Max Maxfield

State Auditor

The State Auditor is a constitutional officer elected for a four year term by the general electorate. The Auditor is the chief fiscal officer of the State. The Auditor is charged with the responsibility of paying State obligations, paying employees salaries and maintaining the official accounting records of the State. He is responsible for demonstrating accountability to the public by preparing the Comprehensive Annual Financial Report.

The Auditor serves as a member of the State Land Commission, the State Loan and Investment Board, the State Building Commission and the State Canvassing Board.

Max Maxfield grew up in Wisconsin where he graduated from Janesville High School in 1963. He attended the University of Wisconsin, Steven's Point and Whitewater. His career in public service has spanned nonprofit, public and private sectors. Max was a YMCA director for twenty years, former director of the Wyoming Recreation Commission, and the first appointed director of the Wyoming Department of Commerce, a position he held for five years. More recently, Max served as the Executive Director of Wyoming's Make-A-Wish Foundation and as financial consultant for various nonprofit agencies across the county.

Max and his wife Gayla, make community and church an important part of their daily lives. Max is a certified Lay Speaker, past president of the Staff Parish Board and a Stephen Minister of the First United Methodist Church. He has served a wide range of other organizations including United Way of Laramie County, Wyoming Children's Society, Crimestoppers, Wyoming Alzheimer's Association, and Special Olympics of Wyoming. Max is a Rotarian and a Paul Harris fellow. Max and Gayla are the proud parents of four grown children.

This report's divider pages focus on Historical Downtowns of Wyoming.

**TO THE CITIZENS OF THE STATE OF WYOMING,
THE HONORABLE DAVE FREUDENTHAL, GOVERNOR
MEMBERS OF THE LEGISLATURE OF THE STATE OF WYOMING:**

State law (W.S. 9-1-403(a)(v)) requires that the State Auditor provide annual financial statements prepared in conformance with generally accepted accounting principles (GAAP) by December 15 every year. Therefore in accordance with state statute I am pleased to present this Comprehensive Annual Financial Report (CAFR) of the State of Wyoming for the fiscal year ended June 30, 2006.

This report is the primary means of reporting the state government's financial activities. McGee, Hearne & Paiz, LLP a firm of certified public accountants, has audited the State of Wyoming's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the State of Wyoming for the fiscal year ended June 30, 2006 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the State of Wyoming's financial statements for the fiscal year ended June 30, 2006 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

This report consists of management's representations concerning the finances of the State of Wyoming. Consequently, the State Auditors Office assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, the State of Wyoming has established a comprehensive internal control framework that is designed both to protect the State's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the State of Wyoming's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the State of Wyoming's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. I assert that, to the best of my knowledge and belief this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the State of Wyoming was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the State of Wyoming's separately issued Single Audit Report.

This CAFR consists of three sections. (1) The Introductory Section, which contains this letter of transmittal and some information about the state and its operations. (2) The Financial Section contains the audit opinion of the independent auditors, Management's Discussion and Analysis, Government Wide Financial Statements, Fund Financial Statements for Governmental Funds, Proprietary Funds and Fiduciary Funds. The Financial Section also contains the Notes to the Basic Financial Statements, Required Supplementary Information and various combining fund level statements. (3) The Statistical Section contains financial and demographic information. This section presents detailed information, typically in ten-year trends, that assists users in utilizing the basic financial statements, notes to basic financial statements, and required supplementary information to assess the economic condition of a government. GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial

statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The State of Wyoming's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The State of Wyoming, known as the 'Equality State', was admitted to statehood July 10, 1890 making it the 44th state to be so admitted. Located in the Rocky Mountain section of the western United States, it is bounded on the north by Montana, on the east by South Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. It is the ninth largest state in the United States containing 97,914 square miles. The 2000 Census put Wyoming's population at 493,782. Wyoming is home to two of the country's foremost national parks, Yellowstone National Park and Grand Teton National Park, as well as, the first designated national monument Devils Tower.

The executive branch of Wyoming state government is comprised of a Governor, Secretary of State, State Auditor, State Treasurer, and the Superintendent of Public Instruction, all of whom are elected by statewide vote every four years. The legislative branch of government is comprised of 30 State Senators and 60 State Representatives. The term of office for the Senators is four years, 15 of the members being elected at a general election at which a President of the United States is elected, the balance at the next general election. The entire body of the House of Representatives is elected every two years to serve a two-year term.

The State of Wyoming provides a full range of services. Under the Governor are fifteen Cabinet level departments: Administration and Information, Agriculture, Attorney General, Audit, Corrections, Employment, Engineer, Environmental Quality, Family Services, Game and Fish, Health, Revenue, State Parks and Cultural Resources, Transportation and Workforce Services. There are also 19 separate operating agencies and 13 licensing boards and commissions.

Among the 19 separate operating agencies are seven entities which are legally separate but considered as component units of the State of Wyoming as the state has significant operational and/or financial relationships with them. Six of the component unit's financial data are reported in columns separate from the financial data of the primary government (the State). Those organizations are the University of Wyoming, Department of Transportation, Wyoming Community Development Authority, Wyoming Pipeline Authority, Wyoming Infrastructure Authority and Wyoming Business Council. The Wyoming Building Corporation is a blended component unit; its financial data is blended into the primary government financial data. Additional information on all seven of these legally separate entities can be found in Note 1A in the notes to the financial statements.

Budgetary Process

The biennial budget serves as the foundation for the State of Wyoming's financial planning and control. Wyoming statutes require the Governor to prepare and submit a biennial budget to the legislature each odd numbered year, prior to the beginning of the legislative session. Budgets are prepared for a biennial period and are augmented, if necessary, with supplemental appropriations during the odd-numbered year's legislative sessions. Budgets are adopted at the agency level. Each agency may then allot its budget to line items as it likes unless the legislature has provided specific funding for a certain item or program in the departmental budget. The Legislature may add, change, or delete any budget items proposed by the Governor. The budget session convenes in February of even numbered years. The Governor may authorize changes and revisions to approved budgets during the budget term including increasing appropriations in the event of federal revenue above the initial budget approved by the legislature. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated biennial budget has been adopted. For the general fund, the foundation program fund, and the budget reserve fund, this comparison is presented as part of the required supplementary information. For governmental funds other than the major funds, this comparison is presented in the supplementary information section of this report.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the State of Wyoming operates.

State Economy

Wyoming's economic well-being continues to revolve around the mineral industry. Wyoming's economy is the least diversified of the 50 states. Mineral extraction is by far the largest industry. Wyoming continues to be dependent on the revenues generated by the production/extraction of oil, natural gas, coal, trona and coal bed methane gas. These revenues are represented by severance taxes, Ad Valorem Tax on production, Ad Valorem tax on real and personal property and Federal Mineral Royalties. In 2005 17 mines provided Wyoming its highest coal production to date of 405 million tons. This production yielded over \$670 million for Wyoming. This segment of the minerals industry produced over 35% of the nation's coal. Provided over 5,300 jobs with an annual payroll of \$475 million, which flowed through the State's economy in the form of purchases of homes, vehicles, clothing and food.

During the 2006 Legislative session, the legislature amended the Wyoming Pipeline's bonding authority raising the bonding capacity to \$3 billion. The Wyoming Pipeline Authority's mission is to actively engage in promoting the development of pipeline infrastructure necessary to enhance natural gas development in the state and encourage more export out-of-state. While the Authority did not use its bonding capacity, the Wyoming Pipeline Authority was instrumental in a major pipeline project moving forward. This project is the Rockies Express pipeline, which will run from the Opal Hub at Wamsutter, Wyoming to the Midwest in Ohio, with potential expansion into the New England region. This will provide additional markets for Wyoming gas and help with closing the market differential between the Henry Hub in Louisiana and the Opal Hub in Wamsutter. The State is not expected to see revenues benefit from this project until fiscal year 2008.

Primarily because of the energy boom, Wyoming's economy remained steady in the past fiscal year. Wyoming was well below the national unemployment rate of 4.6% with an unemployment rate at June 30, 2006 of 3.3%.

Each year the Division of Economic Analysis (EA) of the Department of Administration and Information forecasts economic conditions in Wyoming for a ten-year period. This report and additional economic and demographic information about our State can be found on the Division of Economic Analysis website: <http://eativ.state.wy.us>.

Long Term Financial Planning

The 2006 Wyoming Legislature, implemented the 'Hathaway Scholarship Program' commencing with the senior graduating class of 2006. This program rewards eligible Wyoming students with scholarship money to attend the University of Wyoming or a Wyoming community college. The program provides merit and need-based awards to eligible students. Currently, three levels of the Hathaway Scholarship are available to students at UW: Opportunity, Performance, and Honors. Eligibility criteria are based on a student's cumulative high school grade point average, ACT composite score, and high school curriculum. Continuing eligibility criteria include a minimum college cumulative grade point average and continued enrollment.

The Wyoming State Department of Education promulgated emergency rules outlining the Hathaway Scholarship Program. It is anticipated the Joint Interim Education Committee will submit for consideration to the full legislature during the 2007 session final program standards. Discussion thus far has focused on whether the proposed curriculum is too challenging or not challenging enough. It is proposed that the graduating class of 2011 will be the first to graduate under the full auspices of this program. Also, the proposed program standards give the State's Proficiency Assessments for Wyoming Students (PAWS) test more of a presence, as students would have to demonstrate proficiency on the PAWS to qualify for a scholarship. PAWS is designed to provide assessments in reading, writing, math and science.

At its October 2006 meeting the State's Consensus Revenue Group (CREG) upped its revenue forecast for the 2007-2008 Biennium by an additional \$276.4 million. Should these forecasts hold, this would again place the State in the enviable position of having financial surpluses. The State's elected officials can again be expected to continue to debate the best uses of these resources; placing excess funds in a 'rainy day' account, or funding 'one time' expenditures in the areas of new capital construction and deferred infrastructure maintenance, while recognizing the State's surpluses will not go on indefinitely.

Cash Management

Cash temporarily idle during the year and balances held in trust were invested in bank deposits, U.S. Treasury Securities, repurchase agreements and other investment instruments. The interest on these investments and deposits is credited to each fund based on the fund's participation in the cash and

investment pool. Many funds are not allowed by law to receive interest, so the interest earned on these funds is credited to the general fund. The general fund was credited with \$131 million in Interest from the Permanent Wyoming Mineral Trust Fund (PWMTF), during fiscal year 2006.

Risk Management

The State of Wyoming maintains two self-insurance plans: the State Self-Insurance and the State Group Insurance. Both plans are reported as internal service funds. In addition, the State administers three public entity risk pools: Subsidence, Wyoming Health, and Worker's Compensation. The subsidence pool addresses the impact of past mining on capital structures in the State. The Wyoming Health Insurance Pool is designed to assist those Wyoming citizens unable to obtain health insurance from the private sector, and the Worker's Compensation Fund is designed to provide for claims of eligible workers who may be injured while working. These are reported in enterprise funds, as required by GASB Statement No. 10. Additional information on Wyoming's risk management activity can be found in Note 13 of the notes to the financial statements.

Pension and Other Post Employment Benefits

Under the authority of the State Legislature, the Wyoming Retirement System (WRS) administers seven-pension plans open to state employees and employees of other political subdivisions that have elected to participate in the plans. All required contributions by employers have been made. Though the Wyoming Retirement System is legally separate from the State, the State appoints a voting majority of the WRS board, sets the contribution requirements and has fiduciary responsibility for WRS assets. The retirement plans are reported as fiduciary funds. Additional information on Wyoming's pension arrangements can be found in Note 12 in the notes to the financial statements.

Awards and Acknowledgments

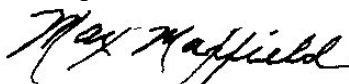

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Wyoming for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2005. This was the eighth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This report continues my commitment to clarify and improve financial reporting for the citizens of Wyoming, in order that they may have an accurate picture of the financial condition of their government. Great strides have been made in the past few years to improve our State's accounting and financial reporting: implementation of GAAP, preparation of the CAFR, an independent audit of our financial statements, and implementation of various GASB standards. All have contributed to better financial management. My appreciation goes out to the Legislature and our Staff for making these improvements possible.

The preparation of this report could not have been accomplished without the cooperation of all State agencies. I continue to be impressed with the capable assistance received from the departments and agencies. I am especially appreciative of the staff in the State Auditor's Office, whose commitment to serve the citizens of Wyoming continues to be demonstrated. We would like to thank the Division of Economic Analysis and the CREG Committee for information used in this letter. We also thank the State Parks and Cultural Resources, Archives and Technical Services, for the use of their photographs and narratives that showcase some of Wyoming's historic downtowns.

Thank you!
Best regards,

A handwritten signature in black ink, reading "Max Maxfield". The signature is fluid and cursive, with the first name "Max" and last name "Maxfield" clearly distinguishable.

INDEPENDENT AUDITOR'S REPORT

Honorable Governor, Members of the Legislature
State of Wyoming
Cheyenne, Wyoming

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming (the "State") as of and for the year ended June 30, 2006, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Wyoming Community Development Authority, the Wyoming Natural Gas Pipeline Authority, or the Wyoming Department of Transportation, which are shown as discretely presented component units. In addition, we did not audit the financial statements of the University of Wyoming Foundation (Foundation), a component unit of the University of Wyoming, which is included in the balances for the University of Wyoming (University), a discretely presented component unit of the State. The Foundation represents approximately 22% of total assets and 4% of total revenues of the University. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Wyoming Community Development Authority, the Wyoming Natural Gas Pipeline Authority, the Wyoming Department of Transportation, and the Foundation portion of the University component units, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As explained in Note 3, the financial statements include investments valued at approximately \$266,000,000 (1.8% of the State's combined net assets), whose fair values have been estimated by management in the absence of readily determinable fair values. Management estimates are based on information provided by the fund managers.

The Management's Discussion and Analysis, pages 5 through 17, and the budgetary comparison information and infrastructure modified approach information, pages 87 through 95, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Wyoming's basic financial statements. The introductory section i through viii, supplementary information pages 97 through 181, and the statistical section, pages 182 through 211, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As the management of the State of Wyoming, we offer readers of the State of Wyoming's financial statements this narrative overview and analysis of the financial activities of the State of Wyoming for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report.

Financial Highlights

Government-Wide:

- The assets of the State of Wyoming exceeded its liabilities as of June 30, 2006 by \$8.4 billion (reported as net assets). Of this amount, \$3.0 billion is unrestricted net assets that may be used to meet the government's ongoing obligations. Component units reported net assets of \$6.2 billion.

Fund Level:

- As of June 30, 2006, the State of Wyoming's governmental funds reported combined ending fund balances of \$7.8 billion, an increase of \$1.5 billion.
- At the end of the fiscal year, unreserved fund balance for the general fund was \$10 million.
- The enterprise funds reported net assets at year-end of \$181 million.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the State of Wyoming's basic financial statements. Financial reporting is intended to provide external parties that read financial statements with information that will help them to make decisions or draw conclusions about an entity. These parties do not always have the same specific objectives. In order to address the needs of as many parties as reasonably possible, the State's annual report consists of three major sections in accordance with required reporting standards: Management's Discussion and Analysis (MD&A), the basic financial statements, and required supplemental information. The State of Wyoming's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the State of Wyoming's finances, in a manner similar to a private-sector business. The State's government-wide financial statements include the *statement of net assets* and *statement of activities*. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting.

- The purpose of the *statement of net assets* is to report all of the assets held and liabilities owed by the State. The State reports all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred. The difference between the State's total assets and total liabilities is titled *net assets* and this difference is similar to the owner's equity presented by a private-sector business.

The government-wide statement of net assets can be found on page 19 of this report.

- The purpose of the *statement of activities* is to present all the revenues and expenses of the State of Wyoming. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a private-sector business in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the State. Revenues are recorded when earned regardless of when the cash will be received and expenses are recorded even though they may not have been paid during the current period (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide statement of activities can be found on pages 20-21 of this report.

Both statements report three activities:

- **Governmental Activities** – Most of the State's basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- **Business-type Activities** – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Workers' compensation and the State's unemployment compensation services are examples of business-type activities.
- **Component Units** – Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The State has 3 authorities, 1 university, and two state agencies that are reported as discretely presented component units of the State. The State blends 1 component unit into the internal service funds.

Fund financial statements. The fund financial statements begin on page 22 and provide more detailed information about the State's most significant funds – not the State of Wyoming as a whole. Funds are accounting devices that the State uses to keep track of specific sources of funding and spending. Except for the general fund, a specific fund is established to satisfy legal requirements established by external parties or governmental statutes or regulations. The State of Wyoming establishes other funds to control and manage money for particular purposes or to show that it is properly using certain resources. All of the funds of the State of Wyoming can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** Most of the State's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending.

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures, and change in fund balances. The Statements are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements. All of the State's programs are included in the governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out in a short period of time. For example, amounts reported on the balance sheet include items such as cash and receivables collectable within a short period of time, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid in a short period after the end of the fiscal year. The difference between a fund's total assets and liabilities is labeled as the fund balance. The unreserved-undesignated portion of fund balance generally indicates the amount that can be used to finance next year's activities.

The operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid in cash, respectively, during the current period or very shortly after the end of the year. Consequently, the governmental funds statements provide a short-term view that helps determine if there are more or fewer financial resources to finance the State's programs. Because this information does not encompass the long-term focus of the government-wide statements, we provide an analysis reconciling the total fund balances to the amount of net assets reported in the statement of net assets.

Also, there is an analysis following the statement of revenues, expenditures, and changes in fund balances that reconciles the change in net assets of the governmental activities presented in the government-wide statement of activities to the change in fund balance presented in the statement of revenue expenditures and changes in fund balance. These two reconciliation schedules (pages 23 and 25) provide an analysis of transitioning from modified accrual accounting (Fund Basis) to full accrual accounting (Government Wide Basis). The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Internal service funds are reported as governmental activities, but reported as proprietary funds in the fund financial statements.

- Unless due and payable, long-term liabilities, such as capital lease obligations, compensated absences, bonds payable, and others only appear as liabilities in the government-wide statements.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- **Proprietary funds.** When the State charges customers for the services it provides, whether to outside customers or to other state agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting: the same method used by private sector businesses. Enterprises funds report activities that provide supplies and services to the general public. An example is the State Workers' Compensation. Internal service funds report activities that provide supplies and services for the State's other programs and activities-such as the State's Information Technology Division. Internal service funds are reported as governmental activities on the government-wide statements since their primary purpose is to support those activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise funds are broken out between major and non-major. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the supplementary information section of this report.

The basic proprietary fund financial statements can be found on pages 26-28 of this report.

- **Fiduciary funds.** The State acts as a trustee or fiduciary for its employee pension plan. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. These statements include pension, investment trust, private purpose, and agency funds, which use accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

The basic fiduciary fund financial statements can be found on pages 29-30 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 32-85 of this report.

Required Supplementary Information is presented that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparisons schedules primarily prepared on a biennial basis. Also included is a discussion of the Wyoming Department of Transportation (DOT) and how they account for infrastructure assets using the modified approach.

Required supplementary information can be found on pages 88-95 of this report.

Other Supplementary Information includes combining statements referred to earlier in connection with non-major governmental, enterprise, internal service and fiduciary funds that are presented immediately following the required supplementary information.

Other supplementary information can be found on pages 98-181 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a State's financial position. In the case of the primary government (State of Wyoming), assets exceeded liabilities by \$8.4 billion at the close of fiscal year 2006. This was an increase of \$1.5 billion. This increase in net assets was due primarily to continued high prices for the State's energy commodities, most notably for fiscal year 2006, natural gas. This increase is reflected in the State's mineral severance tax and federal mineral royalties--major revenue sources for the State.

The following condensed financial information was derived from the government-wide Statement of Net Assets:

State of Wyoming's Net Assets for Fiscal Year Ended June 30, 2006						
	Governmental Activities		Business-Type Activities		Total Primary Government	
	2005	2006	2005	2006	2005	2006
Current and other non-current assets	\$ 10,562,771,756	\$ 12,554,201,020	\$ 1,361,693,193	\$ 1,645,379,332	\$ 11,924,464,949	\$ 14,199,580,352
Capital assets, net of accumulated depreciation	338,799,504	404,988,174	5,201,772	4,771,210	344,001,276	409,759,384
Total assets	10,901,571,260	12,959,189,194	1,366,894,965	1,650,150,542	12,268,466,225	14,609,339,736
Current liabilities	3,958,972,662	4,617,939,914	581,160,574	724,968,158	4,540,133,236	5,342,908,072
Long-term liabilities	105,194,068	112,598,924	681,962,575	743,990,661	787,156,643	856,589,585
Total liabilities	4,064,166,730	4,730,538,838	1,263,123,149	1,468,958,819	5,327,289,879	6,199,497,657
Net assets:						
Invested in capital assets, net of related debt	286,134,953	355,153,842	5,106,888	4,771,210	291,241,841	359,925,052
Restricted	4,134,019,473	4,761,197,971	217,426,990	244,684,061	4,351,446,463	5,005,882,032
Unrestricted (deficit)	2,417,250,104	3,112,298,543	(118,762,062)	(68,263,548)	2,298,488,042	3,044,034,995
Total net assets	\$ 6,837,404,530	\$ 8,228,650,356	\$ 103,771,816	\$ 181,191,723	\$ 6,941,176,346	\$ 8,409,842,079

The investments in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding, is \$359.9 million. The State of Wyoming uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending. Although the State of Wyoming's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

It should be noted that during the implementation of Governmental Accounting Standards Board Statement 42- Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, the State identified an impaired asset. This asset with a book value totaling \$8,682,136, is one of the State's correctional facilities whose original service utility is no longer being received due to significant structural erosion to the buildings and their foundations. It has been determined the cost to restore the structural foundations to make the buildings sound outweighed the costs of new construction. While this facility has not been demolished, plans are imminent to implement this objective. The method of disclosure was to restate beginning net assets by this amount.

