposit with the State collected from participants as fees for the purposes of plan administration. Plan participants determine the holdings of their individual participant accounts; therefore, the exposure of each participant to the investment risks discussed above is determined by that individual's risk tolerance. Additionally, the risks of the investment portfolios associated with each of the investment options are determined by the mutual fund manager and may vary depending on their risk tolerances and performance objectives.

Limited Partnerships

The system has invested in limited partnerships. As of December 31, 2013, the market value of these investments was \$1,548,504,101. The limited partnerships invest in a variety of investments.

SECURITIES LENDING-WYOMING RETIREMENT SYSTEM

Under the authority of the governing statutes and in accordance with policies set by the Board of Trustees, the System lends its securities to broker-dealers with a simultaneous agreement to return the collateral for the securities in the future. The System's custodian is authorized to lend available securities to authorized broker-dealers subject to the receipt of acceptable collateral. The System lends securities such as common stock, U.S. Treasury, and corporate bonds and receives collateral in the form of either cash or other securities similar to the type on loan. Borrowers are required to provide collateral amounts of 102% of the market value of loaned U.S. securities plus accrued interest and 105% of the market value of loaned non-U.S. securities plus accrued interest. The System cannot pledge or sell collateral securities received until and unless a borrower defaults. Securities held as collateral at year-end are not subject to the preceding disclosures of custodial credit risk as they are held in a collateral investment pool. At year-end, the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers exceed the amounts the borrowers owe the System. Contracts with the lending agents require them to indemnify the System if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the System for income distributions by the securities' issuers while the securities are on loan. Net securities lending income during the year ended December 31, 2013 was \$4,225,161.

Securities lent as of December 31, 2013, with a market value of \$834,281,090 and a collateral value at a rate of 102% and/or 105%, as appropriate, for a total market value of \$855,714,035 could be terminated on demand by either the System or the borrower(s). There is no direct match of the maturities of the collateral investments with the maturities of the securities loaned.

WYOMING COMMUNITY DEVELOPMENT AUTHORITY

The WCDA trust indentures and State statutes authorize the types of investments in which WCDA invests. Among these authorized investments are certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities of the U.S. Government, mortgage-backed securities, guaranteed investment contracts, mutual funds, and repurchase agreements with banks with the underlying securities being obligations of the U.S. Treasury, or agencies and instrumentalities of the U.S. Government. The investments are carried at fair value.

The components of the Authority's investment portfolio as of June 30, 2014, are as follows:

Investments	
Housing Revenue Bonds	\$ 8,500,000
U.S. Government and Agency Securities	172,227,349
Total	<u>\$ 180,727,349</u>

Credit Risk

State statutes limit the types of investments available to the Authority. Investments, including the underlying securities for repurchase agreements, are held by the Authority's trustees in the Authority's name.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority would not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Substantially all of the Authority's investments are held in the name of the Authority by a trustee.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority attempts to match its investment maturities to the expected call dates of its bonds or needs for purchasing mortgages. With this investment focus, investments would be expected to reach maturity with limited realized gains or losses.

As of June 30, 2014, the Authority had the following investments and maturities:

	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Housing Revenue Bond: \$	8,500,000	\$ 0	\$ 0	\$ 0	8,500,000
U.S. Government and Agency Securities	172,227,349	13,769,210	6,061,511	23,088,609	129,308,019
Total	<u>\$ 180,727,349</u>	<u>\$ 13,769,210</u>	<u>\$ 6,061,511</u>	<u>\$ 23,088,609</u>	<u>\$ 137,808,019</u>

Interest Rate Swaps

Swap Objectives

The Authority has entered into interest rate swap agreements in connection with variable-rate bond series as a technique to lower the cost of long-term debt. The objective of the swaps is to effectively change the variable interest rate on the bonds to a synthetic fixed rate.

Swap Terms and Values

Bond Series	Swap Contractual Dates	Notional Amount	Fixed Rate Paid	Variable Rate Received	Termination Date	Fair Value	Counterparty Credit Rating
2006 Series 9	9/27/2006	\$ 10,000,000	3.621%	70% of LIBOR	12/1/2014	\$ (176,747)	A+/Aa3

		<u>\$ 81,000,000</u>				<u>\$ (3,031,034)</u>	

As of June 30, 2014, the Authority's swap agreements had a net fair value of (\$3,031,034). If negative, the fair value of the swaps may be offset by reductions in total interest payments required under the related variable-rate bond, creating lower synthetic rates. The net fair value reported above as of June 30, 2014 is inclusive of accrued interest of \$226,384. Accrued interest is separately reported on the Authority's balance sheet. The resultant change in gross fair value was \$3,337,865. Because the coupons on the related variable-rate bonds adjust to the changing interest rates, the bonds do not have a corresponding fair value increase. The fair value amounts, obtained from an independent third-party, represent mid-market valuations that approximate the current economic value using prices and rates at the average of the estimated bid and offer amounts.

Swap Risks

Credit Risk – As of June 30, 2014, the Authority was exposed to credit risk on swaps which could have a positive fair value. The positive fair value of any one swap would represent the Authority's exposure to the potential failure of a single counterparty. Should the counterparty to this transaction fail to perform according to the swap contract, the Authority would face a maximum possible loss equivalent to the swap's fair value. As of June 30, 2014, the swap counterparties were rated A+ by Standard & Poor's and Aa3 by Moody's Investors Service. The Authority's policy to manage credit risk would require the Authority to seek credit enhancements should the counterparty's ratings be below AA- or Aa3.

Interest Rate Risk – The Authority is exposed to interest rate risk on its interest rate swap. On its pay-fixed, receive-variable interest rate swap, as LIBOR or the SIFMA swap index decreases, the Authority's net payment on the swap increases.

Basis Risk – Basis risk is the potential mismatch between the variable interest rate paid on the underlying bonds and the variable rate payments received by the Authority pursuant to the swap. The Authority's variable rate bond interest payments should correspond to the SIFMA Index (formerly the BMA Index), while the payments the Authority receives pursuant to the swap are for the most part 70 percent of LIBOR. The Authority is exposed to basis risk should LIBOR and SIFMA Index rates converge. If a change occurs that results in the rates moving to convergence (that is, the SIFMA Index exceeding 70 percent of LIBOR), the value to the Authority of the hedge from the swap is diminished. As of June 30, 2014, the SIFMA Index rate was 0.06, while 70 percent of LIBOR (the swap rate) was 0.11.

Termination Risk – The Authority or the counterparty may terminate the swaps if the other party fails to perform under the terms of the swap contracts. The swaps may be terminated by the Authority at its discretion with a maximum of ten days' notice. If a swap was terminated, the variable-rate bonds would no longer carry a synthetic fixed rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value.

Rollover Risk – The Authority is exposed to rollover risk on swaps that mature or may be terminated prior to the maturity of the associated bonds. When these hedging derivative instruments terminate or are terminated by either party, the Authority will not realize the synthetic fixed rate offered by the swaps on the underlying bond issues. The bond series exposed to rollover risk are presented on the following page:

Associated Bond Issuance	Bond Maturity Date	Swap Termination Date
2006 Series 9	June 1, 2037	December 1, 2014
2007 Series 2	December 1, 2037	December 1, 2014
2007 Series 4	December 1, 2037	June 1, 2015
2007 Series 6	December 1, 2037	June 1, 2015
2007 Series 8	June 1, 2038	June 1, 2015
2007 Series 11	December 1, 2038	December 1, 2015

WYOMING BUSINESS COUNCIL

Deposits for WBC are invested in the pooled cash account (state agency investment pool) managed by the State and included in the State's deposit and risk disclosure above. The Council's investments held by the State Treasurer's Office at June 30, 2014, are presented here:

Investment Type	Fair Value	Percentage
Fixed Income Investments	\$ 33,106,122	100.00%

WYO-STAR

The Wyoming State Treasurer's Asset Reserve Fund (WYO-STAR), which is Wyoming's local government investment pool, has been established in accordance with Wyoming statute 9-1-416 to invest funds upon request of any county, municipality, school district or any other local governmental entity. The State Land and Investment Board oversees the WYO-STAR program and there is no involuntary participation in WYO-STAR. In accordance with GAAP, the external portion of WYO-STAR is reported as an investment trust fund in the fiduciary funds, using the economic resources measurement focus and accrual basis of accounting, due to the State's fiduciary responsibility. The internal portion of the pool is reported in the Deferred Compensation Fund of the Wyoming Retirement System and the University of Wyoming. The investments of WYO-STAR are carried at their fair value as determined at June 30 each year. A ratio based on the participants share to the total share invested in WYO-STAR is used to determine each participant's share. The State has not provided or obtained any legally binding guarantees during fiscal year

2014 to support the value of the shares. A summary of WYO-STAR Investments as of June 30, 2014, is presented here:

Custodial Credit Risk

The WYO-STAR Program at June 30, 2014 had no custodial credit risk exposure.

Concentration of Credit Risk

The WYO-STAR fixed income portfolio holds \$431,085,067 or 66.80% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB) and Government National Mortgage Association (GNMA). These agency securities hold a rating of AA+.

Interest Rate Risk

The WYO-STAR investment portfolio by description, as stated in the Master Investment Policy, administers the short-term cash deposits made with the State by local entities. The actual investments are administered to provide liquid cash reserves, placing the majority portion in a cash portfolio and the rest in an extended cash portfolio.

These guidelines afford minimal interest rate risk.

The maturity assumptions or average life of the WYO-STAR fixed income portfolio securities are displayed in the WYO-STAR Interest Rate Risk Table:

Foreign Currency Risk

As of June 30, 2014, the WYO-STAR investment portfolio had no exposure to foreign currency risk.

WYO-STAR Master Investment Policy

The target asset allocation, as stated in the Master Investment Policy, comprises one hundred percent (100%) of the fund in short term bonds and cash.

Diversification/permissible investments, as stated in the Master Investment Policy permits purchase of the following securities:

- Asset Backed Securities
- Repurchase Agreements
- Government Securities: including obligations of the U.S. Treasury and Obligations of the U.S. Government Agencies or Instruments, bearing floating or fixed interest rates.
- Asset-backed securities will be limited to CMOs or pass through; the collateral for which is securities issued by Government Mortgage National Association (GMNA), Federal National Mortgage Association (FNMA), or Federal Home Loan Mortgage Corporation (FHLMC) or notes fully guaranteed as to principal and interest by the Small Business Administration. Automobile receivables and credit receivables will also be considered permissible investments.
- Currency: U.S. dollar denomination only.

The following tables represent the condensed statements of net position and changes in net position for the Investment Trust Fund WYO-STAR. The tables below include amounts for both the primary government, as well as its component units, and therefore will not agree to the Statement of Net Position-Fiduciary Funds and the Statement of Changes in Net Position-Fiduciary Funds, respectively.

ALTERNATIVE INVESTMENTS

The State of Wyoming, and its component units, has invested in alternative investments defined as hedge funds, private equity, venture capital and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2014, the organizations holding alternative investments were:

State of Wyoming	\$1,811,384,263
University of Wyoming Foundation	95,609,235

NOTE 4 Loans Receivable

As of June 30, 2014, the gross amount of outstanding loans for governmental type funds was \$370,607,383. The largest portion of loans outstanding are municipal infrastructure, totaling \$206,001,219, which have rates that vary between 0% and 2.5%, are primarily collateralized by pledges of revenue, and are required to be repaid within a maximum of 20 years. The second major category of loans outstanding are water loans, totaling \$79,545,350, which have rates that vary between 4% and 11%, are primarily collateralized by mortgages and pledges of revenue, are required to be repaid within a maximum of 50 years, and are for the construction and maintenance of water supply and storage facilities. At June 30, 2014, loans receivable included loans to one major loan customer totaling \$60,010,034, which comprised 16% of total loans receivable.

The State's loans receivable as of June 30, 2014 are as follows:

	General Fund	Foundation Program Fund	Common School Land Fund	Permanent Mineral Fund	Non-Major Governmental Funds	Total

As of June 30, 2014, the State had committed \$119,423,954 in various loans for distribution after June 30.

Receivable classified as Municipal Infrastructure Loans include funds provided through the core programs of both the Clean Water State Revolving Funds (CWSRF), Drinking Water State Revolving Funds (DWSRF), and the American Recovery and Reinvestment Act of 2009 (ARRA). In each of the core programs, loans made are 80% funded by the Federal Capitalization Grant and 20% by State Match amount. In the ARRA portion, the total amount of ARRA funding made available for the loan program was \$38.7 million and is 100% federally funded. The 2010-2014 Federal Capitalization Grants for both core programs require a subsidy in the form of grants, principal forgiveness, or negative interest. Provisions of the ARRA grants allowed the State to provide borrowers with debt forgiveness and/or zero percent (0%) interest rates on loans made with ARRA funds. Loan agreements address specific conditions or requirements for debt forgiveness. The debt forgiveness provision of these loans is effective at the completion of the project. During the year ended June 30, 2014 the principal forgiven for CWSRF loans and DWSRF was \$78,232 and \$865,481 respectively. As of June 30, 2014, the total amount of principal forgiveness for the CWSRF program (core and ARRA) and DWSRF (core and ARRA) was approximately \$16.5 million and \$18.1 million respectively. As of June 30, 2014, the total outstanding loan balance for loans provided through these programs was \$278.7 million.

University of Wyoming Loans Receivable

As of June 30, 2014, the total amount of outstanding loans was \$37,829,180 net of an allowance for doubtful accounts. The outstanding loans primarily consist of medical school contracts, which have rates from 0% to 8%, with repayment schedules of 96 months after leaving school and allow for loan cancellation based on the number of years of residency at eligible clinics in the State of Wyoming or upon practicing full-time medicine in the State of Wyoming. The University and the University of Wyoming Foundation had pledged receivables due of \$40,617,539 for donor pledges.

Wyoming Community Development Authority (WCDA)

WCDA loans receivable consist of mortgage loans receivable. As of June 30, 2014, mortgage loans receivable consist of the following:

Single Family Mortgage Bonds 1978 Indenture Fund, bearing interest at 0% to 8.75%, 25 to 30 year term, FHA or private mortgage company insured, or guaranteed by RD, VA, or mortgage guaranty fund	\$ 64,287,895
Less: Reserve for losses on loans	(1,279,947)
	<u>63,007,948</u>
Housing Revenue Bonds 1994 Indenture Fund, bearing interest at 2.0% to 8.9%, 25 to 30 year term, FHA or private mortgage company insured, or guaranteed by RD, VA or mortgage guaranty fund	502,826,878
Less: Reserve for losses on loans	(10,420,566)
	<u>492,406,312</u>
Single Family Mortgage Warehousing Bonds 2010, bearing interest at 3.25% to 5.0%, 30 year term, FHA insured, or guaranteed by RD or VA	1,537,521
Less: Reserve for losses on loans	-
	<u>1,537,521</u>
Homeownership Mortgage Revenue Bonds 2009 Indenture Fund bearing interest at 3% to 7.25%, 30 year term, FHA insured, or guaranteed by RD or VA	208,575,738
Less: Reserve for losses on loans	(3,334,195)

Federal Program Fund with various terms, including deferred payments and bearing interest at 0% to 5.19%, 10 to 30 year term	52,656,633
Less: Reserve for losses on loans	(3,835,033)
	<u>48,821,600</u>
Housing Trust Fund, bearing interest at 0% to 11.375%, 1 to 30 year term, FHA or private mortgage company insured, or guaranteed by VA or mortgage guaranty fund	5,681,595
Less: Reserve for losses on loans	(464,421)
	<u>5,217,174</u>
Total mortgage loans receivable, net	<u>\$ 816,232,098</u>

During the year ended June 30, 2013, the Authority changed its process for estimating the loan loss reserve from a straight percentage of the whole portfolio to a risk based approach applied to specific identified risks in its portfolio. Total loan loss reserves for mortgage loans receivable established by the Authority as of June 30, 2014 was \$19,334,162.

As of June 30, 2014, the Authority had 209 loans delinquent for 90 days or more from the population of 8,929 loans. The outstanding balance of mortgages delinquent for 90 days or more was \$20,174,764.

Wyoming Business Council

Interest rates on loans vary from 1.0% to 4.5% and have varying maturity dates through 2023; collateral includes personal guarantees, mortgages on real estate, and liens on receivables, inventory, furniture, equipment, and crops. At June 30, 2014, loans receivable included outstanding loans to four major loan customers totaling \$4,997,305, which comprised 74% of gross loans receivable as of that date. There were no loans charged off during the year ended June 30, 2014.

	Gross Balance	Allowance	Net Balance
Economic Development Fund	\$ 1,545,435	\$ 400,416	\$ 1,145,019

NOTE 6 Receivables and Payables

On the Statement of Net Position the "Due to Primary Government" and the "Due from Component Units" does not balance by \$528,612. This difference primarily is due to timing differences. The "Due to Component Units" and the "Due from Primary Government" do not balance by \$62,183,507. This difference is due primarily to the establishment of appropriations as payables at June 30, which is owed to component units. These appropriations include capital construction whose balance is owed at June 30; these items comprise approximately \$52.4 million of this difference.

To the extent that certain transactions between funds had not been paid or received as of June 30, 2014, balances of inter-fund amounts receivable or payable have been recorded as presented below. Amounts due to internal service funds are generally for services performed by those funds. The principle amounts of the balances within the Non-Major Governmental Funds represent advances between funds.

