Max Maxfield State Auditor

The State Auditor is a constitutional officer elected for a four year term by the general electorate. The Auditor is the chief fiscal officer of the State. The Auditor is charged with the responsibility of paying State obligations, paying employees salaries and maintaining the official accounting records of the State. He is responsible for demonstrating accountability to the public by preparing the Comprehensive Annual Financial Report.

The Auditor serves as a member of the State Land Commission, the State Loan and Investment Board, the State Building Commission and the State Canvassing Board.

Max Maxfield grew up in Wisconsin where he graduated from Janesville High School in 1963. He attended the University of Wisconsin, Steven's Point and Whitewater. His career in public service has spanned nonprofit, public and private sectors. Max was a YMCA director for twenty years, former director of the Wyoming Recreation Commission, and the first appointed director of the Wyoming Department of Commerce, a position he held for five years. More recently, Max served as the Executive Director of Wyoming's Make-A-Wish Foundation and as financial consultant for various nonprofit agencies across the county.

Max and his wife Gayla, make community and church an important part of their daily lives. Max is a certified Lay Speaker, past president of the Staff Parish Board and a Stephen Minister of the First United Methodist Church. He has served a wide range of other organizations including United Way of Laramie County, Wyoming Children's Society, Crimestoppers, Wyoming Alzheimer's Association, and Special Olympics of Wyoming. Max is a Rotarian and a Paul Harris fellow. Max and Gayla are the proud parents of four grown children.

This report's divider pages focus on Military Forts as they relate to Wyoming's Historical past.

Max Maxfield, State Auditor

December 15, 2005

Capitol Building Cheyenne, Wyoming 82002 Telephone: 307/777-7831 FAX: 307/777-6983

TO THE CITIZENS OF THE STATE OF WYOMING,
THE HONORABLE DAVE FREUDENTHAL, GOVERNOR
MEMBERS OF THE LEGISLATURE OF THE STATE OF WYOMING:

State law (W.S. 9-1-403(a)(v)) requires that the State Auditor provide annual financial statements prepared in conformance with generally accepted accounting principles (GAAP) by December 15 every year. Therefore in accordance with state statute I am pleased to present this Comprehensive Annual Financial Report (CAFR) of the State of Wyoming for the fiscal year ended June 30, 2005.

This report is the primary means of reporting the state government's financial activities. McGee, Hearne & Paiz, LLP a firm of certified public accountants, has audited the State of Wyoming's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the State of Wyoming for the fiscal year ended June 30, 2005 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the State of Wyoming's financial statements for the fiscal year ended June 30, 2005 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

This report consists of management's representations concerning the finances of the State of Wyoming. Consequently, the State Auditors Office assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, the State of Wyoming has established a comprehensive internal control framework that is designed both to protect the State's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the State of Wyoming's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the State of Wyoming's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. I assert that, to the best of my knowledge and belief this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the State of Wyoming was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the State of Wyoming's separately issued Single Audit Report.

This CAFR consists of three sections. (1) The Introductory Section, which contains this letter of transmittal and some information about the state and its operations. (2) The Financial Section contains the audit opinion of the independent auditors, Management's Discussion and Analysis, Government Wide Financial Statements, Fund Financial Statements for Governmental Funds, Proprietary Funds and Fiduciary Funds. The Financial Section also contains the Notes to the Basic Financial Statements, Required Supplementary Information and various combining fund level statements. (3) The Statistical Section contains financial and demographic information, presented to comply with the recently issued pronouncement Number 44—*Economic Condition Reporting: The Statistical Section—an amendment of NCGA Statement 1* of the Governmental Accounting Standards Board. The statistical section presents detailed information, typically in

ten-year trends, that assists users in utilizing the basic financial statements, notes to basic financial statements, and required supplementary information to assess the economic condition of a government. GASB 44 will not be fully implemented until Fiscal Year 2006 as some mandatory disclosures required the implementation of new processes to appropriately gather the requisite information for presentation purposes.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The State of Wyoming's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The State of Wyoming, known as the 'Equality State', was admitted to statehood July 10, 1890 making it the 44th state to be so admitted. Located in the Rocky Mountain section of the western United States, it is bounded on the north by Montana, on the east by South Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. It is the ninth largest state in the United States containing 97,914 square miles. The 2000 Census put Wyoming's population at 493,782. Wyoming is home to two of the country's foremost national parks, Yellowstone National Park and Grand Teton National Park, as well as, the first designated national monument Devils Tower.

The executive branch of Wyoming state government is comprised of a Governor, Secretary of State, State Auditor, State Treasurer, and the Superintendent of Public Instruction, all of whom are elected by statewide vote every four years. The legislative branch of government is comprised of 30 State Senators and 60 State Representatives. The term of office for the Senators is four years, 15 of the members being elected at a general election at which a President of the United States is elected, the balance at the next general election. The entire body of the House of Representatives is elected every two years to serve a two-year term

The State of Wyoming provides a full range of services. Under the Governor are fourteen Cabinet level departments: Administration and Information, Agriculture, Attorney General, Audit, Corrections, Employment, Engineer, Environmental Quality, Family Services, Game and Fish, Health, Revenue, State Parks and Cultural Resources, Transportation and Workforce Services. There are also 19 separate operating agencies and 13 licensing boards and commissions

Among the 19 separate operating agencies are seven entities which are legally separate but considered as component units of the State of Wyoming as the state has significant operational and/or financial relationships with them. Six of the component unit's financial data are reported in columns separate from the financial data of the primary government (the State). Those organizations are the University of Wyoming, Department of Transportation, Wyoming Community Development Authority, Wyoming Pipeline Authority, Wyoming Infrastructure Authority and Wyoming Business Council. The Wyoming Building Corporation is a blended component unit; its financial data is blended into the primary government financial data. Additional information on all seven of these legally separate entities can be found in Note 1A in the notes to the financial statements.

Budgetary Process:

The biennial budget serves as the foundation for the State of Wyoming's financial planning and control. Wyoming statutes require the Governor to prepare and submit a biennial budget to the legislature each odd numbered year, prior to the beginning of the legislative session. Budgets are prepared for a biennial period and are augmented, if necessary, with supplemental appropriations during the odd-numbered year's legislative sessions. Budgets are adopted at the agency level. Each agency may then allot its budget to line items as it likes unless the legislature has provided specific funding for a certain item or program in the departmental budget. The Legislature may add, change, or delete any budget items proposed by the Governor. The budget session convenes in February of even numbered years. The Governor may authorize changes and revisions to approved budgets during the budget term including increasing appropriations in the event of federal revenue above the initial budget approved by the legislature. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated biennial budget has been adopted. For the general fund, the foundation program fund, and the budget reserve fund, this comparison is presented as part of the required supplementary information. For governmental funds other than the major funds, this comparison is presented in the supplementary information section of this report.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the State of Wyoming operates.

State economy.

Wyoming's economic well-being continues to revolve around the mineral industry. Mineral extraction is by far the largest industry. In 2004 Wyoming coal production was the highest ever at 396 million tons. Wyoming coal and power plants provide much of the electric power for the Pacific Northwest. The legislature recently created two authorities directly related to the energy industry: The Wyoming Pipeline Authority and the Wyoming Infrastructure Authority---to assist in the promotion and development of energy resources. The Wyoming Pipeline Authority's mission is to actively engage in promoting the development of pipeline infrastructure necessary to enhance natural gas development in the state and encourage more export out-of-state. The Wyoming Pipeline Authority recently agreed to place its entire \$1 billion bond issuing authority in an exclusive deal involving the building of a pipeline to the Midwest.

The Wyoming Infrastructure Authority (WIA) has as its mission to diversify and expand the state's economy through improvements in Wyoming's electric transmission infrastructure to facilitate the consumption of Wyoming energy. The Authority can participate in planning, financing, constructing, developing, acquiring, maintaining and operating electric transmission facilities and their supporting infrastructure. Legislation provided the WIA with bonding authority, and other powers, to promote transmission development in the state and throughout the region. It also provided the State Treasurer, with the approval of the State Loan and Investment Board, the authority to invest in WIA bonds. In August 2005 the WIA entered into its first bond issuance of \$34 million under an agreement with Basin Electric.

Primarily because of the energy boom, Wyoming's economy remained steady in the past fiscal year. Wyoming was well below the national unemployment rate of 5.6% with an unemployment rate at June 30, 2005 of 3.6%.

Each year the Division of Economic Analysis (EA) of the Department of Administration and Information forecasts economic conditions in Wyoming for a ten-year period. This report and additional economic and demographic information about our State can be found on the Division of Economic Analysis website: http://eadiv.state.wy.us.

Long term financial planning

The Wyoming Legislature, during its 2005 Session created a program known as the 'Hathaway Scholarship Program." There are now discussions on how to fully fund this program so that it may be implemented in Fall 2006. To be fully funded, the program will require approximately \$400 million. The intent of the program is to provide Wyoming high school graduates the opportunity to attend programs of higher learning. As envisioned, the program would offer four levels of scholarships based on student achievement. Each scholarship level would offer up to eight semesters at either the University of Wyoming or one of seven community colleges. The details, yet to be finalized, will include what the criteria will be for each level in terms of student achievement relative to grade point average and ACT scores. It is anticipated the Joint Interim Education Committee will submit for consideration to the full legislature during the 2006 session, proposed program standards, scholarship amounts, amount and source of funding and an implementation date.

The State is in the enviable position of having financial surpluses. The State's elected officials continue to debate the best uses of these resources; placing excess funds in a 'rainy day' account, or funding 'one time' expenditures in the areas of new capital construction and deferred maintenance, while recognizing the State's surpluses will not go on indefinitely.

Cash Management. Cash temporarily idle during the year and balances held in trust were invested in bank deposits, U.S. Treasury Securities, repurchase agreements and other investment instruments. The interest on these investments and deposits is credited to each fund based on the fund's participation in the cash and investment pool. Many funds are not allowed by law to receive interest, so the interest earned on these funds is credited to the general fund. The general fund was credited \$69 million in Interest from the Permanent Wyoming Mineral Trust Fund (PWMTF), during fiscal year 2005.

Risk Management. The State of Wyoming maintains two self-insurance plans: the State Self-Insurance and the State Group Insurance. Both plans are reported as internal service funds. In addition, the State administers three public entity risk pools: Subsidence, Wyoming Health, and Worker's Compensation. The subsidence pool addresses the impact of past mining on capital structures in the State. These are reported in enterprise funds, as required by GASB Statement No. 10. Additional information on Wyoming's risk management activity can be found in Note 13 of the notes to the financial statements.

Pension and other post employment benefits. Under the authority of the State Legislature, the Wyoming Retirement System (WRS) administers seven-pension plans open to state employees and employees of other political subdivisions that have elected to participate in the plans. All required contributions by employers have been made. Though the Wyoming Retirement System is legally separate from the State, the State appoints a voting majority of the WRS board, sets the contribution requirements and has fiduciary responsibility for WRS assets. The retirement plans are reported as fiduciary funds. Additional information on Wyoming's pension arrangements can be found in Note 12 in the notes to the financial statements.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Wyoming for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2004. This was the seventh consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility of another certificate.

This report continues my commitment to clarify and improve financial reporting for the citizens of Wyoming, in order that they may have an accurate picture of the financial condition of their government. Great strides have been made in the past few years to improve our State's accounting and financial reporting: implementation of GAAP, preparation of the CAFR, an independent audit of our financial statements, and implementation of various GASB standards. All have contributed to better financial management. My appreciation goes out to the Legislature and our Staff for making these improvements possible.

The preparation of this report could not have been accomplished without the cooperation of all State agencies. I continue to be impressed with the capable assistance received from the departments and agencies. I am especially appreciative of the staff in the State Auditor's Office, whose commitment to serve the citizens of Wyoming continues to be demonstrated. We would like to thank the Division of Economic Analysis and the CREG Committee for information used in this letter. We also thank the State Parks and Cultural Resources, Archives and Technical Services, for the use of their photographs and narratives that showcase some of Wyoming's historical forts.

Thank you! Best regards,

Max Maxfield State Auditor

Certificate of Achievement for Excellence in Financial Reporting

Presented to

State of Wyoming

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2004

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

Honorable Governor, Members of the Legislature State of Wyoming Cheyenne, Wyoming

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming (the "State") as of and for the year ended June 30, 2005, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Wyoming Community Development Authority, the Wyoming Natural Gas Pipeline Authority, or the Wyoming Department of Transportation which are shown as discretely presented component units. In addition, we did not audit the financial statements of the University of Wyoming Foundation (Foundation), a component unit of the University of Wyoming, which is included in the balances for the University of Wyoming (University), a discretely presented component unit of the State. The Foundation represents approximately 21% of total assets and 4% of total revenues of the University. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Wyoming Community Development Authority, the Wyoming Natural Gas Pipeline Authority, the Wyoming Department of Transportation, and the Foundation portion of the University component units, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis, pages 5 through 17, and the budgetary comparison information and infrastructure modified approach information, pages 82 through 89, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We and the other auditors have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Wyoming's basic financial statements. The introductory section i through viii, supplementary information pages 91 through 174, and the statistical section, pages 175 through 204, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As the management of the State of Wyoming, we offer readers of the State of Wyoming's financial statements this narrative overview and analysis of the financial activities of the State of Wyoming for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report.

Financial Highlights

Government-Wide:

• The assets of the State of Wyoming exceeded its liabilities as of June 30, 2005 by \$6.9 billion (reported as net assets). Of this amount, \$2.3 billion is unrestricted net assets that may be used to meet the government's ongoing obligations. Component units reported net assets of \$6.1 billion.

Fund Level:

- As of June 30, 2005, the State of Wyoming's governmental funds reported combined ending fund balances of \$6.5 billion, an increase of \$1.1 billion.
- At the end of the fiscal year, unreserved fund balance for the general fund was \$210 million.
- The enterprise funds reported net assets at year-end of \$104 million.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the State of Wyoming's basic financial statements. Financial reporting is intended to provide external parties that read financial statements with information that will help them to make decisions or draw conclusions about an entity. These parties do not always have the same specific objectives. In order to address the needs of as many parties as reasonably possible, the State's annual report consists of three major sections in accordance with required reporting standards: Managements Discussion and Analysis (MD&A), the basic financial statements, and reguired supplemental information. The State of Wyoming's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the State of Wyoming's finances, in a manner similar to a private-sector business. The State's government-wide financial statements include the *statement of net assets* and *statement of activities*. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting.

• The purpose of the *statement of net assets* is to report all of the assets held and liabilities owed by the State. The State reports all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred. The difference between the State's total assets and total liabilities is titled *net assets* and this difference is similar to the owner's equity presented by a private-sector business.

The government-wide statement of net assets can be found on page 19 of this report.

• The purpose of the statement of activities is to present all the revenues and expenses of the State of Wyoming. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a private-sector business in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the State. Revenues are recorded when earned regardless of when the cash will be received and expenses are recorded even though they may not have been paid during the current period (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide statement of activities can be found on pages 20 - 21 of this report.

Both statements report three activities:

- Governmental Activities Most of the State's basic services are reported under this category. Taxes and
 intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general
 operations of the Executive departments fall within the governmental activities.
- Business-type Activities The State charges fees to customers to help it cover all or most of the cost of
 certain services it provides. Workers' compensation and the State's unemployment compensation services
 are examples of business-type activities.
- Component Units Component units are legally separate organizations for which the elected officials of the
 primary government are financially accountable. The State has 3 authorities and 1 university that are
 reported as discretely presented component units of the State. The State blends 1 component unit into the
 internal service funds.

Fund financial statements. The fund financial statements begin on page 22 and provide more detailed information about the State's most significant funds – not the State of Wyoming as a whole. Funds are accounting devices that the State uses to keep track of specific sources of funding and spending. Except for the general fund, a specific fund is established to satisfy legal requirements established by external parties or governmental statutes or regulations. The State of Wyoming establishes other funds to control and manage money for particular purposes or to show that it is properly using certain resources. All of the funds of the State of Wyoming can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Most of the State's basic services are reported in the governmental funds, which
focus on how money flows into and out of those funds and the balances left at year-end that are available for
future spending.

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures, and change in fund balances. The Statements are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements. All of the State's programs are included in the governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out in a short period of time. For example, amounts reported on the balance sheet include items such as cash and receivables collectable within a short period of time, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid in a short period after the end of the fiscal year. The difference between a fund's total assets and liabilities is labeled as the fund balance. The unreserved-undesignated portion of fund balance generally indicates the amount that can be used to finance next year's activities.

The operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid in cash, respectively, during the current period or very shortly after the end of the year. Consequently, the governmental funds statements provide a short-term view that helps determine if there are more or fewer financial resources to finance the State's programs. Because this information does not encompass the long-term focus of the government-wide statements, we provide an analysis reconciling the total fund balances to the amount of net assets reported in the statement of net assets.

Also, there is an analysis following the statement of revenues, expenditures, and changes in fund balances that reconciles the change in net assets of the governmental activities presented in the government-wide statement of activities to the change in fund balance presented in the statement of revenue expenditures and changes in fund balance. These two reconciliation schedules (pages 23 and 25) provide an analysis of transitioning from modified accrual accounting (Fund Basis) to full accrual accounting (Government Wide Basis). The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Internal service funds are reported as governmental activities, but reported as proprietary funds in the fund financial statements.
- Unless due and payable, long-term liabilities, such as capital lease obligations, compensated absences, bonds payable, and others only appear as liabilities in the government-wide statements.

- Certain other outflows represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Proprietary funds. When the State charges customers for the services it provides, whether to outside
 customers or to other state agencies within the State, these services are generally reported in proprietary
 funds. Proprietary funds (enterprise and internal service) utilize accrual accounting: the same method used
 by private sector businesses. Enterprises funds report activities that provide supplies and services to the
 general public. An example is the State Workers' Compensation. Internal service funds report activities that
 provide supplies and services for the State's other programs and activities-such as the State's Information
 Technology Division. Internal service funds are reported as governmental activities on the government-wide
 statements since their primary purpose is to support those activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise funds are broken out between major and non-major. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the supplementary information section of this report.

The basic proprietary fund financial statements can be found on pages 26 - 28 of this report.

• Fiduciary funds. The State acts as a trustee or fiduciary for its employee pension plan. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. These statements include pension, investment trust, private purpose, and agency funds, which use accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

The basic fiduciary fund financial statements can be found on pages 29 - 30 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 32 - 80 of this report.

Required Supplementary Information is presented that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparisons schedules primarily prepared on a biennial basis. Also included is a discussion of the Wyoming Department of Transportation (DOT) and how they account for infrastructure assets using the modified approach.

Required supplementary information can be found on pages 82 - 89 of this report.

Other Supplementary Information includes combining statements referred to earlier in connection with non-major governmental, enterprise, internal service and fiduciary funds that are presented immediately following the required supplementary information.

Other supplementary information can be found on pages 92 - 173 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a State's financial position. In the case of the primary government (State of Wyoming), assets exceeded liabilities by \$6.9 billion at the close of fiscal year 2005. This was an increase of \$1.3 billion or (23) percent. This increase in net assets was due to a continued improved market for minerals, as reflected in the State's mineral severance tax and federal mineral royalties--major revenue sources for the State.

The following condensed financial information was derived from the government-wide Statement of Net Assets:

| | | | Vyoming's Net Assear Ended June 30, | | | |
|-----------------------------|----------------------------|-------------------|-------------------------------------|------------------|-----------------------------|----------------|
| | Governmental Activities | | Business-Type Activities | | Total Primary Government | |
| | 2004 | 2005 | 2004 | 2005 | 2004 | 2005 |
| Current and other non- | | | | | | |
| current assets \$ | 8,144,160,834 \$ | 10,562,771,756 \$ | 1,361,693,193 \$ | 1,361,693,193 \$ | 9,505,854,027 \$ | 11,924,464,949 |

| Total liabilities | 2,862,923,947 | 4,064,166,730 | 995,157,878 | 1,263,123,149 | 3,858,081,825 | 5,327,289,879 |
| Net assets: | | | | | | |
| Invested in capital assets, | | | | | | |
| net of related debt | 188.026.280 | 286.134.953 | 5,491,442 | 5.106.888 | 193,517,722 | 291,241,841 |
| Restricted | 4,914,102,680 | 4,134,019,473 | 209,899,807 | 217,426,990 | 5,124,002,487 | 4,351,446,463 |
| Unrestricted (deficit) | 488.266.536 | 2,417,250,104 | (165,039,865) | (118,762,062) | 323.226.671 | 2,298,488,042 |
| Total net assets \$ | 5,590,395,496 \$ | 6,837,404,530 \$ | 50,351,384 \$ | 103,771,816 \$ | 5,640,746,880 \$ | 6,941,176,346 |

The investments in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding, is \$291 million. The State of Wyoming uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending. Although the State of Wyoming's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State of Wyoming's net assets, \$4.4 billion, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets is \$2.3 billion.

The majority of the current and other non-current assets of \$11.9 billion, consist of various cash and pooled investments of \$10.6 billion, and accounts receivable, due from other governments and loan receivables (including interest receivable) of \$1.3 billion. The remaining amount is comprised of other assets such as inventory and prepaid expenses.