An additional portion of the State of Wyoming's net assets, \$5.0 billion, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets is \$3.0 billion.

The majority of the current and other non-current assets of \$14.2 billion, consist of various cash and pooled investments of \$12.7 billion, and accounts receivable, due from other governments and loan receivables (including interest receivable) of \$1.5 billion. The remaining amount is comprised of other assets such as inventory and prepaid expenses.

The current liabilities of \$5.3 billion, are comprised of various items. \$4.1 billion is related to liabilities under security lending, \$140 million is related to claims and benefits payable, \$744 million is related to various accounts payable. The amount of unavailable revenue totaling \$252 million is attributable to property taxes and long term loans reserved. The remaining amount of \$61 million is made up of compensated absences, early retirement, current portion of bonds payable, and various other liabilities.

The majority of the long-term liabilities of \$857 million, is comprised of claims and benefits payable of \$769 million, compensated absences of \$32 million and bonds payable of \$47 million. The remaining amount is made up of various other liabilities.

As of June 30, 2006, the State of Wyoming is able to report positive balances in all three categories of net assets for the government as a whole. The same situation held true for the prior fiscal year.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net assets changed during the fiscal year:

State of Wyoming's Changes in Net Assets for Fiscal Year Ended June 30, 2006 Statement of Activities

The increase in net assets related to governmental activities for the State of Wyoming was \$1.6 billion during the current fiscal year. The majority of this increase is attributable to the following: An overall increase in revenues of \$528 million, of which \$488 million came from increases in mineral severance taxes and federal mineral royalties and \$56 million from increased collections of other taxes).

The chart below represents revenues of the governmental activities for the fiscal year:

The following chart represents expenses of the governmental activities for the fiscal year:

Business-type activities. The net assets of the business type activities increased by \$77 million during the fiscal year. The majority of the increase was do to an overall increase of \$45 million in total program revenues.

Financial Analysis of the State of Wyoming's Funds

As noted earlier, the State of Wyoming uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the State of Wyoming's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources, as stated earlier. Such information is useful in assessing the State of Wyoming's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2006, the State of Wyoming's governmental funds reported combined ending fund balances of \$7.8 billion, an increase of \$1.5 billion, in comparison with the prior year. Of this total fund balance, \$4.6 billion, is reserved within the permanent funds as nonexpendable. In addition, a portion of the fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed 1) to liquidate contracts and purchase orders of the prior period, \$351 million, 2) for loans and advance receivable, \$333 million or 3) for inventory, \$3 million.

General Fund. The general fund is the chief operating fund of the State of Wyoming. At the end of the current fiscal year, unreserved fund balance of the general fund was \$10 million, while total fund balance reached \$83.8 million. The net change in fund balance for 2006, in the general fund was a \$148.9 million decrease. This was a \$401 million decrease over 2005. The major element, which factors in this decrease is a legislative directive that requires the undesignated general fund balance to be capped at an amount not to exceed \$10 million, at the end of a biennium, which this reporting period is. This requirement resulted in the transfer out of \$317 million from the General Fund's undesignated fund balance. This legislative requirement will continue to cause significant swings in the General Fund's undesignated fund balance from year to year until appropriately corrected. The remaining \$84 million decrease is attributable to a decline of other financing resource receipts (transfers in) of \$229 million offset by total revenue gains of \$92 million. A more detailed comparative analysis of the activity for the General Fund can be found on pages 12-13, of this MD&A.

Foundation Program Fund. Fund balance at June 30, 2006 totaled \$108 million, a net change in fund balance of \$3.8 million on a year over year basis. This fund also carries a legislative restriction on its undesignated fund balance which states it shall not exceed \$100 million. This restriction resulted in the transfer out of \$53 million to the University Endowment Fund.

Legislative Reserve Fund. Fund balance at June 30, 2006 totaled \$1.3 billion, a net change in fund balance \$800 million for the year. A major piece of this increase is the \$317 million transfer from the General Fund due to the legislative cap placed on the General Fund's undesignated fund balance. The other major contributing factor was a decline in the amount of transfers out to other funds of \$448 million.

Common School Land Fund. As of June 30, 2006, this fund balance totaled \$1.5 billion, a net change in fund balance of \$138 million for the year. This increase due primarily to a continued trend of total revenues exceeding total expenditures by nearly the same amount year over year--\$138 million in fiscal year 2006 and \$144 million in fiscal year 2005.

Permanent Mineral Trust Fund. Fund balance at June 30, 2006, totaled \$3.1 billion, a net change in fund balance of \$535 million for the year and a \$209 million increase year over year. These changes between years primarily due to a \$227 million increase in mineral severance tax revenues and an increase of \$51 million from other financing resources (transfers in).

Proprietary funds. The State of Wyoming's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted/(deficit) net assets of the enterprise funds as of June 30, 2006, totaled \$181 million. The major enterprise fund the Worker's Compensation Fund had a deficit of \$78 million as of June 30, 2006, which is a \$47 million improvement over the prior year. This improvement is a result of a \$22 million increase for charges and services.

General Fund Budgetary Highlights

The adjusted 2005-2006 Biennial Appropriations for the General Fund totaled \$3.4 billion. The budgetary changes to the General Fund for fiscal year 2006 totaled a net increase \$210.9 million.

The major increases are briefly summarized below:

- \$94 million in additional federal funds;
- \$18 million increase for various capital construction projects;
- \$38 million for state highway road construction; and
- \$51 million for increases to various state programs including Health Services,
- \$7.5 million for tax refund to elderly and disabled;
- \$3.0 million for low income energy assistance;
- \$4.4 million for local government distributions.

The total general fund revenues are presented in a pie chart below to display how sources relate to total revenue. The table on the following page shows the change in 2005 and 2006 revenue sources. On page 13 and 14, General Fund expenditures are similarly presented, depicting functions as they relate to total expenditures.

As shown in the table following, total Revenue saw slight improvement, while Other Financing Sources (transfers-in) decreased 41% or \$229 million in fiscal year 2006. The General Fund saw a significant increase from investment income and minor changes across the majority of the other revenue sources. Interest from the Permanent Mineral Trust Fund increased approximately \$62 million and interest income from the General Fund's investments increased approximately \$101 million over 2005. This increase to interest income is primarily attributable to the State's securities lending program whose transactions were grossed up for financial reporting purposes. This resulted in an increase to investment income of \$103 million year over year-for fiscal year 2006- \$68 million in fiscal year 2005 and \$171 million in fiscal year 2006. The adjustment to fair market value for investments caused a \$40 million dollar decrease.

General Fund Revenue and Other Financing Sources for Fiscal Year Ended June 30, 2006				
	FY05	FY06	Increase (Decrease)	Percent Change
Taxes:				
Sales & Use	\$ 424,357,602	\$ 456,998,802	\$ 32,641,200	8%
Mineral Severance	230,820,770	239,446,125	8,625,355	4%
Other Taxes	27,044,404	25,753,016	(1,291,388)	-5%
Licenses and Permits	7,874,046	5,303,054	(2,570,992)	-33%
Fines & Forfeitures	4,036,408	5,237,115	1,200,707	30%
Use of Property	4,865,982	4,974,186	108,204	2%
Investment Income	243,578,494	339,538,419	95,959,925	39%
Charges for Sales & Services	41,755,253	27,976,398	(13,778,855)	-33%
Revenue from Others	16,769,892	16,814,942	45,050	0%
Federal	587,285,567	558,771,965	(28,513,602)	-5%
Miscellaneous Receipts	114,326	67,086	(47,240)	-41%
Federal Mineral Royalties	2,100,000	2,000,000	(100,000)	-5%
Total Revenues	1,590,602,744	1,682,881,108	92,278,364	6%
Other Financing Sources:				
Capital Leases	227,953	352,505	124,552	55%
Transfers-In	554,597,112	326,088,990	(228,508,122)	-41%
Total Other Financing Sources	554,825,065	326,441,495	(228,383,570)	-41%
Total Revenue & Other Financing Sources	\$ 2,145,427,809	\$ 2,009,322,603	\$ (136,105,206)	-6%

Because the Legislature considers the General Fund and Budget Reserve Fund as one 'pot' when making appropriations, transfers from the Budget Reserve to the General Fund are used as a 'budget balancer' in the appropriations bill to 'balance out' the expenditures coming from the General Fund. The percentage change of transfers-in to the General Fund is a result of these 'budget balancer' transfers and may vary widely year to year depending on whether it's the end of a biennium or the middle of a biennium. Fiscal year 2006 is the end of a biennium.

As shown in the table following, overall Expenditures and Other Financing Uses increased by 14% or \$265 million in fiscal year 2006. General Government increased its expenditures by \$119 million. A majority of this increase to General Government expenditures was the result of recording securities lending expenditures on a gross basis for financial reporting purposes. This added \$103 million to General Government expenditures year over year--\$68 million for fiscal year 2005 and \$171 million for fiscal year 2006.

Law, Justice and Safety expenditures decreased \$64 million due in large part to the State exercising an early purchase option on the lease of a state prison facility during fiscal year 2005. The state purchased the facility for \$67 million.

Transportation expenditures increased \$17 million this increase is attributable to reclassifying a transfer to a component unit as expenditures in the primary government, rather than as a 'transfer', in accordance with GAAP.

General Fund Expenditures and Other Financing Sources for Fiscal Year Ended June 30, 2006					
	FY05	FY06	Increase (Decrease)	Percent Change	
General Government	\$ 185,343,153	\$ 304,251,971	\$ 118,908,818	64%

Total Expenditures & Other Financing Uses	\$ 1,893,198,182	\$ 2,158,182,643	\$ 264,984,461	14%	

Because the Legislature considers the General Fund and Budget Reserve as one 'pot' when making appropriations, transfers from the Budget Reserve to the General Fund are used as a 'budget balancer' in the appropriations bill to 'balance out' the expenditures coming from the General Fund. The major element, which produced this decrease is a legislative directive that requires the undesignated general fund balance to be capped at an amount not to exceed \$10 million, at the end of a biennium, which this reporting period is. The percentage change of transfers-out of the General Fund is a result of these 'budget balancer' transfers legislative cap transfers and may vary widely year to year depending on whether it's the end of a biennium or the middle of a biennium. Fiscal year 2006 is the end of a biennium.

Capital Asset and Debt Administration

Capital Assets. The State of Wyoming's investment in capital assets, net of related debt, for its governmental and business type activities as of June 30, 2006, amounts to \$359.9 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, and park facilities.

Major capital asset events during the current fiscal year included the following:

- The new Livestock Pavilion and Show Center facilities totaling approximately \$6 million were near completion at the close of the fiscal year, and can be seen at the Wyoming State Fairgrounds in Douglas.
- Construction continued on several hatcheries and fish rearing stations for the Wyoming Game & Fish Department; \$6.7 million had been appropriated with approximately \$6 million at year-end.
- A variety of construction projects were underway or began at the Wyoming Conservation Camp, Women's Center, Honor Farm, and State Prison; construction in progress had reached approximately \$53 million.

More detailed information about the State's incomplete construction in progress is presented in Note 14 to the basic financial statements, on pages 80-84.

At the end of the fiscal year 2006, the State had invested \$410 million, net of accumulated depreciation, in a broad range of capital assets (see the table below). The accumulated depreciation as of June 30, 2006, totaled \$351 million.

Capital Assets, Net of Depreciation for Fiscal Year Ended June 30, 2005						
	Governmental Activities		Business-Type Activities		2005	2006
	2005	2006	2005	2006	Total Primary Government	Total Primary Government

Total	\$ 338,799,504	\$ 404,988,174	\$ 5,201,772	\$ 4,771,210	\$ 344,001,276	\$ 409,759,384

Additional information on the State of Wyoming's capital assets can be found in Note 5 on pages 61-64 of this report.

The State's Department of Transportation (DOT), a component unit of the State, is responsible for the majority of the infrastructure (consisting of roadways and bridges). As allowed by GASB Statement No. 34, DOT has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, DOT expenses certain maintenance and preservation costs and does not report depreciation expense. More detailed information about the DOT capital assets and the reporting criteria are available in the Wyoming Department of Transportation Component Unit Financial and Compliance Report as of September 30, 2005 and on page 63 of this report. DOT's policy is to maintain 83% of its national highway system bridges and 80% of its non-national highway system bridges in acceptable or above condition. In 2005, 92% of all NHS bridges were rated acceptable or above and 93% of non NHS bridges were rated acceptable or above. DOT's policy is to maintain its national highway system streets at an average rating of 3.25 and its non-national highway system streets at 3.0, on a 0-5 point scale. In 2005, the National Highway System streets rated 3.45 and the non-national highway system rated 3.13.

Bonded debt.

The state did not issue any new debt for fiscal year 2006 either as new or as refunding of old debt.

At the end of the current fiscal year, the State of Wyoming had total bonded debt outstanding of \$49 million. This amount, represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The State of Wyoming has a debt limitation for revenue bonds relating to capital construction in the amount of \$105 million, which is significantly in excess of the outstanding revenue bond debt.

The State of Wyoming received a "SP-1+" rating from Standard & Poor's Corporation and a "F1+" rating from Fitch IBCA, Inc. for its tax and revenue anticipation notes, which were issued July 1, 2005 and which were due June 28, 2006. The total amount issued and redeemed was \$105,000,000.

The State of Wyoming received a "SP1+" rating from Standard & Poor's Corporation and a "F1+" rating from Fitch IBCA, Inc. for its tax and revenue anticipation notes, which were issued July 3, 2006 and which are due June 27, 2007. The total amount issued and to be redeemed is \$250,000,000.

Additional information on the State of Wyoming's long-term debt can be found in Note 9 on pages 67-72 of this report.

Economic Outlook and Condition

Nationally, the economy has been very strong, but has been threatened by soaring energy prices. It is these soaring energy prices that have produced very good news for the State's fiscal picture. For Fiscal Year 2005 revenues were the story and revenues remain the story into Fiscal Year 2006 and as the State enters its 2007-2008 Biennial Budget, the state's Consensus Revenue Estimating Group (CREG) upped its October 2006 forecast for the General Fund's fiscal year 2007 forecast by an additional \$132.6 million from its January 2006 forecast for the same period.

Wyoming's State Geologist, noted in 2005 "the world has passed a fundamental tipping point. Demand has finally exceeded supply. Oil-producing countries in the Middle East can no longer open the valve wider to help bring down prices because the valve is already all the way open. He continued noting, that Wyoming is well positioned, because of its blend of oil, gas, coal, oil shale and uranium to profit from an energy thirsty world."

The question of Will it last?, continues to be asked.

Wyoming's State Geologist also noted in 2005 that he 'doesn't believe Wyoming's current energy boom will go bust for the next 30 years.' He said, "we are in a highly competitive arena and need to understand this is not your father's boom-and-bust. This is a new world energy economy and it's going to be characterized by intense competition for the world's energy resources."

While world commodity prices for energy have continued to rise, there has been some noted decline in the spot market prices paid for oil and natural gas and the CREG provided a note of caution in their forecast especially noting a somewhat softer market for natural gas- a significant source of revenue to the State for fiscal years 2005-2006.

Wyoming's Economy

According to the Economic Analysis Division's (EAD) *Ten Year Outlook Wyoming Economic Forecast: 2005-2014*— for most economic indicators, Wyoming's economy does not mirror the national economy. Wyoming's state economy continues to be one of the least diversified in the nation. This report further illustrates the importance of how the Mining Sector continues to be one of the most important sectors in Wyoming's economy. For example, data for the latest year cited 2003 showed that mining contributed 24 percent to the State's Gross State Product (GSP), while nationwide, this sector's contribution to the gross domestic product was 1.2 percent.

The other area, which this report cites as reflecting the magnitude of Wyoming's dependence on the mining industry, is the State's finances. Mineral Severance Taxes, Interest from the Permanent Mineral Trust Fund, mining related sales and use tax collections, a gross products tax levied on mineral production and Federal Mineral Royalties provide major sources of revenue for the State's General Fund, for primary and secondary education including school capital construction, and for cities, towns and counties of Wyoming. These sources combined are the primary reason Wyoming has no state personal or corporate tax and a comparatively low residential property tax.

For 2005, EAD's *Ten Year Outlook Wyoming Economic Forecast: 2005-2014*-- Wyoming's economy grew strongly again and continues to outperform the national economy and many other states in the western region in terms of job growth. The payroll count is at an all time high and most industries are expanding in earnest. A booming energy sector underpins current strength. Few negatives exist outside of flat government employment. Leading indicators are positive and layoff activities are abating.

Readers should be cautioned, that should commodity prices for Wyoming energy begin to decline and the oil and gas industry begin to curtail operations this would affect the major sources of revenue to Wyoming which are mineral severance taxes, federal mineral royalties and sales and use taxes. A major assumption propping up the projected sales and use tax increases is the continued robust oil and gas sector with its significant workforce, which buys homes, cars and makes purchases which otherwise ripple through the state's economy.

This report's near-term outlook is for average growth supported by increased natural gas mining. Outside of the mining industry, however, the state's future prospects will be somewhat limited by a job market that fails to attract high-growth job opportunities. Although migration has recently reversed to a positive trend, many younger workers will be tempted to move to other states with more versatile job opportunities as their economies recover.

- As of June 2006, Wyoming's unemployment rate had decreased to 3.3 percent slightly below the rate for the same time the year before which was 3.6%. This compares favorably with the 4.6% rate for the United States in June of 2006, which also improved from its year ago mark of 5.6% unemployment.
- For additional information and analysis of Wyoming's economy you are referred to the following website of the State's economic analysis division at <http://eadiv.state.wy.us/>

Request for information

This financial report is designed to provide a general overview of the State of Wyoming's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the State of Wyoming, State Auditor's Office, Capitol Bldg. Room 114, Cheyenne WY, 82002 or see at <http://sao.state.wy.us/>.

Reconciliation of the Balance Sheet to the Statement of Net Assets

June 30, 2006

Fund balances—total governmental funds	\$ 7,848,827,065
--	------------------

Amounts reported for *governmental activities* in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	394,931,402
---	-------------

Other assets are not available to pay for current-period expenditures and therefore are deferred in the funds.	6,991,227
--	-----------

Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology and transportation to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net assets.	78,215,502
---	------------

Some liabilities are not due and payable in the current period and therefore are not reported in the fund.	<u>(100,314,840)</u>
--	----------------------

Net assets of governmental activities	<u><u>\$ 8,228,650,356</u></u>
---------------------------------------	--------------------------------

Reconciliation of the Statement of Revenues, Expenditures & Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2006

Net change in fund balances—total governmental funds	\$ 1,495,570,747
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$90,221,929) exceeded loss on disposal of capital assets (\$528,526) and depreciation (\$23,759,100) in the current period.	65,934,303
Change to Net Assets as a result of restating beginning net assets :	
Due to an asset impairment	8,682,136
Due to recognition of deferred bond interest	7,618,113
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(13,682,904)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	2,850,367
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(2,188,532)
Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology and transportation to individual funds. The net revenue (expense) of internal service funds is included in governmental activities in the Statement of Activities.	16,990,185
Change in net assets of governmental activities	<u>\$ 1,581,774,415</u>

Notes to the Basic Financial Statements

For the Year Ended June 30, 2006

NOTE 1 Summary of Significant Accounting Policies

A. Reporting entity

The basic financial statements include all funds of the primary government, which is the State, as well as the component units determined to be included in the State's financial reporting entity. The decision to include a potential component unit in the State's reporting entity is based on several criteria, including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities included in the State's reporting entity.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, entities with which the State has significant operational or financial relationships such as boards, commissions and authorities are considered component units. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions be reported with the balances and transactions of the State.

The following organization is the State's blended component unit:

The Wyoming Building Corporation is an independent authority that was established to finance real and personal property used by the State. The Bldg. Corp. is blended as an internal service fund in this report because it provides services almost entirely to the State. The State approves the appointment of the directors and the Bldg. Corp. is fiscally dependent on the State.

The following organizations comprise the State's discretely presented component units:

The Wyoming Department of Transportation administers the State's construction and maintenance programs for roads and bridges and is legally separate from the State. The Governor appoints a voting majority of the DOT's Commission and is able to remove appointed board members at will. The financial information included for DOT relates to its fiscal year ended September 30, 2005.