Payable Fund	Receivable Fund				
	General Fund	Foundation Program Fund	Permanent Mineral Trust Fund	Workers' Comp Fund	Common School Land Fund
Major Funds:					
General Fund	\$ 0	\$ 0	\$ 29,552,239	\$ 4,139	\$ 217,921,184
Foundation Program Fund	0	0	0	0	0

NOTE 7 Inter-fund Transfers

State of Wyoming

The primary government's operating transfers for the year ended June 30, 2014 were as follows:

Transferred From	Transferred To			
	General Fund	Foundation Program Fund	Common School Land Fund	Non-Major Govt Funds
Major Funds:				
General Fund	\$ 0	\$ 0	\$ 276,290,100	\$ 31,378,894
Foundation Program Fund	64,853,376	0	796,376	275,418,346
Common School Land Fund	0	4,069,063	0	0
Workers Compensation Fund	45,000	0	0	0
Non-Major Govt Funds	248,542,728	0	0	4,314,600
Non-Major Enterprise Funds	13,705,000	0	0	0
Internal Service Funds	106,040	0	0	0
Total Transferred From	<u>\$ 327,252,144</u>	<u>\$ 4,069,063</u>	<u>\$ 277,086,476</u>	<u>\$ 311,111,840</u>
	Non-Major Enterprise Funds	Internal Service Fund	Total Transfer To	
Major Funds:				
General Fund	\$ 0	\$ 1,463	\$ 307,670,457	
Foundation Program Fund	0	0	341,068,098	
Common School Land Fund	0	0	4,069,063	
Workers Compensation Fund	0	0	45,000	
Non-Major Govt Funds	1,515	0	252,858,843	
Non-Major Enterprise Funds	0	0	13,705,000	
Internal Service Funds	0	0	106,040	
Total Transferred From	<u>\$ 1,515</u>	<u>\$ 1,463</u>	<u>\$ 919,522,501</u>	

Transfers are used to 1) move revenues from the fund that statute requires to collect them to the fund that statute requires to expend them; 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; and 3) move profits from the Liquor Commission Fund (\$13.7) as required by law.

In the fiscal year ended June 30, 2014, the significant transfers include transfers to the General Fund from Non-Major Governmental Funds representing excess revenues not needed in those funds or required to be transferred by statute (\$248.5). Transfers from the General Fund to the Common School Land Fund (\$276.3) are required by 2013 Session Law. Transfers from the Foundation Program Fund to the General Fund (\$64.9) are transfers required by WS 9-4-719 on the investment earnings spending policy for permanent funds. Transfers from the Foundation Program Fund to Non-Major Government Funds are required by WS 21-13-306(c).

The General Fund transfers to Non-Major Governmental Funds included the transfer of appropriations to the Capital Construction Fund of \$129,400 and transfers for operational activities (\$31.2).

The Non-Major Government transfers to Non-Major Government Funds were for operational activities during the year (\$4.3).

NOTE 8 Long-Term Obligations

State of Wyoming

During the year ended June 30, 2014, the following changes occurred in long-term liabilities for the primary government:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Governmental Activities:					
Revenue Bonds	\$ 30,910,000	\$ 0	\$ 2,260,000	\$ 28,650,000	\$ 2,260,000
Premium on Bonds Payable	2,209,771	0	232,309	1,977,462	0
Compensated Absences	58,698,552	45,089,635	46,609,529	57,178,658	46,346,341
Capital Leases	336,471	182,101	148,415	370,157	144,179
Net OPEB Obligation	65,960,617	6,930,961	0	72,891,578	0
Claims/Benefits Payable	155,079,324	367,773,868	374,485,854	148,367,338	94,902,422
Total Governmental Long-term Obligations	\$ <u>313,194,735</u>	\$ <u>419,976,565</u>	\$ <u>423,736,107</u>	\$ <u>309,435,193</u>	\$ <u>143,652,942</u>
Business-Type Activities:					
Compensated Absences	\$ 1,569,596	\$ 1,459,950	\$ 1,565,584	\$ 1,463,962	\$ 1,463,962
Claims/Benefits Payable	1,556,980,279	343,004,976	207,954,873	1,692,030,382	184,215,092
Total Business-Type Long-term Obligations	\$ <u>1,558,549,875</u>	\$ <u>344,464,926</u>	\$ <u>209,520,457</u>	\$ <u>1,693,494,344</u>	\$ <u>185,679,054</u>

Claims and benefits payable of the governmental activities are primarily liabilities of the General Fund for health and welfare benefits and the Environmental Quality Special Revenue Fund for claims associated with damages from prior mining activities. Compensated absences are payable by the funds in which they are incurred and are primarily the General Fund, the Board and Regulatory Special Revenue Fund, the Game and Fish Special Revenue Fund, and the Special Projects Fund – Committed Fund. Revenue bonds will be liquidated by the Debt Service Fund. The net OPEB obligation is partially funded by the retirees prefunded health insurance fund. In the business-type activities the claims and benefits payable are primarily liabilities of the Workers' Compensation Insurance and Wyoming Health Insurance Funds.

Department of Transportation (DOT)

The following table represents the changes in long-term liabilities of the DOT during the year ended September 30, 2013:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Governmental Activities:					
Lease purchase agreement	\$ 0	\$ 2,845,356	\$ 0	\$ 2,845,356	\$ 82,060
Compensated Absences	22,781,263	11,005,775	10,756,560	23,030,478	10,760,265

Wyoming Community Development Authority (WCDA)

The following table represents the changes in long-term liabilities of the WCDA during the year ended June 30, 2014:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Business-Type Activities					
Housing Revenue Bonds	\$ 877,993,286	\$ 0	\$ 83,922,114	\$ 794,071,172	\$ 33,825,000

A. Capital Leases

The State has entered into various leases and lease purchase agreements for equipment that have been accounted for as capital leases in accordance with generally accepted accounting principles. Lease contracts are required by law to contain a fiscal funding clause indicating that continuation of the lease is subject to funding by the Legislature.

Future minimum lease payments under capital leases for the State's governmental activities and the University as of June 30, 2014 are as follows:

Year Ending June 30th	Governmental Activities	University of Wyoming
2015	\$ 191,956	\$ 555,417
2016	152,675	435,922
2017	78,298	422,208
2018	19,904	431,144
2019	0	440,428
2020-2024	0	2,349,618
2025-2029	0	2,009,871
Total Minimum Payments	442,833	6,644,608
Less Interest	72,676	1,196,418
Present Value of Lease Payments	<u>\$ 370,157</u>	<u>\$ 5,448,190</u>

The gross cost of assets acquired under capital leases, within the asset classification of Equipment, is \$649,291 for governmental activities with accumulated depreciation of \$330,287, and \$5,950,644 for the University of Wyoming with accumulated depreciation of \$1,763,921.

Capital Leases—Wyoming Business Council

The gross amount of assets recorded under capital leases as of June 30, 2014 was \$85,319 with accumulated depreciation of \$69,340. Future minimum lease payments for capital leases are as follows:

Year Ending June 30 2015	Amount
	\$ 4,073
Less: interest	(197)
Present value of lease payments	<u>\$ 3,876</u>

B. Bonded debt

State of Wyoming

No new bonds were issued during fiscal year 2014. The governmental funds bonded debt reported below represents the remaining principal payable on capital facilities revenue bonds. Funds for the repayment of the principal and interest on these bonds are restricted to the federal mineral royalties distributed to the school foundation program. The following table presents the State of Wyoming capital facilities revenue bonds outstanding as of June 30, 2014:

	Series	Amount Issued	Interest Range %	Balance
			On Outstanding Balance	June 30, 2014
Government-Wide Statements				
Capital Facilities Refunding Bonds	1992	\$ 28,750,000	3.0-6.25	\$ 11,070,000
Capital Facilities Refunding Bonds	2005	23,440,000	2.5-5.0	785,000
Capital Facilities Refunding Bonds	2012-A	15,485,000	0.7-5.0	15,485,000
Capital Facilities Refunding Bonds	2012-B	1,420,000	0.5-1.2	1,310,000
Total		<u>\$ 69,095,000</u>		<u>\$ 28,650,000</u>

Future minimum payments for revenue bonds recorded in the government-wide statements as of June 30, 2014 are as follows:

Year Ending June 30th	Government-Wide Statements		
	Principal	Interest	Total
2015	\$ 2,260,000	\$ 1,146,845	\$ 3,406,845
2016	2,380,000	1,041,095	3,421,095
2017	2,535,000	940,723	3,475,723
2018	2,645,000	834,981	3,479,981
2019	2,745,000	723,444	3,468,444
2020-2024	14,310,000	1,711,487	16,021,487
2025	1,775,000	17,750	1,792,750
	<u>\$ 28,650,000</u>	<u>\$ 6,416,325</u>	<u>\$ 35,066,325</u>

University of Wyoming

Revenue bonds payable represent the remaining principal payments on bonds used for construction of facilities. Revenue from the operations of residence halls, apartments, cafeterias, dining halls, other food service facilities, bookstore and telecommunications; income from other sales and services; income from the University Permanent Land Fund and mineral royalties from the University Government Royalty Fund are all pledged for the Facilities Improvement Revenue Bonds Series 2005, the Revenue Refunding Bond Series 2009, the Facilities Improvement, and Refunding Revenue Bonds Series 2010, 2011, and 2012.

Revenue bonds payable consist of the following at June 30, 2014:

	Series	Authorized and Issued	Interest rates	Balance June 30, 2014
Facilities Improvement Revenue Bonds	2012 A	\$ 29,600,000	3.125-5.00%	\$ 28,240,000
Facilities Improvement Revenue Bonds	2012 B	10,055,000	1.00-5.00%	10,055,000
Facilities Improvement Revenue Bonds	2011 A	9,060,000	4.00-5.00%	8,050,000
Facilities Improvement Revenue Bonds	2011 B	7,680,000	2.05-4.00%	7,680,000
Facilities Improvement Revenue Bonds	2010 A	6,585,000	3.00-5.125%	4,255,000
Facilities Improvement Revenue Bonds	2010 B	19,730,000	4.10-5.83%	19,730,000
Facilities Improvement Revenue Bonds	2010 C	18,000,000	5.80%	18,000,000
Revenue Refunding Bonds Series	2009	7,755,000	3.50-4.00%	4,185,000
Facilities Improvement Revenue Bonds	2005	16,000,000	4.25%	750,000
Total		<u>\$ 124,465,000</u>		\$ 100,945,000
Original issue discount/premium				5,865,853
Total				<u>\$ 106,810,853</u>

Future minimum payments for the University's revenue bonds recorded as of June 30, 2014 are as follows:

Year Ending June 30	University of Wyoming	
	Principal	Interest
2015	\$ 4,470,000	\$ 4,365,325
2016	4,640,000	3,718,051
2017	4,790,000	3,563,750
2018	4,960,000	3,400,293
2019	5,135,000	3,226,247
2020-2024	28,820,000	12,986,594

2030-2032	12,910,000	716,674
	<u>\$ 100,945,000</u>	<u>\$ 38,562,548</u>
Original issue discount premium	5,865,853	
	<u>\$ 106,810,853</u>	

University Wyoming Foundation

The Foundation issued revenue bonds in the aggregate principal amount of \$3,700,000, pursuant to an Indenture of Trust, dated November 2007, by and between the Foundation and Wells Fargo Bank, N.A. The aggregate amount includes \$1,155,000 of serial bonds and \$2,545,000 of term bonds. The proceeds were used by the Foundation to help finance the cost of constructing and equipping the Conference Center located at 22nd Street and Grand Avenue in Laramie, Wyoming. The bonds bear interest from the date of issue to maturity or earlier redemption with interest payable semi-annually on May 1 and November 1 of each year. The Foundation has made all required debt payments.

The debt service requirements for the Bonds are as follows:

Year	Principal Due November 1	Interest	Interest Rate	Annual Debt Service
2014	\$ 95,000	\$ 96,791	5.55%	\$ 191,791
2015	100,000	188,309	5.60%	288,309
2016	110,000	182,709	5.65%	292,709
2017	115,000	176,494	5.72%	291,494
2018	120,000	169,916	5.79%	289,916
2019	125,000	162,968	5.84%	287,968
2020	135,000	155,668	5.95%	290,668
2021	140,000	147,635	5.95%	287,635
2022	150,000	139,305	5.95%	289,305
2023	160,000	130,380	6.15%	290,380
2024	170,000	120,540	6.15%	290,540
2025	180,000	110,085	6.15%	290,085
2026	190,000	99,015	6.15%	289,015
2027	1,420,000	87,330	6.15%	1,507,330
	<u>\$ 3,210,000</u>	<u>\$ 1,967,145</u>		<u>\$ 5,177,145</u>

The bonds maturing on or after November 1, 2018 are redeemable by the Foundation on any date on or after November 1, 2017, in whole or in part, at a redemption price equal to 100% of the principal amount of the bonds being redeemed and accrued interest to the redemption date. The bonds maturing on November 1, 2022 and November 1, 2027 are subject to mandatory sinking fund redemptions at a redemption price equal to 100% of the principal amount thereof and accrued interest to the redemption date.

Since the Foundation no longer had an interest in the Conference Center at year end, they were required by the Bond Council to transfer funds in the amount of \$3.7 million to certain "permitted investments" to satisfy future obligations on the bonds.

Wyoming Community Development Authority (WCDA)

Bonds are generally payable in scheduled annual and semiannual installments and are subject to mandatory sinking fund requirements in scheduled amounts. Redemption is optional after various dates at prices ranging from 100% (par) to 102% of par. Capital Appreciation Bonds (CABs) are reported at accreted value.

The bonds of the 1978, 1994, and 2009 indentures are special obligations of the Authority, payable solely from the income and receipts of these indentures. All of the bonds are secured by mortgage loans and other assets of the respective indentures. Interest on outstanding bonds is generally payable either monthly or semi-annually. Certain of the variable rate debt reprises weekly or monthly based on market interest rates.

The following table presents WCDA bonds outstanding at June 30, 2014:

	Balance at June 30, 2013	Issued	Retired	Balance at June 30, 2014	Amount Due Within 1 Year
Single Family Mortgage Bonds 1978 Indenture Fund

2019	-	20,270,000	6,860,000	27,130,000

Annual debt service requirements for the five fiscal years subsequent to June 30, 2014, and for each five year segment thereafter, including the bonds to be remarketed or expected to be refunded, are as follows:

	Principal	Interest	Total Debt Service
2015	\$ 33,825,000	\$ 23,151,986	\$ 56,976,986
2016	32,250,000	22,068,802	54,318,802
2017	33,535,000	20,937,220	54,472,220
2018	28,995,000	19,756,052	48,751,052
2019	27,130,000	18,766,301	45,896,301
5 years ending 2024	148,355,000	78,876,925	227,231,925
5 years ending 2029	149,570,000	53,042,307	202,612,307
5 years ending 2034	172,645,000	31,386,541	204,031,541
5 years ending 2039	142,570,000	11,172,050	153,742,050
5 years ending 2044	25,100,000	944,069	26,044,069
	\$ 793,975,000	\$ 280,102,253	\$ 1,074,077,253

The balances above do not include net premiums, discounts, or losses on refundings in the amount of \$96,172 that are reported as components of bonds payable.

Hedging Derivative Instrument Payments and Hedged Debt

Using rates as of June 30, 2014 and giving effect to scheduled reductions in the notional amount of the hedging derivative instruments, debt service requirements of the Authority's outstanding variable-rate debt in 2005 Series 7, 2006 Series 2, 2006 Series 5, 2006 Series 7, 2006 Series 9, 2007 Series 2, 2007 Series 4, 2007 Series 6, 2007 Series 8, 2007 Series 11, and 2008 Series 2 and net swap payments are as follows. As rates vary, variable-rate bond interest payments and net receipts or payments on the hedging derivative instruments will vary.

	Variable Rate Bonds		Interest Rate	Total
	Principal	Interest	Swaps (net)	
2015	\$ -	\$ 61,263	\$ 2,526,344	\$ 2,587,607
2016	-	61,598	591,132	652,730
2017	-	61,402	-	61,402
2018	805,000	61,500	-	866,500
2019	1,655,000	60,843	-	1,715,843
5 years ending 2024	10,990,000	282,011	-	11,272,011
5 years ending 2029	15,845,000	230,095	-	16,075,095
5 years ending 2034	21,055,000	160,002	-	21,215,002
5 years ending 2039	30,650,000	55,422	-	30,705,422
	\$ 81,000,000	\$ 1,034,136	\$ 3,117,476	\$ 85,151,612

Conduit Debt

From time to time, the Authority has issued Multi-Family Housing Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of low-income multi-family housing deemed to be in the public interest. The bonds are secured by the revenues from the property financed. Neither the Authority, nor the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2014, there were two such series of Multi-Family Housing Revenue bonds outstanding, with an aggregate principal amount payable of \$22,120,074.

Reserve Requirements

The 1978 and 1994 indentures require the Authority to place a portion of bond proceeds in bond, mortgage and special reserve accounts. As of June 30, 2014, the Authority has \$81,626,091 in these reserve accounts which exceeds the reserve requirements contained in the applicable trust indentures of \$52,090,635. The amounts reserved in these accounts are as follows:

	1978 Indenture	1994 Indenture	2009 Indenture
Bond reserve requirement	\$ 7,920,200	\$ 15,657,347	\$ 6,763,050
Mortgage reserve requirement	465,450	10,197,822	4,151,766
Restricted special reserve requirement	-	6,935,000	-
Total required reserves	<u>\$ 8,385,650</u>	<u>\$ 32,790,169</u>	<u>\$ 10,914,816</u>
Total cash and investments held for reserves	\$ 13,283,846	\$ 53,918,506	\$ 14,423,739

C. Net OPEB Obligation

State of Wyoming

GASB 45 requires the State to have an actuarial valuation of the post-retirement benefit plan (other than pensions). The net result of which is to identify the actuarial accrued liability, the annual required contribution and the net OPEB obligation. The retiree benefits offered by the State included in this actuarial valuation are the self-insured plans, including prescription drugs, 3 options for early retirees and 2 options for Medicare retirees. Currently, the retiree benefits are subsidized by the State based on age and years of service.

Plan Description. The State participates in a single-employer defined benefit postemployment healthcare plan, the Retiree Health Insurance Plan. The Legislature has the authority for establishing and amending the plan. This plan does not issue a separate report.