The current liabilities of \$4.5 billion, a \$1.5 billion increase over 2004, are comprised of various items. \$3.9 billion is related to liabilities under security lending, \$135 million is related to claims and benefits payable, \$148 million is related to various accounts payable. The remaining amount of \$264 million is made up of compensated absences, early retirement, interest payable, deferred revenue, and various other liabilities. This increase was principally due to a \$1.2 billion increase in the amount of security lending and a \$226 million increase in deferred revenue. The deferred revenue amount is due to recognizing a receivable for fiscal year 2006 property taxes and deferring same.

The majority of the long-term liabilities of \$787 million, which is a decrease of \$13 million as compared to 2004, is comprised of claims and benefits payable of \$710 million, compensated absences of \$27 million and bonds payable of \$49 million. The remaining amount is made up of, deferred revenue, and various other liabilities. This net change of \$13 million between 2004 and 2005 is attributable to the State purchasing its prison facility and the subsequent retirement of that blended component unit's debt of \$63 million dollars and an increase in the liability for claims and benefits payable of \$65 million from year to year and a decrease of \$14 million in deferred revenue year over year.

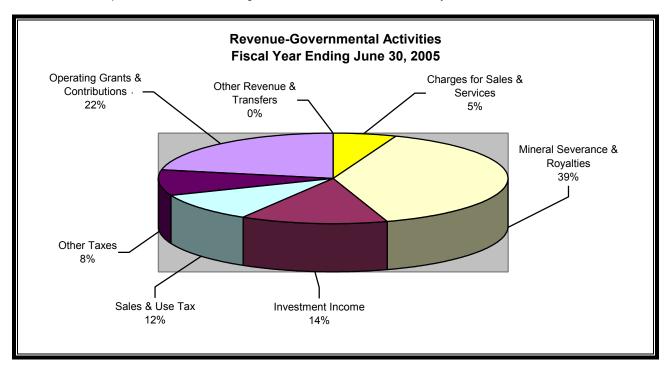

As of June 30, 2005, the State of Wyoming is able to report positive balances in all three categories of net assets for the government as a whole. The same situation held true for the prior fiscal year.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net assets changed during the fiscal year:

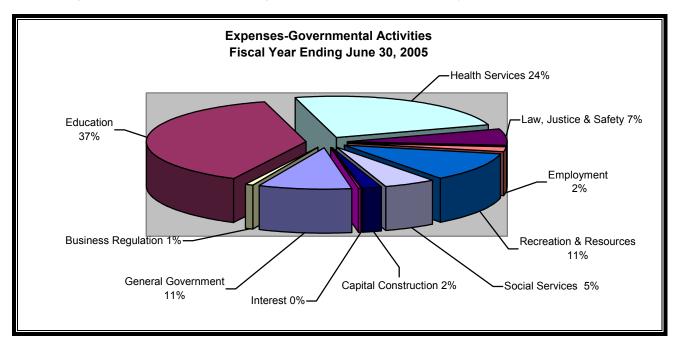

| | Governmental | | Business-Type | | | |
|--|-------------------------------|-----------------|---------------------------|----------------|-------------------|---------------|
| | Activities | | Activities | | Total | |
| | 2004 | 2005 | 2004 | 2005 | 2004 | 2005 |
| Revenues: | | | | | | |

The increase in net assets related to governmental activities for the State of Wyoming was \$1.3 billion during the current fiscal year. The majority of this increase is attributable to the following: An overall increase in revenues of \$942 million, of which \$525 million came from increases in taxes (\$358 million from mineral severance taxes and federal mineral royalties and \$82 million from increased sales tax) and a \$358 million increase in investment income. And there was a net change (decrease) in transfers of \$30 million.

The chart below represents revenues of the governmental activities for the fiscal year:

The following chart represents expenses of the governmental activities for the fiscal year:

Business-type activities. The net assets of the business type activities increased by \$53 million during the fiscal year and \$83 million increase year over year. The majority of the change between years was do to an overall improvement of \$70 million in total program revenues and a year over year decrease in expenditures of \$14 million.

Financial Analysis of the State of Wyoming's Funds

As noted earlier, the State of Wyoming uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the State of Wyoming's *governmental funds* is to provide information on nearterm inflows, outflows, and balances of *spendable* resources, as stated earlier. Such information is useful in assessing the State of Wyoming's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2005, the State of Wyoming's governmental funds reported combined ending fund balances of \$6.5 billion, an increase of \$1.1 billion, in comparison with the prior year. Over half of the fund balance, \$3.9 billion, is reserved within the permanent funds as nonexpendable. In addition, a portion of the fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period, \$429 million, 2) for loans and advance receivable, \$333 million or 3) for inventory, \$3 million.

General Fund. The general fund is the chief operating fund of the State of Wyoming. At the end of the current fiscal year, unreserved fund balance of the general fund was \$210 million, while total fund balance reached \$315 million. The net increase for 2005, in the general fund's fund balance was \$252 million. This was a \$364 million increase over 2005. The major elements, which factored in this increase were a net increase of other financing sources of \$436 million over 2004, an increase of \$283 million in revenues and a \$355 million increase in expenditures. A more detailed comparative analysis of the activity for the General Fund can be found on pages 12-13, of this MD&A.

Foundation Program Fund. Fund balance at June 30, 2005 totaled \$104 million, an increase of \$78 million on a year over year basis. This increase was a result of improved revenues totaling \$103 million, decreased expenditures of \$4 million and a decrease in net other financing sources of \$29 million.

Budget Reserve Fund. Fund balance at June 30, 2005 totaled \$511 million, a decrease of \$305 million from the previous year. This represents a negative change of \$860 million between 2004 and 2005 in fund balance. The majority of this change a result of net decreases totaling \$983 million in other funding sources and increased revenues of \$123 million.

Common School Land Fund. As of June 30, 2005, the fund balance totaled \$1.3 billion, an increase of \$144 million for the year, and \$89 million increase over the prior fiscal year. These changes between years primarily due to a \$89 million increase in revenues.

Permanent Mineral Trust Fund. Fund balance at June 30, 2005, totaled \$2.6 billion, an increase of \$326 million for the year and a \$141 million increase year over year. These changes between years primarily due to a \$139 million increase in revenues.

Proprietary funds. The State of Wyoming's proprietary funds provided the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted/(deficit) net assets of the enterprise funds as of June 30, 2005, totaled (\$119 million). The major enterprise fund the Worker's Compensation Fund had a deficit of \$130 million as of June 30, 2005, which is a \$47 million improvement over the prior year. This improvement is a result of \$38 million increase for charges and services and a reduction of \$9 million in worker's compensation expenditures.

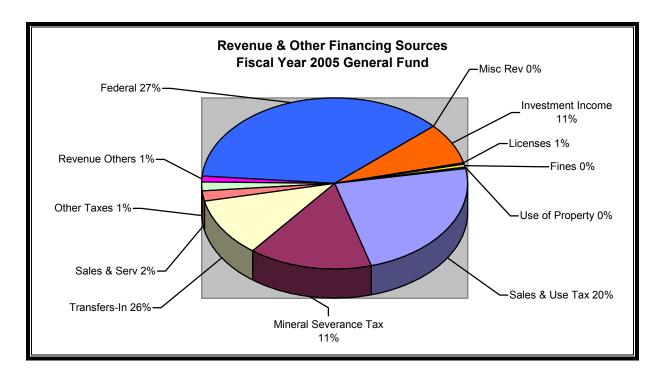

General Fund Budgetary Highlights

The difference between the original biennial budget of \$2.7 billion (as of July 1, 2004) and the amended biennial budget of \$3.2 billion (as of June 30, 2005) was a \$456 million increase in appropriations.

The major increases are briefly summarized below:

- \$68 million in additional federal funds;
- \$180 million increase for various capital construction projects;
- \$38 million for state highway road construction; and
- \$46 million for an increase in various Health Services Programs—including Medicaid, Mental Health, and Developmental Disabilities;
- \$28 million for local government distributions;
- \$8.2 million for state aid to community colleges;
- \$5 million for establishing a Business Ready community program through the State's Business Council.

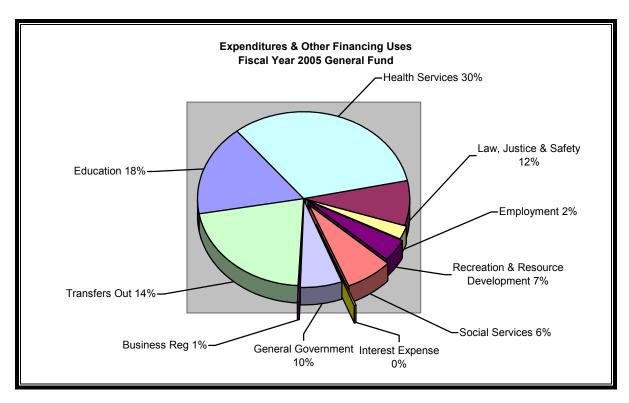

The total general fund revenues are presented in a pie chart below to display how sources relate to total revenue. The table on the following page shows the change in 2004 and 2005 revenue sources. On page 13 and 14, General Fund expenditures are similarly presented, depicting functions as they relate to total expenditures.

As shown in the table following, total Revenue and Other Financing Sources increased 46% or \$676 million in fiscal year 2005. The General Fund portion of the Sales and Use Tax increased with a 24 percent increase in total dollars recognized. During fiscal year 2005, Investment Income increased 112% or \$129 million. This increase over 2004 is a result of several factors. Interest from the Permanent Trust fund directed to the General Fund decreased by \$31 million as a result of the State Treasurer beginning to switch from fixed income investments to more equity investments. An increase in the fair market value of investments between 2005 and 2004 of \$58 million was recognized for investment income purposes. The State's securities lending program transactions were grossed up for financial reporting purposes, which resulted in an increase to investment income of \$68 million for fiscal year 2005.

| Other Financing Sources | \$ | 1,469,646,772 \$ | 2,145,427,809 \$ | 675,781,037 | 46% | | | | | |

Because the Legislature considers the General Fund and Budget Reserve as one 'pot' when making appropriations, transfers from the Budget Reserve to the General Fund are used as a 'budget balancer' in the appropriations bill to 'balance out' the expenditures coming from the General Fund. The percentage change of transfers-in to the General Fund is a result of these 'budget balancer' transfers and may vary widely year to year depending on whether it's the end of a biennium or the middle of a biennium.

As shown in the table following, overall Expenditures and Other Financing Uses increased by 20% or \$312 million in fiscal year 2005. General Government increased its expenditures by \$82 million. A majority of this increase to General Government expenditures was the result of recording securities lending expenditures on a gross basis for financial reporting purposes. This added \$68 million to General Government expenditures. Health Services expenditures increased by \$52 million due to an increase in federal programs and an increase in costs of existing programs. Law, Justice and Safety expenditures increased \$98 million due in large part to the State exercising an early purchase option on the lease of a state prison facility. The state purchased the facility for \$67 million. Recreation and Resource Development Expenditures increased by \$69 million or 106 percent over the prior year. Nearly \$25 million this increase is attributable to reclassifying a transfer to a component unit as expenditure in the primary government, rather than as a 'transfer', in accordance with GAAP. The State distributed an additional \$40 million to cities, towns and counties to assist with energy impacts, economic development issues and as general assistance.

| | | Expenditures and Othe Fiscal Year Ended June | • | es |

Capital Asset and Debt Administration

Capital Assets. The State of Wyoming's investment in capital assets, net of related debt, for its governmental and business type activities as of June 30, 2005, amounts to \$291 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, and park facilities.

Major capital asset events during the current fiscal year included the following:

- The new Livestock Pavilion and Show Center facilities totaling \$3,779,336 were near completion at the close of the fiscal year, and can be seen at the Wyoming State Fairgrounds in Douglas.
- Construction continued on several hatcheries and fish rearing stations for the Wyoming Game & Fish Department; \$4.7 million had been appropriated with \$2,756,265 spent at year-end.
- A variety of construction projects were underway or began at the Wyoming Conservation Camp, Women's Center, Honor Farm, and State Prison; construction in progress had reached \$22,960,302.

More detailed information about the State's incomplete construction in progress is presented in Note 14 to the basic financial statements, on pages 77 - 79.

At the end of the fiscal year 2005, the State had invested \$344 million, net of accumulated depreciation, in a broad range of capital assets (see the table below). The accumulated depreciation as of June 30, 2005, totaled \$331 million.

Additional information on the State of Wyoming's capital assets can be found in Note 5 on pages 58 - 61 of this report.

The State's Department of Transportation (DOT), a component unit of the State, is responsible for the majority of the infrastructure (consisting of roadways and bridges). As allowed by GASB Statement No. 34, DOT has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, DOT expenses certain maintenance and preservation costs and does not report depreciation expense. More detailed information about the DOT capital assets and the reporting criteria are available in the Wyoming Department of Transportation Component Unit Financial and Compliance Report as of September 30, 2004 and on page 88 - 89 of this report. DOT's policy is to maintain 83% of its national highway system bridges and 80% of its non-national highway system bridges in acceptable or above condition. In 2004, 92% of all bridges were rated acceptable or above. DOT's policy is to maintain its national highway system streets at an average rating of 3.25 and its non-national highway system streets at 3.0, on a 0-5 point scale. In 2004, the National Highway System streets rated 3.46 and the non-national highway system rated 3.16.

Bonded debt. On January 15, 2005 the State issued \$23,440,000 in Revenue Refunding Bonds with an average interest rate of 4.8294% to refund \$1,725,000 of outstanding 1993 Series Refunding Bonds with an average interest rate of 5.50% and to refund \$21,645,000 of outstanding 1994 Series Refunding Bonds with an average interest rate of 6.1176%. The net proceeds of \$24,415,806 (after payment of \$218,045 in underwriting fees and other costs of issuance) were used to redeem \$1,725,000 of outstanding 1993 Series Refunding Bonds at par plus accrued interest and to redeem 21,645,000 of outstanding 1994 Series Refunding Bonds at par plus accrued interest plus a premium

of 2.0%. The premium received and the call premiums paid were deemed to be immaterial for amortization and were expensed.

The State called the eligible 1993 and 1994 Series Refunding Bonds to reduce its total debt service payments over the life of the new issue. The reported economic gain over the life of the bonds is \$2,944,699. This was calculated by deriving the difference between the present value of the debt service payments on the outstanding debt before refunding and after refunding.

At the end of the current fiscal year, the State of Wyoming had total bonded debt outstanding of \$52 million. This amount, \$52 million represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

While the State of Wyoming issued \$23.4 million in Revenue Refunding Bonds, its total bonded debt actually decreased by \$2.4 million during the current fiscal year due to the bond refunding and subsequent retirement of debt and bond principal payments.

For the revenue refunding bonds the State received a "AA" from Standard and Poor's Corporation.

The State of Wyoming has a debt limitation for revenue bonds relating to capital construction in the amount of \$105 million, which is significantly in excess of the outstanding revenue bond debt.

The State of Wyoming received a "SP-1+" rating from Standard & Poor's Corporation and a "F1+" rating from Fitch IBCA, Inc. for its tax and revenue anticipation notes, which were issued July 1, 2004 and due June 24, 2005.

The State of Wyoming received a "SP1+" rating from Standard & Poor's Corporation and a "F1+" rating from Fitch IBCA, Inc. for its tax and revenue anticipation notes, which were issued July 1, 2005 and due June 28, 2006.

Additional information on the State of Wyoming's long-term debt can be found in Note 9 on pages 64 - 69 of this report.

Economic Outlook and Condition

Nationally, the economy has been very strong, but is threatened by soaring energy prices. It is these soaring energy prices that have produced very good news for the State's fiscal picture. For Fiscal Year 2005 revenues were the story and revenues remain the story into Fiscal Year 2006 and as the State prepares its 2007-2008 Biennial Budget, published news reports are discussing the prospects of a nearly \$2 billion budget surplus. Granted these numbers are preliminary, but it was only seven short years ago the State was facing a \$127 million budget deficit.

According to Wyoming's State Geologist, "the world has passed a fundamental tipping point. Demand has finally exceeded supply. Oil-producing countries in the Middle East can no longer open the valve wider to help bring down prices because the valve is already all the way open. He continued noting, that Wyoming is well positioned, because of its blend of oil, gas, coal, oil shale and uranium to profit from an energy thirsty world."

Will it Last?

Wyoming's State Geologist doesn't believe Wyoming's current energy boom will go bust for the next 30 years. He said, "we are in a highly competitive arena and need to understand this is not your father's boom-and-bust. This is a new world energy economy and it's going to be characterized by intense competition for the world's energy resources."

Wyoming's Economy

According to the Economic Analysis Division's (EAD)*Ten Year Outlook Wyoming Economic Forecast: 2005-2014*— for most economic indicators, Wyoming's economy does not mirror the national economy. Wyoming's state economy continues to be one of the least diversified in the nation. This report further illustrates the importance of how the Mining Sector continues to be one of the most important sectors in Wyoming's economy. For example, data for the latest year cited 2003 showed that mining contributed 24 percent to the State's Gross State Product (GSP), while nationwide, this sector's contribution to the gross domestic product was 1.2 percent.

The other area, which this report cites as reflecting the magnitude of Wyoming's dependence on the mining industry, is the State's finances. Mineral Severance Taxes, Interest from the Permanent Mineral Trust Fund, mining related sales and use tax collections, a gross products tax levied on mineral production and Federal Mineral Royalties

provide major sources of revenue for the State's General Fund, for primary and secondary education including school capital construction, and for cities, towns and counties of Wyoming. These sources combined are the primary reason Wyoming has no state personal or corporate tax and a comparatively low residential property tax.

For 2005, EAD's Ten Year Outlook Wyoming Economic Forecast: 2005-2014-- Wyoming's economy grew strongly again and continues to outperform the national economy and many other states in the western region in terms of job growth. The payroll count is at an all time high and most industries are expanding in earnest. A booming energy sector underpins current strength. Few negatives exist outside of flat government employment. Leading indicators are positive and layoff activities are abating.

This report's near-term outlook is for average growth supported by increased natural gas mining. Outside of the mining industry, however, the state's future prospects will be somewhat limited by a job market that fails to attract high-growth job opportunities. Although migration has recently reversed to a positive trend, many younger workers will be tempted to move to other states with more versatile job opportunities as their economies recover.

- As of June 2005, Wyoming's unemployment rate had decreased to 3.6 percent well below the rate for the same time the year before. This compares favorably with the 5.6% rate for the United States in June of 2005.
- For additional information and analysis of Wyoming's economy you are referred to the following website of the State's economic analysis division at http://eadiv.state.wy.us/

Request for information

This financial report is designed to provide a general overview of the State of Wyoming's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State of Wyoming, State Auditor's Office, Capitol Bldg. Room 114, Cheyenne WY, 82002 or see at http://sao.state.wy.us/.

Reconciliation of the Balance Sheet to the Statement of Net Assets

June 30, 2005

| Fund equity—total governmental funds | \$ 6,527,484,658 |
|--|------------------|
| Amounts reported for <i>governmental activities</i> in the statement of net assets are different because: | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. | 328,997,099 |
| Other assets are not available to pay for current-period expenditures and therefore are deferred in the funds. | 20,674,131 |
| Internal service funds are used by management to charge the costs of certain activities, such as insurance telecommunications, technology and transportation to individual funds. The assets and liabilities of internal service funds are included in | 64 225 247 |
| governmental activities in the statement of net assets. | 61,225,317 |
| Some liabilities are not due and payable in the current period and therefore are not reported in the fund. | (100,976,675) |

Reconciliation of the Statement of Revenues, Expenditures & Changes in the Fund Balance to the Statement of Activities

For the Year Ended June 30, 2005

| Net change in fund balances—total governmental funds | \$ 1,136,424,797 |
|--|------------------|
| Amounts reported for <i>governmental activities</i> in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$54,782,115) exceeded loss on disposal of fixed assets (\$901,635) and depreciation (\$24,006,369) in the current period. | 29,874,111 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | (2,642,645) |
| Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. | 2,500,530 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. | 49,114,540 |
| Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology and transportation to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities. | 24,185,365 |

Notes to the Basic Financial Statements

For the Year Ended June 30, 2005

NOTE 1 Summary of Significant Accounting Policies

A. Reporting entity

The basic financial statements include all funds of the primary government, which is the State, as well as the component units determined to be included in the State's financial reporting entity. The decision to include a potential component unit in the State's reporting entity is based on several criteria, including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities included in the State's reporting entity.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, entities over which the State has significant operational or financial relationships such as boards, commissions and authorities are considered component units. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions be reported with the balances and transactions of the State.

The following organization is the State's blended component unit:

<u>The Wyoming Building Corporation</u> is an independent authority that finances, owns and operates real and personal property used by the State. The Bldg. Corp. is blended as an internal service fund in this report because it provides services almost entirely to the State. The State approves the appointment of the directors and The Bldg. Corp. is fiscally dependent on the State. The Building Corporation issues a stand-alone financial report. Copies may be obtained by writing to Wyoming Building Corporation, 6101 North Yellowstone Avenue, Cheyenne, Wyoming, 82009.

The following organizations comprise the State's discretely presented component units:

<u>The Wyoming Department of Transportation</u> administers the State's construction and maintenance programs for roads and bridges and is legally separate from the State. The Governor appoints a voting majority of the DOT's Commission and is able to remove appointed board members at will. The financial information included for DOT relates to its fiscal year ended September 30, 2004.