The Wyoming Community Development Authority is an independent authority that provides low interest financing for Wyoming homebuyers. WCDA issues negotiable notes and bonds to fulfill its purpose. Neither the faith and credit nor taxing power of the State may be pledged for the amounts so issued. The State appoints a majority of WCDA board members and the State authorizes WCDA bond issuances; thereby, WCDA is financially accountable to the State.

The Wyoming Business Council is an independent authority that provides economic development and growth for the State. The State appoints all of the directors and provides a material subsidy to WBC.

The University of Wyoming is a public land grant research university serving as a statewide resource of higher education. The University of Wyoming is governed by a board made up of twelve members appointed by the Governor with the consent of the Senate and receives significant support from the State.

The Wyoming Pipeline Authority is an independent authority created to plan, finance, construct, develop, acquire, maintain, and operate a pipeline system or systems within or outside of the state of Wyoming. The governing board is appointed by the Governor with the consent of the Senate. The Authority is dependent upon the State to finance its operating costs.

The Wyoming Infrastructure Authority is an independent authority created to diversify and expand the state's economy through improvements in Wyoming's electric transmission infrastructure and to facilitate the consumption of Wyoming energy. The authority will participate in planning, financing, constructing, developing, acquiring, maintaining and operating electric transmission facilities and their supporting infrastructure. The State appoints the five-member board and has provided funding through loans from the State Treasurer for day-to-day operation of the authority.

B. Basis of Presentation

The accompanying financial statements of the State of Wyoming, (the State), have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to governmental organizations in the United States. Such principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the standard-setting body for establishing governmental accounting and financial reporting principles in the United States of America.

The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. Financial data for the Wyoming Retirement System (WRS), Wyoming Department of Transportation (DOT), University of Wyoming (University) including its component unit, the University of Wyoming Foundation (Foundation), Wyoming Community Development Authority (WCDA), Wyoming Business Council (WBC), Wyoming Pipeline Authority (WPA), and the Wyoming Infrastructure Authority (WIA) have been derived from reports prepared by those organizations, based on independent accounting systems maintained by them.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The **Statement of Net Assets** presents the reporting entities' non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in four categories:

- **Invested in capital assets, net of related debt** consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- **Restricted net assets – expendable** include resources in which the State is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.
- **Restricted net assets – nonexpendable** consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.
- **Unrestricted net assets** consist of net assets that do not meet the definition of the three preceding categories. Unrestricted net assets often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The **Statement of Activities** demonstrates the degree, to which the direct expenses, of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable within a specific function or segment.

The cost allocation by internal service is included in the direct expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with non-major funds being combined into a single column.

D. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Revenues are classified by program and general revenues. Program revenues include 1) charges to customers or applicants for goods and services 2) operating grants and contributions, and 3) capital grants and contributions. General revenues consist of all revenues not considered program revenue. All taxes are considered general revenues. Certain indirect costs have been allocated to functional activities.

As permitted by GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Funds that use Proprietary Fund Accounting*, the State has elected not to adopt Financial Accounting Standards Board (FASB) statements issued after November 30, 1989, unless the GASB specifically adopts such FASB statements.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60-75 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Sales and Use tax, Mineral Severance tax, Federal Mineral Royalty tax, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the State.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of operations.

The State uses funds and component units to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

The Statement of Net Assets reflects a restatement of beginning Net Assets totaling \$190,528,589. This restatement is comprised of three components:

1. An amount of \$8,682,136 reflects the book value of one of the State's correctional facilities whose original service utility is no longer being received due to significant structural erosion to the buildings and their foundations. It was determined several years ago that the cost to restore the structural foundations to make the buildings sound outweighed the costs of new construction. While this facility has not been demolished, plans are imminent to implement this objective. In accordance with GASB Statement No. 34 *Basic Financial Statements – and Management's Discussion & Analysis – for State & Local Governments* and GASB Statement No. 42 *Accounting & Financial Reporting for Impairment of Capital Assets & for Insurance Recoveries*, the Statement of Net Assets has been restated to reflect this loss of original asset service utility, which is displayed as an accounting change.
2. An amount of \$7,618,113 represents the recognition of deferred bond interest payable. This amount is attributable to refunding bond issues whose interest payments are not due until the maturity date of the bonds. The Statement of Net Assets has been restated to reflect this as a prior period adjustment.

3. The State makes distributions of mineral severance tax collections and sales/excise taxes prior to receipting those taxes into the distribution fund, based on the revenue projections of the Consensus Revenue Estimating Group. The actual severance tax and sales/excise tax collections are then compared to what had been distributed and a 'true-up' is done. These distributions are made from agency funds and an analysis of the cash and receivables remaining in the agency funds attributable to these distributions had been overstated. This overstatement caused beginning fund balances to be restated totaling \$174,228,340. These adjustments were made to the fund level statements as a prior period adjustment. The restatements by fund are: General Fund—\$81,991,331, Legislative Fund—\$59,295,220, Permanent Mineral Trust Fund—\$31,624,117 and the Environmental Quality Fund—\$1,317,672.

Governmental Funds:

The State reports the following major governmental funds:

- a. General Fund as the primary operating fund of the State, accounts for all financial resources except those required to be accounted for in another fund.
- b. Foundation Program Fund accounts for federal mineral royalties, mineral severance tax and other revenue sources, which are restricted for payments to school districts.
- c. Legislative Reserve Fund accounts for mineral severance tax and other revenue sources, which are restricted for specific appropriation by the legislature.
- d. Common School Land Fund accounts for land donated to the State and income derived from those lands. The revenue earned by this fund is restricted for the purpose of establishing, maintaining, and supporting school facilities.
- e. Permanent Mineral Trust Fund accounts for a portion of severance tax. The interest earned by this fund is restricted for distribution to specific funds.

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private enterprise—where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the State has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Revenue and expenses are classified as operating and non-operating. Operating revenues and expenses generally result from providing goods and services. All other revenues and expenses are reported as non-operating.

The State reports the following major enterprise fund:

- a. Workers' Compensation Insurance Fund accounts for activities of the Wyoming Workers' Compensation Insurance fund that provides workers' compensation insurance to government and private businesses.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units, on a cost-reimbursement basis. The Internal Service Funds include the Computer Technology Fund, Motor Vehicle Fund, Central Duplicating Fund, Telecommunications Fund, Group Insurance Fund, Wyoming Surplus Property Fund, Personnel/Training Fund, State Self Insurance Fund, and the Wyoming Building Corporation.

Fiduciary Funds:

- a. Pension Trust Funds account for the assets held by WRS, as trustee, for eight retirement systems. The financial information included for WRS relates to its fiscal year ended December 31, 2005. WRS is legally separate from the State. However, the State appoints a voting majority of the WRS board, sets the contribution requirements and has a fiduciary responsibility for WRS assets.
- b. Private-Purpose Trust Funds account for resources of all other trust arrangements in which principle and income benefit individuals, private organizations, or other governments (i.e., Unclaimed Property/Escheat property, and College Savings).
- c. Investment Trust Fund accounts for the assets belonging to Wyoming municipalities invested by the State Treasurer (i.e., WYO-Star).
- d. Agency Funds account for assets that the State holds on behalf of others as their agent.

E. Assets, liabilities, and net assets or equity

1. **Deposits and investments.** Current statutes require all cash and investments of State agencies other than those of the University and the WRS to be pooled and invested by the State Treasurer's Office. The State Treasurer maintains different cash and investment pools for the Common School Land Fund, Permanent Mineral Trust Fund, Workers' Compensation Insurance Fund, Wyoming Tobacco Settlement Fund, and Water Fund and one cash and investment pool for the remainder of the fund types. Earnings from the cash and investment pools are credited monthly, utilizing a formula based on the average daily balance, to the applicable accounts and funds. The majority of the funds maintained by the State are not legally allowed to earn interest. The interest earned by these funds is credited directly to the General Fund. The State reports all investments at fair value, except for investments in participating interest-earning investment contracts having a remaining maturity at time of purchase of one year or less. Participating interest earning investment contracts having a remaining maturity at time of purchase of one year or less are recorded at amortized cost. For the purpose of the statement of cash flows, the State considers all assets held in the cash and investment pool to be cash equivalents because the investments are not identifiable to specific funds and the assets can be withdrawn at any time, similar to a demand deposit account.
2. **Receivables and Payables.**
 - a. **Due to Due From.** During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "Due from Other Funds" or "Due to Other Funds" in the balance sheet. See Note 6.
 - b. **Property Taxes.** The counties in the State levy property taxes in the first half of August and submit a portion of the tax levy to the State. The tax levy is divided into two billings: the first billing is mailed in the first half of September, generally September 1; the second billing is generally mailed on March 1. The billings are considered due upon receipt by the taxpayer. The taxpayer has the option of paying the full amount on December 31. Property taxes are assessed as of January 1 of each year for that year.
 - c. **Advances to other funds and component units.** Inter-fund loans receivable are reported as advances and are offset equally by a fund balance reserve account that indicates they do not constitute expendable available financial resources and therefore, are not available for appropriation.
3. **Inventories.** Inventories are reported in the proprietary funds using the lower of average cost or market. In the governmental fund types, inventories are accounted for at cost or average cost on a first-in, first-out basis. Inventory items are considered expenditures when purchased. However, as inventories on hand at June 30, 2006, are significant, they have been recorded as assets in the governmental funds. Inventories are reported by the University at the lower of cost (first-in, first-out) or market except for livestock inventory that is reported at net realizable value. The Department of Transportation's inventories are valued at average cost, less an allowance for obsolete items and charged to expenditures when consumed.
4. **Securities lending collateral.** Securities on loan for cash collateral are reported in the Statement of Net Assets. Liabilities resulting from the security lending transactions are also reported. Additional disclosures describing security-lending transactions are provided in Note 3.
5. **Capital assets.** Capital assets, which include property, plant and equipment, and infrastructure assets are reported in the governmental or business-type activities columns in the government-wide financial statements (Statement of Net Assets). Capital assets are stated at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are stated at their estimated fair market value on the date received. The State currently does not capitalize interest costs incurred during construction, except on business-type activities. Capital assets of the business-type activities are capitalized in the fund in which they are utilized. The State's capital assets are depreciated over their useful lives using the straight-line basis.
 - a. **Property, plant and equipment.** The State capitalizes all buildings, land and other capital assets that have a value or cost of \$500 or more at the date of acquisition and have an expected useful life of one year or more. Estimated useful lives for capital assets are all being depreciated on a straight line basis as follows:

Class	Estimated Life
Buildings & Building Improvements	40 years
Vehicles	3 - 7 years
Equipment	3 - 17 years

- b. **Infrastructure.** Infrastructure assets can include roads, bridges, lighting systems, drainage systems and flood control systems, and rest areas. The primary government will have infrastructure in the State Parks and Cultural Resources division and the Department of Game and Fish. Department of Transportation (DOT) reports most of the infrastructure assets for the State. DOT's capitalization level for infrastructure is \$250,000. In accordance with the alternative approach to depreciating infrastructure assets permitted by GASB Statement No. 34, DOT has elected to expense all infrastructure related expenditures, except for those expenditures related to additions to or improvement of infrastructure assets, in lieu of depreciating infrastructure assets. In order to utilize the alternative system, DOT must maintain an asset management system which will assess asset condition and must maintain infrastructure assets at the condition level established by the DOT. Infrastructure acquired prior to fiscal years ending after June 30, 1980 are reported.
 - c. **Art and the Wyoming State Museum Collection.** The State has not capitalized works of art, historical treasures and artifacts contained in the collections of the Wyoming State Museum. The collection is held for public exhibition, education, or research in furtherance of public service, protected, kept unencumbered, cared for, preserved, and subject to an organizational policy that requires the proceeds from sales of collection items to be used to maintain the existing collection.
- 6. **Compensated absences.** Employees of the different State agencies earn vacation leave, based on their number of years of service, and sick leave of one day per month. Employees are vested and allowed to accumulate up to 480 hours of vacation leave. In addition, employees are paid for one half of accumulated sick leave upon termination of employment with a maximum payment for one half (½) of 960 hours. The amount of vested accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a liability of the governmental funds in the government fund financial statements. Amounts of vested accumulated leave not expected to be liquidated with expendable available financial resources is not reported by the governmental funds in the government fund financial statements. All vested accumulated leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.
 - 7. **Deferred Revenue.** The State reports deferred revenue on its government-wide statements and its fund financial statements. At the fund level deferred revenue is recognized either as unearned revenue or unavailable revenue. Unearned revenue arises when resources are received by the State before it has legal claim to them, as when grant funds are received prior to the occurrence of qualified expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the State has a legal claim to the resources, the liability for deferred revenue is removed and the revenue is recognized. Unavailable revenue arises when revenue does not meet the 'susceptibility to accrual' test, which is the revenue must be both measurable and available to finance expenditures of the current fiscal period, including property tax receivable assessed but not levied.
 - 8. **Long-term obligations.** In the government-wide statements and proprietary fund financial statements, long-term liabilities are reported as liabilities. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.
 - 9. **Fund equity.** Portions of fund equity are reported in the fund financial statements as "reserved" to indicate (1) amounts not available for expenditure, such as equity represented by inventory and prepaid items; and (2) amounts legally segregated for a specific future use, such as those pledged for debt service, or legally binding contractual agreements. Designated fund balance represents tentative plans for future use of financial resources. As of June 30, 2006, the Workers' Compensation Insurance Fund, an enterprise fund, reported an accumulated deficit of \$ 78.1 million. The State is working towards fully funding workers' compensation liabilities by 2013 through premium rate adjustments.
 - 10. **Inter-fund Transactions.** Inter-fund services provided and used are accounted for as revenue, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide statements. Inter-fund receivables and payables have been eliminated from the Statement of Net Assets, except for the residual amounts due between governmental and business-type activities. See further information in Note 7.

F. Reconciliation of government-wide and fund financial statements

- a. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The Reconciliation of the Balance Sheet to the Statement of Net Assets includes an item that explains, "Some liabilities are not due and payable in the current period and therefore are not reported in the fund." The details of this \$(100,314,840) difference are shown here:

Bonds Payable	\$ (49,317,522)
Compensated Absences	(41,951,442)
Retirement Obligations	(39,677)
Capital Leases	(516,810)
Benefits Payable	(8,489,389)
Net adjustment to reduce fund balance-total governmental funds to arrive at net assets-governmental activities	<u>\$ (100,314,840)</u>

- b. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of activities.

The Reconciliation of the Statement of Revenues, Expenditures & Changes in the Fund Balance to the Statement of Activities includes an item that explains, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$(2,188,532) difference are shown here:

Compensated Absences	\$ (4,414,285)
Benefits Payable	2,133,573
Retirement Obligations	112,328
Capital Leases	(20,148)
Net adjustment to decrease net changes in fund balances-total governmental funds to arrive at change in net assets of governmental activities	<u>\$ (2,188,532)</u>

NOTE 3 Deposits and Investments

GASB Statement No. 40 *Deposit and Investment Risk Disclosures-An Amendment of GASB Statement No. 3* addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB 40 also requires disclosure of formal policies related to deposits and investment risks.

In addition, GASB Statement No. 14 *The Financial Reporting Entity* requires separate deposit and investment risk information to be provided for each of the State's component units. This note includes separate deposit and investment disclosure information for the University of Wyoming, Wyoming Retirement System, Wyoming Building Corporation, Wyoming Business Council, Wyoming Community Development Authority, Wyoming Pipeline Authority, and the Wyoming Infrastructure Authority. The University of Wyoming, Wyoming Retirement System and Wyoming Department of Transportation, however, have cash and investments, some of which are held in the State cash and investment pool at June 30, 2006. These investments are included in the respective risk disclosures for the primary government.

MASTER INVESTMENT POLICY

Generally, the Master Investment Policy (policy) sets forth a 'road map' on how the investment program should be run. The policy spells out what can and cannot be done, roles and responsibilities, acceptable transactions, prohibited transactions and performance expectations on its managed funds. State statutes, as incorporated into the policy, authorize the State to invest in securities issued or guaranteed by the U.S. Treasury or agencies of the United States government; bonds issued by Wyoming agencies or political subdivisions; corporate notes, bonds, and debentures; commercial paper; banker's acceptances; loans specifically identified by statutes; and other securities specifically authorized by the legislature. The State Loan Investment Board (Board) reviews the policy annually. This Board is comprised of the State's five elected officials.

Those managing the State's investment program are governed in part by the prudent investor rule contained in the State's Uniform Prudent Investor Advisor Act. This rule states in part

"[a] Trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances of the trust."

The policy further states investments or groups of investments shall not be evaluated in isolation but in the context of the entire investment portfolio and as part of an overall investment strategy of the trust or fund from which the investment is derived, consistent with the policies for such trust or fund established under statute by the Board.

Policy also allows a trustee to delegate investment and management functions that a prudent trustee of comparable skills could properly delegate under the circumstances. The policy further states the trustee shall exercise reasonable care, skill and caution in

- a) Selecting an agent;
- b) Establishing the scope and terms of the delegation, consistent with the purposes and terms of the trust; and
- c) Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the terms of the delegation.

At June 30, 2006 the State had fixed investment income managers, equity investment managers and real estate investment managers.

State statutes were revised to allow monies in the permanent funds to be invested in common stocks not to exceed fifty-five percent (55%) of the State's cash balance. It is a primary goal of the State's Master Investment Policy to obtain an optimal asset allocation for Wyoming's investments to take full advantage of this new authority. This includes determining the optimal division of an investment portfolio among available asset classes, factoring in such elements as risk and return as central to the overall financial planning and investment management. Investment selection for all funds shall be based on legality, appropriateness, liquidity, and risk/return considerations. There are two classifications of funds:

- Permanent funds and non-permanent funds, which disperse income and capital gains. The funds included in this classification are the Permanent Mineral Trust Fund, the Common School Permanent Land Fund, the State Agency Pool, the Permanent Lands Fund, the University Permanent Land Fund, the Wyoming Tobacco Settlement Trust Fund and the Wyoming State Treasurer's Asset Reserve (WYO-STAR).
- Permanent funds and non-permanent funds, which retain income and capital gains with the fund's portfolio. The only fund in this classification is the Workers' Compensation Insurance Fund.

During fiscal year 2006, the State continued to rebalance its permanent fund portfolios. The following schedule reflects Fiscal Year 2006 weightings of the Permanent Funds:

<u>Permanent Fund</u>	<u>Fixed Income, cash and cash equivalents</u>	<u>Equities</u>
Permanent Mineral Trust Fund	53.6%	46.4%
Common School Permanent Land Fund	58.0%	42.0%
Permanent Lands Fund	59.2%	40.8%
University Permanent Land Fund	54.6%	45.4%

In Fiscal Year 2007, once the goal of a fixed income weighting of 48.0% and an equity weighting of 52.0% is reached, a long-term total investment return of 7% is expected.

Risk exposures for the different funds within the managed fund classifications including the State's managed fiduciary College Savings Fund and Unclaimed Property Fund are not significantly different than the deposit and investment risks of the primary government. As each risk element is presented, disclosure will specify whether the policy formally provides for management of the particular risk being discussed.

A. Custodial Credit Risk-Deposits

Deposits that have exposure to custodial credit risk are those which are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by pledging financial institution but not in the depositor-government's name.

STATE OF WYOMING

Wyoming Statutes require any deposit not so insured shall be secured by depository bond or approved collateral securities as required by law.

As of June 30, 2006 the State had no deposits exposed to custodial credit risk.

Custodial Credit Risk-Agency Funds

Deposits not collateralized and not so required by state law include those funds held on behalf of others. At year-end, \$5.8 million was held in demand and savings bank accounts and \$16.8 million was held in bank certificates of deposit. These funds are reported in the agency funds.

UNIVERSITY OF WYOMING

At June 30, 2006, the carrying amount of the University's demand deposits in financial institutions was \$23,070,737 and the bank balances were \$26,933,193. The demand deposits were fully insured with a combination of FDIC insurance and pledged collateral held in the name of the University. All deposits were held by a qualified depository as outlined in the state statutes.

At June 30, 2006, the University had \$7,078,516 on deposit with the Foundation. Detailed information on the Foundation's pooled cash and investments is available from the Foundation.

WYOMING RETIREMENT SYSTEM, WYOMING BUSINESS COUNCIL, WYOMING COMMUNITY DEVELOPMENT AUTHORITY, WYOMING PIPELINE AUTHORITY, WYOMING INFRASTRUCTURE AUTHORITY, WYOMING BUILDING CORPORATION AND WYOMING DEPARTMENT OF TRANSPORTATION

Custodial credit risk

As of December 31, 2005 for the Wyoming Retirement System, and June 30, 2006 for the other component units, none had deposits exposed to custodial credit risk.

B. Investment Risk Categories

GASB Statement 40 requires presentation to discuss those risks associated with investment activity including credit risk, custodial credit risk, concentration of credit risk, interest rate risk and foreign currency risk.

Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment. The minimum credit ratings for investment debt securities as provided in the State's Master Investment Policy for fixed income managers are A1/P1 or equivalent for commercial paper, BAA for long term corporate debt, AA for Mortgage-backed securities, and AA for Asset-backed securities. Either Standard and Poor's, Fitch or Moody's ratings are acceptable. Where the issue is split-rated, the lower of the ratings will apply. N/R indicates that the investment is not rated. Legislatively Authorized Investments represents those investments the Treasurer has been directed to invest in by the legislature and/or approved by the Legislature.

Custodial Credit Risk is for those investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for the State. The information presented is based on concentrations of investments in the State's portfolio.

Interest rate risk is the exposure that the fair value of the State's fixed-income investments fluctuate in response to changes in market interest rates. An element of interest rate risk are those securities which are 'highly sensitive' to changes in interest rates. These highly sensitive securities are separately disclosed.

Foreign currency risk is that changes in foreign exchange rates will adversely affect the fair value of an investment. This risk disclosure applies only to investments that are denominated in foreign currencies. The State's Master Investment Policy does not provide a policy for foreign currency diversification.

STATE OF WYOMING

The State's investments at June 30, 2006 are presented here:

STATE OF WYOMING SCHEDULE OF INVESTMENTS AS OF JUNE 30, 2006		
	Fair Market Value	Percentage of Fair Value
Fixed Income		
US Treasury Securities	\$ 267,199,784	3.09%
US Government Agencies	4,092,476,553	47.26%
Government Bonds Sovereign Debt	61,519,216	0.71%
Mortgage Backed Securities	445,488,261	5.14%
Asset Backed Securities	86,832,612	1.00%
Corporate Bonds	453,180,054	5.23%
Commercial Paper	556,026,407	6.42%
CMO/REMIC	115,961,755	1.34%

Custodial Credit Risk

The State has an option program that is collateralized by US Treasury securities held by the custodian of the option manager's agent for the State. These securities are subject to custodial credit risk, and at June 30, 2006, they had an amortized cost of \$35 million, which approximates fair market value for these securities. The State's Master Investment Policy does not formally address the management of custodial credit risk.

Concentration of Credit Risk

The Wyoming State Treasurer's fixed income portfolio holds \$4,348,108,811 or 67.55% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), and Federal Home Loan Bank (FHLB). These agency securities hold a rating of AAA.

While the State's Master Investment Policy sets limits for concentration of investments, it provides that U.S. agency bonds are eligible without limitation.

Interest Rate Risk

The Interest Rate Disclosure for the State's Fixed Income portion of its investments is presented here. The State has chosen the segmented time distribution method for its Interest Rate Disclosure. This method most closely matches how the State manages interest rate risk. A majority of the bonds in the Wyoming State Treasurer's fixed income portfolio have call structures allowing the issuer to call that bond at specific times during the life of the bond. These bonds are purchased because they add yield compared to buying a non-callable bond. This is a preferred strategy when faced with a rising interest rate environment.

Administratively, the State manages interest rate risk of decreasing market value on its fixed investment portfolio arising from increasing interest rates by managing the average life of the fixed income portfolio. These securities have a concentration of US Government agency securities holding AAA ratings.

The State has no formal policy with respect to managing Interest Rate Risk within its Master Investment Policy, however, the Policy does provide guidance relative to safety, liquidity and yield using the following criteria:

- Funds are analyzed by asset class including cash to determine if securities need to be purchased or sold.
- Future needs are determined and current positions are reviewed.
- Economic, market and interest rate assumptions are considered.

- Securities are selected based on market value, price and availability.
- Trades are executed to raise cash, to shift maturity, to change asset mix, to enhance yield and to improve quality.

Maturity assumptions have been made using a matrix analyzing interest rates versus final maturity dates of callable securities. The maturity assumptions or average life of the fixed income portfolio securities are displayed in the Interest Rate Risk Table.

The State's Master Investment Policy does not provide a policy for foreign currency diversification.

Highly Sensitive Securities

The Wyoming State Treasurer's fixed income portfolio holds securities that are classified as "Highly Sensitive". These securities, because of their specific type and structure, are rate sensitive as market conditions change.

The Fed Funds rate increased from 3.31% in July 2005 to 5% by the end of June 2006. As interest rates increased during the year, mortgage-backed securities tended to have less accelerated payments. The portfolio holds \$445,488,261 or 6.92% of the fixed income securities in mortgage-backed securities. Collateralized mortgage obligations, (CMO's) perform like mortgage-backed securities. The portfolio holds \$115,961,755 or 1.80% of the fixed income securities in highly sensitive CMO's.

During FY06, the State continued to add step-up bonds to the portfolio. Step-up bonds are structured so that the bonds, at strategic times during their life, will step-up to a higher interest rate if they aren't called. In this current interest rate environment, step-up securities are expected to hold their market value better than most other fixed income structures. Most of these step-up bonds are anticipated to be called at a specific date allowing re-investment at a higher rate. The portfolio holds \$193,802,666 or 3.01% of the fixed income securities in step-up structured bonds.

SECURITIES LENDING –PRIMARY GOVERNMENT

State Statutes permit the State Treasurer to lend its securities, through the use of agents, to broker-dealers and other entities with simultaneous agreement to return the collateral for the same securities in the future. The State's agents lend securities, of the type on loan at year-end, for collateral in the form of cash or other securities at 100 percent of value for US Treasury Strips and US Treasury Bills, and 102-105 percent of value for other securities. The State, through its agents, measures the fair value of the securities loaned against the fair value of the collateral on a daily basis. Additional collateral is obtained as necessary to ensure such transactions are adequately collateralized. Securities lent for securities collateral are classified according to the category of the collateral. At year-end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the borrowers owe the State. The contract with the State's agent requires it to indemnify the State if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the State for income distributions by the securities' issuers while the securities are on loan.

The following represents the balances relating to the securities lending transactions at the financial statement date:

	Fair Value Underlying Securities	Loan Value of Collateral Received
Lent for Cash Collateral		
U.S. Governments	\$ 53,587,841	\$ 55,075,542
U.S. Government Agencies	3,830,778,039	3,940,404,225
Corporate Securities	32,110,566	32,862,520
Equities	185,188,966	188,711,390
Total Lent for Cash Collateral	<u>4,101,665,412</u>	<u>4,217,053,677</u>
Lent for Securities (Bulk) Collateral		
U.S. Governments	93,927,236	97,237,417
U.S. Government Agencies	1,132,723	1,161,890
Total Lent for Securities (Bulk) Lending	<u>95,059,959</u>	<u>98,399,307</u>
Total Securities Lending	<u>\$ 4,196,725,371</u>	<u>\$ 4,315,452,984</u>

Cash collateral is invested in the lending agent's short-term investment pool, which at year-end has a weighted-average maturity of 124 days. The relationship between the maturities of the investment pool and the State's loans is affected by the maturities of securities loans made by other entities that use the agent's pool, which the State cannot determine. The State cannot pledge or sell collateral securities received unless the borrower defaults. At June 30, 2006, the cash collateral of \$4,217,053,677 was recorded as cash and investments with trustee and as a liability under security lending. The difference between the amount shown here and the amount reflected in the Statement of Net Assets of \$4,145,668,210 for the primary government is due to the amounts allocated to component units.

Credit Risk

The Credit Risk disclosures for the State's Securities Lending program are presented here:

CREDIT QUALITY DISTRIBUTIONS FOR SECURITIES WITH CREDIT EXPOSURE SECURITY LENDING AS OF JUNE 30, 2006

Custodial Credit Risk

For the State's Securities Lending Program the State has lent its securities for other securities. These securities have custodial credit risk, and at June 30, 2006 these securities had an amortized cost of \$101,807,124. By investment type there were \$100,664,430 in US Government securities and \$1,142,694 in US Government Agencies.

Concentration of Credit Risk

The State's securities lending program does not have any concentration of credit risk exposure.

Interest Rate Risk

The State has chosen the segmented time distribution method for its Interest Rate Disclosure. This method most closely matches how the State manages interest rate risk. There is minimal interest rate risk due to the average life of the security lending portfolio. The maturity assumptions or average life of the security lending portfolio are displayed in the following table:

INTEREST RATE RISK ORGANIZED BY INVESTMENT TYPE USING SEGMENTED TIME DISTRIBUTION SECURITY LENDING AS OF JUNE 30, 2006				
	COST	LESS THAN 1 YEAR	1-5 YEARS	
COMMERCIAL PAPER (INTEREST BEARING)	\$ 59,672,447	\$ 59,672,447	\$	0

TOTAL	\$ 4,217,234,930	\$ 3,596,336,137	\$	620,898,793

Foreign Currency Risk

The State had no foreign currency exposure in its securities lending program as of June 30, 2006.

Highly Sensitive Securities

There are no highly sensitive securities to disclose for securities lending.

UNIVERSITY OF WYOMING

As of June 30, 2006, the University had investments with weighted average maturities as shown in the following table:

Investment Type	Carrying Amount	Fair Value	Weighted Average Maturity In Years
US Government Sponsored Enterprise Discount Notes	\$ 74,729,759	\$ 74,355,800	0.42
Certificate of Deposit	2,400,000	2,400,000	0.24
US Government Sponsored Enterprise Notes	7,148,538	7,045,049	0.56
Exchange Traded Funds	8,554,668	8,830,448	n/a
Total Investments	<u>\$ 92,832,965</u>	<u>\$ 92,631,297</u>	

Credit Risk

The table below shows quality ratings of investments that are rated:

Investment Type	Fair Value	Quality Rating AAA
US Government Sponsored Enterprise Discount Notes	\$ 74,355,800	\$ 74,355,800
US Government Sponsored Enterprise Notes	7,045,049	7,045,049
Total Investments	<u>\$ 81,400,849</u>	<u>\$ 81,400,849</u>

Custodial Credit Risk

The University does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the University's name.

Concentration of Credit Risk

Concentration of credit risk is not addressed in the internal investment policy. At June 30, 2006, the University held securities from the following issuers in excess of 5% of the total portfolio: Federal Home Loan Bank 8.94%, Federal Home Loan Mortgage Corporation 12.62% and Federal National Mortgage Corporation 21.03%.

Interest Rate Risk

The University's policy for managing its exposure to fair value loss arising from interest rate changes on internally invested funds is to limit the maturity of all securities to less than one year.

UNIVERSITY OF WYOMING—FOUNDATION

University owned endowment funds are held by the Foundation for investment purposes. The investment committee, following the Prudent Expert Rule, carries out the Foundation's investment policy. The Prudent Expert Rule states that a fiduciary shall manage the portfolio "with the care, skill, prudence and diligence, under circumstances then prevailing, and that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and like aims." External managers have been hired to invest in the following asset classes: equities, fixed income, absolute return, private equity/venture capital, hedged equity and real estate. A long-term target asset allocation strategy has been implemented to achieve required returns while minimizing risk. All investment vehicles selected must be in compliance with the laws of the State of Wyoming, Internal Revenue Code prohibitions on self-dealing or vehicles that would jeopardize the carrying out of the exempt purpose of the Foundation and restrictions on Unrelated Business Taxable Income.

The summarized investments of the Foundation at June 30, 2006 are as follows:

Investment Type	Carrying Amount	Fair Value
Money Market Funds	\$ 4,674,794	\$ 4,674,794
Corporate Stocks	163,370,854	205,709,754
Corporate Bonds and Notes	48,458,828	46,439,311
Real Estate	12,273,498	12,372,300
Government Obligations	1,124,818	1,124,818
Cash value of Life Insurance Policies	263,341	263,341
Other Investments	4,354,600	4,355,451
Total	\$ 234,520,733	\$ 274,939,769

The University and Foundation have invested in alternative investments defined as hedge funds, private equity, venture capital and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2006, the alternative investments held by the Foundation were \$69,935,705.

As of June 30, 2006, the University of Wyoming investments held by the Foundation, primarily in mutual funds, has weighted average maturities, where applicable, as shown in the following table:

Investment Type	Historical Cost	Fair Value	Weighted Average Maturity in Years
Cash funds	\$ 25,060	\$ 25,060	n/a
Real assets	1,430,431	1,729,283	n/a

Credit risk

The high yield and fixed income bond mutual fund investments are not rated.

Custodial Credit Risk

The Foundation does not have a formal investment policy for custodial credit risk. Investments are held in safekeeping by external custodians in the Foundation's name.

Concentration of Credit Risk

The Foundation's investment policy limits concentrations as follows:

1. The initial investment in any one issuer should not exceed 10% of a manager's portfolio (with the exception of U.S. Government securities);
2. The investment with any one issuer should not exceed 15% of a manager's portfolio (with the exception of U.S. Government securities);
3. No purchases of securities of the portfolio manager's organization or of any firm with controlling interest in said organization are to be made.

At June 30, 2006, there were no single issuer investments that exceeded 5% of the total holdings of the Foundation.

Interest rate risk

The Foundation has no formal policy addressing interest rate risk.

SECURITIES LENDING—UNIVERSITY OF WYOMING

State statutes permit the State Treasurer to lend its securities, through the use of agents, to broker-dealers and other entities with simultaneous agreement to return the collateral for the same securities in the future. The State's agents lend securities, of the type on loan at year-end, for collateral in the form of cash or other securities at 100% of value for U.S. Treasury Strips and U.S. Treasury Bills, and 102% to 105% of value for other securities. The State, through its agents, measures the fair value of the securities loaned against the fair value of the collateral on a daily basis. Additional collateral is obtained as necessary to ensure such transactions are adequately collateralized. Securities lent for securities collateral are classified according to the category of the collateral. At year-end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the borrowers owe the State. The contract with the State's agent requires it to indemnify the State if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the State of income distributions by the securities' issuers while the securities are on loan.

The following represents the University's balances relating to the securities lending transactions at the financial statement date:

	Fair Value	Loan Value
	Underlying	Collateral
	Securities	Received
Lent for securities (bulk) collateral:		
U.S. Government sponsored agency	\$ 5,709,612	\$ 5,864,586
U.S. Government agencies	234,313	240,982
	<u>\$ 5,943,925</u>	<u>\$ 6,105,568</u>

WYOMING RETIREMENT SYSTEM

The System's Board has been authorized by the Wyoming Legislature pursuant to State Statutes, to act on behalf of the plan membership in investing and managing monies in the retirement account, and in doing so shall exercise the judgment and care that a prudent investor would, in light of the purposes, terms, distribution requirements and all other circumstances surrounding the monies in the retirement account, including risk and return objectives established by the Board which are reasonably suitable to the purpose of the Wyoming Retirement System. The Board shall evaluate and select investments in appropriate asset classes as is deemed necessary to enhance returns or reduce risk in the total portfolio.

The Wyoming Retirement System's schedule of defined benefit plan investments, as of December 31, 2005 is presented here:

WYOMING RETIREMENT SYSTEM		
SCHEDULE OF INVESTMENTS BY INVESTMENT TYPE		
AS OF DECEMBER 31, 2005		
Equities - U.S.	\$	2,652,871,847
Equities - international		825,185,584
Corporate bonds		888,777,704
Unit		731,250
Mortgage-backed securities		597,768,583
Commercial mortgage backed		62,639,515
CMO/REMIC		126,382,598
Asset backed		64,255,903
Cash and equivalents- domestic		226,556,343
Cash - international		6,915,037
U.S. Treasury bonds		300,736,361
Real estate		257,995,856
SBA loans		2,136
Total Investments	\$	6,010,818,717

Credit Risk-Debt Securities

In addition to the diversification policy guidelines by sector provided above, the System expects that unless otherwise specified in the manager specific guidelines, fixed income grade investments shall have an average quality of the portfolio equivalent of a Standard & Poor's rating of A or better. Managers of accounts holding publicly traded non-Government debt should select and manage them so as to assure an appropriate balance in maturity, quality, marketability and adequate diversification with respect to industry and issues.

High yield investments are defined by the System as those debt securities, which carry a Standard & Poor's quality rating of BB or lower. According to the System's investment policies, fund managers who manage these investments should structure a well diversified portfolio with respect to rating, maturity, duration, yield, industry and issuer with the intent of minimizing the risk of losses in any single security.

The distribution of quality rating of debt securities in the System's investment portfolio at fair value as of December 31, 2005 is as follows:

WYOMING RETIREMENT SYSTEM			
CREDIT QUALITY FOR SECURITIES WITH CREDIT EXPOSURE			
AS OF DECEMBER 31, 2005			
Quality Rating:			
AAA	\$		980,469,108
AA			42,841,423
A			206,690,461
BBB			169,420,797
BB			192,148,363
B			148,985,401
Total credit risk debt securities	\$		1,740,555,553
U.S. Government and agency investments			300,736,361
Total debt securities investments	\$		2,041,291,914

Custodial Credit Risk

Custodial credit risk for deposits of the defined benefit plans is the risk that in the event of a bank failure, the Systems' and Plans' deposits may not be returned to them. Deposits subject to this risk are those other than the \$884,801 of deposits held by the State Treasurer. These deposits totaling \$233,471,380 are held by the System's primary custodian are collateralized by commercial paper, repurchase agreements and money market mutual funds held by the primary custodian or its agents in accounts in the name of the Wyoming Retirement System. Deposits are presented in the basic financial statements at cost plus accrued interest which is also the market or fair value. At December 31, 2005, the carrying amount of all deposits and the corresponding bank balance totaled \$234,356,181.

Investment securities within the defined benefit plans are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the System and are held by either the counterparty or the counterparty's trust department or agent, but not in the System's name. Consistent with the System's investment policy, all investments are held by the System's primary custodian and registered in the System's name except for approximately \$258 million in real estate holdings, \$2,136 of SBA loans held by the State of Wyoming, and \$1.29 billion of beneficial ownership of stock held in a collective trust fund. One of the System's money managers serves as the trustee for the collective trust fund's assets and holds legal title of the trust's assets for the exclusive benefit of each of the trust's beneficial owner's including the System.

The System does not have a formal deposit or investment policy for custodial credit risk.

Concentration of Credit Risk

The Systems and Plans expect the domestic investment managers to maintain diversified portfolios by sector and by issuer using the following guidelines in accordance with the System's investment policies:

Target Allocation	Minimum	Target	Maximum
Fixed Income:			
U.S. investment grade	20%	25%	40%
U.S. high yield	0%	6%	10%
Total fixed income	25%	31%	45%
Equity and Real Estate:			
U.S. large-cap equity	25%	33%	45%
U.S. small - medium cap	10%	15%	20%
Non-U.S. - developed and emerging markets	10%	14%	20%
Real estate and alternatives	0%	7%	10%
Total equity and real estate	55%	69%	75%

The policy of the Board is to discourage equity investment managers from holding positions in a single issue whose market value exceeds 5% of the market value of the portfolio. However, exceptions can be made if this percentage of the overall portfolio is exceeded as a consequence of long held positions whose value has grown as a consequence of their strong returns. At December 31, 2005, the System did not hold any single investment with a market value of greater than 5% of its portfolio.

The Board does not authorize the use of derivatives as speculative instruments or in a leveraged manner such that the risk of loss from a particular position would be materially larger than if actual securities were utilized. Derivatives for the purpose of equalizing cash in a non-leveraged context is acceptable with specific Board authorization.

The purpose of real estate investments is to provide counter cyclical returns income and a defense against inflation. Funds considered will be comprised primarily of highly-leased properties with reasonable income components. The real estate portfolio, in aggregate, shall be diversified by property type, property size, geographic region, and economic sector exposure. Leverage shall be used sparingly.

Interest Rate Risk

The System is also exposed to investment fair value loss arising from increased interest rates. Duration is a measure of the sensitivity of a debt security's value to rate changes. It is calculated using the present value of cash flows, weighted for those cash flows as a percentage of the investment's full price. More specifically, it is the approximate percentage change in value for a 100 basis point change in rates. The System's investment policy guidelines require that the investment grade debt securities portfolio be maintained with a weighted-average portfolio duration of no longer than ten years. No specific investment guidelines exist for other debt securities subject to interest rate risk not included in the investment grade portfolio.