A retiree is eligible for coverage under the group insurance plan at premium rates established by the State, provided:

Application to continue coverage is made to the State within thirty-one (31) days after termination of the retiree's employment; and

The retiree has had medical coverage in effect under the group insurance plan for at least one (1) year immediately prior to the date of retirement and is eligible to receive a retirement benefit under the Wyoming Retirement System; and either:

Has attained the age of fifty (50) on the date of retirement and has at least four (4) years of service credit under the Wyoming Retirement System as an employee of one (1) of the employing entities participating in the plan; or

Has at least twenty (20) years of service credit under the Wyoming Retirement System as an employee of one (1) of the employing entities participating in the plan.

Required Monthly Contributions. Contributions are required for both retiree and dependent coverage. The State of Wyoming is currently providing a subsidy to offset the retiree's contributions for the medical insurance program. The current contribution amounts are provided here:

Pre-Medicare

\$11.50 per month per year of credited service at retirement, with a maximum benefit based on 30 years of service

Medicare Eligible

\$5.75 per month per year of credited service, with a maximum benefit based on 30 years of service

For the plan year ending June 30, 2014 there were 14,185 fully eligible active participants. The retiree's benefit description provides eligible retirees receive health care through one of three medical plans. All plans are available to those under age 65 while the Health Savings Plan is not available to those 65 and older. The actuarial valuation identified a dental benefit which is available, but does not believe there is an OPEB liability associated with this benefit since the benefit is full-contributory and there is no implicit subsidy.

GASB 45 allows the use of one of the following actuarial cost methods for the valuation: Unit Credit, Entry Age Normal, Attained Age, Aggregate, Frozen Entry Age, or Frozen Attained Age. These methods can be amortized on either a level dollar or a level percentage of earnings basis. This actuarial valuation assumes the use of the Unit Credit method with amortization on a level percentage basis, because it is believed the Unit Credit method provides the most logical correlation between accruing and expensing of retiree benefits.

Funding Policy. The State finances this program on a “pay-as-you-go” basis. The Legislature has the authority for establishing and amending the funding policy. For fiscal year 2014 the State’s post-retirement plan is considered an unfunded plan. While the legislature has established a fund to account for retiree health insurance contributions, to pay explicit subsidies, for purposes of this latest actuarial evaluation the plan is considered unfunded and these dollars are not treated as an asset for this analysis. The fund had a cash balance of \$20.8 million as of June 30, 2014.

Annual OPEB Cost and Net OPEB Obligation. The State’s annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the State’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the State’s net OPEB obligation:

	FY 2012	FY 2013	FY 2014
Net OPEB Obligation beginning of year	\$ 48,884,764	\$ 57,444,987	\$ 65,960,617
Annual Required Contribution (ARC)	15,486,381	16,238,370	17,023,175
Interest on net OPEB obligation	2,444,238	2,872,249	3,298,031
Adjustment to annual required contribution	(1,874,576)	(2,202,833)	(2,517,307)
Annual OPEB Cost	16,056,043	16,907,786	17,803,899
Less:			
Employer Contributions	7,495,820	8,392,156	10,872,938
Increase in Net OPEB Obligation	8,560,223	8,515,630	6,930,961
Net OPEB Obligation at June 30	\$ 57,444,987	\$ 65,960,617	\$ 72,891,578
Percentage of OPEB cost contributed	47%	50%	61%

The Net OPEB Obligation (NOO) is the cumulative difference between the ARC and the employer’s contributions to the plan. For the fiscal year ending June 30, 2014, the NOO is \$72,891,578, and assumes the State continues on a pay-as-you-go basis (Unfunded).

The *Schedule of Funded Status and Funding Progress* is presented here for the initial and subsequent valuation dates.

Actuarial Valuation Date	Actuarial		Unfunded AAL		Funding Excess as a Percentage of Covered Payroll	
	Valuation of Plan Assets	Actuarial Accrued Liabilities (AAL)	(Funding Excess)	Funded Ratio	Covered Payroll	
	(A)	(B)	(B-A)	(A/B)	C	((B-A)/C)
July 1, 2009	0	\$ 223,827,503	\$ 223,827,503	0.00%	\$ 787,153,740	28.44%
July 1, 2011	0	\$ 218,733,654	\$ 218,733,654	0.00%	\$ 804,819,529	27.18%
July 1, 2013	0	\$ 243,727,620	\$ 243,727,620	0.00%	\$ 824,107,523	29.57%

The Actuarial Accrued Liability (AAL) for this post retirement benefit plan as of June 1, 2013 is \$243,727,620. This represents the present value of all future expected postretirement medical payments and administrative costs which are attributable to past service.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions. Projections of benefits are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits in force at the valuation date.

Actuarial calculations reflect long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Actuarial valuation date	July 1, 2013
Actuarial cost method	Projected Unit Credit
Amortization method	Level percent of pay; Open Period
Remaining amortization period	30 years
Asset valuation method	Fair value of assets
Actuarial assumptions:	
Investment rate of return/Discount Rate	5.0%
Healthcare Cost Trend Rate (HCCTR)	Pre-Medicare: 8.00% for 2013; decreasing 0.35% each year until 4.50% in year 2023 and after Medicare: 6.50% for 2013; decreasing 0.20% each year until 4.50% in year 2023 and after
Assumed rates of increase applied to pre-retiree premiums	Pre-Medicare: 16.00% for 2013; 13.00% for 2014, 7.30% for 2015, then decreasing 0.35% each year until 4.50% in 2023 Medicare: 20.00% for 2013; 13.00% for 2014, 6.10% for 2015, then decreasing 0.20% each year until 4.50% in 2023
Annual Payroll Growth	4.0%

University of Wyoming

Plan description: The University of Wyoming participates in one single-employer postemployment plan, for healthcare and life insurance. The Board of Trustees (the "Board") has the authority for establishing and amending this plan. This plan does not have a separate report.

Under the healthcare plan, any employee who retires and has completed twenty-five (25) years of service with the University or has fifteen (15) years of University service immediately preceding the date of retirement shall receive a benefit of conversion of up to 960 hours of accrued sick leave to a state contribution for group health insurance. The conversion is a rate of 1.5 months of coverage for each five (5) days of sick leave (a maximum of 36 months of premiums). There are 3,084 active employees and 518 retirees participating in the plan as of July 2012, the census date used for the actuarial valuation. As of June 30, 2014, there are 3,039 active employees and 644 retirees participating in the plan.

Under the life insurance plan, any employee who retires and has completed twenty-five (25) years of service with the University or who has attained the age of 60 with fifteen (15) years of immediately preceding University service can also have a one-half of his/her life insurance premium paid by the University.

Funding policy: The University finances this program on a pay-as-you-go basis. The Board has the authority for establishing and amending the funding policy.

Annual OPEB cost and OPEB obligation: The major component of the University's annual other postemployment benefit (OPEB) cost is the annual required contribution (ARC), an amount actuarially determined in accordance with GASB Statement 45. The ARC is the sum of the normal cost and the amortization of the unfunded actuarial accrued liability. The unfunded actuarial accrued liability is amortized over the maximum allowable period of 30 years on an open basis.

The other components of the annual OPEB cost are one year's interest on the net OPEB obligation at the beginning of the year and adjustment to the ARC. The adjustment to the ARC is the discounted present value of the net OPEB obligation at the beginning of the year.

The table below shows the components of the University's annual OPEB cost for the fiscal years 2014, 2013 and 2012, the amount actually contributed to the plan, and changes in the University's net OPEB obligation:

	FY 2014	FY 2013	FY 2012
Annual Required Contribution (ARC)	\$ 3,004,200	\$ 3,004,200	\$ 2,889,200
Interest on net OPEB obligation	335,706	255,400	187,700
Adjustment to annual required contribution	(332,106)	(251,800)	(186,200)
Annual OPEB Cost	3,007,800	3,007,800	2,890,700
Less:			
Employer Contributions	1,221,600	713,700	954,800
Increase in Net OPEB Obligation	1,786,200	2,294,100	1,935,900
Net OPEB Obligation, beginning of year	9,591,600	7,297,500	5,361,600
Net OPEB Obligation, end of year	\$ 11,377,800	\$ 9,591,600	\$ 7,297,500

The University's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal years 2014, 2013, and 2012 was as follows:

	FY 2014	FY 2013	FY 2012
Annual OPEB Cost	\$ 3,007,800	\$ 3,007,800	\$ 2,890,700
Percentage of annual OPEB cost contributed	40.60%	23.70%	33.30%
Net OPEB obligation	\$ 11,377,800	\$ 9,591,600	\$ 7,297,500

Funded status and funding progress: As of July 1, 2012, the actuarial valuation date, the actuarial accrued liability for benefits was \$24,462,600, all of which was unfunded. The covered payroll as of the actuarial valuation date (annual payroll of active employees covered by the plan) was \$182,937,071, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 13.4%.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Methods and assumptions: Projections of benefits are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits in force at the valuation date. Actuarial calculations reflect long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

Significant methods and assumptions were as follows:

Valuation date – July 1, 2012
Discount rate – 3.5% annual
Census data – as of July 2012

Actuarial cost method – projected unit credit with benefits attributed from the date of hire to expected retirement age.

Amortization method – the unfunded actuarial accrued liability is amortized over the maximum acceptable period of 30 years on an open basis. It is calculated with an assumption that payroll increases by 3.5% per year.

Health care cost trend rate – the following annual trend rates are applied on a select and ultimate basis:

Benefit	Select	Ultimate
Medical	9.0%	5.0%
Dental	5.0%	5.0%

Select trends are reduced by 0.5% each year until reaching the ultimate trend.

Retiree contributions – These are assumed to increase with health care cost trend.

Retirement age – Annual retirement probabilities have been determined based on age and years of service.

Mortality – RP-2000 Table, applied on a gender-specific basis.

Termination – The rate of withdrawal for reasons other than death and retirement depend upon years of service in the first five years of employment and age thereafter. These rates are dependent on an employee’s age, year of service, and gender.

Plan participation percentage – It is assumed that 95% of all future retirees and their dependents who are eligible for benefits participate in the postemployment benefit plan.

Spousal coverage – The assumed number of eligible spouses is based on the current census information.

Salary increase assumption – 3.5% per annum.

The following is a summary of the funding progress:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Liability (AAL) Entry Age	Unfunded AAL (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
7/1/2012	\$ -	\$ 24,462,600	\$ 24,462,600	0.0%	\$ 182,937,100	13.4%
7/1/2010	\$ -	\$ 22,742,900	\$ 22,742,900	0.0%	\$ 178,598,800	12.7%
7/1/2008	\$ -	\$ 15,130,000	\$ 15,130,000	0.0%	\$ 168,254,400	9.0%

NOTE 9 Lease Revenue

The State possesses significant amounts of land of which the majority was received from the federal government when the Wyoming Territory was incorporated as a state. Such land is leased to third parties under leases accounted for as operating leases.

Future minimum rents receivable under these lease agreements as of June 30, 2014 are as follows:

Year Ending June 30th	Governmental Funds	
2014	\$	7,435,580
2015		6,692,022
2016		5,948,464
2017		5,204,906
2018 - 2013		15,614,718
	\$	<u>40,895,690</u>
# of Grazing Leases		5,026
# of Special Use Leases		434
Total Acres Under Lease		3,565,320

NOTE 10 Pensions

State employees are eligible to participate in five different pension plans, depending on their current employment position. These plans are administered by the Wyoming Retirement System (WRS).

The Wyoming Retirement System was established in 1943 as a teachers' retirement program and amended in 1949 to incorporate State employees. Over 500 counties, municipalities, school districts, and other units of government participate in the Wyoming Retirement System.

The Wyoming Retirement System administers nine defined benefit pension plans and one defined contribution plan. The defined benefit plans are all multiple employer – cost sharing plans with the exception of the Wyoming Judicial Pension Plan and the Air Guard Fire Fighters Pension Plan, which are single employer plans with 44 and 37 participants, respectively who are state employees.

1. Public Employees Pension Plan
2. State Patrol, Game & Fish Warden & Criminal Investigator Pension Plan
3. Paid Firemen's Pension Plan A
4. Paid Firemen's Pension Plan B
5. Judicial Pension Plan
6. Law Enforcement Pension Plan
7. Air Guard Fire Fighters Pension Plan
8. Volunteer Emergency Medical Technician Pension Plan
9. Volunteer Firemen's Pension Plan
10. Wyoming Deferred Compensation (457) Plan

The authority for establishing and amending the benefits and contribution rates rests with the Legislature of the State of Wyoming. The obligation to collect and remit the contribution rests with the employers of each plan. Administrative costs are deducted from the plan assets of each plan. The costs of administering the plan are financed by both the investment income and contributions. The responsibility for the administration and operation of the first seven retirement plans and the Wyoming Deferred Compensation (457) Program is vested in the Wyoming Retirement Board. The Board is composed of eleven members, ten appointed by the Governor and the eleventh being the State Treasurer.

The Volunteer Firemen's Pension Plan is controlled by a separate board and administered by the Executive Director of the Wyoming Retirement System. The Board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer fireman with a minimum of five years as a member of a volunteer fire department in the State of Wyoming.

The Volunteer Emergency Medical Technician Pension Plan is controlled by a separate board and administered by the Executive Director of the Wyoming Retirement System. The Board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer emergency medical technician with a minimum of five years of service as a volunteer EMT in the State of Wyoming.

The State reports all the plans administered by the Wyoming Retirement System as Pension Trust Funds. The Pension Trust Funds are presented on the accrual basis of accounting with investments valued at fair value determined, primarily, by the latest bid price or the closing exchange price at the balance sheet date.

WRS issues a stand-alone financial report. It can be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, WY, 82002, or by calling 307-777-7691. The WRS fiscal year-end statements are as of December 31, which the State uses for its June 30 report.

Plan Descriptions

Public Employees Pension Plan:

The Public Employees Pension Plan is a cost sharing multiple employer defined benefit, contributory retirement plan covering substantially all employees of the State and of the Public School Systems of Wyoming. The Plan also covers employees of those political subdivisions and other statutorily allowed

entities, which have elected to participate in the Plan. Employee and employer contributions and earnings on investments fund benefits of the Plan.

The Plan statutorily requires 14.62% of the participant's salary to be contributed to the Plan. Contributions consist of 7.12% of the participant's salary as employer contributions and 7.5% as employee contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion. Through legislation passed during the 2012 legislative session, two tiers of benefits were established.

Tier 1, the Plan allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 or 25 years of service but will result in a reduction of benefits based on the length of time remaining to age 60.

Tier 2, the Plan allows for normal retirement after four years of service and attainment of age 65. Early retirement is allowed provided the employee has completed four years of service and attained age 55, or 25 or more years of service but will result in a reduction of benefits based on the length of time remaining to age 65. All employees may also retire upon normal retirement on the bases that the sum of the member's age and service is at least 85.

The Public Employees Plan provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of seven optional methods for receiving benefits, including two joint and survivor forms of benefits: a 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded.

Employees terminating prior to normal retirement can elect to withdraw all employee contributions plus accumulated interest through date of termination or, if they are vested, they may elect to remain in the Plan and be eligible for retirement benefits at age 50 (Tier 1 employees) and 60 (Tier 2 employees).

The Plan's net position held in trust for benefits on December 31, 2013 totaled \$6.5 billion, an increase of \$620.4 million from 2012. Additions to the Plan net position held in trust for benefits include employer and employee contributions and investment gains/losses. For the calendar year 2013, employee and employer contributions totaled \$244.7 million, an increase of \$4.7 million from 2012. Contributions increased due to a legislative contribution rate increase in 2013, along with an increase in average salary from \$48,899 to \$49,020. The Plan recognized a net investment gain of \$780.6 million for the year 2013 compared with a net investment gain of \$723.5 million a year earlier. This is due to the equity market.

Deductions from the Plan net position held in trust for benefits resulted from retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2013, benefits totaled \$387.4 million, an increase of \$30.1 million from a year earlier. The increase in benefits is due to the number of members retiring was greater than the number of those who became deceased. For 2013, the costs of administering the Plan's benefits totaled \$6.5 million which was the same as last year.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds to members terminating service totaled \$17.1 million in 2013, a decrease from \$17.3 million a year ago.

An actuarial valuation of the Plan's assets and liabilities is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the Plan decreased from 78.56% on January 1, 2013 to 77.62% on January 1, 2014 due in part to assumptions used which were changed by the board. The active employee payroll remained nearly constant last year, compared with a 1.4% increase the prior year. The unfunded actuarial accrued liability of the plan, i.e., the amount liabilities exceed assets, was \$1.8 billion as of January 1, 2014. This is an increase of \$231 million from last year.

State Patrol, Game and Fish Warden and Criminal Investigator Pension Plan:

The Wyoming State Patrol, Game and Fish Warden and Criminal Investigator Pension Plan is a cost sharing multiple employer defined benefit, contributory retirement plan covering sworn officers of the Wyoming State Highway Patrol and law enforcement officers employed by the Wyoming State Game and Fish Department

and sworn peace officers of the Division of Criminal Investigation. Employee and employer contributions and earnings on investments fund benefits of the Plan.

The Plan statutorily requires participants to contribute 13.54% of their salary to the Plan and the State is required to contribute 12.96% of each participant's salary for a total contribution of 26.5%.

The Plan allows for normal retirement at age 50. The Plan provides retirement, disability, and death benefits according to predetermined formulas. Terminating employees are entitled to a refund of employee contributions plus accumulated interest. If they are vested, they may elect to remain in the Plan and be eligible for retirement benefits at age 50. The cost of living adjustment provided to retirees is determined by the Board and must be approved by the State Legislature. In addition, a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded.

The maximum service pension is 75% of the highest average salary. The minimum years of service requirement for a monthly benefit are six years.

The Plan's net position held in trust for benefits at December 31, 2013 totaled \$121.4 million, an increase of \$12.4 million from 2012. Additions to the Plan net position held in trust for benefits include employer and employee contributions and investment gains/losses. For the calendar year 2013, employee and employer contributions totaled \$6.0 million, an increase from 2012 of \$448,642 or 8.1%. Contributions increased due to a legislative increase in the required contribution percentage. Average salary per member decreased from \$75,854 in 2012 to \$75,066 in 2013. The Plan recognized a net investment gain of \$14.4 million for the year 2013 compared with net investment gain of \$13.3 million a year earlier. This is due to the equity market.