<u>The Wyoming Community Development Authority</u> is an independent authority that provides low interest financing for Wyoming homebuyers. WCDA issues negotiable notes and bonds to fulfill its purpose. Neither the faith and credit nor taxing power of the State may be pledged for the amounts so issued. The State appoints a majority of WCDA board members and the State authorizes WCDA bond issuances; thereby, WCDA is financially accountable to the State.

<u>The Wyoming Business Council</u> is an independent authority that provides economic development and growth for the State. The State appoints all of the directors and provides a material subsidy to WBC.

<u>The University of Wyoming</u> is a public land grant research university serving as a statewide resource of higher education. The University of Wyoming is governed by a board made up of twelve members appointed by the Governor with the consent of the Senate.

<u>The Wyoming Natural Gas Pipeline Authority</u> is an independent authority created to plan, finance, construct, develop, acquire, maintain, and operate a pipeline system or systems within or without the state of Wyoming.

<u>The Wyoming Infrastructure Authority</u> is an independent authority created to diversify and expand the state's economy through improvements in Wyoming's electric transmission infrastructure and to facilitate the consumption of Wyoming energy. The authority will participate in planning, financing, constructing, developing, acquiring, maintaining and operating electric transmission facilities and their supporting infrastructure. The State appoints the five-member board and has provided funding through loans from the State Treasurer for day-to-day operation of the authority.

B. Basis of Presentation

The accompanying financial statements of the State of Wyoming, (the State), have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to governmental organizations in the United States. Such principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the standard-setting body for establishing governmental accounting and financial reporting principles in the United States of America.

The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. Financial data for the Wyoming Retirement System (WRS), Wyoming Department of Transportation (DOT), University of Wyoming (University) including it's component unit, the University of Wyoming Foundation (Foundation), Wyoming Community Development Authority (WCDA), Wyoming Building Corporation (Bldg. Corp.), Wyoming Business Council (WBC), Wyoming Natural Gas Pipeline Authority (NGPA), and the Wyoming Infrastructure Authority (WIA) have been derived from reports prepared by those organizations, based on independent accounting systems maintained by them.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The **Statement of Net Assets** presents the reporting entities' non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in four categories:

- Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- Restricted net assets expendable include resources in which the State is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.
- Restricted net assets nonexpendable consist of endowment and similar type funds in which donors or other
 outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained
 inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may
 either be expended or added to principal.
- Unrestricted net assets consist of net assets that do not meet the definition of the three preceding categories.
 Unrestricted net assets often are designated, to indicate that management does not consider them to be available for general operations.
 Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The **Statement of Activities** demonstrates the degree, to which the direct expenses, of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable within a specific function or segment.

The cost allocation by internal service is included in the direct expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a

particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

D. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Revenues are classified by program and general revenues. Program revenues include 1) charges to customers or applicants for goods and services 2) operating grants and contributions, and 3) capital grants and contributions. General revenues consist of all revenues not considered program revenue. All taxes are considered general revenues. Certain indirect costs have been allocated to functional activities.

As permitted by GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Funds that use Proprietary Fund Accounting, the State has elected not to adopt Financial Accounting Standards Board (FASB) statements issued after November 30, 1989, unless the GASB specifically adopts such FASB statements.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60-75 days of the end of the current fiscal period. Expenditures generally are recorded when a liability in incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The State implemented GASB Technical Bulletin 2004-1, *Tobacco Settlement Recognition and Financial Reporting Entity Issues*, during fiscal year 2005. This guidance requires states to recognize an asset for future tobacco settlement resources from January 1 through the end of the fiscal year. This caused Beginning Net Assets of Governmental Activities to be restated by \$7.5 million as a result of implementing this pronouncement.

Sales and Use tax, Mineral Severance tax, Federal Mineral Royalty tax, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the State.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of operations.

The State uses funds and component units to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

Governmental Funds:

The State reports the following major governmental funds:

- a. <u>General Fund</u> as the primary operating fund of the State, accounts for all financial resources except those required to be accounted for in another fund.
- b. <u>Foundation Program Fund</u> accounts for federal mineral royalties, mineral severance tax and other revenue sources, which are restricted for payments to school districts.
- c. <u>Budget Reserve Fund</u> accounts for mineral severance tax and other revenue sources, which are restricted for specific appropriation by the legislature.
- d. <u>Common School Land Fund</u> accounts for land donated to the State and income derived from those lands. The revenue earned by this fund is restricted for the purpose of establishing, maintaining, and supporting school facilities.
- e. <u>Permanent Mineral Trust Fund</u> accounts for a portion of severance tax. The interest earned by this fund is restricted for distribution to specific funds.

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private enterprise-where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the State has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Revenue and expenses are classified as operating and non-operating. Operating revenues and expenses generally result from providing goods and services. All other revenues and expenses are reported as non-operating.

The State reports the following major enterprise fund:

a. <u>Workers' Compensation Insurance Fund</u> accounts for activities of the Wyoming Workers' Compensation Insurance fund that provides workers' compensation insurance to government and private businesses.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units, on a cost-reimbursement basis. The Internal Service Funds include the Computer Technology Fund, Motor Vehicle Fund, Central Duplicating Fund, Telecommunications Fund, Group Insurance Fund, Wyoming Surplus Property Fund, Personnel/Training Fund, State Self Insurance Fund, and the Wyoming Building Corporation.

Fiduciary Funds:

- a. <u>Pension Trust Funds</u> account for the assets held by WRS, as trustee, for seven retirement systems. The financial information included for WRS relates to its fiscal year ended December 31, 2004. WRS is legally separate from the State. However, the State appoints a voting majority of the WRS board, sets the contribution requirements and has a fiduciary responsibility for WRS assets.
- b. <u>Private-Purpose Trust Funds</u> account for resources of all other trust arrangements in which principle and income benefit individuals, private organizations, or other governments (i.e., Unclaimed Property/Escheat property, and College Savings).
- c. <u>Investment Trust Fund</u> accounts for the assets belonging to Wyoming municipalities invested by the State Treasurer (i.e., WYO-Star).
- d. Agency Funds account for assets that the State holds on behalf of others as their agent.

E. Assets, liabilities, and net assets or equity

1. Deposits and investments. Current statutes require all cash and investments of State agencies other than those of the University and the WRS to be pooled and invested by the State Treasurer's Office. The State Treasurer maintains different cash and investment pools for the Common School, Permanent Mineral, Worker's Compensation, Tobacco Settlement, and Water funds and one cash and investment pool for the remainder of the fund types. Earnings from the cash and investment pools are credited monthly, utilizing a formula based on the average daily balance, to the applicable accounts and funds. The majority of the funds maintained by the State are not legally allowed to earn interest. The interest earned by these funds is credited directly to the general fund. The State reports all investments at fair value, except for investments in participating interest-earning investment contracts having a remaining maturity at time of purchase of one-year or less. Participating interest earning investment contracts having a remaining maturity at time of purchase of one-year or less are recorded at amortized cost. For the purpose of the statement of cash flows, the State considers all assets held in the cash and investment pool to be cash equivalents because the investments are not identifiable to specific funds and the assets can be withdrawn at any time, similar to a demand deposit account.

2. Receivables and Payables.

- a. Due to Due From. During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "Due from Other Funds" or "Due to Other Funds" in the balance sheet. See Note 6.
- b. **Property Taxes.** The counties in the State levy property taxes in the first half of August and submit a portion of the tax levy to the State. The tax levy is divided into two billings: the first billing is mailed in the first half of September, generally September 1; the second billing is generally mailed on March 1. The billings are considered due upon receipt by the taxpayer. The taxpayer has the option of paying the full amount on December 31. Property taxes are assessed as of January 1 of each year for that year.
- c. Advances to other funds and component units. Inter-fund loans receivable are reported as advances and are offset equally by a fund balance reserve account that indicates they do not constitute expendable available financial resources and therefore, are not available for appropriation.
- 3. Inventories. Inventories are reported in the proprietary funds using the lower of average cost or market. In the governmental fund types, inventories are accounted for at cost or average cost on a first-in, first-out basis. Inventory items are considered expenditures when purchased. However, as inventories on hand at June 30, 2005, are significant, they have been recorded as assets in the governmental funds. Inventories are reported

by the University at the lower of cost (first-in, first-out) or market except for livestock inventory that is reported at net realizable value. The Department of Transportation's inventories are valued at average cost, less an allowance for obsolete items and charged to expenditures when consumed.

- **4. Securities lending collateral.** Securities on loan for cash collateral are reported in the Statement of Net Assets. Liabilities resulting from the security lending transactions are also reported. Additional disclosures describing security-lending transactions are provided in Note 3.
- 5. Capital assets. Capital assets, which include property, plant and equipment, and infrastructure assets are reported in the governmental or business-type activities columns in the government-wide financial statements (Statement of Net Assets). Capital assets are stated at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are stated at their estimated fair market value on the date received. The State currently does not capitalize interest costs incurred during construction, except on business-type activities. Capital assets of the business-type activities are capitalized in the fund in which they are utilized. The State's capital assets are depreciated over their useful lives using the straight-line basis.
 - a. **Property, plant and equipment.** The State capitalizes all buildings, land and other capital assets that have a value or cost of \$500 or more at the date of acquisition and have an expected useful life of one year or more. Estimated useful lives for capital assets are all being depreciated on a straight line basis as follows:

| Class | Estimated Life |
|--------------------------------|----------------|
| Buildings & Bldg. Improvements | 40 years |
| Vehicles | 3 - 7 years |
| Equipment | 3 - 17 years |

- b. Infrastructure. Infrastructure assets can include roads, bridges, lighting systems, drainage systems and flood control systems, and rest areas. The primary government will have infrastructure in the State Parks and Cultural Resources division and the Department of Game and Fish. Department of Transportation (DOT) reports most of the infrastructure assets for the State. DOT's capitalization level for infrastructure is \$250,000. In accordance with the alternative approach to depreciating infrastructure assets permitted by GASB Statement No. 34, DOT has elected to expense all infrastructure related expenditures, except for those expenditures related to improvement of infrastructure assets, in lieu of depreciating infrastructure assets. In order to utilize the alternative system, DOT must maintain an asset management system that will assess asset condition and must maintain infrastructure assets at the condition level DOT established. Infrastructure acquired prior to fiscal years ending after June 30, 1980 are reported.
- c. Art and the Wyoming State Museum Collection. The State has not capitalized works of art, historical treasures and artifacts contained in the collections of the Wyoming State Museum. The collection is held for public exhibition, education, or research in furtherance of public service, protected, kept unencumbered, cared for, preserved, and subject to an organizational policy that requires the proceeds from sales of collection items to be used to maintain the existing collection.
- 6. Compensated absences. Employees of the different State agencies earn vacation leave, based on their number of years of service, and sick leave of one day per month. Employees are vested and allowed to accumulate up to 480 hours of vacation leave. In addition, employees are paid for one half of accumulated sick leave upon termination of employment with a maximum payment for one half (½) of 960 hours. The amount of vested accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a liability of the governmental funds in the government fund financial statements. Amounts of vested accumulated leave not expected to be liquidated with expendable available financial resources is not reported by the governmental funds in the government fund financial statements. All vested accumulated leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.
- 7. Deferred Revenue. The State reports deferred revenue on its government-wide statements and its fund financial statements. Deferred revenue arises when resources are received by the State before it has legal claim to them, as when grant funds are received prior to the occurrence of qualified expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the State has a legal claim to the resources, the liability for deferred revenue is removed and the revenue is recognized.

- 8. Long-term obligations. In the government-wide statements and proprietary fund financial statements, long-term liabilities are reported as liabilities. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion, expected to be financed, from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.
- 9. Fund equity. Portions of fund equity are reported in the fund financial statements as "reserved" to indicate (1) amounts not available for expenditure, such as equity represented by inventory and prepaid items; and (2) amounts legally segregated for a specific future use, such as those pledged for debt service, or legally binding contractual agreements. Designated fund balance represents tentative plans for future use of financial resources. As of June 30, 2005, Workers' Compensation, an enterprise fund, reported an accumulated deficit of \$125 million. The State is in the process of developing a plan to fully fund workers' compensation liabilities by 2008 through premium rate adjustments
- 10. Inter-fund Transactions. Inter-fund services provided and used are accounted for as revenue, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide statements. Inter-fund receivables and payables have been eliminated from the Statement of Net Assets, except for the residual amounts due between governmental and business-type activities. See further information in Note 7.

F. Reconciliation of government-wide and fund financial Statements

a. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The Reconciliation of the Balance Sheet to the Statement of Net Assets includes an item that explains, "some liabilities are not due and payable in the current period and therefore are not reported in the fund." The details of this \$100,976,675 difference are shown here:

| Bonds Payable | \$ 52,167,889 |
|--|-------------------|
| Compensated Absences | 37,537,157 |
| Retirement Obligations | 152,005 |
| Capital Leases | 496,662 |
| Benefits Payable | 10,622,962 |
| Neg adjustment to reduce fund balance-total governmental funds | |
| To arrive at net assets-governmental activities | \$ 100,976,675 |
| | |

b. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The Reconciliation of the Statement of Revenues, Expenditures & Changes in the Fund Balance to the Statement of Activities includes and item that explains, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$49,114,540 difference are shown here:

| Compensated absences | \$ (1,794,567) |
|--|-------------------|
| and judgements | (4,442,356) |
| Retirement Obligations | 171,947 |
| Capital Leases | 55,179,516 |
| Net adjustment to increase net changes in fund balances-total governmental | |
| Funds to arrive at changes in net assets of governmental activities | \$ 49,114,540 |

NOTE 2 Funds and Component Units

The following table lists all of the funds and component units reflected in this financial report.

PRIMARY GOVERNMENT:

<u>Governmental Funds:</u>

General Fund

Special Revenue Funds:

Foundation Program Fund

Budget Reserve Fund

Permanent Funds:

Common School Land Fund

Permanent Mineral Trust Fund

Governmental Funds:

Special Revenue Funds:

Wyoming Natural Gas Pipeline Authority

Wyoming Infrastructure Authority

NOTE 3 Deposits and Investments

Disclosures covering risk that have the potential to result in losses concerning the State's deposits and investments are now governed by GASB Statement 40-Deposit and Investment Risk Disclosures, and GASB Statement 3 as amended. In addition, GASB Statement 14 requires separate deposit and investment risk information to be provided for each of the State's component units. This note includes separate deposit and investment disclosure information for the University, WRS, DOT, Bldg. Corp., WBC, WCDA and the Wyoming Natural Gas Pipeline Authority. However the cash and investments for these entities, some of which are held in the State cash and investment pool at June 30, 2005, are included in the respective risk disclosures for the primary government.

GASB 40 addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB 40 also requires disclosure of formal policies related to deposits and investment risks.

MASTER INVESTMENT POLICY

Generally, the Master Investment Policy (policy) sets forth a 'road map' on how the investment program should be run. The policy spells out what can and cannot be done, roles and responsibilities, acceptable transactions, prohibited transactions and performance expectations on its managed funds. State statutes, as incorporated into the policy, authorize the State to invest in securities issued or guaranteed by the U.S. Treasury or agencies of the United States government; bonds issued by Wyoming agencies or political subdivisions; corporate notes, bonds, and debentures; commercial paper; banker's acceptances; loans specifically identified by statutes; and other securities specifically authorized by the legislature. The State Loan Investment Board (Board) reviews the policy annually. This Board is comprised of the State's five elected officials.

Those managing the State's investment program are governed in part by the prudent investor rule contained in the State's Uniform Prudent Investor Advisor Act. This rule states in part

"[a] Trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances of the trust."

The policy further states investments or groups of investments shall not be evaluated in isolation but in the context of the entire investment portfolio and as part of an overall investment strategy of the trust or fund from which the investment is derived, consistent with the policies for such trust or fund established under statute by the Board.

Policy also allows a trustee to delegate investment and management functions that a prudent trustee of comparable skills could properly delegate under the circumstances. The policy further states the trustee shall exercise reasonable care, skill and caution in

- a) Selecting an agent
- b) Establishing the scope and terms of the delegation, consistent with the purposes and terms of the trust; and
- c) Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the terms of the delegation.

At June 30,2005 the State had both fixed investment income managers and equity investment managers. At its August 2005 Board meeting, the State Loan and Investment Board approved investment managers for a real estate investment class.

During the 2000 legislative session, authorization was revised to allow monies in the permanent funds to be invested in common stock of United States Corporations not to exceed fifty-five percent (55%) of the State's cash balance. It is a primary goal of the State's Master Investment Policy to obtain an optimal asset allocation for Wyoming's investments to take full advantage of this new authority. This includes determining the optimal division of an investment portfolio among available asset classes, factoring in such elements as risk and return as central to the overall financial planning and investment management. Investment selection for all funds shall be based on legality, appropriateness, liquidity, and risk/return considerations. There are two classifications of funds.

- Permanent funds and non-permanent funds, which disperse income and capital gains. The funds included in this
 classification are the Permanent Mineral Trust Fund, the Common School Permanent Land Fund, the State Agency
 Pool, the Tobacco Settlement Trust Fund and the Wyoming State Treasurer's Asset Reserve (WYO-STAR).
- Permanent funds and non-permanent funds, which retain income and capital gains with the fund's portfolio. The only
 fund in this classification is the Workers' Compensation Fund.

During fiscal year 2005, the State began to rebalance its permanent fund portfolios by moving towards a balance of fifty percent fixed income and fifty percent equities over a 3-5 year period. Fiscal Year 2005 saw the Permanent Mineral Trust Fund end with a weighting of 71.4% fixed income, cash and cash equivalents and 28.6% equities. The Common School Permanent Land Fund ended fiscal year 2005 with a weighting of 70.4% fixed income, cash and cash equivalents and 29.6% equities. The targeted asset allocation for Fiscal Year 2006 is 60% fixed income, cash and cash equivalents and 40% equities. Once the long-term asset allocation goal of 50% fixed income and 50% equities is reached, a long-term total investment return of 7% is expected.

Risk exposures for the different funds within the managed fund classifications including the State's managed fiduciary College Fund and Unclaimed Property Fund are not significantly different than the deposit and investment risks of the primary government. As each risk element is presented, disclosure will specify whether the policy formally provides for management of the particular risk being discussed.

A. Custodial Credit Risk-Deposits

Previously, deposit risk categories were presented under the format of GASB 3, which provided for presentation of the State's deposits in terms of whether the deposits fell into the following categories:

- Category 1) Deposits that are federally insured or collateralized with securities held by the State (component unit) or by its agent in the State's (component unit's) name.
- Category 2) Deposits that are uninsured but fully collateralized with securities held by the pledging financial institution's trust department or agent in the State's (component unit's) name.
- Category 3) Deposits that are collateralized with securities held by the pledging financial institution or by its agent but not in the State's (component unit's) name and non-collateralized deposits.

GASB 40 amended GASB 3 to in effect eliminate disclosure for deposits falling into categories 1 and 2, but retained disclosures for deposits falling under category 3. Category 3 deposits are those deposits that have exposure to custodial credit risk. Such deposits are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by pledging financial institution but not in the depositor-government's name.

STATE OF WYOMING

Wyoming Statutes require any deposit not so insured shall be secured by depository bond or approved collateral securities as required by law.

As of June 30, 2005 the State had no deposits exposed to custodial credit risk.

Custodial Credit Risk-Agency Funds

Deposits not collateralized and not so required by state law include those funds held on behalf of others. At year-end, \$4.9 million was held in demand and savings bank accounts and \$14.6 million was held in bank certificates of deposit. These funds are reported in the agency funds.

UNIVERSITY OF WYOMING

At June 30, 2005, the carrying amount of the University's demand deposits in financial institutions was \$19,942,779 and the bank balances were \$21,288,263. The demand deposits were fully insured with a combination of FDIC insurance and pledged collateral held in the name of the University. All deposits were held by a qualified depository as outlined in the state statutes.

At June 30, 2005, the University had \$95,425,416 on deposit with the State Treasurer.

At June 30, 2005, the University had \$3,953,448 on deposit with the Foundation. Detailed information on the Foundation's pooled cash and investments is available from the Foundation.

WYOMING RETIREMENT SYSTEM, WYOMING COMMUNITY DEVELOPMENT AUTHORITY, WYOMING NATURAL GAS PIPELINE AUTHORITY AND WYOMING INFRASTRUCTURE AUTHORITY

Custodial credit risk

As of December 31, 2004 for the Wyoming Retirement System, and June 30, 2005 for the other component units, none had deposits exposed to custodial credit risk.

B. Investment Risk Categories

Previously, investment risk categories were presented under the format of GASB 3 which provided for presentation of the State's investments in terms of whether the investments fell into the following categories:

- Category 1) Investments that are insured or registered, or securities held by the State (component unit), or its agent in the State's (component unit's) name.
- Category 2) Uninsured and unregistered investments for which the securities are held by the counter party's trust department or agent in the State's (component unit's) name.
- Category 3) Investments that are uninsured and unregistered, with securities held by the counter party, or by its trust department or agent but not in the State's (component unit's) name.

GASB 40 amended GASB 3 to in effect eliminate disclosure for investments falling into categories 1 and 2, and provided for disclosure requirements addressing other common risks of investments such as credit risk, interest rate risk, concentration of credit risk, foreign currency risk. GASB 40 did retain and expand the element of custodial credit risk in GASB 3.