At December 31, 2005 the following table shows investments by investment type, amount and the effective weighted duration:

WYOMING RETIREMENT SYSTEM		
INTEREST RATE RISK ORGANIZED BY INVESTMENT TYPE USING DURATION METHOD		
AS OF DECEMBER 31, 2005		
Investment Type	Amount	Effective Weighted Duration
Treasury bonds	\$ 300,736,361	1.53
Asset backed	64,255,903	0.12
Mortgage backed	597,768,583	1.51
CMO/REMIC	126,382,598	0.03
Commercial mortgage backed	62,639,515	0.27
Corporate bonds	889,508,954	2.08
Total debt securities	\$ 2,041,291,914	

Foreign Currency Risk

The System also expects its International Security Investment Managers to maintain diversified portfolios by currency denomination, however, no formal policy limits have been established. At December 31, 2005, the System's exposure to foreign currency risk for its short-term and equity securities is as follows:

	Foreign Cash	Foreign Equities		Foreign Cash	Foreign Equities
Australian Dollar	\$ 3,213	\$ 11,992,918	Italian Lira	\$ 0	\$ 16,651,812
Austrian Schilling	0	23,004,594	Japanese Yen	195,583	180,631,411
Belgium Franc	0	5,088,214	Mexican New Peso	0	3,800,586
British Pound	380,666	159,790,573	Netherlands Guilders	0	15,021,504
Canadian Dollar	0	799,286	New Zealand Dollar	0	1,397,663
Czech Republic Krona	0	6,002,934	Norwegian Krone	373,155	11,737,324
Danish Krone	1,954,069	7,299,514	Philippine Peso	0	459,139
Euro	3,141,343	159,784,304	Polish New Zloty	0	16,957,646
Finnish Markka	0	6,322,659	Portuguese Escudo	0	1,205,544
French Franc	0	40,641,420	Singapore Dollar	0	4,053,536
German Mark	0	29,855,956	South African Rand	2	0
Greek Drachma	0	2,717,779	Spain Peseta	0	16,883,313
Hong Kong Dollar	0	10,674,484	Swedish Krona	0	26,327,832
Indonesian Rupiah	0	1,610,087	Swiss Franc	867,006	61,048,811
Irish Punt	0	3,424,741			
Totals all foreign currencies in dollars				\$ 6,915,037	\$ 825,185,584

At December 31, 2005, the System had no debt securities denominated in a foreign currency.

Defined Contribution Plan Cash and Investments

The cash and investments held within the defined contribution plan are comprised of the aggregate holdings of the participant's accounts that are invested in 22 different mutual fund type investment options and cash held on deposit with the State collected from participants as fees for the purposes of plan administration. Plan participants determine the holdings of their individual participant accounts; therefore, the exposure of each participant to the investment risks discussed above including custodial, credit, interest rate, foreign currency and concentration is determined by that individual's risk tolerance. Additionally, the risks of the investment portfolios associated with each of the 22 investment options are determined by the mutual fund manager and may vary depending on their risk tolerances and performance objectives. The defined contribution plan does not have any investments (other than those issued or guaranteed by the U.S. Government) in any one organization that represents 5% or more of the plan's net assets.

SECURITIES LENDING-WYOMING RETIREMENT SYSTEM

Under the authority of the governing statutes and in accordance with policies set by the Board of Trustees, the System lends its securities to broker-dealers with a simultaneous agreement to return the collateral for the securities in the future. The System's custodian is authorized to lend available securities to authorized broker-dealers subject to the receipt of acceptable collateral. The System lends securities such as common stock, U.S. Treasury and corporate bonds and receives collateral in the form of either cash or other securities similar to the type on loan. Borrowers are required to provide collateral amounts of 102% of the market value of loaned U.S. securities plus accrued interest and 105% of the market value of loaned non-U.S. securities plus accrued interest. The System cannot pledge or sell collateral securities received until and unless a borrower defaults. Securities held as collateral at year-end are not subject to the preceding disclosures of custodial credit risk as they are held in a collateral investment pool. At year-end, the System has no credit risk exposure to borrowers because the amounts the System owes the borrowers exceed the amounts the borrowers owe the System. Contracts with the lending agents require them to indemnify the System if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the System for income distributions by the securities' issuers while the securities are on loan. Net securities lending income during the year ended December 31, 2005 was \$1,137,794.

Securities lent as of December 31, 2005, with a market value of \$492,720,003 and a collateral value at a rate of 102% and/or 105%, as appropriate, for a total market value of \$507,967,803, could be terminated on demand by either the System or the borrower(s). There is no direct match of the maturities of the collateral investments with the maturities of the securities loaned.

WYOMING COMMUNITY DEVELOPMENT AUTHORITY

The WCDA trust indentures and State statutes authorize the types of investments in which WCDA invests. Among these authorized investments are certificates of deposit, obligations of the U.S. Treasury, agencies and instrumentalities of the U.S. Government, mortgage-backed securities, guaranteed investment contracts, mutual funds, and repurchase agreements with banks with the underlying securities being obligations of the U.S. Treasury, or agencies and instrumentalities of the U.S. Government. The investments are carried at fair value except for certificate of deposits that are carried at cost.

The components of the Authority's investment portfolio are as follows:

Investments		
Certificates of deposit	\$	276,547
U.S. Government and agency securities		233,609,380
Guaranteed investment contracts		73,688,858
Total	\$	<u>307,574,785</u>

Credit Risk

State statutes limit the types of investments available to the Authority. Investments, including the underlying securities for repurchase agreements, are held by the Authority's trustees in the Authority's name. Guaranteed investment contracts which have a maturity beyond 18 months are generally guaranteed by AAA rated institutions or collateralized.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority would not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Substantially all of the Authority's investments are held in the name of the Authority by a trustee.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority attempts to match its investment maturities to the expected call dates of its bonds or needs for purchasing mortgages. With this investment focus, investments would be expected to reach maturity with limited realized gains or losses.

As of June 30, 2006, the Authority had the following investments and maturities:

	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Certificates of deposit	\$ 276,547	\$ 276,547	\$ 0	\$ 0	\$ 0
U.S. Government and agency securities	233,609,380	46,702,539	771,541	12,466,504	173,668,796
Guaranteed investment contracts	73,688,858	73,688,858	0	0	0
Total	\$ 307,574,785	\$ 120,667,944	\$ 771,541	\$ 12,466,504	\$ 173,668,796

Interest Rate Swaps

Swap Objectives

The Authority has entered into interest rate swap agreements in connection with variable-rate bond series as a technique to lower the cost of long-term debt. The objective of the swaps is to effectively change the variable interest rate on the bonds to a synthetic fixed rate.

Terms and Values

Bond Series	Swap Dontractual Dates	Notional Amount	Fixed Rate Paid	Variable Rate Received	Termination Date	Fair Value	Counterparty
							Credit Rating
2005 Series 2	3/31/2005	\$ 7,835,000	3.523%	70% of LIBOR	6/1/2021	\$ 156,319	AAA-Aaa
2005 Series 4	6/30/2005	7,965,000	3.260%	70% of LIBOR	12/1/2021	324,421	AAA-Aaa
2005 Series 7	9/20/2005	8,000,000	3.325%	70% of LIBOR	12/1/2016	216,882	AAA-Aaa
2006 Series 2	1/9/2006	8,000,000	3.465%	70% of LIBOR	12/1/2013	227,879	AAA-Aaa
2006 Series 5	4/20/2006	10,000,000	3.926%	70% of LIBOR	6/1/2014	9,982	AAA-Aaa
Pending	6/26/2006	10,000,000	4.115%	70% of LIBOR	6/1/2014	\$ (105,418)	AAA-Aaa
		\$ 51,800,000				830,065	

As of June 30, 2006, the Authority's swap agreements had a fair value of \$830,065. Because the coupons on the related variable-rate bonds adjust to the changing interest rates, the bonds do not have a corresponding fair value increase. The fair value amounts, obtained from the counterparty, represent mid-market valuations that approximate the current economic value using prices and rates at the average of the estimated bid and offer amounts.

Swap Risks

Credit Risk - As of June 30, 2006, the Authority was exposed to credit risk on certain swaps which had a positive fair value. The positive fair value of the swaps represents the Authority's exposure as of June 30, 2006, to a potential counterparty failure. Should the counterparty to this transaction fail to perform according to the swap contract, the Authority would face a maximum possible loss equivalent to the swap's fair value. As of June 30, 2006, the swap counterparty was rated Aaa by Moody's Investors Service and AAA by Standard & Poor's. The Authority's policy to manage credit risk would require the Authority to seek credit enhancements should the counterparty's ratings be below AA- or Aa3.

Basis Risk - Basis risk is the potential mismatch between the variable interest rate paid on the underlying bonds and the variable rate payments received by the Authority pursuant to the swap. The Authority's variable rate bond interest payments should correspond to the BMA Index, while the payments the Authority receives pursuant to the swap are 70 percent of LIBOR. The Authority is exposed to basis risk should 70% of LIBOR and BMA Index rates converge. If a change occurs that results in the rates moving to convergence (that is, the BMA Index exceeding 70 percent of LIBOR), the value to the Authority of the hedge from the swap is diminished. As of June 30, 2006, the BMA Index rate was 3.97 percent, while 70 percent of LIBOR (the swap rate) was 3.75 percent.

Termination Risk - The Authority or the counterparty may terminate the swaps if the other party fails to perform under the terms of the swap contracts. The swaps may be terminated by the Authority at its discretion with a maximum of ten days notice. If a swap was terminated, the variable-rate bonds would no longer carry a synthetic fixed rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value.

Rollover Risk - The Authority is exposed to rollover risk on swaps that mature or may be terminated prior to the maturity of the associated bonds. When these swaps terminate or are terminated by either party, the Authority will not realize the synthetic fixed rate offered by the swaps on the underlying bond issues. The following bond series are exposed to rollover risk:

Associated Bond Issuance	Bond Maturity Date	Swap Termination Date
2005 Series 2	December 1, 2035	June 1, 2021
2005 Series 4	December 1, 2035	December 1, 2021
2005 Series 7	June 1, 2036	December 1, 2016
2006 Series 2	December 1, 2035	December 1, 2013
2006 Series 5	December 1, 2036	June 1, 2014

WYOMING BUILDING CORPORATION

The Wyoming Building Corporation's deposits and investments totaled \$2,283,696 at June 30, 2006. The investment was in a U.S. Government Agency Security.

The Wyoming Building Corporation's investments as of June 30, 2006 are presented here:

Investments		
Cash and cash equivalents	\$	238,821
US Government Agency		2,044,875
Total	\$	<u>2,283,696</u>

Custodial Credit Risk

The investment in the US Government Agency Security is a Federal Home Loan Bank Bond maturing in November 2007, with a 3.5% rate and rated AAA.

WYOMING INFRASTRUCTURE AUTHORITY

The Wyoming Infrastructure Authority had deposits and investments totaling \$1,027,453 at June 30, 2006. The investments were in certificates of deposit. The investments held by the Wyoming Infrastructure Authority had no exposure to investment risks associated with debt securities.

Investments		
Cash and Investments		<u>\$1,027,453</u>
Total		<u>\$1,027,453</u>

WYOMING BUSINESS COUNCIL

Deposits for WBC of \$51,366,703 are invested in the pooled cash account managed by the State and included in the State's deposit and risk disclosure above. WBC also has funds deposited in a bank money market account and certificate of deposit that are fully insured by the Federal Deposit Insurance Corporation (FDIC). At June 30, 2006, the amounts deposited in these bank accounts totaled \$38,558.

WYOMING PIPELINE AUTHORITY

The Authority had investments in U.S. Treasury securities of \$304,057 at June 30, 2006.

Credit Risk

State statutes limit the types of investment available to the Authority. The Authority, at June 30, 2006, held investments solely in US Treasury obligations.

Custodial Credit Risk

All of the Authority's investments are uninsured, unregistered and held in the name of the Authority by a financial institution's brokerage house.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from changing interest rates, the Authority keeps only short-term investments. With this investment focus, investments would be expected to reach maturity with limited realized gains or losses.

WYO-STAR

The Wyoming State Treasurer's Asset Reserve Fund (WYO-STAR) has been established, in accordance with Wyoming statute 9-1-416 to invest funds upon request of any county, municipality, school district or any other local governmental entity. The State Land and Investment Board oversees the WYO-STAR program and there is no involuntary participation in WYO-STAR. In accordance with GAAP, the external portion of WYO-STAR is reported as an investment trust fund in the Fiduciary Funds, using the economic resources measurement focus and accrual basis of accounting, due to the State's fiduciary responsibility. The internal portion of the pool is reported in the Deferred Compensation Fund of the Wyoming Retirement System and the University of Wyoming. The investments of WYO-STAR are carried at their fair value as determined at June 30th each year. A ratio based on the participants share to the total share invested in WYO-STAR is used to determine each participant's share. The State has not provided or obtained any legally binding guarantees during fiscal year 2006 to support the value of the shares. A summary of WYO-STAR Investments as of June 30, 2006 is presented here:

WYO-STAR INVESTMENTS		
JUNE 30, 2006		
Total Investments	\$	227,638,773
Securities with no Credit Risk or Interest Rate Risk		(401,154)
Securities with Credit and Interest Rate Risk	\$	227,237,619

Credit Risk

The Credit Risk disclosures for the State's WYO-STAR program are presented here:

WYOMING STATE TREASURER'S OFFICE CREDIT QUALITY DISTRIBUTIONS FOR SECURITIES WITH CREDIT EXPOSURE WYO-STAR AS OF JUNE 30, 2006

US Treasury Notes	AAA	12,194,657	5.366%	
Grand Total		\$ 227,237,619	100%	

Custodial Credit Risk

The WYO-STAR program at June 30, 2006 had no custodial credit risk exposure.

Concentration of Credit Risk

The WYO-STAR fixed income portfolio holds \$147,171,309 or 64.765% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), and Federal Home Loan Bank (FHLB), and US Treasury Notes totaling \$12,194,657 or 5.366%. These agency securities hold a rating of AAA.

Interest Rate Risk

The WYO-STAR investment portfolio by description as stated in the Master Investment Policy administers the short-term cash deposits made with the State by local entities. The actual investments are administered to provide liquid cash reserves, placing the majority portion in a cash portfolio and the rest in an extended cash portfolio.

These guidelines afford minimal interest rate risk.

The maturity assumptions or average life of the WYO-STAR fixed income portfolio securities are displayed in the WYO-STAR Interest Rate Risk Table:

WYOMING STATE TREASURER'S OFFICE					
INTEREST RATE RISK ORGANIZED BY INVESTMENT TYPE USING SEGMENTED TIME DISTRIBUTION					
WYOSTAR AS OF JUNE 30, 2006

Foreign Currency Risk

As of June 30, 2006 the WYO-STAR investment portfolio had no exposure to foreign currency risk.

Highly Sensitive Securities

The WYO-STAR fixed income portfolio holds securities that are classified as "Highly Sensitive". These securities, because of their specific type and structure, are rate sensitive as market conditions change.

The Fed Funds rate increased from 3.31% in July 2005 to 5% by the end of June 2006. As interest rates increased during the year, mortgage-backed securities tended to have less accelerated payments. The portfolio holds \$10,441,199 or 4.595% of the fixed income securities in Mortgage-Backed securities. Collateralized mortgage obligations (CMO's) perform like mortgage-backed securities. The portfolio holds \$15,768,156 or 6.939% of the fixed income securities in highly sensitive CMO's.

The target asset allocation, as stated in the Master Investment Policy, comprises one hundred percent (100%) of the fund in short term bonds and cash.

Diversification/Permissible Investments as stated in the Master Investment Policy permits purchase of the following securities:

- Asset Backed Securities
- Repurchase Agreements
- Government Securities: including obligations of the U.S. Treasury and Obligations of the U.S. Government Agencies or Instruments, bearing floating or fixed interest rates.

- Asset-backed securities will be limited to CMOs or pass throughs; the collateral for which is securities issued by Government Mortgage National Association (GMNA), Federal National Mortgage Association (FNMA), or Federal Home Loan Mortgage Corporation (FHLMC) or notes fully guaranteed as to principal and interest by the Small Business Administration. Automobile receivables and credit receivables will also be considered permissible investments.
- Currency: U.S. dollar denomination only.

The following tables represent the condensed statements of net assets and changes in net assets for the Investment Trust Fund WYO-STAR. The tables below include amounts for both the primary government, as well as its component units, and therefore will not agree to the Statement of Net Assets-Fiduciary Funds and the Statement of Changes in Net Assets-Fiduciary Funds, respectively.

ALTERNATIVE INVESTMENTS

The State of Wyoming, and its component units, have invested in alternative investments defined as hedge funds, private equity, venture capital and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2006, the organizations holding alternative investments were:

State of Wyoming	\$	196,526,488
University of Wyoming Foundation		69,935,705
	\$	<u><u>266,462,193</u></u>

NOTE 4 Loans Receivable

As of June 30, 2006, the gross amount of outstanding loans for governmental type funds was \$334,040,834 with an allowance of \$744,537. The largest portion of loans outstanding are Municipal Wastewater, totaling \$157,449,546, which have rates which vary between 2.5% and 4%, are collateralized by mortgages on land, and are required to be repaid within a maximum of 30 years. The second major category of loans outstanding are water loans, totaling \$88,450,339, which have rates which vary between 4% and 7.25%, are collateralized by mortgages and pledges of revenue, are required to be repaid within a maximum of 50 years and are for the construction maintenance and evaluation of water facilities. At June 30, 2006, loans receivable included loans to one major loan customer totaling \$74,849,893, which comprised 22.5% of total loans receivable.

The State's loans receivable as of June 30, 2006, are as follows:

	General Fund	Common School Land Fund	Permanent Mineral Fund	Legislative Reserve Fund	Non-Major Governmental Funds	Total
Receivables:

As of June 30, 2006, the State had committed \$54,059,419 in various loans for distribution after June 30th.

University of Wyoming Loans Receivable

As of June 30, 2006, the total amount of outstanding loans was \$19,712,329 net of an allowance for doubtful accounts. The outstanding loans primarily consist of medical school contracts, which have rates from 0% to 8%, repayment schedules of 96 months after leaving school and allow for loan cancellation based on the number of years of residency at eligible clinics in the State of Wyoming or upon practicing full-time medicine in the State of Wyoming. The University and the University of Wyoming Foundation had pledge receivables due of \$21,642,464 for donor pledges.

Wyoming Community Development Authority

WCDA loans receivable consist of mortgage loans receivable. As of June 30, 2006, mortgage loans receivable consist of the following:

Single-Family Mortgage Bonds, 1978 Indenture Fund, bearing interest at 0% to 11.875%, 25 to 30 year term, FHA or private mortgage company insured or guarantee by RD, VA, or mortgage guaranty fund:	\$	107,189,422
Less: Reserve for Losses on Loans		(3,844,454)
		<u>103,344,968</u>
Housing Revenue Bonds, 1994 Indenture Fund, bearing interest at 4% to 8.625%, 25 to 30 year term, FHA or private mortgage company insured, or guaranteed by RD, VA, or mortgage guaranty fund:		626,053,539
Less: Reserve for Losses on Loans		(22,142,893)
		<u>603,910,646</u>
Wyoming Homeownership Bonds, 1992 Indenture Fund, bearing interest at 7.625%, 30 year term, FHA or private mortgage company insured, or RD guaranteed:		<u>1,375,729</u>
Multi-Family Mortgage Bonds, 1982 Indenture Fund, bearing interest at 12.0%, 40 year term, FHA insured:		<u>1,189,984</u>
Multi-Family Housing Revenue Bonds Indentures Fund, bearing interest at a variable rate, 30 year term, collateralized by mortgages:		<u>6,190,000</u>
Federal Program Fund with various terms, including deferred payments and fixed rates, 10 to 30 year term:		13,756,317
Less: Reserve for Losses on Loans		(200,000)
		<u>13,556,317</u>
Housing Trust Fund, bearing interest at 0% to 11.375%, 1 to 30 year term, FHA or private mortgage company insured or guarantee by VA or mortgage guaranty fund:		13,126,407
Less: Reserve for Losses on Loans		(3,483,895)
		<u>9,642,512</u>
Mortgage Loans Receivable, Net	\$	<u><u>739,210,156</u></u>

Wyoming Business Council

WBC loan receivable consists of economic development loans, technology development loans as well as rural rehabilitation loans. Interest rates on loans vary from 0% to 9% and have varying maturity dates through 2026; collateral includes personal guarantees, mortgages on real estate, and liens on receivables, inventory, furniture, equipment and crops. As of June 30, 2006, WBC's loans receivable consists of the following:

	Gross Balance	Allowance	Net Balance
Economic Development Fund	\$ 4,846,330	\$ 376,837	\$ 4,469,493
Technology Development Fund	198,411	151,719	46,692
Rural Rehabilitation Fund	4,161	0	4,161
Total Loan Receivable	<u>\$ 5,048,902</u>	<u>\$ 528,556</u>	<u>\$ 4,520,346</u>

Wyoming Infrastructure Authority

The Wyoming Infrastructure Authority, under its bonding authority, issued \$34.5 million dollars in Revenue Bonds purchased in total by the Wyoming State Treasurer. These bonds are secured by a Loan Receivable from Basin Electric for the same amount.

	Gross Balance	Allowance	Net Balance
Loan Receivable-Basin Electric	\$ 34,500,000	\$ 0	\$ 34,500,000
Total Loan Receivable	<u>\$ 34,500,000</u>	<u>\$ 0</u>	<u>\$ 34,500,000</u>

NOTE 5 Capital Assets

Capital asset activity for the fiscal year ended June 30, 2006, was as follows:

Primary Government

	Beginning July 1, 2005	Additions	Deletions	Balance June 30, 2006
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 2,009,525	\$ 11,368,267	\$ 317	\$ 13,377,475

NOTE 6 Receivables and Payables

On the Statement of Net Assets the "Due to Primary Government" and the "Due from Component Units" does not balance by \$36,079,386. The "Due to Component Units" and the "Due from Primary Government" does not balance by \$68,488,034. These differences are due primarily to the Department of Transportation's September 30 fiscal year end.