Deductions from the Plan net position held in trust for benefits resulted primarily from retirement and beneficiary benefits, administrative expenses and refunds to members terminating service. For 2013, benefits totaled \$7.9 million, an increase from \$7.6 million or 4.1% a year earlier. For 2013, the costs of administering the Plan's benefits totaled \$106,839 compared to \$84,760 a year ago.

Refunds are the results of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds to members terminating service totaled \$335,592 in 2013, an increase from \$286,976 a year ago.

An actuarial valuation of the Plan asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the Plan increased from 77.2% on January 1, 2013 to 77.4% on January 1, 2014. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$33.8 million on January 1, 2014, compared to the amount by which the Plan's actuarial liabilities exceeded actuarial assets by \$31.5 million on January 1, 2013.

Paid Firemen's Pension Plan A:

The Paid Firemen's Pension Plan A is a cost sharing multiple employer defined benefit, contributory retirement plan covering paid firemen who were employed prior to July 1, 1981 and who elected to participate.

The Plan statutorily required participants to contribute 8% of their salary to a maximum not to exceed the salary of a Firemen First Class. Employers were required to contribute 21% of the salary. Effective April 1, 1997, required contributions have been suspended as the Plan had been determined to be actuarially overfunded. This plan is being reviewed to determine the appropriate measures to take to ensure this plan is adequately funded, as it is a closed plan.

The Plan statutorily provides retirement, disability, and death benefits according to a percentage of a fireman first class salary. The Plan also statutorily provides for an annual percentage increase in the benefit amounts beginning in the year following twelve (12) months of payments, by at least 3%. In the event the current actuarial valuation indicates the market value of assets is greater than one hundred fifteen percent (115%) of the actuarial value of liabilities, the Board may increase the benefit by an amount determined affordable by the actuary but not greater than five percent (5%) of the benefit. Participants may withdraw from the Plan at any time and receive refunds of participant contributions without interest.

The Plan net position held in trust for benefits on December 31, 2013 totaled \$147.6 million, an increase of \$3.8 million from 2012. Additions to the Plan net position held in trust for benefits include investment income. This Plan is a closed plan and the Board suspended contributions in April 1997. The Plan

recognized a net investment gain of \$18.3 million for the year 2013 compared with a net investment gain of \$18.4 million a year earlier. This is due to the equity market.

Deductions from the Plan net position held in trust for benefits resulted primarily from retirement and beneficiary benefits and administrative expenses. For 2013, benefits totaled \$14.4 million, an increase from \$14.2 million or 0.9% a year earlier. The benefits continue to increase due to a 3% COLA in the current year. For 2013, the costs of administering the Plan's benefits totaled \$129,937 compared to \$102,094 a year ago.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. There were no refunds paid to employees terminating service for 2013 or 2012.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the Plan was 68.3% compared to 71.3% on January 1, 2013. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$65.3 million compared with actuarial liabilities exceeding actuarial assets by \$56.0 million one year ago.

Paid Firemen's Pension Plan B:

The Paid Firemen's Pension Plan B is a cost sharing multiple employer defined benefit, contributory retirement plan covering paid firemen who were employed after July 1, 1981.

The Plan statutorily requires participants to contribute 8.725% of their salary to the Plan and the employer is required to contribute 12% of each participant's salary.

The Plan provides retirement, disability and death benefits according to predetermined formulas. Any cost of living adjustment provided to retirees is granted by the State Legislature. In addition a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded. Participants may withdraw from the Plan at any time and receive refunds of participant contributions without interest.

The Plan net position held in trust for benefits on December 31, 2013 totaled \$108.2 million, an increase of \$14.8 million from 2012. Additions to the Plan net position held in trust for benefits include employer and employee contributions and investment income. For the calendar year 2013, member and employer contributions totaled \$5.2 million, an increase from 2012 of \$4.8 million or 7.5%. The Plan recognized a net investment gain of \$12.6 million for the year 2013 compared with a net investment gain of \$11.1 million a year earlier. This is due to the equity market.

Deductions from the Plan net position held in trust for benefits resulted primarily from retirement and beneficiary benefits, administrative expenses and refunds to employees terminating service. For 2013, benefits totaled \$2,832,611, an increase from \$2,520,122 or 12.4% a year earlier. For 2013, the costs of administering the Plan's benefits totaled \$96,660 compared to \$67,187 a year ago.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds to members terminating service totaled \$83,569 in 2013, a decrease from \$108,996 a year ago.

An actuarial valuation of the Plan asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the Plan decreased from 106.8% on January 1, 2013 to 99.1% on January 1, 2014. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$931,529 on January 1, 2014, compared to the Plan actuarial assets exceeding actuarial liabilities by \$5.8 million at January 1, 2013.

Wyoming Judicial Pension Plan:

The Wyoming Judicial Pension Plan is a single employer defined benefit, contributory plan covering any Justice of the Supreme Court, District Judge, or County Court Judge appointed to any of these offices on or after July 1, 1998, and with no prior service as a justice of the Supreme Court or district judge at the time of the appointment. The Plan also covers any justice or judge who elects to participate.

The Plan statutorily requires participants to contribute 9.22% of their salary to the Plan and the employer is required to contribute 14.5% of each participant's salary.

The Plan statutorily provides retirement and death benefits according to predetermined amounts primarily determined by age and years of service of the participant. The cost of living adjustment provided to retirees is determined by the Board and must be approved by the State Legislature. In addition, a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

The plan net position held in trust for benefits at December 31, 2013 totaled \$21.1 million, an increase of \$3.1 million from 2012. Additions to the Plan net position held in trust for benefits include employer and employee contributions and investment income. For the calendar year 2013, employee and employer contributions totaled \$1,417,249, an increase from 2012 by \$462,317 or 48.4%. The plan recognized a net investment gain of \$2.4 million for the year ending 2013 compared to a net investment gain of \$2.1 million a year earlier. This is due to the equity market.

Deductions from the plan net position held in trust for benefits resulted primarily from retirement and beneficiary benefits, administrative expenses, and refunds to members terminating service. For 2013, benefits totaled \$674,750, an increase of \$64,178 from 2012 or 10.5%. For 2013, the cost of administering the plans assets totaled \$17,037 compared to \$13,779 a year ago.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. There were no refunds in 2013. Refunds to members terminating service totaled \$98,184 in 2012.

An actuarial valuation of the Plan's asset and benefit obligations performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the plan decreased from 103.7% at January 1, 2013 to 103.0% at January 1, 2014. The amount by which the plan actuarial assets exceeded actuarial liabilities was \$596,403 at January 1, 2014, compared to the Plan actuarial assets exceeding actuarial liabilities by \$624,141 at January 1, 2013.

The actuarial methods and assumptions for the Judicial Pension Plan are presented here (these actuarial assumptions and methods were updated as adopted by the Board on February 22, 2013):

Valuation Date	January 1, 2014		
Actuarial Cost Method	Individual Entry Age Normal Level		
Amortization Method	Level percent open		
Remaining amortization period	30		
Asset valuation method	Actuarial value equals adjusted market value		
Actuarial assumptions:			
Investment rate of return	7.75%	Projected salary increases	3.75%
Cost of living adjustments	0.00%	Assumed inflation rate	3.25%

Although the actuarial valuation is performed using the assumption for cost of living adjustments for each fund, these assumptions are not necessarily affordable in the long run. The valuations are based on current actuarial valuations, on current asset levels, on 7.75% future returns and on future demographic changes as assumed. Therefore, the actual cost of living adjustments have been recommended by the System's actuary as affordable and will be paid July 1, 2014 as follows: for the Judicial Pension Plan 0.00%.

As of January 1, 2014 the valuation date for the Judicial Plan and the Air Guard Fire Fighters Plan, the State recognized a net pension asset of \$4,800,000, of which \$4.4 million is attributable to the Judicial Plan.

Below is the funding progress for the Judicial Plan as of January 1, 2014:

SCHEDULE OF FUNDING PROGRESS WYOMING JUDICIAL RETIREMENT PLAN JANUARY 1, 2014						
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Valuation Date January 1	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded AAL (UAAL) [(3)- (2)]	Funded Ratio [(2)/(3)]	Covered Payroll	UAAL as a Percentage of Covered Payroll [(4)/(6)]
2012	\$ 16,747,907	\$ 15,657,847	\$ (1,090,060)	106.96%	\$ 4,861,758	-22.42%
2013	\$ 17,549,360	\$ 16,925,219	\$ (624,141)	103.69%	\$ 5,410,651	-11.54%
2014	\$ 20,260,811	\$ 19,664,408	\$ (596,403)	103.03%	\$ 6,213,775	-9.60%

Effective January 1, 2010, liabilities are calculated assuming no future cost-of-living increases.

Law Enforcement Pension Plan:

The Wyoming Law Enforcement Pension Plan is a cost sharing multiple employer defined benefit, contributory plan covering any county sheriff, deputy county sheriff, municipal police officer, Wyoming correctional officer, Wyoming law enforcement academy instructor, University of Wyoming campus police officer, detention officer, or dispatcher for law enforcement agencies and certain investigators of the Wyoming Livestock Board.

The Plan statutorily requires participants to contribute 8.6% of their salary to the Plan and the employer is required to contribute 8.6% of each participant's salary.

The Plan statutorily provides retirement, disability, and death benefits according to predetermined amounts determined by salary, age and years of service of the participant. Any cost of living adjustment provided to retirees must be granted by the State Legislature. In addition a cost of living adjustment will not be approved by the legislature unless the plan is 100% funded after the COLA is awarded. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

The Plan net position held in trust for benefits on December 31, 2013 totaled \$508.5 million, an increase of \$60.4 million from 2012. Additions to the Plan net position held in trust for benefits include employer and employee contributions and investment income. For the calendar year 2013, employee and employer contributions totaled \$26.1 million, an increase from 2012 of \$116,090 or 0.4%. The Plan recognized a net investment gain of \$59.9 million for the year 2013 compared to an investment gain of \$53.8 million in 2012. This is due to the equity market.

Deductions from the Plan net position held in trust for benefits resulted primarily from retirement and beneficiary benefits, administrative expenses, and refunds to employees terminating service. For 2013, benefits totaled \$21.3 million, an increase from \$19.6 million or 8.4%. For 2013, the costs of administering the Plan's benefits totaled \$470,177 compared to \$416,632 during 2012.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds to members terminating service totaled \$4.4 million in 2013, an increase from \$3.6 million during 2012 or an increase of \$850,134.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the Plan was 92.4% compared to 92.3% a year earlier. The amount by which the Plan actuarial liabilities exceeded actuarial assets was \$40.0 million compared to the plan actuarial liabilities exceeding actuarial assets by \$36.3 million a year earlier.

Volunteer Emergency Medical Technician Pension Plan:

The Volunteer EMT Pension Plan is a cost sharing multiple employer defined benefit, contributory retirement plan covering volunteer EMTs who elect to participate in the Plan. Participants are statutorily required to contribute \$12.50 monthly to the Plan, although such contributions may be fully or partially paid by the agency on behalf of participants, if approved by the governing board. The Plan provides retirement and death benefits according to predetermined amounts primarily determined by entry age and years of service of the participant. Participants may withdraw from the plan at any time and receive refunds of participant contributions plus accumulated interest.

The Plans net position held in trust for benefit on December 31, 2013 was \$1,201,375; an increase of \$270,815 from 2012. Additions to the Plan net position held in trust for benefits include employee contributions and investment income. For the calendar year 2013, employee contributions totaled \$23,888; a decrease from 2012 of \$971 or 3.9%. The Plan recognized a net investment gain of \$144,138 for the year 2013 compared to an investment gain of \$105,243 for the year earlier. This is due to the equity market.

Deductions from the Plan's net position held in trust for benefits included administrative expenses and refunds. For 2013, the costs of administering the Plan's benefits totaled \$7,650 compared to \$27,244 a year earlier. For 2013, benefits totaled \$1,130. There were no benefits paid for 2012 due to the plan not having any retired members.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. The Refunds paid to members terminating service for 2013 was \$1,626 compared to \$188 for 2012.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the amount by which the Plan's actuarial assets exceeded actuarial liabilities was \$272,761 compared to the Plan's actuarial assets exceeding actuarial liabilities by \$190,724 a year earlier. The funded status on January 1, 2014 for the plan was 131.7% compared to 126.8% at January 1, 2013.

Air Guard Firefighters Pension Plan:

The Air Guard Firefighters Pension Plan is a single employer defined benefit, contributory retirement plan, covering the Air Guard Firefighters. The Air Guard Firefighters Pension Plan statutorily required 23.77% of the participant's salary to be contributed to the Plan. Contributions consist of 7.12% of the participant's salary as employer contributions and 16.65% as employee contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. The cost of living adjustment provided to retirees must be granted by the State Legislature. In addition a cost of living adjustment will not be granted by the legislature unless the plan is 100% funded after the COLA is awarded. Employers can elect to cover all or a portion of the employee's contribution at their discretion.

The Plans net position held in trust for benefit at December 31, 2013 was \$5.3 million, an increase of \$944,854 from 2012. Additions to the Plan net position held in trust for benefits include employer and employee contributions and investment income/losses. For the calendar year 2013, employee and employer contributions totaled \$442,820, an increase from 2012 of \$77,513 or 21.2%. The Plan recognized a net investment gain of \$595,479 for the year 2013, an increase from 2012 of 110,632 or 22.8%

Deductions from the Plan net position held in trust for benefits included retirement, beneficiary benefits and administrative expenses. For 2013, benefits totaled \$74,455, an increase of \$30,981 or 71.3%. For 2013, the costs of administering the Plan's benefits totaled \$4,718 compared to \$2,899 during 2012.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds paid to members terminating service totaled \$14,272 in 2013. There were no refunds in 2012.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the Plan decreased from 91.7% at January 1, 2013 to 89.15% on January 1, 2014. The amount by which the Plan's actuarial liabilities exceeded actuarial assets was \$629,900 at January 1, 2014, compared to the amount by which the Plan's actuarial liabilities exceed actuarial assets of \$402,673 on January 1, 2013.

The actuarial methods and assumptions for the Air Guard Pension Plan are presented here:

Valuation Date	January 1, 2014		
Actuarial Cost Method	Individual Entry Age Normal Level		
Amortization Method	Level percent open		
Remaining amortization period	30		
Asset valuation method	Actuarial value equals adjusted market value		
Actuarial assumptions:			
Investment rate of return	7.75%	Projected salary increases	4.25%
Cost of living adjustments	0.00%	Assumed inflation rate	3.25%

Although the actuarial valuation is performed using the assumption for cost of living adjustments for each fund, these assumptions are not necessarily affordable in the long run. The valuations are based on current actuarial valuations, on current asset levels, on 7.75% future returns and on future demographic changes as assumed. Therefore, the actual cost of living adjustments have been recommended by the System's actuary as affordable and will be paid July 1, 2014 as follows: for the Air Guard Pension Plan 0.00%.

As of January 1, 2014, the valuation date for the Judicial Plan and the Air Guard Fire Fighters Plan, the State recognized a net pension asset of \$4,800,000, of which \$400,000 is attributable to the Air Guard Plan.

Below is the funding progress for the Air Guard Plan as of January 1, 2014:

SCHEDULE OF FUNDING PROGRESS						
WYOMING AIR GUARD FIRE FIGHTERS RETIREMENT PLAN						
JANUARY 1, 2014						
(1)	(2)	(3)	(4)	(5)	(6)	(7)
* Valuation Date January 1	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded AAL (UAAL) [(3)- (2)]	Funded Ratio [(2)/(3)]	Covered Payroll	UAAL as a Percentage of Covered Payroll [(4)/(6)]
2012	\$ 3,750,702	\$ 4,380,850	\$ 630,148	85.62%	\$ 1,522,749	41.38%
2013	\$ 4,449,572	\$ 4,852,245	\$ 402,673	91.70%	\$ 1,866,393	21.57%
2014	\$ 5,174,861	\$ 5,804,761	\$ 629,900	89.15%	\$ 1,805,329	34.89%

* The Wyoming Air Guard Fire Fighters Retirement Plan was segregated as a separate Plan in 2011

Wyoming Deferred Compensation 457 Plan:

The Plan administered by WRS is an IRS Section 457 Deferred Compensation Plan. This Plan is available as a supplemental plan to the defined benefit retirement benefits of WRS for employees of public employers who have adopted the Plan. Contributions may be made into the Plan (subject to Plan and Internal Revenue Code limitations) by employees of participating employers sponsoring the Plan. Employer contributions may be made into the Plan at rates determined by the employers. There are 17,856 open and 12,744 active participants in the Plan from 275 different employers.

Upon qualifying for distributions, benefits are paid out in lump sums, or as periodic benefit payments, at the option of the participant based on individual account balances and Plan provisions. The Plan's account balances are fully vested to the participants at the time of deposit.

Investments in the Plan are individually directed by Plan participants among Board approved investment options of varying degrees of risk and earnings potential. Participants may transfer their funds between these options daily. Investments of the Plan are valued daily at fair value.

In addition to employee contributions, this Plan also accepts employer contributions on behalf of their employees, provided such contribution when added to the employees' deferred contribution does not exceed the maximum deferral permitted by the IRS. The State contributes \$20 a month per employee participating in the 457 Plan no matter the amount of the employee's contribution. The State contributed \$1,558,693 on behalf of its employees during the year ended December 31, 2013.

The Plan's net position held in trust for Plan participants at December 31, 2013 amounted to \$509 million compared to \$437 million a year earlier. Changes to the Plan net position held in trust for Plan participants include contributions and investment income or loss. The Plan experienced a net increase in market value of \$52,361,453 for the year 2013 compared to a net increase of \$32,623,702 for 2012. For the year 2012, employee contributions and rollovers received totaled \$37.7 million compared to \$41.5 million for 2013. Deductions from the Plan's net position are distributions to participants, and administrative expenses. A participant may request a distribution upon severance of employment, retirement, or an unforeseeable emergency as defined by the IRS Code. For 2013, distributions totaled \$28.0 million compared to \$23.0 million in distributions paid out in 2012.