STATE OF WYOMING

The State's investments at June 30, 2005 are presented here:

STATE OF WYOMING SCHEDULE OF INVESTMENTS YEAR ENDED JUNE 30,2005

| | Fair Market | Percentage of |
|--|---------------------|---------------|
| | Value | Fair Value |
| Fixed Income: | | |
| US Treasury Securities | \$ 322,367,291 | 4.81% |
| US Government Agencies | 4,292,637,683 | 64.11% |
| Government Bond Sovereign Debt | 1,243,200 | 0.02% |
| Mortgage Backed Securities | 114,652,962 | 1.71% |
| Asset Backed Securities | 11,070,291 | 0.16% |

Credit Risk

The Credit Risk disclosures for the State's Fixed Income portion of its investment are presented here. Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment. The minimum credit ratings for investment debt securities as provided in the State's Master Investment Policy for fixed income managers are A1/P1 or equivalent for commercial paper, BAA for long term corporate debt, AA for Mortgage-backed securities, and AA for Asset-backed securities. Either Standard and Poor's, Fitch or Moody's ratings are acceptable. Where the issue is split-rated, the lower of the ratings will apply. N/R indicates that the investment is not rated. Legislatively Designated Investments (LDI) represents those investments the Treasurer has been directed to invest in by the legislature.

Custodial Credit Risk

Custodial Credit Risk is for those investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name. The State has an option program that is collaterized by US Treasury securities held by the custodian of the option manager's agent for the State. These securities are subject to custodial credit risk, and at June 30, 2005, they had an amortized cost of \$34 million.

Concentration of Credit Risk

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for the State. The information presented is based on concentrations of investments in the State's portfolio.

The Wyoming State Treasurer's fixed income portfolio holds \$4,149,247,158 or 75.122% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), and Federal Home Loan Bank (FHLB). These agency securities hold a rating of AAA. This is a higher concentration than in the past, and was done strategically to add safety of principal and provide liquidity while achieving the highest possible investment return

While the State's Master Investment Policy sets limits for concentration of investments, it provides that U.S. agency bonds are eligible without limitation.

Foreign Currency Risk

This is risk that changes in foreign exchange rates will adversely affect the fair value of an investment. This risk disclosure applies only to investments that are denominated in foreign currencies. The State Investment program's foreign risk is presented here as of June 30, 2005.

| | Foreign Cash | Foreign Equities |
|--------------------|---------------|-------------------|
| Australian Dollar | \$ 19,611 | \$ 7,334,913 |
| British Pound | - | 24,514,017 |
| Canadian Dollar | - | 3,722,693 |
| Danish Krone | - | 709,827 |
| Euro | 647,999 | 64,180,394 |
| Hong Kong Dollar | - | 3,139,084 |
| Japanese Yen | 915 | 50,215,047 |
| Norwegian Krone | - | 1,804,277 |
| Singapore Dollar | - | 1,146,183 |
| South African Rand | - | 539,123 |
| Swedish Krona | - | 5,565,787 |
| Swiss Franc | - | 12,499,077 |
| | \$ 668,525 | \$ 175,370,422 |

The State's Master Investment Policy does not provide a policy for foreign currency diversification. At June 30, 2005 the State had no debt securities denominated in a foreign currency.

Interest Rate Risk

The Interest Rate Disclosure for the State's Fixed Income portion of its investments is presented here. The State has chosen the segmented time distribution method for its Interest Rate Disclosure. This method most closely matches how the State manages interest rate risk. A majority of the bonds in the Wyoming State Treasurer's fixed income portfolio have call structures allowing the issuer to call that bond at specific times during the life of the bond. These bonds are purchased because they add yield compared to buying a non-callable bond. This is a preferred strategy when faced with a rising interest rate environment.

Administratively, the State manages interest rate risk of decreasing market value on its fixed investment portfolio arising from increasing interest rates by managing the average life of the fixed income portfolio. In this rising interest rate environment, many securities with longer maturities were sold and shorter-term securities were purchased thus shortening the overall average life of the portfolio. These securities have a concentration of US Government agency securities holding AAA ratings.

While the State has no formal policy with respect to managing Interest Rate Risk within its Master Investment Policy, however, the Policy does provide guidance relative to safety, liquidity and yield using the following criteria:

- Funds are analyzed by asset class including cash to determine if securities need to be purchased or sold.
- Future needs are determined and current positions are reviewed.
- Economic, market and interest rate assumptions are considered.
- Securities are selected based on market value, price and availability.
- Trades are executed to raise cash, to shift maturity, to change asset mix, to enhance yield and to improve quality.

Maturity assumptions have been made using a matrix analyzing interest rates versus final maturity dates of callable securities. The maturity assumptions or average life of the fixed income portfolio securities are displayed in the Interest Rate Risk Table.

Highly Sensitive Securities

The Wyoming State Treasurer's fixed income portfolio holds securities that are classified as "Highly Sensitive". These securities, because of their specific type and structure, are rate sensitive as market conditions change.

The Fed Funds rate increased from 1.25% in July, 2004 to 3.25% by the end of June, 2005. Prior to these increases, interest rates were at all time lows, creating the perfect environment for Mortgage-Backed bonds to experience accelerated principal payments. As interest rates increased during the year, these same securities tended to have less accelerated payments. The portfolio holds \$114,652,962 or 2.0758% of the fixed income securities in Mortgage-Backed bonds. Collateralized Mortgage Obligations, (CMO's) perform like Mortgage-Backed bonds. The portfolio holds \$172,117 or 0.003% of the fixed income securities in highly sensitive CMO's.

During FY05, the State continued to add step-up securities to the portfolio. Step-up securities are structured so that the bonds, at strategic times during their life, will step-up to a higher interest rate if they aren't called. In this current interest rate environment, step-up securities are expected to hold their market value better than most other fixed income structures. Most of these step-up bonds are anticipated to be called at a specific date allowing re-investment at a higher rate. The portfolio holds \$200,927,276.00, or 3.638% of the fixed income securities in step-up structured bonds.

SECURITIES LENDING TRANSACTIONS—PRIMARY GOVERNMENT

State Statutes permit the State Treasurer to lend its securities, through the use of agents, to broker-dealers and other entities with simultaneous agreement to return the collateral for the same securities in the future. The State's agents lend securities, of the type on loan at year-end, for collateral in the form of cash or other securities at 100 percent of value for US Treasury Strips and US Treasury Bills, and 102-105 percent of value for other securities. The State, through its agents, measures the fair value of the securities loaned against the fair value of the collateral on a daily basis. Additional collateral is obtained as necessary to ensure such transactions are adequately collateralized. Securities lent for securities collateral are classified according to the category of the collateral. At year-end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the borrowers owe the State. The contract with the State's agent requires it to indemnify the State if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the State for income distributions by the securities' issuers while the securities are on loan.

The following represents the balances relating to the securities lending transactions at the financial statement date:

| Securities Lent | Fair Value Underlying Securities | С | Loan Value of ollateral Received |
|--|-------------------------------------|----|----------------------------------|
| Lent for Cash Collateral | | | |
| U.S. Governments | \$ 46,086,038 | \$ | 47,151,176 |
| U.S. Government Agencies | 3,752,431,398 | | 3,864,711,830 |
| Corporate Securities | 38,510,708 | | 39,724,240 |
| Equities | 111,458,214 | | 114,724,868 |
| Total Lent for Cash Collateral | \$ 3,948,486,358 | \$ | 4,066,312,114 |
| Lent for Securities Collateral | | | |
| U.S. Governments | \$ 185,624,442 | \$ | 190,662,773 |
| U.S. Government Agencies | 7,617,695 | | 7,834,498 |
| Total Lent for Bulk (Securities) Lending | \$ 193,242,137 | \$ | 198,497,271 |
| Total Securities Lending | \$ 4,141,728,495 | \$ | 4,264,809,385 |

Cash collateral is invested in the lending agent's short-term investment pool, which at year-end has a weighted-average maturity of 133 days. The relationship between the maturities of the investment pool and the State's loans is affected by the maturities of securities loans made by other entities that use the agent's pool, which the State cannot determine. The State cannot pledge or sell collateral securities received unless the borrower defaults. At June 30, 2005, the cash collateral of \$4,066,312,114 was recorded as cash and investments with trustee and as a liability under security lending.

Credit Risk

The Credit Risk disclosures for the State's Securities Lending program are presented here. Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment.

| CREDIT QUALITY DISTRIBUTIONS FOR SECURITIES WITH CREDIT EXPOSURE SECURITY LENDING AS OF JUNE 30, 2005 | | | | | | |

Custodial Credit Risk

Custodial Credit Risk for investments are those investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name. For the State's Securities Lending Program the State has lent its securities for other securities. These securities have custodial credit risk, and at June 30, 2005 these securities had an amortized cost of \$193,676,381. By investment type there was \$186,019,347 in US Government securities and \$7,657,035 in US Government Agencies.

Concentration of Credit Risk

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB 40 requires disclosure by issuer and amount investments in any one issuer that represents five percent (5%) or more of total investments for the State. The State's securities lending program does not have any concentration of credit risk exposure.

Interest Rate Risk

The Interest Rate Disclosure for the State's Securities Lending program is presented here. Interest Rate Risk is that associated with changes in interest rates demanded by the market will adversely affect the fair value of an investment. The State has chosen the

segmented time distribution method for its Interest Rate Disclosure. This method most closely matches how the State manages rate risk. There is minimal interest rate risk due to the average life of the security lending portfolio. The maturity assumptions or average life of the security lending portfolio are displayed in the following table.

| INTEREST RATE RISK ORGANIZED BY INVESTMENT TYPE USING SEGMENTED TIME DISTRIBUTION SECURITY LENDING AS OF JUNE 30, 2005 | | | | | | | |
|--|----|---------------|----|---------------|----|-------------|--|
| | | | | LESS THAN | | 1-5 | |

| TOTAL | \$ | 4,066,242,904 | \$ | 3,549,272,875 | \$ | 516,970,029 | |

Highly Sensitive Securities

There are no highly sensitive securities to disclose for securities lending.

Foreign Currency Risk

This is risk that changes in foreign exchange rates will adversely affect the fair value of an investment. This risk disclosure applies only to investments that are denominated in foreign currencies. The State had no foreign currency exposure in its securities lending program as of June 30, 2005.

UNIVERSITY OF WYOMING

As of June 30, 2005, the University had investments with weighted average maturities as shown in the following table.

| Investment Type | Carrying Amount | Fair Value | Weighted Average Maturity |
|---------------------------|--------------------|-------------------|---------------------------|
| | | | In Years |
| US Government Sponsored | | | |
| Enterprise Discount Note | \$ 88,739,915 | \$ 87,869,700 | 0.44 |
| Certificate of Deposit | 2,400,000 | 2,400,000 | 0.25 |
| US Treasury Strip | 170,676 | 817,675 | 0.13 |
| US Government Sponsored | | | |
| Enterprise Notes | 2,313,000 | 2,303,400 | 0.51 |
| Wyoming State Treasurer's | | | |
| Pooled Investments | 20,663,114 | 20,663,114 | n/a |
| Exchange Traded Funds | 5,814,397 | 5,814,397 | n/a |
| Foreign Equity Securities | 1,917,663 | 1,917,663 | n/a |
| Total Investments | \$ 122,018,765 | \$ 121,785,949 | |

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The University's policy for managing its exposure to fair value loss arising from interest rate changes on internally invested funds is to limit the maturity of all securities to less than one year.

Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The table below shows quality ratings of investments that are rated.

| Investment Type | Fair Value | | Quality Rating AAA |
|--------------------------|------------------|----|---------------------|
| US Government Sponsored | | | |
| Enterprise Discount Note | \$ 87,869,700 | \$ | 87,869,700 |
| US Treasury Strip | 817,675 | | 817,675 |
| US Government Sponsored | | | |
| Enterprise Notes | 2,303,400 | | 2,303,400 |
| Total Investments | \$ 90,990,775 | \$ | 90,990,775 |

Custodial credit risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, the University will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The University does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the University's name.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the University's investment in a single issuer. Concentration of risk is not addressed in the internal investment policy. At June 30, 2005, the University held securities from the following issuers in excess of 5% of the total portfolio: Federal Home Loan Bank 10.63%, Federal Home Loan Mortgage Corporation 21.43% and Federal National Mortgage Corporation 10.66%.

Foreign currency risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. A portion of the externally managed investments of the APHEC funds are made in stocks and bonds of foreign corporations. All investments are converted to U.S. dollars for reporting purposes, but are subject to changes in value due to fluctuations in the worldwide currency markets. The total amount of foreign investments at June 30, 2005 was \$1,917,663, representing .91% of the total investments of the University.

On August 9, 2005, all of the Exchange Traded Funds and the Foreign Equity Securities were redeemed. The funds were transferred to a new custodian and invested in the Multi-Strategy Equity Fund, Multi-Strategy Bond Fund and Absolute Return Investors Company with the Commonfund.

UNIVERSITY OF WYOMING—FOUNDATION

University owned endowment funds are held by the Foundation for investment purposes. The investment committee, following the Prudent Expert Rule, carries out the Foundation's investment policy. The Prudent Expert Rule states that a fiduciary shall manage the portfolio "with the care, skill, prudence and diligence, under circumstances then prevailing, and that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and like aims." External managers have been hired to invest in the following asset classes: equities, fixed income, absolute return, private equity/venture capital, hedged equity and real estate. A long-term target asset allocation strategy has been implemented to achieve required returns while minimizing risk. All investment vehicles selected must be in compliance with the laws of the State of Wyoming, Internal Revenue Code prohibitions on self-dealing or vehicles that would jeopardize the carrying out of the exempt purpose of the Foundation and restrictions on Unrelated Business Taxable Income.

The summarized investments of the Foundation at June 30, 2005 are as follows:

| Investment Type | Carrying | | Fair |
|---------------------------------------|----------|-------------|-------------------|
| | | Amount | Value |
| Money Market Funds | \$ | 3,282,326 | \$ 3,282,326 |
| Corporate Stocks | | 149,597,631 | 169,478,738 |
| Corporate Bonds and Notes | | 41,257,052 | 40,822,123 |
| Real Estate | | 12,273,498 | 12,308,141 |
| Government Obligations | | 1,618,463 | 1,618,463 |
| Cash value of Life Insurance Policies | | 293,355 | 293,355 |
| Other Investments | | 4,354,600 | 4,353,762 |
| Total | \$ | 212,676,925 | \$ 232,156,908 |

As of June 30, 2005, the University of Wyoming investments held by the Foundation, primarily in mutual funds, has weighted average maturities, where applicable, as shown in the following table.

| | Historical | | Weighted Average |
|----------------------|------------------|------------------|-------------------|
| Investment Type | Cost | Fair Value | Maturity in Years |
| Cash funds | \$ 140,218 | \$ 140,218 | 2.95 |
| Real assets | 228,614 | 332,631 | n/a |
| Private equity | 667,794 | 971,631 | n/a |
| Absolute return | 9,493,506 | 13,812,905 | n/a |
| High yield | 2,749,387 | 4,000,315 | 3.50 |
| Fixed income | 6,112,422 | 8,893,480 | 1.81 |
| Hedged equity | 7,171,267 | 10,434,082 | n/a |
| International equity | 8,970,100 | 13,051,356 | n/a |
| Small cap | 5,949,986 | 8,657,138 | n/a |
| Large cap | 18,734,333 | 27,296,510 | n/a |
| | \$ 60,217,627 | \$ 87,590,266 | |

Interest rate risk

The Foundation has no formal policy addressing interest rate risk.

Credit risk

The high yield and fixed income bond mutual fund investments are not rated.

Custodial credit risk

The Foundation does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the Foundation's name.

Concentration of credit risk

The Foundation's investment policy limits concentrations as follows:

- 1. The initial investment in any one issuer should not exceed 10% of a manager's portfolio (with the exception of U.S. Government securities);
- 2. The investment with any one issuer should not exceed 15% of a manager's portfolio (with the exception of U.S. Government securities);
- 3. No purchases of securities of the portfolio manager's organization or of any firm with controlling interest in said organization are to be made.

At June 30, 2005, there were no single issuer investments that exceeded 5% of the total holdings of the Foundation.

WYOMING RETIREMENT SYSTEM

The Wyoming Retirement System's schedule of investments, as of December 31, 2004 is presented here:

| WYOMING RETIREMENT SYSTEM | | | | | | |
|--|----|---------------|--|--|--|--|
| SCHEDULE OF INVESTMENTS BY INVESTMENT TYPE | | | | | | |
| AS OF DECEMBER 31, 2004 | | | | | | |
| Equities - U.S. | \$ | 2,750,742,877 | | | | |
| Equities - international | | 697,996,396 | | | | |
| Corporate bonds | | 752,622,075 | | | | |
| Mortgage-backed securities | | 306,144,628 | | | | |
| Commercial mortgage backed | | 15,618,242 | | | | |
| CMO/RMIC | | 56,211,373 | | | | |
| Asset backed | | 41,166,401 | | | | |
| Cash - domestic | | 2,741,369 | | | | |
| Cash - international | | 19,685,984 | | | | |
| Short-term - U.S. | | 36,850,636 | | | | |
| Cash equivalents | | 238,841,476 | | | | |
| U.S. Treasury bonds | | 411,497,892 | | | | |
| Real estate | | 128,362,339 | | | | |
| SBA loans | | 117,463 | | | | |
| Total Investments | \$ | 5,458,599,151 | | | | |

Custodial Credit Risk

Investment securities within the defined benefit plans are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the System and are held by either the counterparty or the counterparty's trust department or agent, but not in the System's name. Consistent with the System's investment policy, all investments are held by the System's primary custodian and registered in the System's name except for approximately \$128.3 million in real estate holdings, \$117,000 of SBA loans held by the State of Wyoming, and \$1.39 billion of beneficial ownership of stock held in a collective trust fund. One of the System's money managers serves as the trustee for the collective trust fund's assets and holds legal title of the trust's assets for the exclusive benefit of each of the trust's beneficial owner's including the System.

The System does not have a formal deposit or investment policy for custodial credit risk.

Concentration of Credit Risk

The Systems and Plans expect the domestic investment managers to maintain diversified portfolios by sector and by issuer using the following guidelines in accordance with the System's investment policies:

| Target Allocation | Minimum | Target | Maximum |
|--|---------|--------|---------|
| Fixed Income: | | | |
| U.S. investment grade | 20% | 28% | 40% |
| U.S. high yield | 0% | 5% | 10% |
| Total fixed income | 25% | 33% | 45% |
| | | | |
| Equity and Real Estate: | | | |
| U.S. large-cap equity | 25% | 35% | 45% |
| U.S. small - medium cap | 10% | 15% | 20% |
| Non-U.S developed and emerging markets | 10% | 14% | 20% |
| Real estate and alternatives | 0% | 3% | 5% |
| Total equity and real estate | 55% | 67% | 75% |

The policy of the Board is to discourage equity investment managers from holding positions in a single issue whose market value exceeds 5% of the market value of the portfolio. However, exceptions can be made if this percentage of the overall portfolio is exceeded as a consequence of long held positions whose value has grown as a consequence of their strong returns. At December 31, 2004, the System did not hold any single investment with a market value of greater than 5% of its portfolio.

The Board does not authorize the use of derivatives as speculative instruments or in a leveraged manner such that the risk of loss from a particular position would be materially larger than if actual securities were utilized. Derivatives for the purpose of equalizing cash in a non-leveraged context is acceptable with specific Board authorization.

The purpose of real estate investments is to provide counter cyclical returns income and a defense against inflation. Funds considered will be comprised primarily of highly-leased properties with reasonable income components. The real estate portfolio, in aggregate, shall be diversified by property type, property size, geographic region, and economic sector exposure. Leverage shall be used sparingly.

Credit Risk

In addition to the diversification policy guidelines by sector provided above, the System expects that unless otherwise specified in the manager specific guidelines, fixed income grade investments shall have an average quality of the portfolio equivalent of a Standard & Poor's rating of A or better. Managers of accounts holding publicly traded non-Government debt should select and manage them so as to assure an appropriate balance in maturity, quality, marketability and adequate diversification with respect to industry and issues.

High yield investments are defined by the System as those debt securities, which carry a Standard & Poor's quality rating of BB or lower. According to the System's investment policies, fund managers who manage these investments should structure a well diversified portfolio with respect to rating, maturity, duration, yield, industry and issuer with the intent of minimizing the risk of losses in any single security.

The distribution of quality rating of debt securities in the System's investment portfolio at fair value as of December 31, 2004 is as follows:

| WYOMING RETIREMENT SYSTEM | | | | | | |
|--|----|---------------|--|--|--|--|
| CREDIT QUALITY FOR SECURITIES WITH CREDIT EXPOSURE | | | | | | |
| AS OF DECEMBER 31, 2004 | | | | | | |
| Quality Rating: | | | | | | |
| AAA | \$ | 275,061,671 | | | | |
| AA | | 16,503,700 | | | | |
| A | | 137,530,836 | | | | |
| BBB | | 209,046,870 | | | | |
| BB | | 264,059,204 | | | | |
| В | | 269,560,438 | | | | |
| Total credit risk debt securities | \$ | 1,171,762,719 | | | | |
| U.S. Government and agency investments | | 411,497,892 | | | | |
| Total debt securities investments | \$ | 1,583,260,611 | | | | |

Interest rate risk

The System is also exposed to investment fair value loss arising from increased interest rates. Duration is a measure of the sensitivity of a debt security's value to rate changes. It is calculated using the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price. More specifically, it is the approximate percentage change in value for a 100 basis point change in rates. The System's investment policy guidelines require that the investment grade debt securities portfolio be maintained with a weighted-average portfolio duration of no longer than ten years. No specific investment guidelines exist for other debt securities subject to interest rate risk not included in the investment grade portfolio.