To the extent that certain transactions between funds had not been paid or received as of June 30, 2006, balances of inter-fund amounts receivable or payable have been recorded as presented below. Amounts due to internal service funds are generally for services performed by those funds. The principle amounts of the balances within the Non-Major Governmental Funds represent advances between funds.

Payable Fund	Receivable Fund							
	General Fund	Foundation Program Fund	Legislative Reserve Fund	Workers' Compensation Fund	Non-Major Governmental Funds	Non-Major Enterprise Funds	Internal Service Funds	Total
Major Funds:								
Governmental:								
General Fund	\$ 0	\$ 0	\$ 346,767,182	\$ 614,854	\$ 0	\$ 0	\$ 1,578,302	\$ 348,960,338

Total	\$ 403,264,308	\$ 403,428,950	\$ 52,887,411	\$ 31,047	\$ 79,737,414	\$ 155,337,124	\$ 5,659,155	\$ 1,100,345,409

Transfers are used to 1) move revenues from the fund that statute requires to collect them to the fund that statute requires to expend them; 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; and 3) move profits from the Liquor Commission Fund (\$5.7 million) as required by law.

In the fiscal year ended June 30, 2006, the significant transfers include transfers to the General Fund from the Non-Major Governmental Funds representing excess revenues not needed in those funds (\$3.4 million), and the transfers to the General Fund from the Legislative Reserve Fund are made as a budget balancer (\$315.2 million). The term budget balancer is used to describe the legislative process whereby the General Fund and Legislative Reserve Fund are considered one pool of available resources when making appropriations. The revenues from the Legislative Reserve Fund are used to 'balance' the expenditures made in the General Fund. Transfers from the Common School Land Fund (\$79.7 million) are the investment income that is distributed to the Foundation Program Fund for the expenditures in that fund. These transfers were made in accordance with statutory authority granted by the Legislature. In accordance with Legislative directive, school capital construction was reduced to the extent of previous coal lease bonus transfers (\$106.3 million). This transfer was made to the Legislative Reserve Fund.

NOTE 8 Short-Term Debt

The State issues tax and revenue anticipation notes. These notes were necessary to cover temporary cash shortages in the Foundation Program Fund due to the timing of revenue collection.

	Beginning Balance	Issued	Redeemed	Ending Balance
Governmental Activities:				
Foundation Program Fund	\$ 0	\$ 105,000,000	\$ 105,000,000	\$ 0

NOTE 9 Long-Term Obligations

State of Wyoming

During the year ended June 30, 2006, the following changes occurred in long-term liabilities for the primary government:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Governmental Activities:					
Revenue Bonds	\$ 52,167,889	\$ 0	\$ 2,850,367	\$ 49,317,522	\$ 2,740,940
Compensated Absences	41,154,939	21,604,111	17,051,556	45,707,494	14,807,750
Capital Leases	496,662	368,839	348,691	516,810	291,962
Deferred Interest Payable	0	8,248,622	0	8,248,622	0
Arbitrage Payable	355,273	14,574	0	369,847	0
Claims/Benefits Payable	82,049,253	157,721,532	157,285,641	82,485,144	56,205,863
Total Governmental					
Long-term Obligations	\$ 176,224,016	\$ 187,957,678	\$ 177,536,255	\$ 186,645,439	\$ 74,046,515
Business-Type Activities:					
Compensated Absences	\$ 1,082,999	\$ 688,612	\$ 602,597	\$ 1,169,014	\$ 378,723
Capital Leases	94,884	0	94,884	0	0
Claims/Benefits Payable	763,578,509	197,948,046	134,499,148	827,027,407	83,827,037
Total Business-Type					
Long-term Obligations	\$ 764,756,392	\$ 198,636,658	\$ 135,196,629	\$ 828,196,421	\$ 84,205,760

Claims and benefits payable of the governmental activities are primarily liabilities of the General Fund for health and welfare benefits and the Environmental Quality Special Revenue Fund for claims associated with damages from prior mining activities. Compensated absences are payable by the funds in which they are incurred that are primarily the General Fund, the Board and Regulatory Special Revenue Fund, the Game and Fish Special Revenue Fund, and Computer Technology Internal Service Fund. In the business-type activities, the claims and benefits payable are primarily liabilities of the Workers' Compensation Insurance and Wyoming Health Insurance Funds. The inclusion of Deferred Interest Payable is the result of interest on outstanding bonds being deferred until the bonds mature.

Department of Transportation

The following table represents the changes in long-term liabilities of the DOT during the year ended September 30, 2005:

	Beginning Balance	Additions	Reductions	Ending Balance	Amount Due Within One Year
Governmental Activities:					
Compensated Absences	\$ 17,301,830	\$ 3,883,489	\$ 5,318,887	\$ 15,866,432	\$ 6,501,613
Early Retirement	294,067	0	221,453	72,614	52,352
Governmental activities, Long-term liabilities	\$ 17,595,897	\$ 3,883,489	\$ 5,540,340	\$ 15,939,046	\$ 6,553,965

University of Wyoming

The following table represents the changes in long-term liabilities of the University during the year ended June 30, 2006:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Business-Type Activities:					
Revenue Bonds	\$ 52,754,672	\$ 1,225	\$ 2,633,885	\$ 50,122,012	\$ 3,222,495
Capital Leases	2,001,375	45,240	263,059	1,783,556	277,998
Compensated Absences	10,433,049	6,284,954	6,475,654	10,242,349	5,121,174
Deposits Held in Trust	16,906,394	0	2,485,849	14,420,545	7,375,158
U S Government Loans Refundable	6,936,523	0	195,130	6,741,393	0
Other Liabilities	7,774,748	321,621	710,228	7,386,141	686,854
Total Business-Type Long-term Obligations	\$ 96,806,761	\$ 6,653,040	\$ 12,763,805	\$ 90,695,996	\$ 16,683,679

The balances for the deposits held in trust above do not agree to the Statement of Net Assets by \$5,340,153 because the University of Wyoming balances on the Statement of Net Assets include the University of Wyoming Foundation, which does not report under the Governmental Accounting Standards Board.

Wyoming Pipeline Authority

Long-term liability activity for the year ended June 30, 2006, was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Business-Type Activities					
Compensated Absences	\$ 7,416	\$ 0	\$ 323	\$ 7,093	\$ 0
Due To Primary Government	1,668,150	0	0	1,668,150	0
Total Business-Type Activities					
Long-term liabilities	\$ 1,675,566	\$ 0	\$ 323	\$ 1,675,243	\$ 0

Wyoming Infrastructure Authority

Long-term liability activity for the year ended June 30, 2006, was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Business-Type Activities					
Due To Primary Government	\$ 250,000	\$ 36,110,500	\$ 0	\$ 36,360,500	\$ 0
Total Business-Type activities, Long-term liabilities	\$ 250,000	\$ 36,110,500	\$ 0	\$ 36,360,500	\$ 0

Wyoming Community Development Authority

The following table represents the changes in long-term liabilities of the WCDA during the year ended June 30, 2006:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Business-Type Activities					
Housing Revenue Bonds	\$ 762,966,146	\$ 210,416,400	\$ 90,069,383	\$ 883,313,163	\$ 55,860,295

A. Capital Leases

The State has entered into various leases and lease purchase agreements for buildings and equipment that have been accounted for as capital leases in accordance with generally accepted accounting principles. Lease contracts are required by law to contain a fiscal funding clause indicating continuation of the lease is subject to funding by the legislature.

Future minimum lease payments under capital leases, for the State's governmental activities and the University as of June 30, 2006, are as follows:

Year Ending June 30th	Governmental Activities	University of Wyoming
2007	394,125	362,986
2008	176,431	362,986
2009	67,201	362,986
2010	38,668	308,963
2011	25,869	138,865
2012-2015	0	566,296
Total Minimum Payments	702,294	2,103,082
Less Interest	185,484	319,526
Present Value of Lease Payments	\$ 516,810	\$ 1,783,556

B. Bonded debt

State of Wyoming

No new bonds were issued during Fiscal year 2006. The governmental funds bonded debt reported below represents the remaining principal payable on capital facilities revenue bonds. Funds for the repayment of the principal and interest on these bonds are restricted to the federal mineral royalties distributed to the school foundation program. The following table presents the State of Wyoming Capital Facilities Revenue Bonds outstanding as of June 30, 2006:

	Series	Amount Issued	Interest Range %	Balance June 30, 2006
Government-Wide Statements				
Capital Facilities Refunding Bonds	1992	\$ 28,750,000	3.0 - 6.25	\$ 12,465,000
Capital Facilities Refunding Bonds	1993	8,777,522	4.1 - 6.2	6,302,522
Capital Facilities Refunding Bonds	2002	10,405,000	2.75-5.0	7,540,000
Capital Facilities Refunding Bonds	2005	23,440,000	2.5-5.0	23,010,000
Total		\$ 71,372,522		\$ 49,317,522

Future minimum payments for revenue bonds recorded in the government-wide statements of June 30, 2006 are as follows:

Year Ending June 30th	Principal	Government-Wide Statements Interest	Total
2007	2,740,940	3,632,497	6,373,437
2008	2,685,300	3,656,350	6,341,650
2009	2,653,854	3,675,764	6,329,618
2010	2,657,968	3,685,194	6,343,162
2011	2,654,005	3,677,864	6,331,869
2012-2016	11,290,455	9,777,052	21,067,507
2017-2021	12,760,000	4,655,751	17,415,751
2022-2025	11,875,000	1,253,875	13,128,875
	\$ 49,317,522	\$ 34,014,347	\$ 83,331,869

Wyoming Pipeline Authority

The Authority's notes payable are as follows:

Note payable to the State of Wyoming, interest at 4%; annual interest only payments of \$66,726; principal due June 2010; uncollateralized totaling \$1,668,150.

Annual debt service requirements for the four fiscal years subsequent to June 30, 2006 are as follows:

Year	Principal	Interest	Total Debt Service
2007	\$ 0	\$ 66,726	\$ 66,726
2008	0	66,726	66,726
2009	0	66,726	66,726
2010	1,668,150	66,726	1,734,876
	\$ 1,668,150	\$ 266,904	\$ 1,935,054

University of Wyoming

University revenue bonds payable represent the remaining principal payments on bonds used for construction of facilities. Revenues from the operations of residence halls, apartments, cafeterias, dining halls, other food service facilities, bookstore and telecommunications; income from other sales and services; income from the University Permanent Land Fund and mineral royalties from the University Government Royalty Fund are pledged for the Facilities Improvement and Refunding Revenue Bonds Series 1999, the Facilities Improvement Revenue Bonds Series 2001, the Facilities Refunding Revenue Bonds Series 2003, and the Facilities Improvement Revenue Bond Series 2004, and the Facilities Improvement Revenue Bond Series 2005.

Revenue bonds payable consist of the following at June 30, 2006:

	Series	Amount Issued	Interest Range %	Balance June 30, 2006
Government-Wide Statements				
University Revenue Bonds	1999	\$ 18,760,000	4.85-5.5%	10,750,000
	2001	9,120,000	4.0-5.5%	7,670,000
	2003	4,340,000	2.1-3.5%	4,155,000
	2004	11,100,000	3.25-5.0%	11,100,000
	2005	16,000,000	3.5-5.0%	15,520,000
Total		\$ 59,320,000		49,195,000
Original issue discount/premium				927,012
Total				\$ 50,122,012

Future minimum payments for the University's revenue bonds recorded as of June 30, 2006 are as follows:

Year Ending June 30th	University of Wyoming Principal	Interest
2007	3,155,000	2,301,809
2008	3,315,000	2,168,626
2009	3,430,000	2,048,544
2010	3,545,000	1,914,774
2011	2,245,000	1,773,311
2012-2016	12,850,000	7,172,756
2017-2021	13,660,000	3,650,400
2022-2025	6,995,000	828,750
	\$ 49,195,000	\$ 21,858,970

Wyoming Community Development Authority

Bonds are generally payable in scheduled annual and semiannual installments and are subject to mandatory sinking fund requirements in scheduled amounts. Redemption is optional after various dates at prices ranging from 100 to 103 per 100. Capital Appreciation Bonds (CABs) are reported at accreted value.

The bonds of the 1978, 1992, and 1994 Indentures are special obligations of the Authority, payable solely from the income and receipts of these indentures. The bonds of the 1982 Indenture are general obligations of the Authority payable from any of its revenues, income and receipts. All of the bonds are secured by mortgage loans and other assets of the respective indentures. Interest on all outstanding bonds is payable semi-annually, except for 2001 Series A Bonds, 2002 Series A Bonds, 2003 Series B Bonds, 2001 Series 7 Bonds, 2002 Series 8 Bonds, 2003 Series 4 Bonds, 2004 Series 3 Bonds, 2004 Series 6 Bonds, 2004 Series 9 Bonds, 2004 Series 11 Bonds, 2005 Series 2 Bonds, 2005 Series 4 Bonds, 2005 Series 7 Bonds, 2006 Series 2 Bonds, 2006 Series 5 Bonds, CABs, and Wyoming Homeownership Bonds Series I.

The Authority has variable rate debt which reprices weekly, based on market interest rates.

The following table presents WCDA bonds outstanding at June 30, 2006:

Governmental Fund Revenue Bond Debt	Series	Amount Issued	Interest Range %	Balance June 30
Single Family Mortgage Bonds	1998 Series B	15,000,000	5.3	13,000,000
Single Family Mortgage Bonds	2001 Series A	9,545,000	3.92	9,545,000

			\$	<u><u>883,313,163</u></u>

WCDA annual debt service requirements for the five fiscal years subsequent to June 30, 2006, and for each five-year segment thereafter, including the bonds to be remarketed or expected to be refunded, are as follows:

	Principal	Interest	Total
2007	\$ 55,860,295	\$ 40,768,112	\$ 96,628,407
2008	17,303,082	38,988,536	56,291,618
2009	17,306,090	38,248,811	55,554,901
2010	17,779,335	37,504,016	55,283,351
2011	18,147,836	36,771,978	54,919,814
Five years ending 2016	98,712,177	171,319,150	270,031,327
Five years ending 2021	113,326,888	145,776,973	259,103,861
Five years ending 2026	211,070,963	106,457,753	317,528,716
Five years ending 2031	205,505,000	54,285,834	259,790,834
Five years ending 2036	128,170,000	12,469,932	140,639,932
Five years ending 2041	560,000	11,284	571,284
Total	\$ 883,741,666	\$ 682,602,379	\$ 1,566,344,045

The balances above do not include premiums, discounts, or losses on refundings in the amount of \$428,503 that are reported as components of bonds payable.

The WCDA entered into a line of credit agreement with a financial institution, secured by specific investments and mortgages. This agreement allows the Authority to borrow approximately 80% of the value of the investment collateral. As of June 30, 2006, the Authority had investments worth approximately \$12,717,426 on deposit with this financial institution; however, no amounts were outstanding on this line of credit.

C. Prior Year Defeasance of Debt

State of Wyoming

In prior years, the State defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the State's financial statements. As of June 30, 2006, \$1.4 million of 1991 Capital Facilities bonds outstanding are considered defeased.

NOTE 10 Restricted Net Assets

The following table represents the permanent funds restricted net assets:

	Common School Land Fund	Permanent Mineral Trust Fund	Non-Major Governmental Funds	Total
Restricted Assets: Non-expendable	\$ 1,456,966,240	\$ 3,019,112,678	\$ 105,456,732	\$ 4,581,535,650

NOTE 11 Lease Revenue

Lease revenue

The State possesses significant amounts of land of which the majority was received from the federal government when the Wyoming Territory was incorporated as a state. Such land is leased to third parties under leases accounted for as operating leases. Future minimum rents receivable under these lease agreements as of June 30, 2006 are as follows:

Year Ending June 30th	Governmental Funds
2006	5,699,752
2007	5,129,777
2008	4,559,802
2009	3,989,826
2010	3,419,850
2011-2015	8,549,628
	\$ 31,348,635
# of Grazing Leases	4,700
# of Special Use Leases	244
Total Acres Under Lease	3,576,747

NOTE 12 Pensions

State employees are eligible to participate in five different pension plans, depending on their current employment position. These plans are administered by the Wyoming Retirement System (WRS).

The Wyoming Retirement System was established in 1943 as a teachers' retirement program and amended in 1949 to incorporate State employees. Over 500 counties, municipalities, school districts and other units of government participate in the Wyoming Retirement System.

The Wyoming Retirement System administers seven defined benefit pension plans and one defined contribution plan:

1. Public Employees Pension Plan
2. Paid Firemen's Pension Plan A
3. Paid Firemen's Pension Plan B
4. Wyoming Highway Patrol, Game Warden & Division of Criminal Investigators Retirement Plan
5. Wyoming Judicial Retirement Plan
6. Wyoming Law Enforcement Retirement Plan
7. Volunteer Firemen's Pension Plan
8. Wyoming Deferred Compensation (457) Program

The responsibility for the administration and operation of the first six retirement systems and Wyoming Deferred Compensation (457) Program is vested in the Wyoming Retirement Board. The board is composed of eleven members, ten appointed by the Governor and the eleventh being the State Treasurer.

The Volunteer Firemen's Pension Plan is controlled by a separate board and administered by the director of the Wyoming Retirement System. The board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer fireman with a minimum of five years as a member of a volunteer fire department in the State of Wyoming.

The State reports all the plans administered by the Wyoming Retirement System as Pension Trust Funds. The Pension Trust Funds are presented on the accrual basis of accounting with investments valued at fair value determined, primarily, by the latest bid price or the closing exchange price at the balance sheet date.

WRS issues a stand-alone financial report. It can be obtained by writing to the Wyoming Retirement System, 6101 Yellowstone Road, 5th Floor West, Cheyenne, WY, 82002, or by calling 307-777-7691. The WRS fiscal year end statements are as of December 31, which the State uses for its June 30th report.

The State administers the Wyoming Judges Retirement Plan, which is a non-funded single-employer defined-benefit pension plan. No report is issued for this plan.

Defined Contribution Plan

The State legislature authorizes, in W.S. 21-19-101 through 106, eligible University employees to have the option of participating in either WRS or Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF). The governing body of the University establishes and administers TIAA-CREF, a defined contribution plan, for the employees. TIAA-CREF requires contributions of 11.25% of participating employees' salaries. Statutes require that contributions be funded by both the employee and the employer, and the University has elected to fund both portions. Contributions are funded as accrued and are immediately vested. The contributions for the years ended June 30, 2004, 2005, and 2006 were \$8,600,589, \$9,458,500 and \$9,793,324, respectively.

Plan Descriptions

Public Employees Pension Plan:

The Public Employees Pension Plan is a defined benefit, contributory retirement plan covering substantially all employees of the State and of the Public School Systems of Wyoming. The Plan also covers employees of those political subdivisions, which have elected to participate in the Plan.

The Plan statutorily requires 11.25% of the participant's salary to be contributed to the Plan. Contributions consist of 5.68% of the participant's salary as employer contributions and 5.57% as employee contributions. The amount of contributions designated as employee contributions represent the portion of total contributions that a participant retains ownership of and can elect to receive as a refund upon termination of employment. Employers can elect to cover all or a portion of the employee's contribution at their discretion.

The Plan allows for normal retirement after four years of service and attainment of age 60. Early retirement is allowed provided the employee has completed four years of service and attained age 50 but will result in a reduction of benefits based on the length of time remaining to normal retirement age.

The Plan provides retirement, disability and death benefits according to predetermined formulas and allows retirees to select one of seven optional methods for receiving benefits, including two optional forms of benefits: a 100% joint and survivor annuity, and a 50% joint and survivor annuity. The benefit amounts under these options are determined on an actuarially equivalent basis. The Plan also statutorily provides for an annual percentage increase in the benefit amounts beginning on July 1, after two full years of retirement, by the lesser of 3% or the cost of living as determined by the Board. State Statutes provide for future annual percent increases in the benefit amount to be the greater of the cost of living as determined by the Board or the percentage determined actuarially sound by the System's actuary, up to 3% each year.

Employees terminating prior to normal retirement age can elect to withdraw all employee contributions plus accumulated interest through date of termination or, if they are vested, they may elect to remain in the Plan and be eligible for retirement benefits at age 50.

Wyoming State Highway Patrol, Game and Fish Warden and Criminal Investigator Retirement Plan:

The Wyoming State Highway Patrol, Game and Fish Warden and Criminal Investigator Retirement Plan is a defined benefit, contributory retirement plan covering sworn officers of the Wyoming State Highway Patrol and law enforcement officers employed by the Wyoming State Game and Fish Department who are not covered under the System, and sworn peace officers of the Division of Criminal Investigation.

The Plan statutorily requires participants to contribute 11.02% of their salary to the Plan and the State is required to contribute 11.33% of each participant's salary for a total contribution of 22.35%.