The cost of the Plan is paid for primarily with administrative fees. Administrative Revenue received totaled approximately \$2.0 million in 2013, which includes participant fees and rebates from investment managers, compared to \$1.8 million in 2012. In years when there is a surplus of participant fees, it is held in trust by WRS for future Plan expenses in periods of down markets. WRS receives a minimal amount of rebates from investment companies, which are also used to fund the costs of plan administration.

In addition to administrative fees, participants also pay fund operating expenses to the fund managers depending on the funds selected. These expenses are deducted daily before share prices are valued. The Plan's record keeper maintains an individual account for each participant to which deferrals and other changes in value are credited.

Administrative expense includes contracted services with the Plan record keeper, investment consultants, as well as other management functions performed by internal employees. The cost of administering the Plan during 2013 totaled \$1,800,126 including \$952,583 in fees paid for contracted services for record keeping, consulting and portfolio management compared to \$1,808,927 in 2012, which included \$954,853 in fees paid for contracted services.

Volunteer Firemen's Pension Plan:

The Volunteer Firemen's Pension Plan is a cost sharing multiple employer defined benefit, contributory retirement plan covering volunteer firemen who elect to participate in the Plan. Participants are statutorily required to contribute \$12.50 monthly to the Plan, although such contributions may be fully or partially paid by political subdivisions on behalf of participants, if approved by the governing board. In addition, the State pays into the Plan 50% of the gross annual tax collected on fire insurance premiums. The Plan provides retirement and death benefits according to predetermined amounts primarily determined by entry age and years of service of the participant. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

The Plan net position held in trust for benefits at December 31, 2013 totaled \$71.2 million, an increase of \$7.0 million from 2012. Additions to the Plan net position held in trust for benefits include employee contributions, 50% of the gross annual tax collected on fire insurance premiums, and investment income. For the calendar year 2013, employee contributions totaled \$341,695, an increase from 2012 of \$20,196 or 6.3%. The Plan recognized a net investment gain of \$8,423,279 for the year 2013 compared with net investment gain of \$7,856,005 a year earlier.

The tax collected on fire insurance premiums totaled \$2,347,267 in 2013 compared to \$1,511,826 received in 2012. Deductions from the Plan net position held in trust for benefits resulted primarily from retirement and beneficiary benefits, administrative expenses, and refunds to employees terminating service. For 2013, benefits totaled \$3.9 million, an increase from \$3.6 million or 7.6% a year earlier. The increase in benefits is due to the fact that there were more retirees being paid than in 2012. For 2013, the cost of administering the Plan's benefits totaled \$133,749 compared to \$215,552 a year earlier.

Refunds are the result of employees leaving public service and requesting the money they contributed plus interest into the system to be refunded. Refunds to members terminating service totaled \$59,785 in 2013, a decrease from \$82,766 a year ago.

An actuarial valuation of the Plan's asset and benefit obligations is performed annually. At the date of the most recent actuarial valuation, January 1, 2014, the funded status of the plan decreased to 92.2% at January 1, 2014 from 93.5% on January 1, 2013. The amount by which the Plan actuarial liabilities exceeded actuarial assets was \$5.7 million on January 1, 2014, compared to the amount by which the plan actuarial liabilities exceeded actuarial assets by \$4.3 million on January 1, 2013.

The State's contributions as employer are as follows:

Year Ended Dec. 31	Employer Contributions				
	Public Employees Pension Plan	WY State Hwy Patrol, G&F Warden, and Criminal Investigator Retirement Plan	Wyoming Judicial Retirement Plan	Wyoming Law Enforcement Retirement Plan	Wyoming AirGuard Fire Fighters
	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution
2011	\$ 58,732,876	\$ 5,320,881	\$ 1,103,550	\$ 6,764,614	\$ 164,217
2012	\$ 59,076,961	\$ 5,525,051	\$ 1,224,671	\$ 6,211,160	\$ 366,882
2013	\$ 59,544,074	\$ 5,942,560	\$ 1,417,125	\$ 6,667,734	\$ 442,820

Contributions have been fully funded in the current and prior years and equals the required contributions for the years then ended.

University of Wyoming**Pension Plans**

Eligible University employees have the option of participating in either the Wyoming Retirement System (WRS) or Teachers Insurance and Annuity Association-College Retirement Equities Fund (TIAA-CREF). WRS is a cost-sharing, multiple-employer public employee defined benefit, contributory retirement plan. TIAA-CREF is a defined contribution plan.

Participants in WRS who retire at age 60 with four years of credited service are entitled to a retirement benefit according to predetermined formulas and are allowed to select one of five optional methods for receiving benefits. Early retirement is allowed provided the employee has completed four years of service and attained the age of 50, but will result in a reduction of benefits based on the length of time remaining to normal retirement age. WRS also provides death and disability benefits. Benefits are established by State statutes. The WRS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, Wyoming 82002 or by calling (307) 777-7691.

Statutes require that 14.62% (effective September 1, 2013) of the covered employee's salary be contributed to the plan, one-half by the employee and the other half by the employer. The University contributes 12.94% of the employee's gross salary funded primarily through appropriations from the State Legislature. The employee contributes the remaining 1.68%. Subsequent to June 30, 2014, the required contribution will increase to 15.87% of which the University will contribute 13.81% and the employee will contribute 2.06%. Contributions are funded as accrued and are immediately vested. For the years ended June 30, 2012, 2013, and 2014, the University's contributions to the WRS were \$7,517,552, \$7,498,797, and \$7,625,551, respectively.

As previously noted, some employees opt to participate in TIAA-CREF, which is a defined contribution plan. In defined contribution plans, benefits depend solely on amounts contributed plus investment earnings. TIAA-CREF also requires contributions of 14.62% of participating employees' salaries. Like WRS, statutes require that contributions be funded by both the employer and employee, and the University has elected to fund 12.94% of the employee's gross salary with the employee contributing the remaining 1.68%. Subsequent to June 30, 2014, the required contribution will increase to 15.87% of which the University will contribute 13.81% and the employee will contribute 2.06%. Contributions are funded as accrued and are immediately vested. The contributions for the years ended June 30, 2012, 2013 and 2014 were \$14,753,805, \$15,218,655 and \$15,462,927, respectively.

Additionally, the University contributed 1% of benefited payroll to the State as a subsidy for retiree benefits. The contributions for the years ended June 30, 2012, 2013, and 2014 were \$1,089,652, \$1,088,741, and \$1,084,733, respectively.

Wyoming Lottery Corporation**Pension Plans**

The Lottery contributes to the Wyoming Retirement System (Plan), a cost-sharing multiple-employer defined benefit pension plan administered by the Wyoming Retirement Board. The Plan provides retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members and beneficiaries. The Wyoming Legislature statutorily establishes and amends benefit provisions. The Plan issues a publicly available financial report that includes financial statements and required supplementary information which may be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, Suite 500, Cheyenne, Wyoming, 82002.

Effective September 1, 2013, the Plan statutorily requires 14.62% of the participant's salary to be contributed to the Plan, paid by the participant and the employer in a manner as determined by the employer. The Lottery has opted to contribute an employer's share of 10.00% of covered participant compensation to the Plan, while the employees' contribute 4.62% covered participant compensation to the Plan.

The Lottery's contributions to the Plan for the year ended June 30, 2014 were \$49,024, equal to the required contributions for the year.

NOTE 11 Risk Management

Self-Insurance Funds

The State maintains two self-insurance plans: the State self-insurance program and the State employee medical, life, and dental insurance programs. Each of these plans is reported as an internal service fund. Estimated claims liabilities do not include non-incremental claims adjustment expense. The University administers its own risk management program and reports a liability in the University funds. A brief description of each of the plans is provided below:

A. State Self Insurance Fund

Wyoming statute 1-41-103 created the State Self Insurance Fund to handle liability insurance claims brought against the State. The range of losses financed includes general liability, automobile liability, police liability, medical malpractice liability, and civil rights. In addition, this plan covers peace officers liability for the political subdivisions within Wyoming. The State generally does not maintain reserves; losses are covered by a combination of appropriations from the State's general fund, Department of Transportation, Game & Fish Commission, and by assessing other State agencies a deductible of up to \$2,500 per claim when the agency is determined to be liable for the loss. The estimated liability for claims against the State including incurred but not reported claims is approximately \$6.2 million as of June 30, 2014. The claims liability estimate is based on an analysis of past, current, and future estimated loss experience, a review of pending claims, an actuarial evaluation. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liabilities may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The above estimate is not discounted and includes all allocated loss adjustment expenses estimated necessary to properly settle the claim. The claims liability does not include unallocated loss adjustment expenses. There is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2014.

B. Group Insurance Fund

The State co-administers employee medical, life, and dental insurance with a third party administrator. The State self-insures medical costs and assumes all the risk for claims incurred by plan participants. Insurance providers solely administer the life insurance plan. The State does not retain any risk of loss under the life insurance plan, as the insurance provider of the plan assumes all the risk for claims incurred by the participants.

During the year ended June 30, 2014, the State contributed up to 85% a month for insurance premiums for each covered active employee towards these plans. Participants are responsible for paying premium charges in excess of this amount. As of June 30, 2014, the medical claims liability, including incurred but not reported claims, was approximately \$30.3 million. A liability is recorded in the accompanying financial statements for the estimated claims liability. The claims liability estimate is based on an analysis of past, current, and future estimated loss experience, a review of pending claims, an actuarial evaluation. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liabilities may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The above estimate is not discounted and includes all claims adjustment expenses estimated necessary to properly settle the claim. There is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2014. No significant reductions in insurance coverage were made in the last fiscal year.

C. University Risk Management

The University is exposed to various risks of loss including torts, theft of, damage to, or destruction of assets, and educators liability. The University has purchased commercial insurance for these risks that include insurance for property and liability. Settlements have not exceeded insurance coverage in any of the last three fiscal years. The uninsured risk retention or deductible per occurrence ranges from \$50,000 to \$100,000 for liability and from \$1,000 to \$250,000 depending on the type of liability or property involved.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable.

The following is a reconciliation of the unpaid claims liability:

	State Self Insurance Fund		Group Insurance Fund		University of Wyoming	
	2013	2014	2013	2014	2013	2014
Claims Liability at Beginning of Fiscal Year	\$ 5,830,005	\$ 5,978,784	\$ 17,515,027	\$ 18,248,289	\$ 750,000	\$ 750,000
Current Year Claims & Changes in Estimates	3,934,679	2,293,707	224,955,178	250,536,301	174,824	181,051
Claim Payments	(3,785,900)	(2,110,562)	(224,221,916)	(238,494,029)	(174,824)	(181,051)
Claim Liability at End of Fiscal Year	\$ <u>5,978,784</u>	\$ <u>6,161,929</u>	\$ <u>18,248,289</u>	\$ <u>30,290,561</u>	\$ <u>750,000</u>	\$ <u>750,000</u>

The University included their unpaid claims liability under the caption of "Accounts Payable."

Insurance Enterprise and Public Entity Risk Pools

The State administers three insurance enterprises: workers' compensation insurance, the Wyoming health insurance pool, and the mine subsidence insurance which are reported in enterprise funds. None of these funds have acquisition costs, therefore, no cost is amortized for the period. Unpaid claims and claim adjustment expenses are estimated based on the ultimate cost of settling the claim, including the effects of inflation and other social and economic factors. These funds use the accrual basis of accounting. The insurance enterprises do not consider anticipated investment income in determining if a premium deficiency exists. A brief description of the insurance enterprises and the pool are provided below:

- A. Workers' Compensation Insurance Fund-** Wyoming statute 27-14-101-806 created the Wyoming Workers' Compensation Act (Act). This Act requires all employers engaged in extra hazardous employment to obtain liability coverage for the payment of benefits to employees for job related injuries and diseases through the Workers' Compensation Insurance Fund. Eligible employers complying with the provisions of the Act are generally protected from suit by employees. Employers not required by the Act to participate in this program may elect to do so at their option. As of June 30, 2014, there were 19,019 employers insured under this Act.

The fund is used to account for the State's Workers' Compensation program that provides time-loss, medical, and disability payments to qualifying individuals sustaining work-related injuries, or death benefits to dependent families if the worker were to die from such injuries. To fund these benefits, the State charges employers' monthly premiums based on rates it establishes for each employment classification, the employer's experience rating, and the total payroll for covered employees in each particular classification. The Act requires that rates be established at a level to maintain an actuarially sound insurance program. The State is working towards funding the workers' compensation liabilities by 2014 through premium rate adjustments.

An actuarial study has estimated the liabilities and the ultimate cost of settling claims that have been reported but not settled and of claims that have been incurred but not reported. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liabilities, claims adjudication, and judgments, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are re-computed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic, legal and social factors.

A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. The Department of Employment uses an undiscounted Workers' Compensation Insurance Fund balance when determining industry base rates for employer premiums. For consistency between the Department of Employment's Workers' Compensation Insurance Fund balance used for rate setting purposes and Workers' Compensation Insurance Fund balances shown in the CAFR, the Workers' Compensation Insurance Fund balance is shown at an undiscounted value. At June 30, 2014, approximately \$1,685 million of claims and adjustment expenses have been accrued. The State does not use reinsurance agreements, therefore the State retains full liability as the direct insurer.

B. Wyoming Health Insurance Fund

This fund is comprised of two programs: the Wyoming Health Insurance Pool and the Wyoming Small Employer Health Reinsurance Program.

Wyoming Health Insurance Pool (WHIP)

Wyoming statute 26-43 created the Wyoming Health Insurance Pool (Pool) for the purpose of providing health insurance for State residents. Qualifying State residents who are denied insurance by private carriers or leave coverage because of excessively high premiums or restrictive coverage may join the Pool. The Pool began providing health insurance coverage to participants on January 1, 1991. The statute creating the Pool contains a sunset provision that calls for the Pool to be terminated on July 1, 2015, unless authorization is continued. The State co-administers the Pool along with a third party insurance provider, Blue Cross Blue Shield of Wyoming; however, the Pool retains all risk of loss for claims filed by Pool participants. As of June 30, 2014, 983 residents were covered under the Pool. A copy of the Pool's financial report may be obtained by contacting Blue Cross Blue Shield of Wyoming in writing at 4000 House Avenue, Cheyenne, Wyoming 82001.

The Pool's liability exposure per participant is a maximum lifetime benefit of \$750,000 for one Plan and \$1,000,000 for an alternate Plan. Premiums are collected from Pool participants to pay Pool expenses; however, if such premiums are insufficient to meet expenditures, the State has the authority to assess all carriers who write health insurance policies in the State to cover Pool deficits.

The estimated liability for unpaid claims and loss adjustment expense is based on data developed by the Pool's third-party administrator. Since the Pool has limited historical experience of its own, industry experience is also considered in determining the estimated liability. The liability includes estimates of the costs to settle individual claims that have been reported, plus a provision for losses incurred but not yet reported. The undiscounted liability for unpaid claims and claim adjustment expenses is \$900,000 at June 30, 2014.

Wyoming Small Employer Health Reinsurance Program (WSEHRP)

Wyoming statute 26-19-301, et. seq. created the Wyoming Small Employer Health Insurance Availability Act (the Act). The purposes of the Act are to 1) promote the availability of accident and health insurance coverage to small employers, 2) to provide reinsurance as a mechanism to fairly share risk, and 3) to improve the efficiency and fairness of the small employer group accident and health insurance marketplace.

The WSEHRP (the Program) is created under Wyoming Statute 26-19-307. The program is funded by reinsurance premiums paid by participating carriers and assessments against all authorized insurers who pay premium taxes to the State of Wyoming. Each year the Program's net earnings are determined. If net earnings are negative (i.e. the Program has operated at a loss), the loss is recovered by assessments against all authorized insurers. An independent board determines each authorized insurer's assessment in accordance with statutory provisions. As of June 30, 2014, the Program is reinsuring 108 lives. Whole group plans no longer reinsure lives and 104 individual plans reinsure 108 lives. A copy of the Pool's financial report may be obtained by contacting the Wyoming Department of Insurance at 106 East 6th Avenue, Cheyenne, Wyoming 82002.

The estimated liability for unpaid claims and loss adjustment expense is based on data maintained by the Program's reinsurance intermediary manager, Pool Administrators, Inc., Wethersfield, CT. The Program's claim loss reserve is made up of two amounts, one being claims payable and the other being claims incurred but not reported (IBNR). Claims payable are claims that have been submitted by carriers to the administrator for reimbursement but, as of the date of the financial statements, have not been paid. Claims incurred but not reported are estimated claims, based on the past experience of the Program, that have been incurred by the carriers participating in the Program that have not yet been submitted to the administrator for reimbursement. The basis for this estimate is a loss ratio applied to current earned premium. The Program is currently estimating incurred claims at a rate of 550% of premium. As of December 31, 2013, the claims payable balance was \$504,453 and the IBNR was estimated at \$3,946,900 for a total loss reserve balance of \$4,451,353. As of June 30, 2014, the claims payable balance was \$989,550 and the IBNR was estimated at \$3,586,782 for a total loss reserve balance of \$4,576,332.

- C. Subsidence Insurance** - Wyoming Statute 35-11-13 requires the Department of Environmental Quality (DEQ) to administer an insurance program to cover mine subsidence loss to specified structures in the State. The Wyoming Mine Subsidence Insurance Program provides insurance to any individual whose home or business exists, over or near, any underground mine in the State. On October 29, 1986, the DEQ received a funding grant from the Federal Department of Interior's Office of Surface Mining to assist with administrative and claim costs. A grouting program was initiated in Rock Springs in 1986. A cement type of material is used to fill those abandoned mines subject to the greatest risk of subsidence. As of June 30, 2014, there were 108 policyholders with in-force premiums. The insured value of these policies is \$1,276,348. There were no unresolved or pending claims as of June 30, 2014. This program had an actuarial valuation performed in 2009 that is used to determine that premiums charged to participants are sufficient to meet anticipated claim expense. This evaluation concluded that current premium rates are more than adequate to cover expected claims and expenses of the program.