At December 31, 2004 the following table shows investments by investment type, amount and the effective weighted duration:

| WYOMING RETIRE! TEREST RATE RISK ORGANIZED BY I AS OF DECEM | NVESTMENT TY | PE USING DURATION | METHOD |
|---|--------------|-------------------|-----------------------------|
| Investment Type | | Amount | Effective Weighted Duration |
| Treasury bonds | \$ | 411,497,892 | 5.28 |
| Asset backed | | 41,166,401 | 6.52 |
| Mortgage backed | | 306,144,628 | 3.10 |
| CMO/remic | | 56,211,373 | 1.67 |
| Commercial mortgage backed | | 15,618,242 | 1.69 |
| Corporate bonds | | 752,622,075 | 4.42 |
| Total debt securities | \$ | 1,583,260,611 | 4.32 |

Foreign Currency Risk

The System also expects its International Security Investment Managers to maintain diversified portfolios by currency denomination, however, no formal policy limits have been established. At December 31, 2004, the System's exposure to foreign currency risk for its short-term and equity securities is as follows:

| | Foreign Cash | Foreign Equities | | Foreign Cash | Foreign Equities |
|----------------------|-----------------------|------------------|---------------------|---------------|------------------|
| Australian Dollar | \$ (986) | \$ 27,679,414 | Italian Lira | - | 16,764,862 |
| Austrian Schilling | - | 1,430,813 | Japanese Yen | 5,928,471 | 142,401,520 |
| Belgium Franc | - | 5,175,775 | Mexican New Peso | 4,282 | 3,413,436 |
| British Pound | 8,966,603 | 147,527,647 | Netherlands Guilder | - | 18,428,443 |
| Canadian Dollar | (353) | 5,071,109 | New Zeland Dollar | (2) | 1,286,779 |
| Czech Republic Krona | (321) | 7,334,173 | Norwegian Krone | (102) | 8,233,681 |
| Danish Krone | (866) | 5,968,454 | Philippine Peso | - | 485,457 |
| Euro | 4,275,731 | 126,678,938 | Portuguese Escudo | - | 1,393,610 |
| Finnish Markka | - | 5,480,618 | Russia Rouble | - | 152,236 |
| French Franc | - | 36,605,466 | Singapore Dollar | - | 3,183,410 |
| German Mark | - | 27,078,011 | South African Rand | 3,492 | 2,171,840 |
| Greek Drachma | - | 2,149,095 | Spain Peseta | - | 15,927,600 |
| Hong Kong Dollar | (35) | 9,733,652 | Swedish Krona | 89,245 | 26,651,001 |
| Indonesian Rupiah | 66,174 | 2,821,110 | Swiss Franc | 354,650 | 43,409,486 |
| Irish Punt | - | 3,358,759 | | | |
| Totals all t | foreign currencies in | dollars | | \$ 19,685,983 | \$ 697,996,395 |

At December 31, 2004, the System had no debt securities denominated in a foreign currency.

SECURITIES LENDING-WYOMING RETIREMENT SYSTEM

Under the authority of the governing statutes and in accordance with policies set by the Board of Trustees, the System lends its securities to broker-dealers with a simultaneous agreement to return the collateral for the securities in the future. The System's custodian is authorized to lend available securities to authorized broker-dealers subject to the receipt of acceptable collateral. The System lends securities such as common stock, U.S. Treasury and corporate bonds and receives collateral in the form of either cash or other securities similar to the type on loan. Borrowers are required to provide collateral amounts of 102% of the market value of loaned U.S. securities plus accrued interest and 105% of the market value of loaned non-U.S. securities plus accrued interest. The System cannot pledge or sell collateral securities received until and unless a borrower defaults. Securities held as collateral at year-end are not subject to the preceding disclosures of custodial credit risk as they are held in a collateral investment

pool. At year-end, the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers exceed the amounts the borrowers owe the System. Contracts with the lending agents require them to indemnify the System if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the System for income distributions by the securities' issuers while the securities are on loan. Net securities lending income during the year ended December 31, 2004 was \$1,016,347.

Securities lent as of December 31, 2004, with a market value of \$399,179,401 and a collateral value at a rate of 102% and/or 105%, as appropriate, for a total market value of \$407,366,175, could be terminated on demand by either the System or the borrower(s). There is no direct match of the maturities of the collateral investments with the maturities of the securities loaned.

WYOMING COMMUNITY DEVELOPMENT AUTHORITY

The WCDA trust indentures and State statutes authorize the types of investments in which WCDA invests. Among these authorized investments are certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities of the U.S. Government, and repurchase agreements with banks with the underlying securities being obligations of the U.S. Treasury, or agencies and instrumentalities of the U.S. Government. The investments are carried at fair value except for certificate of deposits that are carried at cost.

Credit Risk

State statutes limit the types of investments available to the Authority. Investments, including the underlying securities for repurchase agreements, are held by the Authority's trustees in the Authority's name. Guaranteed investment contracts which have a maturity beyond 18 months are generally guaranteed by AAA rated institutions or collateralized.

The components of the Authority's investment portfolio are as follows:

| Investments | |
|---------------------------------------|-------------------|
| Certificates of deposit | \$ 476,547 |
| U.S. Government and agency securities | 200,481,822 |
| Guaranteed investment contracts | 8,500,000 |
| Total | \$ 209,458,369 |

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority would not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Substantially all of the Authority's investments are held in the name of the Authority by a trustee.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority attempts to match its investment maturities to the expected call dates of its bonds or needs for purchasing mortgages. With this investment focus, investments would be expected to reach maturity with limited realized gains or losses.

As of June 30, 2005, the Authority had the following investments and maturities.

| | | | Investment Matu | urities (in Years) | |
|-------------------------|-------------------|------------------|--------------------|--------------------|-------------|
| | Fair | Less | | | More |
| | Value | Than 1 | 1-5 | 6-10 | Than 10 |
| Certificates of deposit | \$ 476,547 | \$ 476,547 | \$ 0 \$ | 0 \$ | 0 |
| U.S. Government and | | | | | |
| agency secirities | 200,481,822 | 36,291,156 | 3,873,020 | 11,994,357 | 148,323,289 |
| Guaranteed investment | | | | | |
| contracts | 8,500,000 | 8,500,000 | 0 | 0 | 0 |
| Total | \$ 209,458,369 | \$ 45,267,703 | \$ 3,873,020 \$ | 11,994,357 \$ | 148,323,289 |
| | | | | | |

Interest Rate Swaps

Swap Objectives

The Authority has entered into interest rate swap agreements in connection with variable-rate bond series as a technique to lower the cost of long-term debt. The objective of the swaps is to effectively change the variable interest rate on the bonds to a synthetic fixed rate.

Terms and Values

| Bond Series | Swap Dontractual Dates | National Amount | Fixed Rate Paid | Variable Rate Received | Termination Date | Fair Valie | Counterparty Credit Rating |
|---------------|------------------------------|-------------------------------|--------------------|---------------------------|---------------------|-----------------------------|----------------------------------|
| 2005 Series 2 | 3/31/2005 | \$ 8,000,000 | 3.523% | 70% of LIBOR | 6/1/2021 | \$ (225,338) | AAA-Aaa |
| Pending | 6/30/2005 | \$ 8,000,000 16,000,000 | 3.260% | 70% of LIBOR | 12/1/2021 | \$ (77,889) (303,227) | AAA-Aaa |

As of June 30, 2005, the Authority's swap agreements had a negative fair value of \$303,227. The negative fair value of the swaps may be offset by reductions in total interest payments required under the related variable-rate bond, creating lower synthetic rates. Because the coupons on the related variable-rate bonds adjust to the changing interest rates, the bonds do not have a corresponding fair value increase. The fair value amounts, obtained from the counterparty, represent mid-market valuations that approximate the current economic value using prices and rates at the average of the estimated bid and offer amounts.

Swap Risks

<u>Credit Risk</u> – As of June 30, 2005, the Authority was not exposed to any credit risk because the swaps had a negative fair value. However, should interest rates change and the fair value of the swaps become positive, the Authority would be exposed to credit risk in the amount of the derivatives' fair value. The Authority's policy to manage credit risk would require the Authority to seek credit enhancements should the counterparty's ratings be below AA- or Aa3.

<u>Basis Risk</u> – Basis risk is the potential mismatch between the variable interest rate paid on the underlying bonds and the variable rate payments received by the Authority pursuant to the swap. The Authority's variable rate bond interest payments should correspond to the BMA Index, while the payments the Authority receives pursuant to the swap are 70 percent of LIBOR. The Authority is exposed to basis risk should the LIBOR and BMA Index rates converge. If a change occurs that results in the rates moving to convergence (that is, the BMA Index exceeding 70 percent of LIBOR), the value to the Authority of the hedge from the swap is diminished. As of June 30, 2005, the BMA Index rate was 2.29 percent, while 70 percent of LIBOR (the swap rate) was 2.34 percent.

<u>Termination risk</u> – The Authority or the counterparty may terminate the swaps if the other party fails to perform under the terms of the swap contracts. The swaps may be terminated by the Authority at its discretion with a maximum of ten days' notice. If a swap was terminated, the variable-rate bonds would no longer carry a synthetic fixed rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value.

<u>Rollover Risk</u> —The Authority is exposed to rollover risk on swaps that mature or may be terminated prior to the maturity of the associated bonds. When these swaps terminate or are terminated by either party, the Authority will not realize the synthetic fixed rate offered_by the swaps on the underlying bond issues. The following bond series is exposed to rollover risk:

| Associated Bond Issuance | Bond Maturity Date | Swap Termination Date |
|--------------------------|--------------------|-----------------------|
| 2005 Series 2 | December 1, 2035 | June 1, 2021 |

WYOMING BUILDING CORPORATION

The Wyoming Building Corporation's deposits and investments totaled \$2,266,310 at June 30, 2005. The investment was in a U.S. Government Agency Security.

The Wyoming Building Corporation's investments as of June 30, 2005 are presented here:

| Investments | |
|---------------------------|-----------------|
| Cash and cash equivalents | \$ 176,495 |
| US Government Agency | 2,089,815 |
| Total | \$ 2,266,310 |

Custodial Credit Risk

The investment in the US Government Agency is a Federal Home Loan Bank Bond maturing in November 2007, with a 3.5% rate and rated AAA.

WYOMING BUSINESS COUNCIL

Deposits for WBC are primarily invested in the pooled cash account of \$51,557,579 managed by the State and included in the State's deposit and risk disclosure above. WBC also has funds deposited in a bank money market account and certificate of deposit that are fully insured by the Federal Deposit Insurance Corporation (FDIC). At June 30, 2005, the amounts deposited in these bank accounts totaled \$30,968.

WYOMING NATURAL GAS PIPELINE AUTHORITY

Credit Risk

The Authority, at June 30,2005 held investments solely in US Treasury obligations.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from changing interest rates, the Authority keeps only short-term investments. With this investment focus, investments would be expected to reach maturity with limited realized gains or losses.

Custodial Credit Risk

All of the Authority's investments are uninsured, unregistered and held in the name of the Authority by a financial institution's brokerage house.

WYO-STAR

The Wyoming State Treasurer's Asset Reserve Fund (WYO-STAR) has been established, in accordance with Wyoming statute 9-1-416 to invest funds upon request of any county, municipality, school district or any other local governmental entity. The State Land and Investment Board oversees the WYO-STAR program and there is no involuntary participation in WYO-STAR. In accordance with GAAP, the external portion of WYO-STAR is reported as an investment trust fund in the Fiduciary Funds, using the economic resources measurement focus and accrual basis of accounting, due to the State's fiduciary responsibility. The internal portion of the pool is reported in the Deferred Compensation Fund of the Wyoming Retirement System and the University of Wyoming. The investments of WYO-STAR are carried at their fair value as determined at June 30th each year. A ratio based on the participants share to the total share invested in WYO-STAR is used to determine each participant's share. The State has not provided or obtained any legally binding guarantees during fiscal year 2005 to support the value of the shares. A summary WYO-STAR Investments as of June 30, 2005 is presented here:

| WYO-STA | R INVESTMENT | S |
|--------------------------------|--------------|-------------|
| JUNE | 30 2005 | |
| Total Investments | \$ | 244,128,088 |
| Securities with no Credit Risk | | |
| or Interest Rate Risk | | (1,076) |
| Securities with Credit and | | |
| Interest Rate Risk | \$ | 244,127,012 |

Credit Risk

The Credit Risk disclosures for the State's WYO-STAR program are presented here. Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment.

Custodial Credit Risk

The WYO-STAR program at June 30, 2005 had no custodial credit risk exposure.

Concentration of Credit Risk

The Master Investment Policy of the Wyoming State Treasurer's office lists the philosophy and investment strategy of the WYO-STAR fund as a short term pool. The actual investments are administered to provide liquid cash reverses, placing the majority portion in a cash portfolio and the rest in an extended cash portfolio.

Foreign Currency Risk

As of June 30, 2005 the WYO-STAR investment portfolio had no exposure to foreign currency risk.

Interest Rate Risk

The WYO-STAR investment portfolio by description as stated in the Master Investment Policy administers the short-term cash deposits made with the State by local entities. The actual investments are administered to provide liquid cash reserves, placing the majority portion in a cash portfolio and the rest in an extended cash portfolio.

These guidelines afford minimal interest rate risk.

The maturity assumptions or average life of the WYO-STAR fixed income portfolio securities are displayed in the WYO-STAR Interest Rate Risk Table.

| INTEREST RATE RISK O | PRGANIZED BY INVESTM | ENT TYPE USING SEG | MENTED TIME DISTRIE | BUTION |
|----------------------------|-------------------------|--------------------|---------------------|---------------|
| | STATED INTEREST RATE | MARKET | LESS THAN 1 YEAR | 1-5 YEARS |
| AGENCY | 1.5-7.0% | 68,403,164 | 61,172,672 | 7,230,492 |
| AGENCY DISCOUNT NOTES | N/A | 60,392,763 | 60,392,763 | |

| Total | | \$ 244,127,012 | \$ 202,909,811 | \$ 41,217,201 |

Highly Sensitive Securities Risk

The WYO-STAR fixed income portfolio holds securities that are classified as "Highly Sensitive". These securities, because of their specific type and structure, are rate sensitive as market conditions change.

The Fed Funds rate increased from 1.25% in July, 2004 to 3.25% by the end of June, 2005. Prior to these increases, interest rates were at all time lows, creating the perfect environment for Mortgage-Backed bonds to experience accelerated principal payments. As interest rates increased during the year, these same securities tended to have less accelerated payments. The portfolio holds \$8,438,979 or 3.457% of the fixed income securities in Mortgage-Backed bonds.

The target asset allocation, as stated in the Master Investment Policy, comprises one hundred percent (100%) of the fund in short term bonds and cash.

Diversification/Permissible Investments as stated in the Master Investment Policy permits purchase of the following securities:

- Asset Backed Securities
- · Repurchase Agreements
- Government Securities: including obligations of the U.S. Treasury and Obligations of the U.S. Government Agencies or Instruments, bearing floating or fixed interest rates.
- Asset-backed securities will be limited to CMOs or pass throughs; the collateral for which is securities issued by Government Mortgage National Association (GMNA), Federal National Mortgage Association (FNMA), or Federal Home Loan Mortgage Corporation (FHLMC) or notes fully guaranteed as to principal and interest by the Small Business Administration. Automobile receivables and credit receivables will also be considered permissible investments.
- Currency: U.S. dollar denomination only.

The WYO-STAR fixed income portfolio holds \$125,795,981or 51.529% of the fixed income securities in government agency securities such as FNMA, FHLMC, and Federal Home Loan Bank (FHLB). These agency securities hold a rating of AAA.

The following tables represent the condensed statements of net assets and changes in net assets for the investment trust fund WYO-STAR:

| Statement of Net Assets Investment Trust Fund June 30, 2005 | |

NOTE 4 Loans Receivable

As of June 30, 2005, the gross amount of outstanding loans for governmental type funds was \$298,383,189 with an allowance of \$702,490. The largest portion of loans outstanding are Municipal Wastewater, totaling \$110,716,952, which have rates which vary between 2.5% and 4%, are collateralized by mortgages on land, are required to be repaid within a maximum of 30 years and are for the development and improvement of farm land. The second major category of loans outstanding are water loans, totaling \$93,725,073, which have rates which vary between 4% and 8%, are collateralized by mortgages and pledges of revenue, are required to be repaid within a maximum of 50 years and are for the construction maintenance and evaluation of water facilities. At June 30, 2005, loans receivable included loans to one major loan customer totaling \$66,219,248, which comprised 22,2% of total loans receivable.

The State's loans receivable as of June 30, 2005, are as follows:

| | Common School Land Fund | Permanent Mineral Fund | Budget Reserve Fund | Non-Major and Other Funds | Total |
|----------------------------------|-------------------------------|------------------------------|---------------------------|---------------------------------|------------------|

As of June 30, 2005, the State had committed \$130,845,935 in various loans for distribution after June 30th.

University of Wyoming Loans Receivable

As of June 30, 2005, the total amount of outstanding loans was \$19,187,454, net of an allowance for doubtful accounts. The outstanding loans primarily consist of medical school contracts, which have rates from 0% to 8%, repayment schedules of 96 months after leaving school and allow for loan cancellation based on the number of years of residency at eligible clinics in the State of Wyoming or upon practicing full-time medicine in the State of Wyoming. Included in loans and pledges receivable is \$24,796,211 due to the University and the University of Wyoming Foundation for donor pledges.

Wyoming Community Development Authority

WCDA loans receivable consist of mortgage loans receivable as well as economic development loans receivable. As of June 30, 2005, mortgage loans receivable consist of the following:

| Economic Development Loans | 779,213 |
|--|--------------|
| Less: Reserve for losses on Loans | (560,000) |
| Current Economic Development Loans \$ | |

| Business and Industry | 16,982 |
| Minerals, Energy and Transportation | 2,992 |
| Regional Offices | 2,972 |
| Investment Ready Communities | 5,984 |
| | \$ 107,003 |

NOTE 6 Receivables and Payables

On the Statement of Net Assets the "Due to Primary Government" and the "Due from Component Unit" does not balance by \$375,305. The "Due to Component Unit" and the "Due from Primary Government" does not balance by \$23,207,402. These differences are due primarily to the Department of Transportation's September 30 fiscal year end.

To the extent that certain transactions between funds had not been paid or received as of June 30, 2005, balances of inter-fund amounts receivable or payable have been recorded as presented below. Amounts due to internal service funds are generally for services performed by those funds. The principle amounts of the balances within the Non-Major Governmental Funds represent advances between funds.

| | | | | R | eceivable Fund | | | |
|------------------------------|---------------------|------------------------------|----------------------------------|----|------------------------------------|----------------------------------|-----------------------------|-----------|
| Payable Fund | General Fund | School Foundation Fund | Workers' Compensation Fund | | Non-Major Governmental Funds | Non-Major Enterprise Funds | Internal Service Fund | Total |
| Major Funds: | | | | | | | | |
| Governmental: | | | | | | | | |
| General Fund | \$ 0 | \$ 0 \$ | 706,633 | \$ | 0 | \$ 0 \$ | 1,195,117 \$ | 1,901,75 |
| School Foundation Fund | 0 | 0 | 0 | | 26,174,423 | 0 | 0 | 26,174,42 |

NOTE 7 Inter-fund Transfers

State of Wyoming

The primary government's operating transfers for the year ended June 30, 2005, were as follows:

| | | | | Transferr | ed From | | | |
|----------------------------|-----------------|------------------------|----------------------------|--------------------------|-------------------------------|----------------------------|----------------------------------|---------------|
| Transferred To | General Fund | Budget Rsrv Fund | Foundation Prgm Fund | Workers' Comp Fund | Common School Land Fund | Non-Major Govt Funds | Non-Major Enterprise Funds | Total |
| Major Funds: Governmental: | | | | | | | | |
| General Fund \$ | 0 \$ | 543.684.167 \$ | 0 \$ | 0 \$ | 0 \$ | 2.771.376 \$ | 8.141.569 \$ | 554,597,112 |
| Foundation Prgm Fund | 0 | 0 | 0 | 0 | 67,570,994 | 0 | 0 | 67,570,994 |
| Budget Rsrv Fund | (124,963,319) | 0 | 30,000,000 | 0 | 0 | 102,488,422 | 0 | 7,525,103 |
| Permanent MinFund | 0 | 51,550,000 | 0 | 0 | 0 | 0 | 0 | 51,550,000 |
| Non-Major Govt Funds | 379,916,665 | 255,752,281 | 0 | 0 | 0 | 17,636,246 | 0 | 653,305,192 |
| Non-Major Enterprise Funds | 0 | 0 | 0 | 0 | 0 | 951,042 | 0 | 951,042 |
| Internal Service Funds | 7,482,103 | 12,735 | 0 | 4,338 | 0 | 102,255 | 0 | 7,601,431 |
| Total \$ | 262,435,449 \$ | 850.999.183 \$ | 30,000,000 \$ | 4,338 \$ | 67,570,994 \$ | 123.949.341 \$ | 8.141.569 \$ | 1,343,100,874 |

The transfer into the Internal Service Funds is out of balance by \$12,735, which came from Wyoming Retirement System.