The Plan allows for normal retirement at age 50. The Plan provides retirement, disability and death benefits according to predetermined formulas. Terminating employees are entitled to a refund of employee contributions plus accumulated interest. The Plan also statutorily provides for an annual percentage increase in the benefit amounts beginning on July 1, after two full years of retirement, by the lesser of 2.25% or the cost of living as determined by the Board. State Statutes provide for future annual percent increases in the benefit amount to be the greater of the cost of living as determined by the Board or the percentage determined actuarially sound by the System's actuary, up to 2.25% each year.

The maximum service pension is 75% of the highest average salary. The minimum years of service requirement for a monthly benefit are six years.

Volunteer Firemen's Pension Plan:

The Volunteer Firemen's Pension Plan is a defined benefit, contributory retirement plan covering volunteer firemen who elect to participate in the Plan. Participants are statutorily required to contribute \$12.50 monthly to the Plan, although such contributions may be fully or partially paid by political subdivisions on behalf of participants, if approved by the governing board. In addition, the State pays into the Plan 50% of the gross annual tax collected on fire insurance premiums. The Plan provides retirement and death benefits according to predetermined amounts primarily determined by age and years of service of the participant. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

Paid Firemen's Pension Plan A:

The Paid Firemen's Pension Plan A is a defined benefit, contributory retirement plan covering paid firemen who were employed prior to July 1, 1981 and who elect to participate.

The Plan statutorily required participants to contribute 8% of their salary to a maximum not to exceed the salary of a Fireman First Class. Employers were required to contribute 21% of the salary. Effective April 1, 1997, required contributions have been suspended as the Plan has been determined to be actuarially over-funded.

The Plan statutorily provides retirement, disability and death benefits according to predetermined amounts primarily determined by years of service and average salaries. Changes in the amount of benefits occur in relation to changes in the salary of active Firemen First Class as provided by State Statute. Participants may withdraw from the Plan at any time and receive refunds of participant contributions without interest.

Paid Firemen's Pension Plan B:

The Paid Firemen's Pension Plan B is a defined benefit, contributory retirement plan covering paid firemen who were employed after July 1, 1981 and who elect to participate.

The Plan statutorily requires participants to contribute 6% of their salary to the Plan and the employer is required to contribute 12% of each participant's salary.

The Plan provides retirement, disability and death benefits according to predetermined amounts primarily determined by years of service and average salaries. The Plan also statutorily provides for a percentage change in the benefit amounts in accordance with changes in the consumer price index after one full year of retirement, not to exceed 5%, per year, uncompounded. State Statutes provide for future annual percent increases in the benefit amount to be the greater of the cost of living as determined by the Board or the percentage determined actuarially sound by the System's actuary, up to 5% each year. Participants may withdraw from the Plan at any time and receive refunds of participant contributions without interest.

Wyoming Judicial Retirement Plan:

The Wyoming Judicial Retirement Plan is a defined benefit, contributory plan covering any Justice of the Supreme Court, District Judge or County Court Judge appointed to any of these offices on or after July 1, 1999, and with no prior service as a Justice of the Supreme Court or District Judge at the time of the appointment. The Plan also covers any Justice or Judge who elects to participate.

The Plan statutorily requires participants to contribute 9.22% of their salary to the Plan and the employer is required to contribute 8.78% of each participant's salary.

The Plan statutorily provides retirement and death benefits according to predetermined amounts primarily determined by age and years of service of the participant. The Plan also statutorily provides for an annual percentage increase in the benefit amounts beginning July 1, after one full year of retirement, by the lesser of 3% or the cost of living as determined by the Board. State Statutes provide for future annual percent increases in the benefit amount to be the greater of the cost of living as determined by the Board or the percentage determined actuarially sound by the System's actuary, up to 3% each year. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

Wyoming Law Enforcement Retirement Plan:

The Wyoming Law Enforcement Retirement Plan is a defined benefit, contributory plan covering any county sheriff, deputy county sheriff, municipal police officer, Wyoming correctional officer, Wyoming law enforcement academy instructor, University of Wyoming campus police officer, detention officer, probation and parole agent, or dispatcher for law enforcement agencies and certain investigators of the Wyoming Livestock Board.

The Plan statutorily requires participants to contribute 8.6% of their salary to the Plan and the employer is required to contribute 8.6% of each participant's salary.

The Plan statutorily provides retirement, disability and death benefits according to predetermined amounts primarily determined by salary, age and years of service of the participant. The Plan also statutorily provides for a percentage increase in the benefit amounts beginning July 1, after two full years of retirement by 2% each year. State Statutes provide for future annual percent increases in the benefit amount to be the greater of the cost of living as determined by the Board or the percentage determined actuarially sound by the System's actuary, up to 2% each year. Participants may withdraw from the Plan at any time and receive refunds of participant contributions plus accumulated interest.

In 2005 legislation allowed 105 participants in the Public Employees Pension Plan to transfer their retirement plan coverage to the Wyoming Law Enforcement Retirement Plan. Plan assets of \$8,655,176, related to these participants, had not yet been transferred between the plans at December 31, 2005. This amount is reported as a due to/from for this event.

The Section 457 Plan

The Section 457 Plan administered by the Wyoming Retirement System is a defined contribution plan. This Plan is available as a supplemental plan to the basic retirement benefits of the Retirement System for employees of public employers who have adopted the 457 Plan. Contributions may be made into the Plan (subject to Plan and Internal Revenue Code limitations) by employees of participating employers sponsoring the Plan. Employer contributions may be made into the Plan at rates determined by the employers. There are 11,626 participants in the 457 Plan who are contributing through 152 employers.

Upon qualifying for distributions, benefits are paid out in lump sums, or as periodic benefit payments, at the option of the participant based on individual account balances and plan provisions. The 457 Plan's account balances are fully vested to the participants at the time of deposit.

Investments in the 457 Plan are individually directed by Plan participants who direct the investment of their funds among Board approved investment options of varying degrees of risk and earnings potential. Participants may transfer their funds between these options daily. Investments of the Plan are reported at fair value.

In addition to accepting employee deferrals, this Plan also accepts employer contributions on behalf of their employees, provided such contribution when added to the employees' contribution deferred does not exceed the maximum deferral permitted by the Plan. The State contributes \$20 a month per employee participating in the 457 Plan no matter the amount of the employee's contribution. The State contributed \$1,349,100 on behalf of its employees during the year ended December 31, 2005.

The State's contributions as employer are as follows:

Employer Contributions				
	Public Employees Pension Plan	WY State Hwy Patrol, G&F Warden, and Criminal Investigator Retirement Plan	Wyoming Judicial Retirement Plan	Wyoming Law Enforcement Retirement Plan
Year Ended Dec. 31	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution	Annual Required Contribution
2003	\$ 31,268,009	\$ 3,118,495	\$ 397,891	\$ 2,520,820
2004	29,682,884	2,956,164	403,624	2,288,660
2005	34,028,580	3,364,049	533,322	2,787,991

Contributions have been fully funded in the current and prior years.

NOTE 13 Risk Management

Self-Insurance Funds

The State maintains two self-insurance plans: the State self-insurance program and the State employee medical, life, and dental insurance programs. Each of these plans is reported as an internal service fund. The University administers its own risk management program and reports a liability in the University funds. A brief description of each of the plans is provided below:

A. State Self Insurance Fund

Wyoming statute 1-41-103 created the State Self Insurance Fund to handle liability insurance claims brought against the State. The range of losses financed includes general liability, automobile liability, police liability, medical malpractice liability and civil rights. In addition, this plan covers Peace Officers liability for the Political subdivisions within Wyoming. The State generally does not maintain reserves; losses are covered by a combination of appropriations from the State's general fund, Department of Transportation, Game & Fish Commission, and by assessing other State agencies a deductible of up to \$2,500 per claim when the agency is determined to be liable for the loss. The estimated liability for claims against the State including incurred but not reported claims is approximately \$6.1 million as of June 30, 2006. The estimate is based on past experience, a review of pending claims, an actuarial evaluation and other social and economic factors. The above estimate is not discounted and there is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2006.

B. Group Insurance Fund

The State co-administers employee medical, life, and dental insurance with a third party administrator. The State self-insures medical costs and assumes all the risk for claims incurred by plan participants. Insurance providers solely administer the life insurance plan. The State does not retain any risk of loss under the life insurance plan, as the insurance provider of the plan assumes all the risk for claims incurred by the participants.

During the year ended June 30, 2006, the State contributed up to 85% a month for insurance premiums for each covered participant towards these plans. Participants are responsible for paying premium charges in excess of this amount. As of June 30, 2006, the medical claims liability including incurred but not reported claims is approximately \$7.6 million. A liability is recorded in the accompanying financial statements for the estimated claims liability. The claims liability is based on past experience, a review of pending claims and other social and economic factors. The above estimate is not discounted and there is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2006. No significant reductions in insurance coverage were made in the last fiscal year.

C. University Risk Management

The University is exposed to various risks of loss including torts, theft of, damage to, or destruction of assets, and teachers' liability. The University has purchased commercial insurance for these risks that include insurance for property and liability. Settlements have not exceeded insurance coverage in any of the past three fiscal years. The uninsured risk retention per occurrence/aggregate is \$100,000/\$200,000 for property and ranges from \$100,000 to \$1,000,000 for various liability risks. A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

The following is a reconciliation of the unpaid claims liability:

	State Self Insurance Fund		Group Insurance Fund		University of Wyoming	
	2005	2006	2005	2006	2005	2006
Claims Liability at Beginning of Fiscal Year	\$ 7,749,324	\$ 8,214,284	\$ 8,957,606	\$ 9,538,107	\$ 325,000	\$ 325,000
Current Year Claims & Changes in Estimates	2,786,159	(1,823,334)	97,712,925	99,352,486	348,178	1,227,449
Claim Payments	(2,321,199)	(326,776)	(97,132,424)	(101,268,493)	(348,178)	(802,449)
Claim Liability at End of Fiscal Year	\$ 8,214,284	\$ 6,064,174	\$ 9,538,107	\$ 7,622,100	\$ 325,000	\$ 750,000

The University included their unpaid claims liability under the caption of "Accounts Payable".

Insurance Enterprise and Public Entity Risk Pools

The State administers three insurance enterprises: workers' compensation insurance, the Wyoming health insurance pool, and the mine subsidence insurance which are reported in enterprise funds. None of these funds have acquisition costs, therefore, no cost is amortized for the period. Unpaid claims and claim adjustment expenses are estimated based on the ultimate cost of settling the claim including the effects of inflation and other social and economic factors. These funds use the accrual basis of accounting. The insurance enterprises do not consider anticipated investment income in determining if a premium deficiency exists. A brief description of the insurance enterprises and the pool are provided below:

- A. Workers' Compensation Insurance** - Wyoming statute 27-14 created the Wyoming Workers' Compensation Act (Act). This Act requires all employers engaged in extra hazardous employment to obtain liability coverage for the payment of benefits to employees for job related injuries and diseases through the Workers' Compensation Insurance Fund. Eligible employers complying with the provisions of the Act are generally protected from suit by employees. Employers not required by the Act to participate in this program may elect to do so at their option. As of June 30, 2006, there were 17,189 employers insured under this Act.

The fund is used to account for the State's Workers' Compensation program that provides time-loss, medical, and disability payments to qualifying individuals sustaining work-related injuries, or death benefits to dependent families if the worker were to die from such injuries. To fund these benefits, the State charges employers monthly premiums based on rates it establishes for each employment classification, the employer's experience rating, and the total payroll for covered employees in each particular classification. The Act requires that rates be established at a level to maintain an actuarially sound insurance program. The State is working towards funding the workers' compensation liabilities by 2013 through premium rate adjustments.

An actuarial study has estimated the liabilities and the ultimate cost of settling claims that have been reported but not settled and of claims that have been incurred but not reported. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liabilities, claims adjudication, and judgments, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are re-computed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic, legal and social factors.

A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. The Department of Employment uses an undiscounted Workers' Compensation Insurance Fund balance when determining Industry Base Rates for employer premiums. For consistency between the Department of Employment's Workers' Compensation Insurance Fund balance used for rate setting purposes and Workers' Compensation Insurance Fund balances shown in the CAFR, the Workers' Compensation Insurance Fund balance is shown at an undiscounted value. At June 30, 2006, approximately \$825 million of claims and adjustment expenses have been accrued. The State does not use reinsurance agreements, therefore the State retains full liability as the direct insurer.

- B. Wyoming Health Insurance Pool** - Wyoming statute 26-43 created the Wyoming Health Insurance Pool (Pool) for the purpose of providing health insurance for State residents. Qualifying State residents who are denied insurance by private carriers or leave coverage because of excessively high premiums or restrictive coverage may join the Pool. The Pool began providing health insurance coverage to participants on January 1, 1991. The statute creating the Pool contains a sunset provision that calls for the Pool to be terminated on June 30, 2011, unless authorization is continued. The State co-administers the Pool along with a third party insurance provider, Blue Cross Blue Shield of Wyoming; however, the Pool retains all risk of loss for claims filed by Pool participants. As of June 30, 2006, 642 residents were covered under the Pool. A copy of the Pool's financial report may be obtained by contacting Blue Cross Blue Shield of Wyoming in writing at 4000 House Avenue, Cheyenne, Wyoming 82001.

The Pool's liability exposure per participant is a maximum lifetime benefit of \$350,000 for the Brown Plan and \$600,000 for the Gold Plan. Premiums are collected from Pool participants to pay Pool expenses; however, if such premiums are insufficient to meet expenditures, the State has the authority to assess all carriers who write health insurance policies in the State to cover Pool deficits.

The estimated liability for unpaid claims and loss adjustment expense is based on data developed by the Pool's third-party administrator. Since the Pool has limited historical experience of its own, industry experience is also considered in determining the estimated liability. The liability includes estimates of the costs to settle individual claims that have been reported, plus a provision for losses incurred but not yet reported. The undiscounted liability for unpaid claims and claim adjustment expenses is \$1,200,000 at June 30, 2006.

- C. Subsidence Insurance** - Wyoming statute 35-11-13 requires the Department of Environmental Quality (DEQ) to administer an insurance program to cover mine subsidence loss to specified structures in the State. The Wyoming mine subsidence insurance program provides insurance to any individual whose home or business exists over or near any underground mine in the State. On October 29, 1986, the DEQ received a funding grant from the Federal Department of Interior's Office of Surface Mining to assist with administrative and claim costs. A grouting program was initiated in Rock Springs in 1986. A cement type of material is used to fill those abandoned mines subject to the greatest risk of subsidence. As of June 30, 2006, there were 187 policyholders with in-force premiums. The insured value of these policies is \$14,422,232. There was 1 unresolved or pending claim as of June 30, 2006. The estimated cost of this unresolved claim is \$15,000. This program had an actuarial valuation performed in 1999 that is used to determine that premiums charged to participants are sufficient to meet anticipated claim expense.

The following table summarizes current period activity for the State insurance enterprise funds:

	Workers' Compensation Insurance Fund		Wyoming Health Insurance Fund	
	2005	2006	2005	2006
Claims Liability at Beginning of Fiscal Year	\$ 709,100,000	\$ 761,800,000	\$ 850,000	\$ 1,050,000
Incurring Claims & Claim Adjustment Expenses:				
Provisions for Insured Events of the Current Year	168,278,751	145,622,611	6,591,246	7,401,028
Increase in Provision for Insured Events of Prior Years	4,137,000	37,303,000	0	0
Total Incurred Claims & Claim Adjustment Expense	172,415,751	182,925,611	6,591,246	7,401,028
Claims & Claim Adjustment Expenses Attributable to Insured Events of Current Year	(35,148,000)	(38,561,000)	(6,003,011)	(6,134,725)
Claims & Claim Adjustment Expenses Attributable to Insured Events of Prior Year	(84,567,751)	(80,958,611)	(388,235)	(1,116,303)
Total Payments	(119,715,751)	(119,519,611)	(6,391,246)	(7,251,028)
Total Unpaid Claims & Claim Adjustment Expenses at End of Fiscal Year	\$ 761,800,000	\$ 825,206,000	\$ 1,050,000	\$ 1,200,000

Note 14 Commitments and Contingencies

Federal Grants

Grant monies received and disbursed by the State are for specific purposes and are subject to audit by the grantor agency. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience and current knowledge, the State does not believe that such disallowances, if any, would have a material effect on the financial position or results of operations of the State.

School Capital Construction Commitments

As of June 30, 2006, the State has signed agreements totaling approximately \$194.4 million with school districts throughout the state that commit the State to provide funding for school district capital construction projects. As of June 30, 2006, approximately \$113 million was unexpended under these agreements.

Investment Commitments

The State is a limited partner in a private equity partnership, and has committed to provide funding to the partnership as called for by the general partner-Cheyenne Capital Fund. The State's total commitment over the ten-year term of the partnership is \$257,950,000. This includes \$250,000,000 in capital for investment and up to \$32,950,000 for management fees to be paid over the term of the partnership. The State had invested \$40,424,642 in this partnership at June 30, 2006.

Wyoming Retirement System

At December 31, 2005, the System was committed to the future purchase of investments at an aggregate cost of \$425,195,841.

Wyoming Business Council

Loans approved by the Council's Board of Directors but undistributed as of June 30, 2006 totaled \$2,567,307. These loans will be funded out of the cash balance in the Economic Development Fund.

Construction Commitments

As of June 30, 2006, there were 49 uncompleted construction projects as follows:

Project	Appropriation Amount	Expended Amount	Remaining Encumbrance	Remaining Balance to Obligate
Supreme Court Bldg renovation	\$ 15,529,836	\$ 3,101,454	\$ 646,067	\$ 11,782,315
Camp Guernsey Facility Upgrade	6,351,203	5,922,072	387,343	41,788

University of Wyoming

The University has contracted and/or appropriated funds for the planning and construction or maintenance of several facilities with an aggregate cost of \$180,757,000. As of June 30, 2006, the remaining commitment to complete these projects totaled approximately \$123,777,000. These completion costs will be financed by a combination of State appropriations, bond proceeds, Federal grants, and private gifts and grants.

Department of Transportation

The Department of Transportation had outstanding contract commitments for highway construction, maintenance, and aeronautics projects at September 30, 2005 of approximately \$148 million. A substantial portion of these commitments will be funded by Federal financial assistance as expenses are incurred.

Wyoming Business Council

The Council has contracted and/or committed funds for various projects, services or other items arising in the normal course of operations. The amounts remaining to complete these commitments totaled \$31,367,452 as of June 30, 2006. These commitments will be funded by a combination of State appropriations and Federal revenues.

Leases

The State is committed under various leases that are considered operating leases. The operating lease expenditures/expenses are recognized as incurred or paid.

Governmental funds rental expenditures under operating leases for the year ended June 30, 2006 were \$9,150,200. Future rental commitments for operating leases are as follows:

<u>Year Ending June 30th</u>	<u>Governmental Fund Types</u>
2007	8,749,919
2008	7,748,382
2009	4,674,012
2010	3,797,607
2011	2,587,254
2012-2015	2,625,818
2016-2019	626,259
	<u>\$ 30,809,251</u>

Wyoming Business Council

The Council has entered into operating leases for office space and equipment. Expenditures or expenses on these leases are recognized as incurred. Total rent expenses for these operating leases for the year ended June 20, 2006 was \$166,195. Future rental payments for these operating leases are as follows:

<u>Year Ending June 30th</u>	<u>Amount</u>
2007	\$ 124,338
2008	85,850
2009	3,900
2010	975
Total minimum payments	<u>\$ 215,063</u>

Wyoming Retirement System

The System leased a commercial office facility, under a non-cancelable lease agreement. Future minimum annual rental commitments are \$144,050 per year, until the lease agreements expires on June 30, 2009. The lease agreement includes an adjustment provision effective July 1, 2007, whereby the minimum annual lease payments will be adjusted for cumulative percent increases in the Wyoming Statewide Cost of Living Index with total rent payments not to exceed \$658,161 over the lease term. Total rent expense for the year ended December 31, 2005 was \$144,050.

University of Wyoming

During the year ended June 30, 2006, the University entered into a lease agreement with the University of Wyoming Foundation for a building to be constructed by the Foundation. The lease agreement is for 25 years from the date of completion of the building and ownership will transfer to the University at the end of the lease term. The lease will be accounted for as a capital lease once construction is complete and the lease commences. Total costs of the building construction are expected to be \$8,460,000. The University will be required to fund any construction costs in excess of this amount. The project is expected to be partially funded by contributions to be received by the Foundation in the amount of \$4,500,000. Annual lease payments are expected to be \$280,000.