The following table summarizes current period activity for the State insurance enterprise funds:

	Workers' Compensation Insurance Fund		Wyoming Health Insurance Fund	
	2013	2014	2013	2014
Claims Liability at Beginning of Fiscal Year	\$ 1,458,279,677	\$ 1,546,421,797	\$ 12,551,675	\$ 8,253,032
Incurred Claims & Claim Adjustment Expenses:				
Provisions for Insured Events of the Current Year	262,648,715	277,222,541	19,072,737	16,141,053
Increase in Provision for Insured Events of Prior Years	(1,715,000)	56,465,000	(6,140,932)	(3,661,405)
Total Incurred Claims & Claim Adjustment Expense	260,933,715	333,687,541	12,931,805	12,479,648
Claims & Claim Adjustment Expenses Attributable to Insured Events of Current Year	(41,345,194)	(47,892,003)	(14,038,082)	(12,555,689)
Claims & Claim Adjustment Expenses Attributable to Insured Events of Prior Year	(131,446,401)	(147,107,309)	(3,192,366)	(2,700,659)
Total Payments	(172,791,595)	(194,999,312)	(17,230,448)	(15,256,348)
Total Unpaid Claims & Claim Adjustment Expenses at End of Fiscal Year	\$ 1,546,421,797	\$ 1,685,110,026	\$ 8,253,032	\$ 5,476,332

NOTE 12 Governmental Fund Balances

A. Governmental Fund Balance Classifications

The State's fund balances are classified in a hierarchical structure with the following classifications: (1) Nonspendable—this classification represents fund balance that can never be spent (corpus) or fund balance that are not in spendable form (inventory, prepaids), (2) Restricted—this classification includes those balances that are legally restricted for specific purposes due to constraints that are externally imposed by creditors, grantors, contributors, laws or regulations of other governments, (trust agreement) or enabling legislation, (3) Committed—refers to fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the legislature and can only be removed by an action of the legislature, (4) Assigned—this fund balance classification includes amounts that have been constrained to being used for a specific purpose, but are neither restricted or committed, (5) Unassigned—fund balance is that portion of fund balance that is available for any purpose the government chooses.

B. Stabilization Fund (Rainy Day Fund)

GASB 54 states a government may set aside amounts for use in emergency situations or when revenue shortfalls or budgetary imbalances arise. Those amounts are subject to controls that dictate the circumstances under which they can be spent. Governments may have formal arrangements to maintain amounts for budget or revenue stabilization, working capital needs, contingencies or emergencies, and other titled purposes. The authority to set aside those amounts generally comes from statute, ordinance, resolution, charter, or constitution.

For purposes of reporting fund balance, stabilization is considered a specific purpose as defined in GASB 54 and should be reported as restricted or committed if they meet the above criteria. Because the State does not have a formal stabilization arrangement, the fund balance of the State's Rainy Day Fund—the Legislative Stabilization Reserve Account (LSRA) is presented in the General Fund as unassigned fund balance.

C. Minimum Fund Balance Policy

The State does not have a minimum fund balance policy. It is current policy for the general fund that at the end of each biennium, the unobligated, unspent portion of fund balance is swept to the LSRA account. Similarly, the State's Budget Reserve Account is swept to the LSRA as well, except for cash representing five percent of the total general fund revenues collected.

D. Policy on use of Unrestricted Fund Balance

The State does not have a formal policy on the use of unrestricted fund balance and therefore adopts GASB 54 recommendation that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The State does not have a formal policy on the use of funds when both restricted and unrestricted resources are available for use, it is assumed that restricted resources are used first, then unrestricted resources as they are needed.

Below is a presentation of the fund balance classifications for the governmental funds:

	General Fund	School Foundation Program Fund	Common School Land Fund	Permanent Mineral Trust Fund	Non-Major Governmental Funds	Totals
Fund Balance						
Nonspendable:						
Corpus	\$ 0	\$ 0	\$ 3,346,418,425	\$ 6,932,139,714	\$ 694,322,175	\$ 10,972,880,314

Note 13 Commitments and Contingencies

Federal Grants

Grant monies received and disbursed by the State are for specific purposes and are subject to audit by the grantor agency. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience and current knowledge, the State does not believe that such disallowances, if any, would have a material effect on the financial position or results of operations of the State.

School Capital Construction Commitments

As of June 30, 2014, the State has signed agreements for contracts/obligated amounts—totaling approximately \$634.8 million with school districts throughout the state that commit the State to provide funding for school district capital construction projects. As of June 30, 2014, approximately \$363 million was unexpended under these agreements.

Component Unit Capital Construction Commitments

As of June 30, 2014, the State has signed agreements for contracts/obligated amounts—totaling approximately \$54 million with component units throughout the state that commit the State to provide funding for component capital construction projects. As of June 30, 2014, approximately \$45 million was unexpended under these agreements.

Investment Commitments

The State has committed to provide funding to certain private equity and real estate investments. The State's total commitment amount is \$1,220 million. This includes \$1,187 million in capital for investment and up to \$33 million for management fees. The State had invested \$446.6 million in these investments at June 30, 2014.

Encumbrances

The State of Wyoming utilizes encumbrance accounting to identify fund obligations.

The following shows significant encumbrance in total by each major fund and non-major fund in the aggregate of the governmental funds as of the fiscal year ended June 30, 2014. These encumbrances have outstanding amounts of \$500,000 or greater.

General Fund	\$ 319,817,603
Foundation Program Fund	\$ 10,593,109
Non-Major Governmental Funds	\$ 314,347,584

Wyoming Retirement System

At December 31, 2013, WRS was committed to the future purchase of investments at an aggregate cost of \$303,106,079. WRS leased a commercial office facility, under a non-cancelable lease agreement. Future minimum rental commitments are \$95,246 for 2013-2014. The lease agreement expires on June 30, 2014.

Wyoming Business Council

Loans approved by the Council's Board of Directors but undistributed as of June 30, 2014 totaled \$10,181,977. These will be funded by a combination of State appropriations and restricted net position.

Wyoming Business Council—Transactions with the State, University of Wyoming, Wyoming Office of Tourism, and Wyoming Department of Transportation

The Council pays for services provided by the State for certain phone service, computer processing, motor pool vehicles, State plane usage, loan exam services and central mail. Total amounts expended for these services for the year ended June 30, 2014 were \$200,814.

The Wyoming Office of Tourism pays the Council for certain support services in the areas of fiscal and contract compliance, human resources, payroll, and information technology. The total amount received for these services for the year ended June 30, 2014 was \$80,000.

The Council has entered into several agreements with the University of Wyoming (UW) to fund various projects which include the Market Research Center, Research Product Center, Manufacturing-Works, Small Business Development Centers, Small Business Innovation Research, Procurement Technical Assistance Center, Technology Business Center, and Small Business Technology Transfer programs. Total amounts expended to UW for the year ended June 30, 2014 were \$2,803,385, of which \$194,936 is included in accounts payable as of June 30, 2014. The Council is committed for amounts remaining under these agreements in the amount of \$314,687 as of June 30, 2014.

The Council has entered into an agreement with the Wyoming Department of Transportation (WYDOT) to provide funds to update the state's railroad plan to include an assessment of freight and passenger needs and an analysis of future growth, capacity constraints and economic and environmental impacts. Total amounts expended to WYDOT for the year ended June 30, 2014 were \$22,008, of which \$1,412 is included in accounts payable as of June 30, 2014. The Council is committed for amounts remaining under this agreement in the amount of \$27,992 as of June 30, 2014.

Wyoming Business Council—Other commitments and contingencies

The Council has contracted and/or committed funds for various projects, services, and other items arising in the normal course of operations. The amounts remaining to complete these commitments totaled \$45,759,247 as of June 30, 2014. These commitments will be funded by a combination of restricted net position, State appropriations, and Federal revenues.

Construction and Software Development Commitments

As of June 30, 2014, there were 87 uncompleted projects. The remaining commitment to complete these projects totaled approximately \$89,691,528. The completion costs will be financed by a combination of State appropriations and federal grants. The following table shows these construction projects summarized to an agency level.

Agency	Appropriation Amount	Expended Amount	Remaining Encumbrance	Remaining Balance to Obligate
Department of A&I Construction Projects	\$ 9,976,500	\$ 6,208,023	\$ 248,903	\$ 3,519,574
Military Department Construction Projects	28,572,288	14,754,306	4,596,611	9,221,371
Department of Environmental Quality Software Development	5,882,793	5,014,506	50,266	818,021
Department of Parks and Cultural Resources Construction Projects	8,046,060	3,898,895	479,476	3,667,689
Department of Game and Fish Construction Projects	863,580	760,459	73,802	29,319
Fire Prevention & Electrical Safety Software Development	1,518,570	1,516,310	1,960	300
Department of Workforce Services	70,070,088	3,191,542	60,067,149	6,811,397
Dept of Corrections Construction Projects	1,615,260	1,509,570	180	105,510
Legislature Service Office Software Development	2,025,517	2,025,517	0	0
	<u>\$ 128,570,656</u>	<u>\$ 38,879,128</u>	<u>\$ 65,518,347</u>	<u>\$ 24,173,181</u>

University of Wyoming

The University has contracted and/or appropriated funds for the planning and construction or maintenance of several facilities with an aggregate cost of approximately \$217,954,000. As of June 30, 2014, the remaining commitment to complete these projects totaled approximately \$69,361,850. These completion costs will be financed by a combination of State appropriations and private gifts and grants.

The University is a defendant in several lawsuits including various claims related to its normal operations. The University believes that final settlement of matters not covered by insurance will not materially affect its financial condition.

During the year ended June 30, 2012, the University adopted the provisions of Statement No. 60 of the Governmental Accounting Standards Board, *Accounting and Financial Reporting for Service Concession Arrangements*. On July 1, 2011, the University entered into an agreement with an unrelated entity that provides for the construction of a 332-bed student housing facility, Bison Run Village, on land owned by the University Bison Run Village. The agreement expires after 32 years at which time ownership of the facility reverts to the University. The University will manage the facility for the owner over the term of the agreement.

In August 2012, construction was completed on the Bison Run Village project and the facility was placed into service. The facility is being operated by the University under a management agreement for the next 31 years. At the end of the arrangement, ownership and operation of the project will be transferred to the University. The University is reporting the project as a capital asset with a carrying amount of \$15,167,172 and related deferred inflows of resources of \$15,167,172 at June 30, 2014.

Leases

The State is committed under various leases that are considered operating leases. The operating lease expenditures/expenses are recognized as incurred or paid.

Governmental funds rental expenditures under operating leases for the year ended June 30, 2014 were \$11,772,250. Future rental commitments for operating leases are as follows:

Year Ending June 30	Governmental Fund Types
2015	\$ 11,108,568
2016	9,538,002
2017	8,555,850
2018	7,463,863
2019	6,041,993
Thereafter	38,864,578
	<u>\$ 81,572,854</u>

Wyoming Lottery Corporation

The Lottery entered into a five-year operating lease effective October 1, 2013 for the rental of office space for its headquarters. The lease expires September 30, 2018, and is renewable at the option of the Lottery for an additional five years subject to the 2% per year rate increases provided in the original agreement.

The Lottery was required to pay \$2,500 per month through December 31, 2013. Effective January 1, 2014, the monthly rent increased to \$5,000 per month. Effective January 1, 2016 and for each January 1st thereafter, the monthly rent will be increased by an amount equal to 2%.

Future minimum rental payments on the operating lease are scheduled as follows:

Year Ending June 30	Amount
2015	\$ 60,000
2016	60,600
2017	61,812
2018	63,048
2019	15,918
Total minimum payments	<u>\$ 261,378</u>

Rent expense under the operating lease was \$39,300 for the year ended June 30, 2014.

Wyoming Business Council

The Council has entered into operating leases for office space and equipment. Expenditures or expenses on these leases are recognized as incurred. Total rent expenses for these operating leases for the year ended June 30, 2014 was \$176,805. Future minimum leases payments for these operating leases are as follows:

Year Ending June 30	Amount
2015	\$ 141,721
2016	131,012
Total minimum payments	<u>\$ 272,733</u>

Contingencies

Under the School District Bond Guarantee Program the Wyoming State Loan and Investment Board approved the guarantee of approximately \$3.4 million of bonds by the State through the year ended June 30, 2014. The State approved the following bonds as of June 30, 2014:

School Districts Approved	Issued Date	Issued Amount	Outstanding Bond Principle	Available for Future Guarantee
Fremont County School District #1	May 24, 2012	\$ 3,450,000	\$ 2,600,000	
		\$ 3,450,000	\$ 2,600,000	\$ 297,400,000

The Legislature has placed a \$300 million cap under the School District Bond Guarantee Program, of which \$296,550,000 is still available as noted above. This guarantee program only applies to refunding issues for bonds issued by school districts on or before November 1, 2001 and no longer applies to original issues after this date.

Wyoming Statute 35-11-1414, *Water Pollution from Underground Storage Tanks Corrective Action Act of 1990*, requires that the State establish a corrective action and financial responsibility account which is funded by mineral severance taxes as well as certain registration fees. In addition, this statute requires the Department of Environmental Quality to establish a prioritized list of sites contaminated by tanks and to take corrective action. As of June 30, 2014, 1,613 contaminated sites have been identified and 1,104 have been resolved. The State remediates contaminated sites as funding allows, and the statute limits the State's responsibility for clean-up costs to funding available in the corrective action accounts.

Governmental Accounting Standards Board Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (GASB 49) became effective for the State for the year ended June 30, 2009, requiring governmental entities to recognize a liability for the future pollution remediation costs which meet obligating events criteria defined by GASB 49. The estimated pollution remediation obligation at June 30, 2014 is \$55,192,346.

The cost of remediating the sites discussed above has been estimated by the Department of Environmental Quality and is based on their experience in the remediation of previous sites.

The State is also a party to various legal proceedings arising in the normal course of business. The State believes that the outcome of these matters will not have a material adverse impact on the State's financial position or results of operations.

Wyoming Community Development Authority

At June 30, 2014, the Authority was committed to purchase single-family mortgages aggregating approximately \$600,000 under the 1978 Indenture, \$2,200,000 under the 1994 Indenture, \$29,400,000 under the Warehouse Indenture, \$3,365,181 under various Federal Programs, \$310,000 under the Housing Trust Fund, and \$2,840,000 under the FNMA Program.

The Authority has variable rate bonds outstanding in the 1978 Indenture of \$46,545,000 and in the 1994 Indenture of \$121,260,000. These bonds are subject to tender at par for repurchase by the Authority at the option of the bondholders; however, the Authority may remarket these bonds if they are tendered by the bondholders.

As of June 30, 2014, the entire \$46,545,000 of the variable rate debt in the 1978 Indenture was subject to a repurchase commitment assumed by the Bank of America/Merrill Lynch through a standby bond purchase agreement. The \$121,260,000 of the variable rate debt in the 1994 Indenture was subject to two repurchase commitments, one assumed by the Bank of New York Mellon (\$65 million) and one assumed by State Street Bank and Trust Company (\$56.26 million), through two standby bond purchase agreements.

Under these agreements, the providers will purchase any bonds tendered by bondholders and not successfully remarketed by the settlement date, and will adjust the interest rate associated with any unremarketed bonds to a bank rate. As of June 30, 2014, no variable rate bonds were held as unremarketed bank bonds under the terms of a standby bond purchase agreement.

The Authority uses a number of insurers for its mortgage receivables as noted in Note 4. The Authority requires private mortgage insurance (PMI) on some mortgages with coverage ranging from 30% to 50% of the outstanding balances. Approximately 10% of the Authority's outstanding mortgage receivable balances were covered by PMI from Radian and approximately 11% from Genworth, as of June 30, 2014.

Note 14 Subsequent Events

State of Wyoming

Opportunistic Credit - In June 2014, the State Treasurer recommended a \$300 million opportunistic credit investment. At this time, no managers have been funded under this mandate.

Domestic and Global Equity - The Treasurer's Office began a holistic examination of the state \$2.4 billion U.S. equity portfolio in the late summer of 2013 as part of its cyclical review of portfolio strategies. The Board approved a new domestic equity structure on August 14, 2014. The review resulted in the hiring of an all cap equity passive manager, two all cap equity active managers, and one small cap equity manager. These mandates were funded in October 2014.

Wyoming Business Council

The Council has entered into various agreements subsequent to June 30, 2014, primarily with local governments for economic development infrastructure projects during the period July 1, 2014 through June 30, 2019. These agreements are valued at up to but no more than \$33,087,012. These agreements will be funded by a combination of State appropriations and Federal revenues.

The Council distributed \$225,000 after June 30, 2014 out of the Economic Development Fund for loans approved but undistributed as of June 30, 2014.

The Council distributed \$150,000 after June 30, 2014 out of State appropriations for a loan approved but undistributed as of June 30, 2014.

Wyoming Lottery Corporation

The Lottery began selling Powerball® and Mega Millions® on August 24, 2014. The Lottery reached its first \$1,000,000 in sales within the first two weeks after launch.

Related to the lottery sales above, the Lottery will incur a prize expense and significantly larger gaming expenses, including vendor expense and retailer commissions, which will be 11.89% and 6% of the ticket sales, respectively.

In February 2014, the Lottery entered into a contract with Warehouse Twenty One, Inc. (the "Warehouse 21") to provide marketing services and marketing projects. The contract was amended and restated in August 2014. The agreement expires June 30, 2019 and may be extended up to three times, for a period of time not exceeding June 30, 2034. Under the terms of the contract, the Lottery shall compensate Warehouse 21 on a project basis, but no less than \$1.5 million annually. For the year ended June 30, 2014, the Lottery incurred expenses to Warehouse 21 of \$379,281, of which \$37,911 was capitalized as capital assets.