Transfers are used to 1) move revenues from the fund that statute requires to collect them to the fund that statute requires to expend them; 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; and 3) move profits from the Liquor Commission Fund (\$8.1 million) as required by law.

In the fiscal year ended June 30, 2005, the significant transfers include transfers to the General Fund from the Non-Major Governmental Funds representing excess revenues not needed in those funds (\$2.8 million), and the transfers to the General Fund from the Budget Reserve Fund are made as a budget balancer (\$543.7 million). The negative amount of \$124,963,319 from the General Fund to the Budget Reserve Fund is a result of adjusting for a budget balancer transfer made in Fiscal Year 2004 to comply with a legislative directive that the undesignated fund balance in the General Fund be \$10 million or less.

The term budget balancer is used to describe the legislative process whereby the General Fund and Budget Reserve Fund are considered one pool of available resources when making appropriations. The revenues from the Budget Reserve are used to 'balance' the expenditures made in the General Fund. Transfers from the Common School Land Fund for (\$67.6 million) are the investment income that is distributed to the Foundation Program Fund for the expenditures in that fund. These transfers were made in accordance with statutory authority granted by the Legislature. The Legislature also subsidized capital construction in school districts throughout the state by a (\$250.9 million) transfer to the Non-Major Governmental Fund (School Districts Royalty Fund) from the Budget Reserve Fund.

NOTE 8 Short-Term Debt

The State issues tax and revenue anticipation notes. These notes were necessary to cover temporary cash shortages in the School Foundation Fund due to the timing of revenue collection.

| | | Beginning Balance | Issued | Redeemed | Ending Balance |
|--------------------------|------------|----------------------|----------------|----------------|-------------------|
| Governmental Activities: | _ | | | | |
| School Foundation Fund | * = | 0 \$ | 220,000,000 \$ | 220,000,000 \$ | 0 |

NOTE 9 Long-Term Obligations

State of Wyoming

During the year ended June 30, 2005, the following changes occurred in liabilities for the primary government:

| | | Beginning Balance | | Additions | | Deletions | | Ending Balance | Amount Due Within One Year |
|---------------------------|-----|----------------------|----|-------------|----|-------------|----|-------------------|-------------------------------|
| Governmental Activities: | _ | | | | | | | | |
| Revenue Bonds | \$ | 54,598,419 | \$ | 23,440,000 | \$ | 25,870,530 | \$ | 52,167,889 \$ | 2,850,367 |

| Claims/Benefits Payable | | 70,699,161 | | 159,010,635 | | 147,660,543 | | 82,049,253 | 53,351,70 |
| Early Retirement | | 377,274 | | 0 | | 209,359 | | 167,915 | 95,460 |
| Total Governmental | _ | | | | | | | | |
| Long-term Obligations | \$ | 231,920,428 | \$ | 204,080,296 | \$ | 259,608,793 | \$ | 176,391,931 \$ | 71,197,86 |
| Business-Type Activities: | | | | | | | | | |
| Compensated Absences | \$ | 894,325 | \$ | 683,958 | \$ | 495,284 | \$ | 1,082,999 \$ | 389,38 |
| Capital Leases | | 171,197 | | 0 | | 76,313 | | 94,884 | 94,88 |
| Claims/Benefits Payable | | 703,040,326 | | 187,635,506 | | 127,097,323 | | 763,578,509 | 82,309,54 |
| Total Business-Type | | | | | | | | | |
| Long-term Obligations | · · | 704,105,848 | • | 188,319,464 | e | 127,668,920 | • | 764,756,392 \$ | 82,793,81 |

Claims and benefits payable of the governmental activities are primarily liabilities of the general fund for health and welfare benefits and the Environmental Quality Special Revenue Fund for claims associated with damages from prior mining activities. Compensated absences are payable by the funds in which they are incurred that are primarily the General Fund, the Water Special Revenue Fund, Mineral Royalties Special Revenue Fund and the Game and Fish Special Revenue Fund. In the business type activities, the claims and benefits payable are primarily liabilities of the Worker's Compensation and Unemployment Enterprise Funds.

Department of Transportation

The following table represents the changes in compensated absences and long-term liabilities of the DOT during the year ended September 30, 2004:

| | | Beginning Balance | Additions | Reductions | Ending Balance | Amount Due Within One Year |
|--------------------------|----|----------------------|--------------|--------------|-------------------|-------------------------------|
| Governmental Activities: | _ | | | | | |
| Compensated Absences | \$ | 16,866,335 \$ | 5,495,482 \$ | 5,059,987 \$ | 17,301,830 \$ | 6,200,819 |
| Early Retirement | | 613,358 | 0 | 319,291 | 294,067 | 162,713 |
| Governmental activities, | _ | | | | | |
| Long-term liabilities | \$ | 17,479,693 \$ | 5,495,482 \$ | 5,379,278 \$ | 17,595,897 \$ | 6,363,532 |
| | _ | | | | | |

University of Wyoming

The following table represents the changes in long-term debt of the University during the year ended June 30, 2005:

| | | Beginning Balance | Additions | Deletions | Ending Balance | Amount Due Within One Ye |
|---------------------------|----|----------------------|------------|-----------|-------------------|-----------------------------|
| Business-Type Activities: | _ | Dalarice | Additions | DCICTIONS | Dalaricc | Within One re |
| Revenue Bonds | \$ | 37,999,513 \$ | 16,769,678 | 2,014,519 | \$ 52,754,672 | \$ 2,632,66 |
| Capital Leases | | 2,208,622 | 0 | 207,247 | 2,001,375 | 256,60 |
| | _ | 40,208,135 | 16,769,678 | 2,221,766 | 54,756,047 | 2,889,26 |
| Compensated Absences | _ | 9,376,484 | 7,389,492 | 6,332,927 | 10,433,049 | 5,216,52 |
| Early Retirement | | 119,251 | 0 | 68,222 | 51,029 | 36,29 |
| Other Liabilities | | 28,854,014 | 3,855,303 | 1,142,681 | 31,566,636 | 11,594,98 |
| | _ | 38,349,749 | 11,244,795 | 7,543,830 | 42,050,714 | 16,847,80 |
| Total Business-Type | | | | | | |
| Long-term Obligations | \$ | 78.557.884 \$ | 28.014.473 | 9.765.596 | \$ 96.806.761 | \$ 19,737,06 |

The table above does not agree to the Statement of Net Assets by \$3,930,278 because the University of Wyoming balances on the Statement of Net Assets include the University of Wyoming Foundation, which does not report under the Governmental Accounting Standards Board standards.

Wyoming Natural Gas Pipeline Authority

Long-term debt activity for the year ended June 30, 2005, was as follows:

| | | Beginning Balance | Additions | Deletions | Ending Balance | Amount Due Within One Year |
|---------------------------|----|----------------------|-----------------|-----------|-------------------|-------------------------------|
| Governmental Activities: | _ | | | | | |
| Compensated Absences | \$ | 0 | \$ 7,416 | \$ 0 | \$ 7,416 | \$ 1,675 |

Wyoming Community Development Authority

The following table represents the changes in long-term debt of the WCDA during the year ended June 30, 2005:

| | Beginning Balance | Additions | Deletions | Ending Balance | Amount Due Within One Year |
|--|----------------------|-------------------|-------------------|-------------------|-------------------------------|
| Business-Type Housing Revenue Bonds \$ | 751,067,532 | \$ 150,000,000 | \$ 138,101,386 | \$ 762,966,146 | \$ 14,659,521 |

A. Capital Leases

The State has entered into various leases, and lease purchase agreements for buildings and equipment that have been accounted for as capital leases in accordance with generally accepted accounting principles. Lease contracts are required by law to contain a fiscal funding clause indicating continuation of the lease is subject to funding by the legislature.

Future minimum lease payments under capital lease, for the State's governmental activities and the University as of June 30, 2005, are as follows:

| Year Ending June 30th | Governmental Activities | Business-Type Activities | University of Wyoming |
|------------------------------------|-------------------------|--------------------------|-----------------------|
| 2006 | 284,067 | 119,651 | 369,452 |
| 2007 | 247,903 | 0 | 360,167 |
| 2008 | 125,297 | 0 | 360,167 |
| 2009 | 3,694 | 0 | 360,167 |
| 2010 | 3,694 | 0 | 306,144 |
| 2011-2015 | 0 | 0 | 720,877 |
| Total Minimum Payments | 664,655 | 119,651 | 2,476,974 |
| ess Interest | 147,968 | 24,767 | 475,599 |
| Less Executory Costs | 20,025 | 0 | |
| Present Value of Lease Payments \$ | 496,662 \$ | 94,884 \$ | 2,001,375 |

B. Bonded debt

State of Wyoming

On January 15, 2005 the State issued \$23,440,000 in Revenue Refunding Bonds with an average interest rate of 4.8294% to refund \$1,725,000 of outstanding 1993 Series Refunding Bonds with an average interest rate of 5.50% and to refund \$21,645,000 of outstanding 1994 Series Refunding Bonds with an average interest rate of 6.1176%. The net proceeds of \$24,415,806 (after payment of \$218,045 in underwriting fees and other costs of issuance) were used to redeem \$1,725,000 of outstanding 1993 Series Refunding Bonds at par plus accrued interest and to redeem 21,645,000 of outstanding 1994 Series Refunding Bonds at par plus accrued interest plus a premium of 2.0%. The premium received and the call premium paid were deemed to be immaterial for amortization and were expensed.

The State called the eligible 1993 and 1994 Series Refunding Bonds to reduce its total debt service payments over the life of the new issue. The reported economic gain over the life of the bonds is \$2,944,699. This was calculated by deriving the difference between the present value of the debt service payments on the outstanding debt before refunding and after refunding.

The governmental funds bonded debt reported below represents the remaining principal payable on capital facilities revenue bonds. Funds for the repayment of the principal and interest on these bonds are restricted to the federal mineral royalties distributed to the school foundation program. The following table presents the State of Wyoming Capital Facilities Revenue Bonds outstanding as of June 30, 2005:

| | Series | Amount Issued | Interest Range % | , | Balance June 30, 2005 |
|------------------------------------|--------|------------------|------------------|----|--------------------------|
| Government-Wide Statements | | | | | |
| Capital Facilities Refunding Bonds | 1992 | \$ 28,750,000 | 3.0 - 6.25 | \$ | 12,465,000 |
| Capital Facilities Refunding Bonds | 1993 | 8,777,522 | 4.1 - 6.2 | | 6,357,522 |
| Capital Facilities Bonds | 1994 | 27,395,897 | 4.1 - 6.3 | | 1,430,367 |
| Capital Facilities Refunding Bonds | 2002 | 10,405,000 | 2.75-5.0 | | 8,475,000 |
| Capital Facilities Refunding Bonds | 2005 | 23,440,000 | 2.5-5.0 | | 23,440,000 |
| Total | | \$ 98,768,419 | | \$ | 52,167,889 |

Future minimum payments for revenue bonds recorded in the government-wide statements of June 30, 2005 are as follows:

| | Government-Wide Statements | | | | | | | | |
|-----------------------|----------------------------|---------------|------------|--|--|--|--|--|--|
| Year Ending June 30th | Principal | Interest | Total | | | | | | |
| 2006 | 2,850,367 | 1,944,311 | 4,794,678 | | | | | | |
| 2007 | 2,740,940 | 3,733,685 | 6,474,625 | | | | | | |
| 2008 | 2,685,300 | 3,758,725 | 6,444,025 | | | | | | |
| 2009 | 2,653,854 | 3,776,564 | 6,430,418 | | | | | | |
| 2010 | 2,657,969 | 3,784,719 | 6,442,688 | | | | | | |
| 2011-2015 | 11,569,459 | 12,332,592 | 23,902,051 | | | | | | |
| 2016-2020 | 13,250,000 | 5,481,462 | 18,731,462 | | | | | | |
| 2021-2024 | 13,760,000 | 220,794 | 13,980,794 | | | | | | |
| | \$ 52,167,889 \$ | 35,032,852 \$ | 87,200,741 | | | | | | |

Wyoming Natural Gas Pipeline Authority

The Authority's notes payable are as follows:

Note payable to the State of Wyoming, interest at 4%; monthly interest only payments of \$66,726; principal due June 2010; uncollaterlized totaling \$1,668,150.

Annual debt service requirements for the five fiscal years subsequent to June 30, 2005 are as follows:

| | | | Т | otal Debt |
|------|--------------|---------------|----|-----------|
| Year | Principal | Interest | | Service |
| 2006 | \$ | \$ 66,726 | \$ | 66,726 |
| 2007 | | 66,726 | | 66,726 |
| 2008 | | 66,726 | | 66,726 |
| 2009 | | 66,726 | | 66,726 |
| 2010 | 1,668,150 | 66,726 | | 1,734,876 |
| | \$ 1,668,150 | \$ 333,630 | \$ | 2,001,780 |

University of Wyoming

University revenue bonds payable represent the remaining principal payments on bonds used for construction of facilities. Revenues from the operations of residence halls, apartments, cafeterias, dining halls, other food service facilities, bookstore and telecommunications; income from other sales and services; income from the University Permanent Land Fund and mineral royalties from the University Government Royalty Fund are pledged for the Facilities Improvement and Refunding Revenue Bonds Series 1999, the Facilities Improvement Revenue Bonds Series 2001, the Facilities Refunding Revenue Bonds Series 2003, and the Facilities Improvement Revenue Bond Series 2004.

Revenue bonds payable consist of the following at June 30, 2005:

| | Series | | Amount Issued | Interest Range % | Balance June 30, 2005 |
|---------------------------------|--------|----|---------------|------------------|--------------------------|
| Government-Wide Statements | | | | | |
| University Revenue Bonds | 1999 | \$ | 18,760,000 | 4.75-5.5% | 12,380,000 |
| | 2001 | | 9,120,000 | 4.0-5.5% | 8,055,000 |
| | 2003 | | 4,340,000 | 2.0-3.5% | 4,225,000 |
| | 2004 | | 11,100,000 | 3.25-5.0% | 11,100,000 |
| | 2005 | | 16,000,000 | 3.5-5.0% | 16,000,000 |
| Total | | \$ | 59,320,000 | | 51,760,000 |
| Original issue discount/premium | | = | | | 994,672 |
| Total | | | | | \$ 52,754,672 |

Future minimum payments for the University's revenue bonds recorded as of June 30, 2005 are as follows:

| | University of Wyoming | | | | | | |
|-----------------------|-----------------------|------------|--|--|--|--|--|
| Year Ending June 30th | Principal | Interest | | | | | |
| 2006 | 2,565,000 | 2,472,883 | | | | | |
| 2007 | 3,155,000 | 2,301,809 | | | | | |
| 2008 | 3,315,000 | 2,168,626 | | | | | |

| 2010 | 3,545,000 | 1,914,774 | | | | | |
| 2011-2015 | 12,260,000 | 7,761,725 | | | | | |
| 2016-2020 | 14,745,000 | 4,397,492 | | | | | |
| 2021-2025 | 8,745,000 | 1,266,000 | | | | | |
| | 51,760,000 \$ | 24,331,853 | | | | | |

Wyoming Community Development Authority

Bonds are generally payable in scheduled annual and semiannual installments and are subject to mandatory sinking fund requirements in scheduled amounts. Redemption is optional after various dates at prices ranging from 100 to 103 per 100. Capital appreciation bonds (CABs) are reported at accreted value.

The bonds of the 1978, 1992, and 1994 Indentures are special obligations of the Authority, payable solely from the income and receipts of these indentures. The bonds of the 1982 Indenture are general obligations of the Authority payable from any of its revenues, income and receipts. All of the bonds are secured by mortgage loans and other assets of the respective indentures. Interest on all outstanding bonds is payable semi-annually, except for 2001 Series A Bonds, 2002 Series A Bonds, 2003 Series B Bonds, 2001 Series 7 Bonds, 2002 Series 8 Bonds, 2003 Series 4 Bonds, 2004 Series 3 Bonds, 2004 Series 6 Bonds, 2004 Series 9 Bonds, 2004 Series 11 Bonds, 2005 Series 2 Bonds, CABs, and Wyoming Homeownership Bonds Series I.

The following table presents WCDA bonds outstanding at June 30, 2005:

| Governmental Fund Revenue Bond Debt | Series | Amount Issued | Interest Range % | Balance June 30 |
|---|---------------------|---------------|------------------|-----------------|
| Single Family Mortgage Bonds | 1993 Series E \$ | 29,565,000 | 5.40-5.7 \$ | 695,0 |
| single Family Mortgage Bonds | 1998 Series B | 15,000,000 | 5.3 | 13,000,0 |
| Single Family Mortgage Bonds | 2001 Series A | 9,545,000 | 2.2 | 9,545,0 |
| Single Family Mortgage Bonds | 2002 Series A | 37,000,000 | 2.2 | 37,000,0 |
| single Family Mortgage Bonds | 2003 Series A/B | 53,745,000 | 2.2 | 53,745,0 |
| lousing Revenue Bonds | 1995 Series 4-5 | 35,000,000 | 5.3-5.45 | 30,0 |

WCDA scheduled bond principal and sinking fund requirements for the five fiscal years subsequent to June 30, 2005, which includes in each of the respective years the bonds to be remarketed, are as follows:

| | Principal | Interest |
|------------------------|----------------------|-------------|
| 2006 | 14,659,521 | 34,558,762 |
| 2007 | 16,112,642 | 33,920,402 |
| 2008 | 16,971,009 | 33,243,591 |
| 2009 | 16,439,643 | 32,494,319 |
| 2010 | 16,873,563 | 31,735,204 |
| Five years ending 2015 | 90,578,355 | 146,778,479 |
| Five years ending 2020 | 106,094,793 | 122,629,749 |
| Five years ending 2025 | 171,903,218 | 89,646,833 |
| Five years ending 2030 | 191,755,000 | 45,570,013 |
| Five years ending 2035 | 119,120,000 | 11,044,373 |
| Five years ending 2040 | 3,095,000 | 51,626 |
| Total | \$ 763,602,744 \$ | 581,673,351 |

The WCDA entered into a line of credit agreement with a financial institution, secured by specific investments. The agreement allows the Authority to borrow approximately 80% of the value of the investment collateral. As of June 30, 2005, the Authority had investments worth approximately \$11,393,365 on deposit with this financial institution: however, no amounts were outstanding on this line of credit.

C. Prior Year Defeasance of Debt

State of Wyoming

In prior years, the State defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the State's financial statements. As of June 30, 2005, \$2.9 million of 1991 Capital Facilities bonds outstanding are considered defeased.

D. Early Retirement Plan

In Fiscal Year 1995, Wyoming Session Law 207 provided for an early retirement incentive program. This allowed employees with at least 15 years of service and a minimum age of 55 to retire early. Under the plan, qualifying employees of less than 61 years of age at retirement receive 20 percent of their regular salary in monthly payments to age 62 and a \$215 monthly medical insurance contribution to age 65. Those age 61 and older receive a lump sum payment of three months regular salary and the \$215 monthly medical insurance contribution to age 65. The early retirement plan is funded on a pay-as-you-go basis where payments to early retirees are funded from the fund from which the electing employee's salary had been paid prior to retirement. The number of people participating in the plan is as follows: University, 4; DOT, 2; and all other State agencies, 64. The amount of post employment benefit expenditures during fiscal year 2005 for the University, DOT and all other State agencies were \$68,222, \$319,291 and \$95,460, respectively. The liabilities for the early retirement plans as of June 30, 2005 are as follows:

| | | University of Wyoming | Department of Transportation | All Other State Agencies |
|-----------------------|----|-----------------------|------------------------------|--------------------------|
| 1995 Early Retirement | \$ | 51,029 \$ | 294,067 | \$ 167,915 |
| | _ | | | |

The University and DOT have discounted their liabilities for early retirement. UW 8%, DOT 4%, while the State used no discounting.

NOTE 10 Restricted Net Assets

The following table represents the permanent funds restricted net assets:

| | Common School Land Fund | Permanent Mineral Trust Fund | Non-Major Governmental Funds | Total |
|-----------------------------------|----------------------------|---------------------------------|---------------------------------|---------------|
| Restricted Assets: Non-expendable | \$ 1,319,304,286 \$ | 2,509,641,633 \$ | 84,999,820 \$ | 3,913,945,739 |

NOTE 11 Lease Revenue

Lease revenue

The State possesses significant amounts of land of which the majority was received from the federal government when the Wyoming Territory was incorporated as a state. Such land is leased to third parties under leases accounted for as operating leases. Future minimum rents receivable under these lease agreements as of June 30, 2005 are as follows:

| Year Ending June 30th | Go | vernmental Funds |
|-------------------------|----|------------------|
| 2005 | | 4,679,673 |
| 2006 | | 4,211,706 |
| 2007 | | 3,743,738 |
| 2008 | | 3,275,771 |
| 2009 | | 2,807,804 |
| 2010-2014 | | 7,019,510 |
| 2015-2019 | | 0 |
| | \$ | 25,738,202 |
| # of Grazing Leases | | 4,688 |
| # of Special Use Leases | | 215 |
| Total Acres Under Lease | | 3,598,448 |

NOTE 12 Pensions

State employees are eligible to participate in one of five different pension plans, depending on their current employment position. These plans are administered by the Wyoming Retirement System (WRS). WRS is the administrator of seven multiple-employer cost-sharing public employee retirement systems (PERS) and the Wyoming Deferred Compensation (457) Plan as authorized by the State legislature. The responsibility for the administration and operation of six of the retirement plans and the Deferred Compensation Program is vested in the Wyoming Retirement Board.