In April 2014, the Lottery entered into a contract with Intralot, Inc. ("Intralot") to provide an on-line lottery gaming system and related products and services. The initial revenue portion of the contract commenced at System Start-UP (go-live) on August 24, 2014 and will expire August 25, 2019; however, the contract may be extended for additional periods of time upon mutual agreement, not to exceed three, five-year extensions, unless authorized by the CEO of the Lottery. Under the terms of the contract, the Lottery pays Intralot a fee based on a percentage of the Lottery's sales.

In June 2014, the Lottery entered into a contract with Gaming Laboratories International, LLC, ("GLI") to provide gaming system and administrative system testing services. The agreement expires June 25, 2024, and may be extended by one, ten-year extension, unless deemed in the Lottery's best interest. The Lottery shall compensate GLI for hours worked on a graduated basis (between \$120-\$150 per hour) over the life of the contract.

On July 1, 2014, the Lottery became a member of the Multi-State Lottery Association ("MUSL"), which operates games on behalf of participating lotteries. Under the Lottery's agreement with MUSL, the Lottery must remit to MUSL, the Lottery's share of the prize pool. The amount remitted to MUSL will be equivalent to approximately 50% of its Powerball® and Mega Millions® ticket sales, which covers the high-tier prizes.

Wyoming Community Development Authority

On July 9, 2014, the Authority instructed its trustee to call on August 1, 2014 bonds in the amounts of \$30,770,000 from the 1994 Indenture.

On July 14, 2014, the Authority instructed its trustee to call on August 1, 2014 bonds in the amounts of \$8,575,000 from the 2009 Indenture.

On August 12, 2014, the Authority instructed its trustee to call on September 2, 2014 bonds in the amounts of \$73,515,000 from the 1994 Indenture and \$46,545,000 from the 1978 Indenture. This call effectively closes the 1978 Indenture.

On August 26, 2014, the Authority issued \$138,225,000 of bonds under the 1994 Indenture.

Wyoming Retirement System

During the 2014 Legislative session, WRS had one bill (HB 0046) approved by the State Legislature. This bill will increase employee and employer contributions to the following plans accordingly:

Public Employee's Pension Plan: every member covered under this plan shall pay into the account 7.5% of their salary through June 30, 2014, and thereafter 8.25%. For state employees, the state has elected to fund part of the employee increase. The contribution rate will increase from 5.82% to 6.195% beginning July 1, 2014 through June 30, 2016 and from July 1, 2016 through June 30, 2017 the contribution will be 5.945%. For full-time brand inspection contract employees, for the period July 1, 2014 through June 30, 2016, the contribution rate will increase to 6.195% and for the period from July 1, 2016 through June 30, 2017, the rate will be 5.945%.

The employer's contribution for the period from July 1, 2014 through June 30, 2015 remains at 7.62% but thereafter will increase to 8.37% of salary paid.

The Highway Patrol, Game and Fish Wardens and Criminal Investigation Plan: employee contribution will increase July 1, 2014 from 13.54% to 14.56%. The portion of the contribution rate that shall be made by the employer will be .45% from September 1, 2013 through June 30, 2014; .96% from July 1, 2014 to June 30, 2016 and .51% from July 1, 2016 through June 30, 2017.

The employer's contribution for the period from July 1, 2014 through June 30, 2015 will increase from 12.96% to 13.86% and thereafter 14.88% of salary paid.

Paid Firemen in Plan B: employee contributions increase from 8.725% through June 30, 2014 and thereafter it will increase to 9.245%.

Note 15 Related Party Transactions

The State of Wyoming Construction Management Division of Administration and Information continues construction on the University of Wyoming Science, Technology, Engineering and Mathematics building. Total projected cost of this project is \$50 million. In addition, the State has completed a condition assessment for the purchase of the Snowy Range Academy building, which in turn will be donated to the Albany County School District #1. The total projected cost for the building is \$4 million. The amount reported by the State under "Amount held for Donation" totaled \$9,024,557 at June 30, 2014. The State will continue to track these costs in this account until such time as the building is placed into service.

Note 16 New Pronouncements

Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27

Statement No. 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time and to more comprehensively and comparably measure the annual costs of the pension benefits.

This statement was issued to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency.

The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2014, fiscal year 2015 for the State of Wyoming. The effect that the adoption of Statement No. 68 will have on the State's financial statements has not been determined.

Statement No. 69 Government Combinations and Disposals of Government Operations

This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this Statement, the term *government combinations* includes a variety of transactions referred to as mergers, acquisitions, and transfers of operations.

The requirements of this Statement are effective for government combinations and disposals of government operations occurring in financial reporting periods beginning after December 15, 2013, fiscal year 2015 for the State of Wyoming. The effect that the adoption of Statement No. 69 will have on the State's financial statements has not been determined.

Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date

This Statement was issued to improve accounting and financial reporting by addressing an issue in Statement No 68, *Accounting and Financial Reporting for Pensions*, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

The provisions of this Statement should be applied simultaneously with the provisions of Statement 68, which will be fiscal year 2015 for the State of Wyoming. The effect that the adoption of Statement No. 71 will have on the State's financial statements has not been determined.

Required Supplementary Information

Budgets

The Legislature appropriates substantially cash basis budgets for a majority of the funds at the program level (administration, revenue division, investigations, etc.) within an agency. The State budget office maintains budgets for budgeted funds at the series level (personnel services, support services, etc.) within a program. Agency budget analysts are allowed to transfer appropriations from one series to another series within an agency's program but the Governor must approve all changes in appropriations at the program level. The State's legal level of budgetary control is at the program level.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation, is employed for governmental fund types. Encumbrances outstanding at June 30, 2014, for which the goods or services have not been received, are disclosed as commitments of the primary government.

Reconciliation from the Budgetary Basis of Accounting to the GAAP Basis

	General Fund	Foundation Program Fund
Budgetary Basis Excess (Deficit)		
Revenues over (under) Expenditures	\$ 58,272,837	\$ 67,036,289
Changes in certain revenue and expenditure accruals	(683,642,309)	(74,428,458)
Activities not included in the General Fund budget	918,074,468	0
Revenue and/or Expenditures from previous biennium budgets	(78,295,971)	(10,659,237)
Encumbrances as of June 30, 2014	249,141,494	13,636,997
Non-budgeted expenditures	(1,321,603)	(1,463,964)
GAAP Basis Excess (Deficiency) of Revenues and Other Financing Sources over (Under) Expenditures and Other Financial Uses for the biennium	\$ <u>462,228,916</u>	\$ <u>(5,878,373)</u>
Net Change in Fund Balance:		
Year ended June 30, 2013	\$ (2,753,525)	\$ 163,368,855
Year ended June 30, 2014	<u>464,982,441</u>	<u>(169,247,228)</u>
Total net change for the biennium	\$ <u>462,228,916</u>	\$ <u>(5,878,373)</u>

Supplemental appropriations and additional appropriations approved by the Governor are included in the column titled "B11's & Supplemental Budget." In the budget and actual statements, encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded as expenditures and liabilities in order to reserve that portion of the applicable appropriation, is employed for budgetary control purposes. Some unencumbered appropriations lapse at the end of each biennium. Revenue budgets are not legislatively established but are determined by individual agencies or the Consensus Revenue Estimating Group.

Most governmental and special revenue funds have legally adopted biennial budgets except for the Game and Fish Fund (this fund has an annual legally adopted budget) and the following permanent funds – Permanent Mineral Trust Fund, Wyoming Wildlife Trust Fund, Wyoming Tobacco Settlement Fund, and Wyoming Military Asst. Fund, Montgomery Home for the Blind Fund, the Wyoming Cultural Trust Fund, the Sundry Trust Fund and the Higher Education Endowment Trust Fund. The Debt Service Fund does not have an adopted budget. The Capital Project Fund utilizes the method of adopting project-length budgets for the capital projects, accordingly, therefore supplementary budgetary reporting does not apply to the Capital Project Fund.

Wyoming Department of Transportation Infrastructure Using Modified Approach

The Wyoming Department of Transportation (DOT) accounts for its infrastructure assets using the modified approach. The infrastructure consists of the road subsystem, the bridge subsystem and communication subsystem.

DOT manages its road network with a pavement management system developed by the Department. A consulting firm is contracted to collect the data. The pavement condition is rated in three areas: ride, rutting, and cracking. The ride is measured by suspension movement using an index called the present surface index (PSI). The rutting is measured using the height difference between the lane center and each wheel path of a cross section of the road to determine the rut index (RUT). The cracking measures the width and frequency of the cracks to establish the pavement condition index (PCI). A composite rating is derived from the three condition ratings called the pavement serviceability rating (PSR). The pavement management system establishes a PSR on a scale from 0 to 5 for each road section with the following categories: excellent 5.0 to 3.5, good 3.5 to 3.0, fair 3.0 to 2.5 and poor 2.5 to 0. It is DOT's goal to maintain its National Highway System (NHS) at an average rating of 3.25 (good) for the NHS system as a whole and it's off the National Highway System (Non-NHS) at an average rating of 3.00 (fair) for the Non-NHS system as a whole. Each road section has data collected every other year. The road subsystem condition assessment is done every year.

As of September 30, 2013, the overall PSR for the NHS was 3.54 and the Non-NHS was 3.23. As of September 30, 2012, the overall PSR for the NHS was 3.46 and the Non-NHS was 3.19. As of September 30, 2011, the overall PSR for the NHS was 3.52 and Non-NHS was 3.20. The number of miles for NHS and Non-NHS with excellent to good condition and fair to poor condition are as follows:

PSR Condition Rating	NHS						NON-NHS					
	2011		2012		2013		2011		2012		2013	
	# of Miles	Percent										
Good to Excellent	2,661	69.2%	2,603	67.8%	2,891	72.8%	1,572	44.3%	1,625	45.8%	1,662	48.5%
Poor to Fair	1,182	30.8%	1,235	32.2%	1,081	27.2%	1,975	55.7%	1,921	54.2%	1,764	51.5%
	3,843	100.0%	3,838	100.0%	3,972	100.0%	3,547	100.0%	3,546	100.0%	3,426	100.0%

The Department uses a comprehensive bridge management system (PONTIS) to assist in managing the State's bridges. Each bridge is inspected at least once every two years. This inspection measures, assesses, and records the required National Bridge Inventory (NBI) items, including dimensions, clearances, alignment, waterway data and structural condition. The structural condition is evaluated by using structural elements. Each component of the bridge (girders, deck, railing, columns, piling, etc.) is assigned an element and the condition of each element is evaluated based on several condition assessments. The structure's NBI data is then used to determine its Wyoming Bridge Index (WBI).

The new highway bill, Moving Ahead for Progress in the 21st Century (MAP-21), has restructured the core highway formula programs into the National Highway Performance Program (NHPP). The Highway Bridge Program (HBP) was one of the programs that was restructured, and as such, there is no longer a select list to determine deficient bridges. WYDOT has elected to use the WBI to replace the select list criteria used in the past.

The WBI provides a high level view for reporting purposes while individual components help distinguish differences in bridge attributes that may otherwise go unnoticed when using a single rating or index (e.g. Sufficiency Rating). It is composed of a Structural Condition Rating (SCR), Maintenance Rating (MR), Functionality Rating (FR), and Risk Rating (RR). These ratings are assessments of a bridge's current structural adequacy, condition of commonly maintained components, attributes affect on users, and vulnerability to extreme events. The bridges are given an overall WBI Performance Category of excellent 100 to 93, good 93 to 85, fair 85 to 65, and poor 65 to 0, based on a composite score of the four component ratings. The formula for the WBI and performance category bonds are as follows: $WBI = 0.55 \times SCR + 0.25 \times MR + 0.11 \times FR + 0.09 \times RR$. The Department's goal is to maintain 85% of its NHS and non-NHS bridges in excellent, good, and fair condition (i.e. 15% or less in poor condition).

Using the BMSINBI conversion program, the NBI data supplied to the Federal Highway Administration in March of 2013 results in the following Structure Condition Ratings. Please note the highway bill, Moving Ahead for Progress in the 21st Century (MAP-21), reassigned the status of several routes not on the National Highway System (NHS) to the NHS. The 2013 data reflects a decrease in the number of Non-NHS bridges and an increase NHS bridges due to this reassignment. The 2012 and 2011 structure condition rating has been converted and presented in the WBI formula.

Structure Condition Rating	NHS						Non-NHS					
	2011		2012		2013		2011		2012		2013	
	Bridges	Percent										
Excellent	107	8.4%	104	8.1%	111	8.2%	107	16.0%	98	14.6%	89	14.6%
Good	498	38.9%	491	38.3%	509	37.9%	267	40.0%	281	41.9%	253	41.4%
Fair	623	48.6%	637	49.6%	668	49.7%	258	38.7%	255	38.0%	229	37.5%
Deficient	53	4.1%	51	4.0%	56	4.2%	35	5.3%	37	5.5%	40	6.5%
Total	1,281	100.0%	1,283	100.0%	1,344	100.0%	667	100.0%	671	100.0%	611	100.0%

The Department's new communication infrastructure facilitates statewide radio communications for and between public safety agencies, including law enforcement, fire, emergency medical, transportation and other entities. The Governor has appointed a Public Safety Communications Commission to provide guidance regarding system operations and participation, and advice to promote system development, improvement, and efficiency.

To assess and monitor the communication system's operating effectiveness, the Department applied a new strategy for these relatively new assets: Telecom Infrastructure Asset ratings are calculated from the Telecommunications Program maintenance measures. Ratings are grouped as WyoLink Base/Repeater, and Other-Telecom (Radio Site and Microwave). Telecom maintained this communications infrastructure following the technical evaluation and documentation procedures detailed in the programs policies. The Department's policy is to maintain 100% of its communication system in acceptable condition; actual overall rating was 100% at the end of the year.

Tabular summary of the quantity and percentage of Telecom infrastructure assets in acceptable condition follows:

Condition Rating	Number of WyoLink Assets		Number of Other Telecom Assets	
Acceptable	58	100.0%	166	100.0%
Deficient	0	0.0%	0	0.0%
	58	100.0%	166	100.0%

The Department estimated maintenance and preservation expenditures on infrastructure assets of \$422.1 million for the year ended September 30, 2013. Actual expenditures on infrastructure for maintenance and preservation were \$371.4 million, a difference of \$50.7 million. The difference is due to the size of the projects, with larger projects taking a longer period of time to complete, and projects that were awarded late in the prior fiscal year and work was not started until this year.

Estimated and actual amounts used to maintain or preserve the Department's infrastructure systems at the Department's target PSR ratings for the past five years are as follows:

Year Ending September 30	Estimated			Actual		
	Road Network	Bridges	Communication System	Road Network	Bridges	Communication System
2009	502.8 million	37.4 million	*	474.9 million	25.2 million	*
2010	373.4 million	23.8 million	*	444.6 million	26.2 million	*
2011	349.5 million	20.3 million	.8 million	418.4 million	32.9 million	.8 million
2012	408.9 million	39.1 million	2.88 million	409.2 million	12.1 million	2.9 million
2013	394.2 million	25.4 million	2.5 million	356.2 million	11.7 million	3.5 million

*No maintenance or operation budget had been established as of this date.

STATE OF WYOMING

**SUPPLEMENTARY
INFORMATION**

**For Fiscal Year Ended
June 30, 2014**

Non-Major Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Environmental Quality Fund-Restricted-This fund is used to account for litigated settlements clean-up projects. This fund is used for reporting restricted fund balance for GASB 54.

Environmental Quality Fund-Committed-This fund is used to account for fees, fines, penalties, forfeitures, and grants received which are committed for use in the reclamation of the environment quality clean-up projects. This fund is used for reporting committed fund balance for GASB 54.

Board & Regulatory Fund-This fund is used to account for the licensing fees paid by professionals as well as the related expenditures of regulating the specific professionals.

Game and Fish Fund-This fund is used to account for all revenues, which are restricted for the purpose of habitat, recreational facility, wildlife conservation and enhancement.

Special Projects Fund-Committed-This fund is used to account for revenues for conferences and services as well as the related expenditures, which are committed for use in special projects. This fund is used to report committed fund balance for GASB 54.

American Recovery & Reinvestment Fund-This fund is used to account for the funds that were obtained through the American Recovery & Reinvestment Act.

Special Projects Fund-Restricted-This fund is used to account for revenues for conferences and services as well as the related expenditures, which are restricted for use in special projects. This fund is used to report restricted fund balance for GASB 54.

Community College Grants Fund-This fund is used to account for mineral severance tax, which is granted to community colleges for emergency repairs.

Water Fund-This fund is used to account for mineral severance tax revenue which are restricted for the purpose of maintaining and rehabilitating current water facilities, capital construction, and fees received for water sales and storage at Fontenell, Sheridan and Palisades and the related costs of providing these services.

Workforce Development Fund-This fund is used to account for expenditures relating to workforce development activities for the Department of Workforce Services.

Mineral Royalties Fund-This fund is used to account for mineral royalties, which are restricted for the specific purpose of school capital construction.

Government Royalty Distributions Fund-This fund is used to account for royalties received on mineral production, which is restricted for grants and loans to municipalities, local governments, counties and special districts.

Farm Loan Loss Reserve Fund-This fund is used to account for a percentage of farm loan revenue, which is restricted for the repayment of defaulted loans and to pay the administrative and legal expenses of the Farm Loan Board in making collections on defaulted loans and foreclosing mortgages.

State Revolving Fund (SRF)-This fund is used to account for federal grants from the U.S. Environmental Protection Agency; state funds from the Department of Environmental Quality (DEQ) corrective action account and from SRF loan repayments, which were to DEQ for water pollution control projects.

Miners' Hospital Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the Miners' Hospital.

Omnibus Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the establishing, maintaining and support of charitable, educational, penal and reform institutions.

Donations and Bequests Fund-This fund is used to account for bequests and donations made for specific purposes.

Wyoming Wildlife Fund-This fund is for payments made by the State for the purpose of enhancing Wyoming wildlife resources.