The Board is composed of ten members appointed by the Governor plus the State Treasurer, an elected official. A board of volunteer firemen appointed by the Governor supervises the seventh plan. The system consists of: Wyoming Public Employees Pension Plan; Wyoming Highway Patrol, Game and Fish Warden, and Division of Criminal Investigators Retirement Plan; Volunteer Firemen's Pension Plan; Paid Firemen's Pension Plan B; Wyoming Judicial Retirement Plan, Wyoming Law Enforcement Retirement Plan, and the Wyoming Deferred Compensation Plan (Section 457 Plan). Over 500 counties, municipalities, school districts and other units of government participate in the Wyoming Retirement System. The Wyoming Retirement System was established in 1943 as a teachers' pension plan and amended in 1949 to incorporate State employees.

The State reports all the plans administered by the Wyoming Retirement System as Pension Trust Funds. The Pension Trust Funds are presented on the accrual basis of accounting with investments valued at fair value determined, primarily, by the latest bid price or the closing exchange price at the balance sheet date. WRS issues a stand-alone financial report. It can be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, 5th Floor West, Cheyenne, WY, 82002, or by calling 307-777-7691. The WRS fiscal year end statements are as of December 31, which the State uses for its June 30th report.

The State administers the Wyoming Judges Retirement Plan, which is a non-funded single-employer defined-benefit pension plan. No report is issued for this plan.

Defined Contribution Plan

The State legislature authorizes, in W.S. 21-19-101 through 106, eligible University employees to have the option of participating in either WRS or Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF). The governing body of the University establishes and administers TIAA-CREF, a defined contribution plan, for the employees. The same required percentages apply to TIAA-CREF as for WRS, which is 11.25%. The University's contribution is funded as it accrues and, along with that of the employees, as determined, is immediately and fully vested. The University pays 100% of the required contribution. The contributions for the years ended June 30, 2003, 2004, and 2005 were \$8,210,546, \$8,600,589 and \$9,458,500, respectively which equals the required contribution for the years then ended.

Plan Descriptions

Wyoming Public Employees Pension Plan:

The Wyoming Public Employees Pension Plan is a defined benefit, contributory retirement plan as authorized by W.S. 9-3-401 through 432. It covers substantially all employees of the State and of the public school systems of Wyoming. The plan also covers employees of those political subdivisions that have elected to participate in the plan. The plan allows for normal retirement after four years of service and attainment of age sixty. Early retirement is allowed provided the employee has completed four years of service and attained age fifty, but will result in a diminution of benefits based on the length of time remaining to normal retirement age (60). The plan provides retirement, disability and death benefits according to pre-determined formulas and allows retirees to select one of seven options for receiving benefits. Employees terminating prior to normal retirement can elect to withdraw all employee contributions plus accumulated interest through the date of termination or if they are vested, they may elect to remain in the plan and be eligible for retirement benefits at age fifty.

Wyoming State Highway Patrol and Game and Fish Warden, Division of Criminal Investigator Retirement Plan:

The Wyoming State Highway Patrol, Game and Fish Warden, Division of Criminal Investigator Retirement Plan is a defined-benefit, contributory plan, established by W.S. 9-3-601 through 620. It covers sworn officers of the Wyoming State Highway Patrol and law enforcement officers employed by the Wyoming State Game and Fish Department who are not covered under the Wyoming Retirement System, sworn peace officers of the Division of Criminal Investigation and Capitol Police Officers. The plan allows for normal retirement at age fifty. The plan provides retirement, disability and death benefits according to pre-determined formulas. Terminating employees are entitled to a refund of employee contributions plus accumulated interest. The maximum service pension is 75% of the highest average salary. The minimum years of service required for monthly pension benefits is 6 years.

Volunteer Firemen's Pension Plan:

The Volunteer Firemen's Pension Plan is a defined-benefit, contributory retirement plan, authorized by W.S. 35-9-601 through 615. It covers volunteer firemen who elect to participate in the plan. The plan provides retirement, and death benefits according to pre-

determined amounts primarily determined by age and years of service of the participant. Participants may withdraw from the plan at any time and receive refunds of participant contributions plus accumulated interest.

Paid Firemen's Pension Plans A and B:

The Paid Firemen's Pension Plans are defined-benefit, contributory retirement plans, as authorized by W.S. 15-5-201 through 422. They cover paid firemen who elect to participate. The plans provide retirement, disability and death benefits according to predetermined amounts primarily determined by years of service and average salaries. Participants may withdraw from the plans at any time and receive refunds of participant contributions without interest.

Wyoming Judicial Retirement Plan:

The Wyoming Judicial Retirement Fund is a defined-benefit, contributory retirement plan, as authorized by W.S. 9-3-701 through 713. It covers any justice of the Supreme Court, district judge or county court judge appointed to any of these offices on or after July 1, 1999. The plan provides retirement and death benefits according to predetermined amounts primarily determined by age and years of service. Participants may withdraw from the plan at any time and receive refunds of participant contributions plus accumulated interest.

Wyoming Law Enforcement Plan:

The Wyoming Law Enforcement Retirement Plan is a defined benefit, contributory plan covering any county sheriff, deputy county sheriff, municipal police officer, Wyoming correctional officer, Wyoming law enforcement academy instructor, University of Wyoming campus police officer, detention officer or dispatcher for law enforcement agencies and certain investigators of the Wyoming Livestock Board. Established July 1, 2002, it consolidated six first class cities police pension funds and allowed for other law enforcement officers to participate. The Plan statutorily provides retirement, disability and death benefits according to predetermined amounts primarily determined by salary, age and years of service of the participant.

The Section 457 Plan

The Section 457 Plan administered by the Wyoming Retirement System is a defined contribution plan. This Plan is available as a supplemental plan to the basic retirement benefits of the Retirement System for employees of public employers who have adopted the 457 Plan. The Plan may receive contributions made (subject to Plan and Internal Revenue Code limitations) by employees of participating employers sponsoring the Plan. Employer contributions may be made into the Plan at rates determined by the employers. There are 10,531 participants in the 457 Plan from 163 employers.

Upon qualifying for distributions, benefits are paid out in lump sums, or as periodic benefit payments, at the option of the participant based on individual account balances and plan provisions. The 457 Plan account balances are fully vested to the participants at the time of deposit.

Investments in the 457 Plan are individually directed by plan participants who direct the investment of their funds among Board approved investment options of varying degrees of risk and earnings potential. Participants may transfer their funds between these options daily. Investments of the Plan are reported at fair value.

In addition to accepting employee deferrals, this plan also accepts employer contributions on behalf of their employees, provided such contribution when added to the employees' contribution deferred does not exceed the maximum deferral permitted by the Plan. The State contributes \$20 a month per employee participating in the 457 Plan no matter the amount of the employee's contribution. The State contributed \$1,290,920 on behalf of its employees during the year ended December 31, 2004.

Funding Policy

The Wyoming Retirement System statutorily requires 11.25% of the participant's covered salary to be contributed to the plan, paid by the participant and the employer in a manner as determined by the employer. Law enforcement members by statute receive an additional 3.73% contribution (100% of which is paid by the State). The Wyoming State Highway Patrol, Game and Fish Warden, Division of Criminal Investigators and Capital Police Retirement Fund statutorily requires participants to contribute 11.02% of their salary and the State is required to contribute 11.33% of each participants salary. Participants of the Volunteer Firemen's Pension Fund contribute \$12.50 monthly to the plan, although such contributions may be fully or partially paid by political subdivisions on behalf of participants if approved by the governing board. The State pays 50% of the gross annual tax collected on fire insurance premiums to the plan. Also, the State pays 100 percent of the required contribution for its employees covered under the various plans.

The Paid Firemen's Pension Plans requires participants to contribute 8% (Plan A) or 6% (Plan B) and employers to contribute 21% (Plan A) or 12% (Plan B) of the participant's salaries depending which plan option is selected.

The Wyoming Judicial Retirement Fund statutorily requires participants to contribute 9.22% of their salary to the Plan and the employer is required to contribute 5.68% of each participant's salary.

The Wyoming Law Enforcement Plan requires participants to contribute 8.6% of their salary and the employer is required to contribute 8.6% of each participant's salary. Contribution requirements of plan members and their employers may be amended by the Wyoming State Legislature, as proposed by each plan's administrator.

The State's contributions as employer are as follows:

| | Wyoming | | WY State Hwy Patrol, G&F | | | Wyoming Judicial | Wyoming Law | | |

NOTE 13 Risk Management

Self-Insurance funds

The State maintains two self-insurance plans; the State self-insurance program and the State employee medical, life, and dental insurance programs. Each of these plans is reported in internal service funds. The University administers its own risk management program and reports a liability in the University funds. A brief description of each of the plans is provided below:

- A. State Self Insurance Wyoming statute 1-41-103 created the State Self Insurance Fund to handle liability insurance claims brought against the State. The range of losses financed includes general liability, automobile liability, police liability, medical malpractice liability and civil rights. In addition, this plan covers Peace Officers liability for the Political subdivisions within Wyoming. The State generally does not maintain reserves; losses are covered by a combination of appropriations from the State's general fund, Department of Transportation, Game & Fish Commission, and by assessing other State agencies a deductible of up to \$2,500 per claim when the agency is determined to be liable for the loss. The estimated liability for claims against the State including incurred but not reported claims is approximately \$8.2 million as of June 30, 2005. The estimate is based on past experience, a review of pending claims, an actuarial evaluation and other social and economic factors. The above estimate is not discounted and there is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2005.
- **B. State Group Insurance** The State co-administers employee medical and dental insurance with a third party administrator. The State self-insures medical costs and assumes all the risk for claims incurred by plan participants. Insurance providers solely administer the life insurance plan. The State does not retain any risk of loss for these plans as the insurance providers assume all the risk for claims incurred by the participants.

During the year ended June 30, 2005, the State contributed up to 85% a month for insurance premiums for each covered participant towards these plans. Participants are responsible for paying premium charges in excess of this amount. As of June 30, 2005, the medical claims liability including incurred but not reported claims is \$9,538,109. A liability is recorded in the accompanying financial statements for the estimated claims liability. The claims liability is based on past experience, a review of pending claims and other social and economic factors. The above estimate is not discounted and there is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2005. No significant reductions in insurance coverage were made in the last fiscal year.

C. University Risk Management

The University is exposed to various risks of loss including torts, theft of, damage to, or destruction of assets, and teacher's liability. The University has purchased commercial insurance for these risks that include insurance for property and liability. The uninsured risk retention per occurrence/aggregate is \$100,000/\$200,000 for property and ranges from \$100,000 to \$1,000,000 for various liability risks. A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Settlements have not exceeded insurance coverage's in any of the past three fiscal years.

The following is a reconciliation of the unpaid claims liability:

| | State Self Insurance | | | | State Group Insurance | | | | University of Wyoming | | | |
|--------------------------------|----------------------|----|-------------|----|-----------------------|----|------------|----|-----------------------|----|---------|--|

The University included their unpaid claims liability under the caption of "Accounts Payable".

Insurance enterprise and public entity risk pools

The State administers three insurance enterprises: workers' compensation insurance, the Wyoming health insurance pool, and the mine subsidence insurance which are reported in enterprise funds. None of these funds have acquisition costs, therefore, no cost is amortized for the period. Unpaid claims and claim adjustment expenses are estimated based on the ultimate cost of settling the

claim including the effects of inflation and other social and economic factors. These funds use the accrual basis of accounting. The insurance enterprises do not consider anticipated investment income in determining if a premium deficiency exists. A brief description of the insurance enterprises and the pool are provided below:

A. Workers' Compensation - Wyoming statute 27-14 created the Wyoming Workers' Compensation Act (Act). This Act requires all employers engaged in extra hazardous employment to obtain liability coverage for the payment of benefits to employees for job related injuries and diseases through the Workers' Compensation Fund. Eligible employers complying with the provisions of the Act are generally protected from suit by employees. Employers not required by the Act to participate in this program may elect to do so at their option. As of June 30, 2005, there were 19,272 employers insured under this Act.

The fund is used to account for the State's Workers' Compensation program that provides time-loss, medical, and disability payments to qualifying individuals sustaining work-related injuries, or death benefits to dependent families if the worker were to die from such injuries. To fund these benefits, the State charges employers monthly premiums based on rates it establishes for each employenent classification, the employer's experience rating, and the total payroll for covered employees in each particular classification. The Act requires that rates be established at a level to maintain an actuarially sound insurance program. The State is in the processes of developing a plan to fully fund workers' compensation liabilities by 2013.

An actuarial study has estimated the liabilities and the ultimate cost of settling claims that have been reported but not settled and of claims that have been incurred but not reported. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liabilities, claims adjudication, and judgments, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are re-computed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic, legal and social factors.

A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. The Department of Employment uses an undiscounted Workers' Compensation Fund balance when determining Industry Base Rates for employer premiums. For consistency between the Department of Employment's Workers' Compensation Fund balance used for rate setting purposes and Workers' Compensation Fund balances shown in the CAFR, the Workers' Compensation Fund balance is shown at an undiscounted value. At June 30, 2005, \$762 million of claims and adjustment expenses have been accrued. The State does not use reinsurance agreements, therefore the State retains full liability as the direct insurer.

A. **Wyoming Health Insurance Pool** - Wyoming statute 26-43 created the Wyoming Health Insurance Pool (Pool) for the purpose of providing health insurance for State residents. Qualifying State residents who are denied insurance by private carriers or leave coverage because of excessively high premiums or restrictive coverage may join the Pool. The Pool began providing health insurance coverage to participants on January 1, 1991. The statute creating the Pool contains a sunset provision that calls for the Pool to be terminated on June 30, 2011, unless authorization is continued. The State coadministers the Pool along with a third party insurance provider, Blue Cross Blue Shield of Wyoming; however, the Pool retains all risk of loss for claims filed by Pool participants. As of June 30, 2005, 653 residents were covered under the Pool. A copy of the Pool's financial report may be obtained by contacting Blue Cross Blue Shield of Wyoming in writing at, 4000 House Avenue, Cheyenne, Wyoming 82001.

The Pool's liability exposure per participant is a maximum lifetime benefit of \$350,000 for the Brown Plan and \$600,000 for the Gold Plan. Premiums are collected from Pool participants to pay Pool expenses; however, if such premiums are insufficient to meet expenditures, the State has the authority to assess all carriers who write health insurance policies in the State to cover Pool deficits.

The estimated liability for unpaid claims and loss adjustment expense is based on data developed by the Pool's third-party administrator. Since the Pool has limited historical experience of its own, industry experience is also considered in determining the estimated liability. The liability includes estimates of the costs to settle individual claims that have been reported, plus a provision for losses incurred but not yet reported. The undiscounted liability for unpaid claims and claim adjustment expenses is \$1,050,000 at June 30, 2005.

C. Subsidence Insurance - Wyoming statute 35-11-13 requires the Department of Environmental Quality (DEQ) to administer an insurance program to cover mine subsidence loss to specified structures in the State. The Wyoming mine subsidence insurance program provides insurance to any individual whose home or business exists over or near any underground mine in the State. On October 29, 1986, the DEQ received a funding grant from the Federal Department of Interior's Office of Surface Mining to assist with administrative and claim costs. A grouting program was initiated in Rock Springs in 1986. A cement type of material is used to fill those abandoned mines subject to the greatest risk of subsidence. As of June 30, 2005, there were 218 policyholders with in-force premiums. The insured value of these policies is \$16,065,875. There was one unresolved or pending claim as of June 30, 2005. This program had an actuarial valuation performed in 1999 that is used to determine that premiums charged to participants are sufficient to meet anticipated claim expense.

The following table summarizes current period activity for the State insurance enterprise funds:

| | Wyoming Workers' Com | pensation Fund | Wyoming Health Insu | nsurance Fund | |
|--|----------------------|----------------|---------------------|---------------|--|
| | 2004 | 2005 | 2004 | 2005 | |

Note 14 Commitments and Contingencies

Federal Grants

Grant monies received and disbursed by the State are for specific purposes and are subject to audit by the grantor agency. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience and current knowledge, the State does not believe that such disallowances, if any, would have a material effect on the financial position or results of operations of the State.

School Capital Construction Commitments

As of June 30, 2005, the State has signed agreements totaling approximately \$277,811,508 with school districts throughout the state that commit the Sate to provide funding for school district capital construction projects. As of June 30, 2005, approximately \$189,505,277 was unexpended under these agreements.

Investment Commitments

The State is a limited partner in a private equity partnership, and has committed to provide funding to the partnership as called for by the general partner-Cheyenne Capital Fund. The State's total commitment over the ten-year term of the partnership is \$257,950,000. This includes \$225,000,000 in capital for investment and \$32,950,000 for management fees, to be paid over the term of the partnership. The State had invested \$21,917,447 in this partnership at June 30, 2005.

Construction commitments

As of June 30, 2005, there were 24 uncompleted construction projects as follows:

| | Appropriation | Expended | Remaining | Remaining Balance |
|--------------------------------------|-------------------|---------------|---------------|-------------------|
| Project | Amount | Amount | Encumbrance | to Obligate |
| Camp Guernsey Facility Upgrade | \$ 500,000 \$ | 1,155 \$ | 0 \$ | 498,84 |

| | \$ 158,046,791 \$ | 36,254,440 \$ | 27,062,489 \$ | 94,729,86 |

The University has contracted and/or appropriated funds for the planning and/or construction or maintenance of several facilities with an aggregate cost of \$86,716,000. As of June 30, 2005, the remaining commitment to complete these projects totaled approximately \$58,738,000. These completion costs are financed by a combination of State appropriations, private gifts and grants, and student fees.

The Department of Transportation had outstanding contract commitments for highway construction, and maintenance and aeronautics projects at September 30, 2004 of approximately \$141 million. A substantial portion of these commitments will be funded by Federal financial assistance as expenses are incurred.

Operating leases

The State is committed under various leases that are considered operating leases. The operating lease expenditures/expenses are recognized as incurred or paid.

Governmental funds rental expenditures under operating leases for the year ended June 30, 2005 were \$9,120,737. Future rental commitments for operating leases are as follows:

| Year Ending June 30th | Governmental Fund Types |
|-----------------------|-------------------------|
| 2006 | 8,621,590 |
| 2007 | 5,121,795 |
| 2008 | 4,025,715 |
| 2009 | 2,180,233 |
| 2010 | 3,341,020 |
| 2011-2015 | 1,179,087 |
| | \$ 24,469,440 |

Contingencies

Under the School District Bond Guarantee Program the Wyoming State Loan and Investment Board approved the guarantee of \$126 million of bonds by the State through the year ended June 30, 2005. The State approved the following bonds as of June 30, 2005:

| School Districts Approved | Date Approved | Amount Approved | Outstanding Bond Principle | Available for Future Guarantee | |
|--------------------------------------|---------------------|-----------------|-------------------------------|-----------------------------------|--|
| Albany County School District #1 | February 6, 2003 \$ | 6,150,000 \$ | 2,840,000 | | |
| Big Horn County School District #3 | June 14, 2001 | 2,110,000 | 1,775,000 | | |
| Big Horn County School District #3 | July 2, 2001 | 390,000 | 200,000 | | |
| Campbell Count School District #1 | June 6, 1996 | 22,000,000 | 6,255,000 | | |
| Fremont County School District #1 | October 4, 2001 | 6,000,000 | 5,355,000 | | |
| Fremont County School District #2 | April 2, 2003 | 795,000 | 645,000 | | |
| Fremont County School District #6 | March 5, 1998 | 1,440,000 | 840,000 | | |
| Fremont County School District #14 | May 1, 1996 | 366,000 | 95,000 | | |
| Fremont County School District #24 | November 5, 1998 | 1,825,000 | 700,000 | | |
| Fremont County School District #25 | January 20, 2000 | 5,680,000 | 3,410,000 | | |
| Hot Springs Co. School District #1 | February 6, 2003 | 4,250,000 | 3,080,000 | | |
| Laramie County School District #2 | August 15, 2003 | 2,200,000 | 1,930,000 | | |
| Lincoln County School District #1 | April 13, 2000 | 7,260,000 | 3,845,000 | | |
| Lincoln County School District #1 | June 2, 2005 | 3,845,000 | 3,845,000 | | |
| Lincoln County School District #2 | October 1, 1998 | 2,250,000 | 1,015,000 | | |
| Lincoln County School District #2 | August 15, 2003 | 3,000,000 | 2,485,000 | | |
| Natrona County School District #1 | June 3, 1999 | 8,500,000 | 0 | | |
| Park County School District #6 | June 14, 2001 | 6,000,000 | 965,000 | | |
| Platte County School District #1 | December 9, 1999 | 6,000,000 | 4,050,000 | | |
| Platte County School District #1 | November 7, 1996 | 3,000,000 | 1,575,000 | | |
| Sweetwater County School District #2 | May 8, 1998 | 18,200,000 | 13,695,000 | | |
| Sweetwater County School District #2 | February 6, 2003 | 4,600,000 | 3,455,000 | | |
| Teton County School District #1 | April 8, 2004 | 3,480,000 | 2,355,000 | | |
| Uinta County School District #4 | February 6, 2003 | 2,750,000 | 1,350,000 | | |
| Washakie County School District #2 | February 4, 1999 | 500,000 | 340,000 | | |
| Weston County School District #1 | June 1, 2000 | 1,870,000 | 1,845,000 | | |
| Weston County School District #1 | April 3, 2003 | 990,000 | 325,000 | | |
| Weston County School District #7 | June 1, 2000 | 255,000 | 230,000 | | |
| Weston County School District #7 | March 5, 1998 | 630,000 | 280,000 | | |
| | \$ | 126.336.000 \$ | 68,780,000 \$ | 231,220,000 | |

The legislature has placed a \$300 million cap under the School District Bond Guarantee Program, of which \$231,220,000 is still available as noted above. This guarantee program only applies to refunding issues for bonds issued by school districts on or before November 1, 2001 and no longer applies to original issues after this date.

Wyoming Statute 35-11-1414, *Water Pollution from Underground Storage Tanks Corrective Action Act of 1990*, requires that the State establish a corrective action and financial responsibility account which is funded by mineral severance taxes as well as certain registration fees. In addition, this statute requires the Department of Environmental Quality to establish a prioritized list of sites contaminated by tanks and to take corrective action. As of June 30, 2005, 1552 contaminated sites have been identified and 695

have been resolved. The State remediates contaminated sites as funding allows, and the statute limits the State's liability for cleanup costs to amounts available in the corrective action accounts. This liability totals \$11,004,453 at June 30, 2005. Management believes that the ultimate costs to remediate the known contaminated sites will exceed the amounts available in the corrective action accounts. However, given the statutory limitation on the State's responsibility for remediation, liabilities beyond the amounts held in the corrective action accounts have not been recorded. The State intends to conduct a program review and actuarial study to determine the potential clean-up costs associated with sites encompassed by the statute. Until such studies have been completed, the ultimate cost of remediation of contaminated sites cannot be determined.

The Legislature has committed to funding the un-funded actuarial liability of the Wyoming Law Enforcement Retirement Plan established in 2002. The un-funded value of the state obligation as of January 1, 2005, was \$21,040,897. The liability is scheduled to be paid in \$5,500,000 increments each biennium, beginning July 2004 through July 2018.

The State is also a party to various legal proceedings arising in the normal course of business. The State believes that the outcome of these matters will not have a material adverse impact on the State's financial position or results of operations.

The DOT has been named as a party to various legal actions relative to right-of-way, damage claim, and other matters arising in the normal course of operations. There are cases currently pending that if settled in favor of the plaintiff, would not have a material effect on the financial statements of the DOT.

At June 30, 2005, WCDA was committed to purchase single-family mortgages aggregating approximately \$44,264,000 million. In addition, at June 30, 2005, WCDA had committed approximately \$6,043,047 million for other project mortgages to be funded through federal programs or housing trust funds.

The WCDA has variable rate bonds outstanding in the 1978 Indenture of \$52,545,000 and in the 1994 Indenture of \$45,900,000. These bonds are subject to tender at par for repurchase by WCDA at the option of the bondholders; however, WCDA may remarket these bonds if they are tendered by the bondholders. As of June 30, 2005, \$6,000,000 of the variable rate debt is subject to repurchase directly by WCDA, and \$92,445,000 of the repurchase commitment has been assumed by Westdeutsche Landesbank Girozentrale (the Bank) through a standby bond purchase agreement. Under this agreement, the Bank will purchase any bonds tendered by bondholders and will adjust the interest rate associated with any un-remarketed bonds to a Bank rate.

Note 15 Subsequent Events

On July 1, 2005, the State issued Education Fund Tax and Revenue Anticipation Notes, Series 2005A in the aggregate principal amount of \$105,000,000 to cover temporary cash shortages in the Foundation Program Fund. The Series 2005A Notes will mature on June 28, 2006.

Wyoming Community Development Authority

On July 26, 2005, the Authority issued \$40,000,000 of bonds under the 1994 Indenture. Prior to June 30, 2005, the Authority had entered into an interest rate swap agreement, with a calculation starting effective date of July 26, 2005, in connection with the \$8,000,000 variable rate debt portion of the \$40,000,000 issued.

On July 12, 2005, the Authority instructed its trustee to call on August 10, 2005, bonds in the amount of \$15,630,000 from the 1994 Indenture. On July 13, 2005, the Authority instructed its trustee to call on August 10, 2005, bonds in the amount of \$695,000 from the 1978 Indenture.

Wyoming Business Council

The Council has entered into various agreements subsequent to June 30, 2005, with vendors primarily for marketing, public relations and promotion services and to cities, towns, counties and joint powers boards for economic development infrastructure projects during the period July 1, 2005 through June 30, 2008. These agreements are valued at up to but no more than \$17,150,290. These agreements will be funded by a combination of State appropriations and Federal revenues.

The Council distributed \$329,249 subsequent to June 30, 2005, out of the Economic Development fund for loans approved but undistributed as of June 30, 2005.

Subsequent to June 30, 2005, the Council approved the following loans under provisions of the Wyoming Partnership Challenge Loan program; \$98,124 for economic disaster loans, \$570,000 for bridge loans and \$500,000 for guarantee loan participation. These loans will be distributed out of the Economic Development fund.

Required Supplementary Information

Budgets

The Legislature appropriates substantially cash basis budgets for a majority of the funds at the program level (administration, revenue division, investigations, etc.) within an agency. The State budget office maintains budgets for budgeted funds at the series level (personnel services, support services, etc.) within a program. Agency budget analysts are allowed to transfer appropriations from one series to another series within an agency's program but the Governor must approve all changes in appropriations at the program level. The State's legal level of budgetary control is at the program level.

The Budget Statements that are presented for the Special Revenue Funds represent legally adopted budgets for those funds who had current year budgetary activity. There were Special Revenue Funds—Statutory Reserve Account Fund, GAAP Holding Fund, School Debt Service Fund, Farm Loan Revenue Fund, Omnibus Land Fund and the Oil Surcharge Fund, that had either no activity or no current budget year activity. All budgets presented are on a biennial basis except the Game and Fish Fund, this fund operates on an annual budget, as the Game and Fish Commission approves its budget annually.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation, is employed for governmental fund types. Encumbrances outstanding at June 30, 2005, for which the goods or services have not been received, are shown as a reservation of fund balance.

Reconciliation from the Budgetary Basis of Accounting to the GAAP Basis

| | \$ | 252,229,627 \$ | 48,611,611 \$ | (304,810,594) |

Supplemental appropriations and additional appropriations approved by the Governor are included in the column titled "B11's & Supplemental Budget". In the budget and actual statements, encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded as expenditures and liabilities in order to reserve that portion of the applicable appropriation, is employed for budgetary control purposes. Some unencumbered appropriations lapse at the end of each biennium. Encumbrances are reported as a reservation of fund balance and carried forward for use in future years. Revenue budgets are not legislatively established but are determined by individual agencies or the Consensus Revenue Estimating Group.

Wyoming Department of Transportation Infrastructure Using Modified Approach

The Wyoming Department of Transportation (DOT) accounts for its infrastructure assets using the modified approach. The infrastructure consists of the road subsystem and the bridge subsystem.

DOT manages its road network with a pavement management system developed by the Department. A consulting firm is contracted to collect the data. The pavement condition is rated in three areas; ride, rutting, and cracking. The ride is measured by suspension movement using an index called the present surface index (PSI). The rutting is measured using the height difference between the lane center and each wheel path of a cross section of the road to determine the rut index (RUT). The cracking measures the width and frequency of the cracks to establish the pavement condition index (PCI). A composite rating is derived from the three condition ratings called the pavement serviceability rating (PSR). The pavement management system establishes a PSR on a scale from 0 to 5 for each road section with excellent 5.0 to 3.5, good 3.5 to 3.0, fair 3.0 to 2.5 and poor 2.5 to 0. It is DOT's policy to maintain its National Highway System (NHS) at 3.25 (good) and its Off the National Highway System (Non-NHS) at 3.00 (fair). Each road section has data collected every other year. The road subsystem condition assessment is done every year.

As of September 30, 2004, the overall PSR for the NHS was 3.46 and Non-NHS was 3.16. As of September 30, 2003, the overall PSR for the NHS was 3.48 and Non-NHS 3.14. The number of miles for NHS and Non-NHS with excellent to good condition and fair to poor condition are as follows:

| | | | N | IHS | | | NON-NHS | | | | | | |
|----------------------|-------|---------|----------------|---------|-------|---------|---------|---------|-------|---------|-------|---------|--|
| | 2002 | | 2002 2003 2004 | | 2002 | | 2003 | | 2004 | | | | |
| | # of | | # of | | # of | | # of | | # of | | # of | | |
| PSR Condition Rating | Miles | Percent | Miles | Percent | Miles | Percent | Miles | Percent | Miles | Percent | Miles | Percent | |
| Good to Excellent | 2,139 | 72.4% | 1,043 | 35.3% | 1,885 | 63.8% | 1,521 | 42.9% | 1,448 | 40.8% | 1,544 | 43.5% | |
| Poor to Fair | 817 | 27.6% | 1,912 | 64.7% | 1,070 | 36.2% | 2,028 | 57.1% | 2,101 | 59.2% | 2,006 | 56.5% | |

| | | | | | | | | | | | | | |

The Department uses a comprehensive bridge management system to assist in managing the State's bridges. Each bridge is inspected at least once every two years. This inspection measures and rates the required National Bridge Inventory (NBI) items, including dimensions, clearances, alignment, waterway data and structural condition. The structural condition is evaluated by using structural elements. Each component of the bridge (girders, deck, railing, columns, piling, etc.) is assigned an element and the condition of each element is evaluated based on several condition assessments. The element data is converted to NBI ratings using a conversion program. The structure's NBI data is then used to determine its sufficiency rating. The sufficiency rating is calculated by the Federal Highway Administration, and bridges with a sufficiency rating of 80 or less and classified as structurally deficient and/or functionally obsolete are put on the Federal Highway Administration Selection List. Functional obsolescence is a measure of the suitability of the bridge to provide for requirements of traffic both on and under the structure. Structural deficiency is a measure of the condition of the structural elements and the ability of the bridge to carry the anticipated loads. Bridges appearing on the Selection List are considered deficient, whereas those not on the list are considered acceptable. The bridge subsystem condition assessment is done every year. The Department of Transportation's policy has been to maintain 83% of its NHS bridges and 80% of Non-NHS bridges in acceptable condition.

Using the BMS/NBI conversion program, the NBI data supplied to the Federal Highway Administration results in the following Selection List Condition Rating for the last three fiscal years:

| | | | NH | S | | | Non-NHS | | | | | | | |
|-----------------------------|---------|---------|-----------|---------|---------|---------|---------|---------|---------|---------|---------|---------|--|--|

The department estimate maintenance and preservation expenditures on infrastructure assets of \$347.8 million for the year ended September 30, 2004. Actual expenditures on the budgetary basis on infrastructure for maintenance and preservation were \$336.9 million, a difference of \$10.9 million. The difference is due to projects that were left late in the previous fiscal year and work was not started on these projects until this year.

Estimated and actual amounts used to maintain or preserve the Department's infrastructure systems at the Department's target PSR ratings for the past three years is as follows:

| | Es | timated | Actual | | | |
|---------------------------------|---------------|--------------|---------------|--------------|--|--|
| For the year ended September 30 | Road Network | Bridges | Road Network | Bridges | | |
| 2001 | 315.0 million | 14.4 million | 257.5 million | 21.7 million | | |
| 2002 | 292.6 million | 14.0 million | 307.2 million | 22.5 million | | |
| 2003 | 298.9 million | 19.8 million | 327.9 million | 18.8 million | | |
| 2004 | 325.1 million | 22.7 million | 323.5 million | 13.4 million | | |

Non-Major Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

<u>Environmental Quality Fund</u>-This fund is used to account for fees, fines, penalties, forfeitures, and grants received which are restricted for use in the reclamation of the environment.

Board & Regulatory Fund-This fund is used to account for the licensing fees paid by professionals as well as the related expenditures of regulating the specific professionals.

<u>Game and Fish Fund</u>-This fund is used to account for all revenues, which are restricted for the purpose of habitat, recreational facility, wildlife conservation and enhancement.

<u>Statutory Reserve Account Fund</u>-This fund is used to account for the first \$46,220,000 diversions from the fund balances of the GAAP Holding Fund, the REBBA Fund and the GAAP II Fund as of June 30, 1996.

GAAP Holding Fund-This fund is used to account for revenues, which were diverted when the State switched to the GAAP basis of accounting and related appropriation.

<u>Special Projects Fund</u>-This fund is used to account for revenues for conferences and services, as well as the related expenditures, which are restricted for use in special projects.

<u>Community College Grants Fund</u>-This fund is used to account for mineral severance tax, which is granted to community colleges for emergency repairs.

<u>School Debt Service Assistance Fund</u>-This fund is used to account for appropriations from the school district capital construction fund, which are restricted for the purpose of grants for paying debt service at school with below average property tax receipts.

<u>Water Fund</u>-This fund is used to account for mineral severance tax revenue which are restricted for the purpose of maintaining and rehabilitating current water facilities, capital construction, and fees received for water sales and storage at Fontenell, Sheridan and Palisades and the related costs of providing these services.

<u>Workforce Development Fund</u>-This fund is used to account for expenditures relating to workforce development activities for the Department of Workforce Services.

<u>Mineral Royalties Fund</u>-This fund is used to account for mineral royalties, which are restricted for the specific purpose of school capital construction.

<u>Government Royalty Distributions Fund</u>-This fund is used to account for royalties received on mineral production, which is restricted for grants and loans to municipalities, local governments, counties and special districts.

<u>Farm Loan Revenue Fund</u>-This fund is used to account for revenues received from farm loans, which are restricted for distribution to specific funds.

<u>Farm Loan Loss Reserve Fund</u>-This fund is used to account for a percentage of farm loan revenue, which is restricted for the repayment of defaulted loans and to pay the administrative and legal expenses of the Farm Loan Board in making collections on defaulted loans and foreclosing mortgages.

<u>State Revolving Fund (SRF)</u>-This fund is used to account for federal grants from the U.S. Environmental Protection Agency; state funds from the Department of Environmental Quality (DEQ) corrective action account and from SRF loan repayments, which were to DEQ for water pollution control projects.

<u>Miners Hospital Land Fund</u>-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the Miner's Hospital.

<u>Omnibus Land Fund</u>-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the establishing, maintaining and support of charitable, educational, penal and reform institutions.

<u>Donations and Bequests Fund</u>-This fund is used to account for bequests and donations made for specific purposes.

Wyoming Wildlife Fund-This fund is for payments made by the State for the purpose of enhancing Wyoming wildlife resources.

Endowment Fund-This fund is used to account for the Endowment Funds.

<u>Oil Surcharge Conservation Fund</u>-This fund is used to account for fines and forfeitures charged to Mobil Oil, Texaco, Belridge, Palo Pinto, Stripper Wells, Diamond Shamrock and Exxon, which are required to be used to help conserve energy through special grant programs.

<u>State Land Fund</u>-This fund is used to account for land which was donated to the State and the land income, which is restricted to establishing, maintaining and supporting public buildings, fish hatcheries and various State institutions.

<u>Flex Benefit Program Fund</u>-This fund is used to account for payments made by state employees for the Flex Benefit Program and subsequent reimbursement of those payments to state employees.

DEBT SERVICE FUND

Debt Service Funds are used to account for the accumulation of, and the payment of, general long-term principal and interest.

CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

PERMANENT TRUST FUNDS

Permanent Trust Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

<u>Wyoming Wildlife Trust Fund</u>-This fund is used to account for assets of a trust agreement. The interest on this fund is restricted for the purpose of enhancing Wyoming wildlife resources.

<u>Montgomery Home for the Blind Fund</u>-This fund is used to account for assets of a legal trust agreement. The income from this fund is restricted for the purpose of establishing, maintaining and supporting a school for blind individuals.

<u>Wyoming Tobacco Settlement Fund</u>-This fund is used to account for assets of the Tobacco settlement. The income from this fund is restricted for the purpose of improvement of the health of Wyoming' citizens.

Wyoming Military Assistance Trust Fund-This fund is used to account for appropriations for the military assistance. The income from this fund is restricted for the purpose to alleviate financial hardships faces by various military members and their families.

Wyoming Cultural Trust Fund- This fund is used to account for appropriations for the Wyoming Cultural Trust Fund. The income from this fund is restricted for the purposes to preserve, promote and enhance the unique cultural heritage of the Wyoming citizens.

PROPRIETARY FUNDS

NON-MAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprise-where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

<u>Liquor Commission Fund</u>-This fund is used to account for the operation of the State Liquor Commission, which purchases and sells alcohol products to businesses throughout the State.

<u>Canteen Fund</u>-This fund is used to account for the purchase and sale of consumable goods to residents at the State institutions.

<u>Subsidence Insurance Fund</u>-This fund is used to account for insurance premiums received and claims payments made for house and land subsidence in subsurface mining areas. (Note that claims payments are currently being made from a federal grant in another fund. This fund is currently only receiving premiums but it is the goal of the federal program to eventually make this program self sufficient.)

<u>Honor Farm Agricultural Sales Fund</u>-This fund is used to account for the revenues and expenses of producing and selling agricultural products to State institutions and other consumers by the Honor Farm.

<u>Wyoming Health Insurance Fund</u>-This fund is used to account for premiums received from residents unable to obtain health insurance and the expense of purchasing insurance for these residents.

<u>Unemployment Compensation Fund</u>-This fund is used to account for premiums and claims payments made for the State's unemployment program.

INTERNAL SERVICE FUNDS

The Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis.

<u>Computer Technology Fund</u>-This fund is used to account for the activities of the Computer Technology Division, which provides computer services to State agencies.

<u>Motor Vehicle Fund</u>-This fund is used to account for the activities of the Motor Vehicle Division, which provides transportation services to State agencies.

<u>Central Duplicating Fund</u>-This fund is used to account for the activities of the Central Duplicating Division, which provides printing, duplicating service as well as copier rental to State agencies.

<u>Telecommunications Fund</u>- This fund is used to account for activities of the Telecommunications Division, which provides telecommunication services to State agencies.

Group Insurance Fund-This fund is used to account for the activities of the Group Insurance Board, which provides insurance coverage to State employees.

<u>Wyoming Surplus Property Fund</u>-This fund is used to account for the activities of the Surplus Property Division, which collects, distributes, and sells surplus property to Federal, State and Local governments.

<u>Personnel/Training Fund</u>-This fund is used to account for the training classes and services provided by the State's Personnel Division.

<u>State Self Insurance Fund</u>-This fund is used to account for the activities of the State's Self Insurance Pool, which insures agency property against theft and damage.

<u>Wyoming Building Corporation</u>- This fund is used to account for the activities of the Wyoming Building Corporation, a blended component unit of the State, which finances, owns and operates real and personal property used by the State.

FIDUCIARY FUNDS

PENSION TRUST FUNDS

Pension Trust Funds are used to account for the assets held by a government as trustee for employee retirement systems.

<u>Wyoming Retirement System Fund</u>-This fund is used to account for the activities of the Wyoming Public Employee Retirement System.

Wyoming State Highway Patrol and Game and Fish Warden, Division of Criminal Investigators and Capital Police Retirement Fund-This fund is used to account for the activities of the Wyoming Highway Patrol, Game and Fish Warden, Division of Criminal Investigators and Capital Police Retirement System.

<u>Volunteer Firemen's Pension Fund</u>-This fund is used to account for the activities of the Volunteer Firemen's Retirement System.

<u>Paid Firemen's Pension Fund Plan A</u>-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired prior to July 1, 1981.

<u>Paid Firemen's Pension Fund Plan B</u>-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired after July 1, 1981.

Wyoming Judicial Retirement Fund-This fund is used to account for the activities of the Judge's Retirement System.

<u>Wyoming Law Enforcement Retirement Plan</u>-This fund is used to account for the activities of the Wyoming Law Enforcement Retirement Plan.

<u>457 Plan</u>-This fund is used to account for administration of an IRC457 deferred compensation plan.

PRIVATE-PURPOSE TRUST

Private-Purpose Trust Funds are used to report any trust agreement not properly reported in a pension trust fund or investment trust fund.

<u>Unclaimed Property Fund</u>-This fund is used to account for property for which the owner is unknown. The State is obligated to maintain possession of the property until claimed.

<u>College Savings Fund</u>-This fund is used to account for the State's administration of an IRC529 qualified state tuition program.

AGENCY FUNDS

Agency Funds are used to account for assets that a government holds on behalf of others as their agent.

<u>Treasurer's Agency Fund</u>-This fund is used to account for funds held by the Treasurer's Office on behalf of citizens, counties and other municipalities.

<u>Department of Revenue Fund</u>-This fund is used to account for the receipt of the different taxes and the related disbursement to municipalities of these taxes.

<u>Funds Held for Individuals</u>-This fund is used to account for the various State agencies holding assets on behalf of individuals.

<u>State Lands Fund</u>-This fund is used to account for assurance deposits placed for the use of public lands and funds held for other entities.

<u>Other Agency Funds</u>- This fund is used to account for the activity within the County Predatory Control Fund, State Park Damage Deposit Fund, Adjutant General Fund, and the Environmental Cash Bond Fund.