Endowment Fund-This fund is used to account for the endowment funds.

Retirees Prefunded Health Insurance Fund-This fund is used to account for Retirees Prefunded Health Insurance.

Oil Surcharge Conservation Fund-This fund is used to account for fines and forfeitures charged to Mobil Oil, Texaco, Belridge, Palo Pinto, Stripper Wells, Diamond Shamrock and Exxon, which are required to be used to help conserve energy through special grant programs.

State Land Fund-This fund is used to account for land which was donated to the State and the land income, which is restricted to establishing, maintaining and supporting public buildings, fish hatcheries and various State institutions.

DEBT SERVICE FUND

Debt Service Funds are used to account for the accumulation of, and the payment of, general long-term principal and interest.

CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

PERMANENT TRUST FUNDS

Permanent trust funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Wyoming Wildlife Trust Fund-This fund is used to account for assets of a trust agreement. The interest on this fund is restricted for the purpose of enhancing Wyoming wildlife resources.

Montgomery Home for the Blind Fund-This fund is used to account for assets of a legal trust agreement. The income from this fund is restricted for the purpose of establishing, maintaining and supporting a school for blind individuals.

Wyoming Tobacco Settlement Fund-This fund is used to account for assets of the tobacco settlement. The income from this fund is restricted for the purpose of improvement of the health of Wyoming's citizens.

Wyoming Military Assistance Trust Fund-This fund is used to account for appropriations for the military assistance. The income from this fund is restricted for the purpose to alleviate financial hardships faced by various military members and their families.

Wyoming Cultural Trust Fund- This fund is used to account for appropriations for the Wyoming Cultural Trust Fund. The income from this fund is restricted for the purposes to preserve, promote and enhance the unique cultural heritage of the Wyoming citizens.

Sundry Trust Funds- This fund is used to account for appropriations for various trust funds. The income from this fund is restricted for the purposes of the trust funds.

Wyoming Excellence In Higher Education Endowment Funds- This fund is used to account appropriations for higher education endowments. The income from this fund is restricted for the purpose of faculty recruitment and retention, other educational needs, funding for future scholarships, imposing reporting requirements, directing legislative committees to determine higher education accomplishments, and provides for committees to study and prepare plans of implementation as specified.

PROPRIETARY FUNDS

NON-MAJOR ENTERPRISE FUNDS

Enterprise funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Liquor Commission Fund-This fund is used to account for the operation of the State Liquor Commission, which purchases and sells alcohol products to businesses throughout the State.

Canteen Fund-This fund is used to account for the purchase and sale of consumable goods to residents at the State institutions.

Subsidence Insurance Fund-This fund is used to account for insurance premiums received and claims payments made for house and land subsidence in subsurface mining areas. (Note that claims payments are currently being made from a federal grant in another fund. This fund is currently only receiving premiums, but it is the goal of the federal program to eventually make this program self sufficient.).

Honor Farm Agricultural Sales Fund-This fund is used to account for the revenues and expenses of producing and selling agricultural products to State institutions and other consumers by the Honor Farm.

Wyoming Health Insurance Fund-This fund is used to account for premiums received from residents unable to obtain health insurance and the expense of purchasing insurance for these residents.

Unemployment Insurance Fund-This fund is used to account for payments made for unemployment insurance benefits.

INTERNAL SERVICE FUNDS

The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost reimbursement basis.

Computer Technology Fund-This fund is used to account for the activities of the Computer Technology Division, which provides computer services to State agencies.

Motor Vehicle Fund-This fund is used to account for the activities of the Motor Vehicle Division, which provides transportation services to State agencies.

Group Insurance Fund-This fund is used to account for the activities of the Group Insurance Board, which provides insurance coverage to State employees.

Wyoming Surplus Property Fund-This fund is used to account for the activities of the Surplus Property Division, which collects, distributes, and sells surplus property to federal, state and local governments.

Personnel/Training Fund-This fund is used to account for the training classes and services provided by the State's Personnel Division.

State Self Insurance Fund-This fund is used to account for the activities of the State's Self Insurance Pool which insures agency property against theft and damage.

FIDUCIARY FUNDS

PENSION TRUST FUNDS

Pension trust funds are used to account for the assets held by a government as trustee for employee retirement systems.

Public Employees Pension Plan-This fund is used to account for the activities of the Wyoming Public Employee Retirement System.

State Patrol, Game and Fish Warden, and Criminal Investigator Pension Plan-This fund is used to account for the activities of the Wyoming State Highway Patrol, Game and Fish Warden, and Criminal Investigator Retirement System.

Volunteer Firemen's Pension Plan-This fund is used to account for the activities of the Volunteer Firemen's Retirement System.

Paid Firemen's Pension Plan A-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired prior to July 1, 1981.

Paid Firemen's Pension Plan B-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired after July 1, 1981.

Wyoming Judicial Pension Plan-This fund is used to account for the activities of the Judge's Retirement System.

Law Enforcement Pension Plan-This fund is used to account for the activities of the Wyoming Law Enforcement Retirement Plan.

AirGuard Fire Fighters Pension Plan-This fund is used to account for the activities of the AirGuard Fire Fighters Pension Plan.

Volunteer Emergency Medical Technician Pension Plan-This fund is used to account for the activities of the Volunteer Emergency Medical Technician Retirement Plan.

Wyoming Deferred Contribution 457 Plan-This fund is used to account for administration of an IRC457 Deferred Compensation Plan.

PRIVATE-PURPOSE TRUST FUND

Private-purpose trust fund is used to report any trust agreement not properly reported in a pension trust fund or investment trust fund.

Unclaimed Property Fund-This fund is used to account for property for which the owner is unknown. The State is obligated to maintain possession of the property until claimed.

AGENCY FUNDS

Agency funds are used to account for assets that a government holds on behalf of others as their agent.

Treasurer's Agency Fund-This fund is used to account for funds held by the Treasurer's Office on behalf of citizens, counties and other municipalities.

Department of Revenue Fund-This fund is used to account for the receipt of the different taxes and the related disbursement to municipalities of these taxes.

Funds Held for Individuals-This fund is used to account for the various State agencies holding assets on behalf of individuals.

Environmental Cash Bond Fund-This fund is used to account for compliance bonds held by the Department of Environmental Quality.

Other Agency Funds- This fund is used to account for the activity within the County Predatory Control Fund, State Lands Fund, Adjutant General Fund, and the Sundry Agency Funds.

STATE OF WYOMING

**STATISTICAL
SECTION**

**For Fiscal Year Ended
June 30, 2014**

Statistical Section Index

This part of the State of Wyoming's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the primary government's overall financial health.

Financial Trends – These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Schedule 1 – Changes in Net Position.....	216
Schedule 2 – Net Position by Component.....	217
Schedule 3 – Fund Balances of Governmental Funds.....	218
Schedule 4 – Changes in Fund Balances of Governmental Funds.....	222

Revenue Capacity Information – These schedules contain information to help the reader assess the government's most significant own-source revenues. The three most significant own-source revenues for the State of Wyoming include: sales and use tax, mineral severance taxes and property tax collected and designated for the state's School Foundation Program.

Major Own-Source Revenue:

Schedule 5 – Governmental Activities Tax - Revenues by Source.....	224
Schedule 6 – General Governmental Tax - Revenues by Source.....	224
Schedule 7 – Revenue Capacity.....	225
Schedule 8 – Major Own-Source Revenue – Mineral Severance Taxes.....	226

Revenue Rates:

Schedule 9 – Revenue Rates.....	227
Schedule 10 – Revenue Rates for Mineral Severance Tax.....	228

Revenue Base:

Schedule 11 – Sales Tax Collections by Industry.....	230
Schedule 12 – Sales Tax Collections for Retail, Accommodation and Food Service Sectors.....	232
Schedule 13 – Use Tax Collections by Industry.....	234
Schedule 14 – Revenue Base-Assessed Value of Property.....	236
Schedule 15 – Locally Assessed Value and Estimated Actual Value of Taxable Property.....	238
Schedule 16 – State Assessed Value and Estimated Actual Value of Taxable Property.....	240
Schedule 17 – School Foundation 12-Mill Property Tax Collections.....	242

Principal Tax Payers:

Schedule 18 – Principal Mineral Production Tax Payers.....	243
Schedule 19 – Principal Non-Mineral Tax Payers.....	244

Debt Capacity Information – These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Schedule 20 – Revenue Bond Coverage.....	246
Schedule 21 – Legal Debt Margin.....	248
Schedule 22 – Ratios of Outstanding Debt by Type.....	250

Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Schedule 23 – Demographic and Economic Statistics.....	252
Schedule 24 – Personal Income by Major Source.....	254
Schedule 25 – Principal Employers by Industry.....	256

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the information in the government’s financial report relates to the services the government provides and the activities it performs.

Schedule 26 – Capital Asset Statistics by Functional Category and by Fund Class	258
Schedule 27 – State Government Authorized Full-Time Positions and Number of Active Employees	262
Schedule 28 – Operating Indicators by Function/Program	264
Schedule 29 – Department of Employment Workers’ Compensation Division	268
Schedule 30 – Department of Employment Workers’ Compensation Division	269
Schedule 31 – Trends in AFDC/TANF and Food Stamp Caseloads and Expenditures	270
Other Wyoming Facts	272

Notes:

Taxes do not directly coincide with the entity wide statements due to the amounts including cities, towns, counties, and component units' portions.

¹ Fiscal Years 2006 and 2007 natural gas revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes from prior production years.

² Actual property tax information was not available. The property tax figures listed are estimates based on property assessment values. Estimated property taxes for Fiscal Year 2013 was \$273,565,132.

Source: Dept. of Administration & Information, Economic Analysis Division; Wyoming State Government Revenue Forecast Fiscal Year 2013-2018

Notes:

Taxes do not directly coincide with the entity wide statements due to the amounts including cities, towns, counties, and component units' portions. Mineral Severance Taxes include all collections, even those distributed to other governmental entities.

¹Fiscal Year 2006 and 2007 natural gas revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes from prior production years.

Notes:

All rates are set by the Legislature.

¹The State of Wyoming does not levy a corporate income tax.

²The State of Wyoming does not impose or levy income taxes, earning taxes or any other form of tax based on wages or other income.

³Beginning July 1, 1993, the sales and use tax rate was increased by one percent. Counties could levy up to 2% in additional sales and use tax upon voter approval. Beginning July 1, 2007, counties may levy up to 3% in additional sales and use tax upon voter approval.

⁴A temporary sales and use tax exemption for food for domestic home consumption commenced on July 1, 2006 and ended on June 30, 2008. This was made a permanent exemption with House Enrolled Act 88 revised on July 14, 2008.

⁵The Legislature passed an increase tax rate for cigarettes effective July 1, 2003. A discount of 6% is given to wholesalers on purchases of stamps or metering machine settings.

⁶One percent of tax equals 10 mills. Therefore, the Foundation Program Fund mill levy of 12.000 is equal to 1.2000% of the assessed real property value is due as tax.

Estate Taxes are set under the United States laws governing federal estate taxes and the IRS Code. Estate tax proceeds are deposited in the State General Fund.

Notes:

Due to confidentiality issues, the names of the ten largest sales tax payers are not available. The categories presented are intended to provide alternative information regarding the source of the State's revenue.

¹North American Industry Classification System

The NAICS coding was developed by the Federal Office of Management and Budget. Under the system, a business is classified by primary activity, determined by principal product, or group of products produced, distributed, and/or services rendered.

Only the State-imposed 4% sales tax collections are included.

Estimates of sales may be obtained by dividing the collection amount by the effective tax rate.

Penalty and interest funds are excluded in this table.

Sales tax collections do not directly coincide with the entity wide statements due to the amounts including portions distributed to cities, towns and counties.

Notes:

Due to confidentiality issues, the names of the ten largest use tax payers are not available. The categories presented are intended to provide alternative information regarding the source of the State's revenue.

¹North American Industry Classification System

The NAICS coding was developed by the Federal Office of Management and Budget. Under the system, a business is classified by primary activity, determined by principal product, or group of products produced, distributed, and/or services rendered.

Only the State-imposed 4% sales tax collections are included.

Estimates of sales may be obtained by dividing the collection amount by the effective tax rate.

Penalty and interest funds are excluded in this table.

Notes:

"Locally assessed" values represent property assessed by the county assessor.

"State assessed" values are those properties assessed by the Department of Revenue's Mineral Division or Property Tax Division.

"Real property" is land and appurtenances affixed thereto, including buildings.

"Personal property" is property not permanently affixed to the land.

The Non-Minerals classification 'Cable and Satellite' began being used in 2008.

¹ As of June 30, 2012 Exemption includes POW, Disabled and Indian License Fee Exemptions.

Notes:

The Legislature requires that county assessors annually update property values. The county assesses property at approximately nine and one-half percent (9.5%) of actual value for agricultural land, residential, and commercial property and eleven and one-half percent (11.5%) for industrial property. Estimated actual value is calculated by dividing assessed value by those percentages.

^a Includes tax-exempt property.

Notes:

A detailed listing of non-mineral and mineral property is stated in Schedule #14, Assessed Value of Property.

The State assesses property annually and assessment of minerals are annually following the year of production. The State assesses non-mineral property at approximately eleven and one-half percent (11.5%) of actual value. Mineral property is assessed as gross product of minerals or mine productions at actual value or one hundred percent (100%). Estimated actual value is calculated by dividing assessed value by those percentages.

<u>Estimated Actual Taxable Value</u>				Assessed Value as a Percentage of Actual Value
	Non-Minerals	Minerals	Total

Source: County Treasurers.

Notes:

¹ The estimated tax levy for the fiscal year is based on the Department of Revenue's valuation of all taxable property on January 1st.

² The actual total tax levy for the fiscal year is the county commissioners' levy for the tax year and adjustments to the original taxes levied.

Note:

¹The assessed valuation is the total locally & state-assessed valuation calculations obtained from Schedule #14, Revenue Base - Assessed Value of Property.

²The statutory State debt limit is one percent (1%) of the assessed value of all taxable property in the State, as set forth in Chapter 97-16-001 of the State of Wyoming Constitution.

³The legal debt margin is the State's available borrowing authority under state finance statutes and is calculated by subtracting the net debt applicable to the limit from the debt limit.

Source: Comprehensive Annual Financial Report

Notes:

Details regarding the State's outstanding debt can be found in notes to the financial statements. These obligations constitute a long-term obligation of the State.

The Building Corporation bonds were limited obligations of the Wyoming Building Corporation. The bonds were secured with the newly constructed prison and repayments were made through lease payments by the State for the use of the prison. The decrease between 2004 and 2005 was attributable to the State purchasing its prison facility and the subsequent retirement of the \$63 million dollars of debt.

The inclusion of deferred interest payable in fiscal year 2006 was the result of interest on outstanding bonds being deferred until the bonds mature.

^a See Schedule #23, Demographic and Economic Statistics, for personal income and population data.

^b Debt as a percentage of personal income is based on prior year personal income.

^c Amount of debt per capita is based on prior year population.

Notes:

^a Total personal income is the income that is received by all persons from all sources. It is composed of wages and salaries, proprietors' income, personal interest and dividend income, rental income and personal current transfer receipts, less contributions for government social insurance.

^b Per capita personal income is calculated by dividing total personal income by population.

Differences between the Demographic and Economic Statistics schedule for Labor Force and Employment estimates and information contained in Schedule #24, Personal Income by Major Source and Schedule #25, Principal Employers by Industry, are due to differences in survey information between the U.S. Department of Commerce and U.S. Department of Labor, including sample size, estimation procedures, coverage, and definitions.

Notes:

¹North American Industry Classification System

* Amount does not state total to avoid disclosure of confidential information, but the estimates for the non-reported item(s) are included in the totals.

²Contributions for government social insurance are included in earnings by type and industry, but they are excluded from personal income.

³The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers: wage and salary disbursements to U.S. residents commuting to Canada less wage and salary disbursements to Canadian and Mexican residents commuting into the United States.

⁴Rental income of persons includes the capital consumption adjustment.

⁵This component of personal income is payments to persons for which no current services are performed. It consists of payments to individuals and to nonprofit institutions by federal, state, and local governments and by businesses. Government payments to individuals includes retirement and disability insurance benefits, medical payments (mainly Medicare and Medicaid), income maintenance benefits, unemployment insurance benefits, veterans' benefits, and federal grants and loans to students. Government payments to nonprofit institutions excludes payments by the federal government for work under research and development contracts. Business payments to persons consists primarily of liability payments for personal injury and of corporate gifts to nonprofit institutions.

Source: Various State departments.

Notes:

¹ Registered voter data is not available for some years due to an old voter registration system and information not being collected in non-election years.

² Purchasing card program was implemented in 2005.

³ Figures are based on October 1 enrollment.

⁴ The annual drop-out rate is calculated by taking one year's drop-out counts from grades 9 - 12, divided by an average enrollment using October 1 enrollments and completer figures. Information obtained from the Department of Education.

⁵ Starting in 2006-2007, the academic year definition was changed to more accurately reflect Banner's academic year definition of fall, spring and summer terms. Prior to 2006-2007, the academic year definition included summer, fall and spring terms. For example, academic year 2005-2006 includes August 2005, December 2005, and May 2006 while academic year 2006-2007 includes December 2006, May 2007, and August 2007.

⁶ Figures obtained by averaging end-of-semester data for fall and spring semesters, except for 2007 which only includes fall 2007 enrollment figures. Data also includes all outreach enrollment.

⁷ The agency changed their data collection system in fiscal year 2007. Information prior to fiscal year 2007 is not comparable and therefore, is not provided.

⁸ Based on the NAICS Industries classifications.

⁹ The Emergency Unemployment Compensation 2008 (EUC08) program began in July 2008 and continued into fiscal year 2014. The program ended in December 2013.

¹⁰ In 2013, Wyoming State Parks, Historic Sites & Trails began to collect traffic data for the entire calendar year so there is a substantial increase in visitation numbers.

N/A = Information is not available.