Contingencies

Under the School District Bond Guarantee Program the Wyoming State Loan and Investment Board approved the guarantee of approximately \$102.3 million of bonds by the State through the year ended June 30, 2006. The State approved the following bonds as of June 30, 2006:

School Districts Approved	Date Approved	Amount Approved	Outstanding Bond		Available for Future
			Principle		Guarantee
Albany County School District #1	February 6, 2003	\$ 6,015,000	\$ 1,910,000		
Big Horn County School District #3	June 14, 2001	2,310,000	1,710,000		
Campbell County School District #1	June 6, 1996	22,000,000	3,395,000		
Fremont County School District #1	October 4, 2001	6,000,000	5,120,000		
Fremont County School District #2	April 3, 2003	795,000	525,000		
Fremont County School District #6	March 5, 1998	1,435,000	650,000		
Fremont County School District #14	May 1, 1996	359,000	50,000		
Fremont County School District #24		1,805,000	320,000		
Fremont County School District #25		5,680,000	2,840,000		
Hot Springs Co. School District #1	February 6, 2003	4,200,000	2,520,000		
Laramie County School District #2	August 15, 2003	2,060,000	1,630,000		
Lincoln County School District #1	June 2, 2005	3,845,000	2,745,000		
Lincoln County School District #2	October 1, 1998	2,250,000	775,000		
Lincoln County School District #2	August 15, 2003	2,590,000	1,890,000		
Platte County School District #1	December 9, 1999	6,000,000	3,550,000		
Platte County School District #1	November 7, 1996	3,000,000	1,350,000		
Sweetwater County School District #2	May 8, 1998	18,200,000	11,950,000		
Sweetwater County School District #2	February 6, 2003	4,460,000	2,585,000		
Teton County School District #1	April 8, 2004	3,480,000	1,205,000		
Uinta County School District #4	February 6, 2003	2,545,000	910,000		
Washakie County School District #2	February 4, 1999	500,000	305,000		
Weston County School District #1	June 1, 2000	1,870,000	1,840,000		
Weston County School District #7	June 1, 2000	255,000	225,000		
Weston County School District #7	March 5, 1998	630,000	120,000		
		\$ 102,284,000	\$ 50,120,000	\$	249,880,000

The legislature has placed a \$300 million cap under the School District Bond Guarantee Program, of which \$249,880,000 is still available as noted above. This guarantee program only applies to refunding issues for bonds issued by school districts on or before November 1, 2001 and no longer applies to original issues after this date.

Wyoming Statute 35-11-1414, *Water Pollution from Underground Storage Tanks Corrective Action Act of 1990*, requires that the State establish a corrective action and financial responsibility account which is funded by mineral severance taxes as well as certain registration fees. In addition, this statute requires the Department of Environmental Quality to establish a prioritized list of sites contaminated by tanks and to take corrective action. As of June 30, 2006, 1,563 contaminated sites have been identified and 760 have been resolved. The State remediates contaminated sites as funding allows, and the statute limits the State's liability for clean-up costs to amounts available in the corrective action accounts. This liability totals \$12,900,447 at June 30, 2006. Management believes that the ultimate costs to remediate the known contaminated sites will exceed the amounts available in the corrective action accounts. However, given the statutory limitation on the State's responsibility for remediation, liabilities beyond the amounts held in the corrective action accounts have not been recorded. The State intends to conduct a program review and actuarial study to determine the potential clean-up costs associated with sites encompassed by the statute. Until such studies have been completed, the ultimate cost of remediation of contaminated sites cannot be determined.

The State is also a party to various legal proceedings arising in the normal course of business. The State believes that the outcome of these matters will not have a material adverse impact on the State's financial position or results of operations.

Wyoming Retirement System

The Legislature has committed to funding the un-funded actuarial liabilities of the Wyoming Judicial Retirement Plan and the Wyoming Law Enforcement Retirement Plan as of plan implementation. The un-funded value of the state obligation as of January 1, 2006, was \$24,107,143. The 2006 Legislature appropriated funding to pay this balance off beginning July 1, 2006.

Wyoming Community Development Authority

At June 30, 2006, WCDA was committed to purchase single-family mortgages aggregating approximately \$67,269,000. In addition, at June 30, 2006, WCDA had committed approximately \$7,673,384 for other project mortgages to be funded through federal programs or housing trust funds.

The WCDA has variable rate bonds outstanding in the 1978 Indenture of \$52,545,000 and in the 1994 Indenture of \$79,900,000. These bonds are subject to tender at par for repurchase by WCDA at the option of the bondholders; however, WCDA may remarket these bonds if they are tendered by the bondholders. As of June 30, 2006, \$6,000,000 of the variable rate debt is subject to repurchase directly by WCDA, and \$92,445,000 of the repurchase commitment has been assumed by Westdeutsche Landesbank Girozentrale and \$34,000,000 of the repurchase commitment has been assumed by State Street Bank, through a standby bond purchase agreement. Under these agreements, the Banks will purchase any bonds tendered by bondholders and will adjust the interest rate associated with any un-remarketed bonds to a Bank rate.

Wyoming Business Council

According to State statute, the Council shall exist until July 1, 2008. Upon termination of the Council, all its rights and properties shall pass to and be vested in the State. There is no guarantee that the Legislature will extend the termination date.

Note 15 Subsequent Events

Wyoming Community Development Authority

On July 26, 2006 the Authority issued \$50,000,000 of bonds under the 1994 Indenture. Prior to June 30, 2006, the Authority had entered into an interest rate swap agreement, with a calculation starting effective date of July 26, 2006, in connection with the \$10,000,000 variable rate debt portion of the \$50,000,000 issued.

Wyoming Pipeline Authority

Subsequent to June 30, 2006, the Authority received \$300,000 from a natural gas pipeline company as compensation for its role and assistance in promoting a new natural gas pipeline project on its behalf.

Wyoming Business Council

The Council has entered into various agreements subsequent to June 30, 2006, with vendors primarily for marketing, public relations and promotion services and to cities, towns, counties and joint powers boards for economic development infrastructure projects during the period July 1, 2006 through December 31, 2009. These agreements are valued at up to but no more than \$19,940,972. These agreements will be funded by a combination of State appropriations and Federal revenues.

The Council distributed \$1,065,755 subsequent to June 30, 2006, out of the Economic Development Fund for loans approved but undistributed as of June 30, 2006.

Subsequent to June 30, 2006, the Council approved \$617,000 of loans under the bridge loan provision of the Wyoming Partnership Challenge Loan Program. These loans will be distributed out of the Economic Development Fund.

Required Supplementary Information

Budgets

The Legislature appropriates substantially cash basis budgets for a majority of the funds at the program level (administration, revenue division, investigations, etc.) within an agency. The State budget office maintains budgets for budgeted funds at the series level (personnel services, support services, etc.) within a program. Agency budget analysts are allowed to transfer appropriations from one series to another series within an agency's program but the Governor must approve all changes in appropriations at the program level. The State's legal level of budgetary control is at the program level.

The Budget Statements that are presented for the Special Revenue Funds represent legally adopted budgets for those funds who had current year budgetary activity. There were Special Revenue Funds—Statutory Reserve Account Fund, GAAP Holding Fund, School Debt Service Assistance Fund, Farm Loan Revenue Fund, Omnibus Land Fund and the Oil Surcharge Conservation Fund, that had either no activity or no current budget year activity. All budgets presented are on a biennial basis except the Game and Fish Fund, the Wyoming Wildlife Fund, and the Wyoming Wildlife Trust fund, as these funds operate on annual budgets, as the Game and Fish Commission approves these budgets annually.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation, is employed for governmental fund types. Encumbrances outstanding at June 30, 2006, for which the goods or services have not been received, are shown as a reservation of fund balance.

Reconciliation from the Budgetary Basis of Accounting to the GAAP Basis

	General Fund	Foundation Program Fund	Legislative Reserve Fund
Budgetary Basis Excess (Deficit)			
Revenues over (under) Expenditures	\$ 578,062,638	\$ 92,983,354	\$ 410,623,323
Changes in certain revenue and expenditure accruals	(84,228,069)	(38,707,768)	40,643,496
Revenue and/or Expenditures from previous biennium budgets	2,690,689	(5,409,780)	(5,303,583)
Encumbrances as of June 30, 2006	59,617,878	7,518,587	1,028,263
Non-budgeted funds	(452,773,549)	(3,935,008)	47,965,161
GAAP Basis Excess (Deficiency) of Revenues and Other Financing Sources over (Under) Expenditures and Other Financial Uses	\$ 103,369,587	\$ 52,449,385	\$ 494,956,660
Net Change in Fund Balance:			
Year ended June 30, 2005	\$ 252,229,627	\$ 48,611,611	\$ (304,810,594)
Year ended June 30, 2006	(148,860,040)	3,837,774	799,767,254
	\$ 103,369,587	\$ 52,449,385	\$ 494,956,660

Supplemental appropriations and additional appropriations approved by the Governor are included in the column titled "B11's & Supplemental Budget". In the budget and actual statements, encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded as expenditures and liabilities in order to reserve that portion of the applicable appropriation, is employed for budgetary control purposes. Some unencumbered appropriations lapse at the end of each biennium. Encumbrances are reported as a reservation of fund balance and carried forward for use in future years. Revenue budgets are not legislatively established but are determined by individual agencies or the Consensus Revenue Estimating Group.

Wyoming Department of Transportation Infrastructure Using Modified Approach

The Wyoming Department of Transportation (DOT) accounts for its infrastructure assets using the modified approach. The infrastructure consists of the road subsystem and the bridge subsystem.

DOT manages its road network with a pavement management system developed by the Department. A consulting firm is contracted to collect the data. The pavement condition is rated in three areas: ride, rutting, and cracking. The ride is measured by suspension movement using an index called the present surface index (PSI). The rutting is measured using the height difference between the lane center and each wheel path of a cross section of the road to determine the rut index (RUT). The cracking measures the width and frequency of the cracks to establish the pavement condition index (PCI). A composite rating is derived from the three condition ratings called the pavement serviceability rating (PSR). The pavement management system establishes a PSR on a scale from 0 to 5 for each road section with the following categories: excellent 5.0 to 3.5, good 3.5 to 3.0, fair 3.0 to 2.5 and poor 2.5 to 0. It is DOT's policy to maintain its National Highway System (NHS) at an average rating of 3.25 (good) for the NHS.

system as a whole and its Off the National Highway System (Non-NHS) at an average rating of 3.00 (fair) for the Non-NHS system as a whole. Each road section has data collected every other year. The road subsystem condition assessment is done every year.

As of September 30, 2005, the overall PSR for the NHS was 3.45 and Non-NHS was 3.13. As of September 30, 2004, the overall PSR for the NHS was 3.46 and Non-NHS 3.16. As of September 30, 2003, the overall PSR for the NHS was 3.48 while the Non-NHS was 3.14. The number of miles for NHS and Non-NHS with excellent to good condition and fair to poor condition are as follows:

PSR Condition Rating	NHS						NON-NHS					
	2003			2004			2003			2004		
	# of		# of	# of		# of	# of		# of	# of		# of
	Miles	Percent		Miles	Percent		Miles	Percent		Miles	Percent	
Good to Excellent	1,043	35.3%	1,885	63.8%	1,887	63.8%	1,448	40.8%	1,544	43.5%	1,444	40.7%
Poor to Fair	1,912	64.7%	1,070	36.2%	1,069	36.2%	2,101	59.2%	2,006	56.5%	2,103	59.3%
	2,955	100.0%	2,955	100.0%	2,956	100.0%	3,549	100.0%	3,550	100.0%	3,547	100.0%

The Department uses a comprehensive bridge management system (PONTIS) to assist in managing the State's bridges. Each bridge is inspected at least once every two years. This inspection measures, rates, and records the required National Bridge Inventory (NBI) items, including dimensions, clearances, alignment, waterway data and structural condition. The structural condition is evaluated by using structural elements. Each component of the bridge (girders, deck, railing, columns, piling, etc.) is assigned an element and the condition of each element is evaluated based on several condition assessments. The element data is converted to NBI ratings using a conversion program. The structure's NBI data is then used to determine its sufficiency rating. The sufficiency rating is calculated by the Federal Highway Administration, and bridges with a sufficiency rating of 80 or less and classified as structurally deficient and/or functionally obsolete are put on the Federal Highway Administration Selection List. Functional obsolescence is a measure of the suitability of the bridge to provide for requirements of traffic both on and under the structure. Structural deficiency is a measure of the condition of the structural elements and the ability of the bridge to carry the anticipated loads. Bridges appearing on the Selection List are considered deficient, whereas those not on the lists are considered acceptable. The bridge subsystem condition assessment is done every year. The Department of Transportation's policy is to maintain 83% of its NHS bridges and 80% of Non-NHS bridges in acceptable condition.

Using the BMS/NBI conversion program, the NBI data supplied to the Federal Highway Administration results in the following Selection List Condition Rating for the last three fiscal years:

Selet List Condition Rating	NHS						Non-NHS					
	2003		2004		2005		2003		2004		2005	
	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent
Acceptable	1,221	95.7%	1,223	96.1%	1,224	96.2%	608	92.0%	612	92.4%	612	93.0%
Deficient	55	4.3%	50	3.9%	49	3.8%	53	8.0%	50	7.6%	46	7.0%
	1,276	100.0%	1,273	100.0%	1,273	100.0%	661	100.0%	662	100.0%	658	100.0%

The Department estimated maintenance and preservation expenditures on infrastructure assets of \$338.7 million for the year ended September 30, 2005. Actual expenditures on the budgetary basis on infrastructure for maintenance and preservation were \$334.5 million, a difference of \$4.2 million. The difference is due to projects that were let late in the current fiscal year and work was not started on these projects until the next year.

Estimated and actual amounts used to maintain or preserve the Department's infrastructure systems at the Department's target PSR ratings for the past four years is as follows:

For the year ended September 30	Estimated		Actual	
	Road Network	Bridges	Road Network	Bridges
2002	292.6 million	14.0 million	307.2 million	22.5 million
2003	298.9 million	19.8 million	327.9 million	18.8 million
2004	325.1 million	22.7 million	323.5 million	13.4 million
2005	320.4 million	18.3 million	320.7 million	13.8 million

Non-Major Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Environmental Quality Fund-This fund is used to account for fees, fines, penalties, forfeitures, and grants received which are restricted for use in the reclamation of the environment.

Board & Regulatory Fund-This fund is used to account for the licensing fees paid by professionals as well as the related expenditures of regulating the specific professionals.

Game and Fish Fund-This fund is used to account for all revenues, which are restricted for the purpose of habitat, recreational facility, wildlife conservation and enhancement.

Statutory Reserve Account Fund-This fund is used to account for the first \$46,220,000 diversions from the fund balances of the GAAP Holding Fund, the REBBA Fund and the GAAP II Fund as of June 30, 1996.

GAAP Holding Fund-This fund is used to account for revenues, which were diverted when the State switched to the GAAP basis of accounting and related appropriation.

Special Projects Fund-This fund is used to account for revenues for conferences and services, as well as the related expenditures, which are restricted for use in special projects.

Community College Grants Fund-This fund is used to account for mineral severance tax, which is granted to community colleges for emergency repairs.

School Debt Service Assistance Fund-This fund is used to account for appropriations from the school district capital construction fund, which are restricted for the purpose of grants for paying debt service at school with below average property tax receipts.

Water Fund-This fund is used to account for mineral severance tax revenue which are restricted for the purpose of maintaining and rehabilitating current water facilities, capital construction, and fees received for water sales and storage at Fontenell, Sheridan and Palisades and the related costs of providing these services.

Workforce Development Fund-This fund is used to account for expenditures relating to workforce development activities for the Department of Workforce Services.

Mineral Royalties Fund-This fund is used to account for mineral royalties, which are restricted for the specific purpose of school capital construction.

Government Royalty Distributions Fund-This fund is used to account for royalties received on mineral production, which is restricted for grants and loans to municipalities, local governments, counties and special districts.

Farm Loan Revenue Fund-This fund is used to account for revenues received from farm loans, which are restricted for distribution to specific funds.

Farm Loan Loss Reserve Fund-This fund is used to account for a percentage of farm loan revenue, which is restricted for the repayment of defaulted loans and to pay the administrative and legal expenses of the Farm Loan Board in making collections on defaulted loans and foreclosing mortgages.

State Revolving Fund (SRF)-This fund is used to account for federal grants from the U.S. Environmental Protection Agency; state funds from the Department of Environmental Quality (DEQ) corrective action account and from SRF loan repayments, which were to DEQ for water pollution control projects.

Miners Hospital Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the Miner's Hospital.

Omnibus Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the establishing, maintaining and support of charitable, educational, penal and reform institutions.

Donations and Bequests Fund-This fund is used to account for bequests and donations made for specific purposes.

Wyoming Wildlife Fund-This fund is for payments made by the State for the purpose of enhancing Wyoming wildlife resources.

Endowment Fund-This fund is used to account for the Endowment Funds.

Oil Surcharge Conservation Fund-This fund is used to account for fines and forfeitures charged to Mobil Oil, Texaco, Belridge, Palo Pinto, Stripper Wells, Diamond Shamrock and Exxon, which are required to be used to help conserve energy through special grant programs.

State Land Fund-This fund is used to account for land which was donated to the State and the land income, which is restricted to establishing, maintaining and supporting public buildings, fish hatcheries and various State institutions.

Flex Benefit Program Fund-This fund is used to account for payments made by state employees for the Flex Benefit Program and subsequent reimbursement of those payments to state employees.

DEBT SERVICE FUND

Debt Service Funds are used to account for the accumulation of, and the payment of, general long-term principal and interest.

CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

PERMANENT TRUST FUNDS

Permanent Trust Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Wyoming Wildlife Trust Fund-This fund is used to account for assets of a trust agreement. The interest on this fund is restricted for the purpose of enhancing Wyoming wildlife resources.

Montgomery Home for the Blind Fund-This fund is used to account for assets of a legal trust agreement. The income from this fund is restricted for the purpose of establishing, maintaining and supporting a school for blind individuals.

Wyoming Tobacco Settlement Fund-This fund is used to account for assets of the Tobacco settlement. The income from this fund is restricted for the purpose of improvement of the health of Wyoming' citizens.

Wyoming Military Assistance Trust Fund-This fund is used to account for appropriations for the military assistance. The income from this fund is restricted for the purpose to alleviate financial hardships faces by various military members and their families.

Wyoming Cultural Trust Fund- This fund is used to account for appropriations for the Wyoming Cultural Trust Fund. The income from this fund is restricted for the purposes to preserve, promote and enhance the unique cultural heritage of the Wyoming citizens.

Sundry Trust Funds- This fund is used to account for appropriations for various trust funds. The income from this fund is restricted for the purposes of the Trust Funds.

PROPRIETARY FUNDS

NON-MAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprise-where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Liquor Commission Fund-This fund is used to account for the operation of the State Liquor Commission, which purchases and sells alcohol products to businesses throughout the State.

Canteen Fund-This fund is used to account for the purchase and sale of consumable goods to residents at the State institutions.

Subsidence Insurance Fund-This fund is used to account for insurance premiums received and claims payments made for house and land subsidence in subsurface mining areas. (Note that claims payments are currently being made from a federal grant in another fund. This fund is currently only receiving premiums but it is the goal of the federal program to eventually make this program self sufficient.)

Honor Farm Agricultural Sales Fund-This fund is used to account for the revenues and expenses of producing and selling agricultural products to State institutions and other consumers by the Honor Farm.

Wyoming Health Insurance Fund-This fund is used to account for premiums received from residents unable to obtain health insurance and the expense of purchasing insurance for these residents.

Unemployment Compensation Fund-This fund is used to account for premiums and claims payments made for the State's unemployment program.

INTERNAL SERVICE FUNDS

The Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis.

Computer Technology Fund-This fund is used to account for the activities of the Computer Technology Division, which provides computer services to State agencies.

Motor Vehicle Fund-This fund is used to account for the activities of the Motor Vehicle Division, which provides transportation services to State agencies.

Central Duplicating Fund-This fund is used to account for the activities of the Central Duplicating Division, which provides printing, duplicating service as well as copier rental to State agencies.

Telecommunications Fund-This fund is used to account for activities of the Telecommunications Division, which provides telecommunication services to State agencies.

Group Insurance Fund-This fund is used to account for the activities of the Group Insurance Board, which provides insurance coverage to State employees.

Wyoming Surplus Property Fund-This fund is used to account for the activities of the Surplus Property Division, which collects, distributes, and sells surplus property to Federal, State and Local governments.

Personnel/Training Fund-This fund is used to account for the training classes and services provided by the State's Personnel Division.

State Self Insurance Fund-This fund is used to account for the activities of the State's Self Insurance Pool which insures agency property against theft and damage.

Wyoming Building Corporation-This fund is used to account for the activities of the Wyoming Building Corporation, a blended component unit of the State, which finances, owns and operates real and personal property used by the State.

FIDUCIARY FUNDS

PENSION TRUST FUNDS

Pension Trust Funds are used to account for the assets held by a government as trustee for employee retirement systems.

Public Employees Pension Plan-This fund is used to account for the activities of the Wyoming Public Employee Retirement System.

Wyoming State Highway Patrol, Game and Fish Warden, and Criminal Investigator Retirement Plan-This fund is used to account for the activities of the Wyoming State Highway Patrol, Game and Fish Warden, and Criminal Investigator Retirement System.

Volunteer Firemen's Pension Plan-This fund is used to account for the activities of the Volunteer Firemen's Retirement System.

Paid Firemen's Pension Plan A-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired prior to July 1, 1981.

Paid Firemen's Pension Plan B-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired after July 1, 1981.

Wyoming Judicial Retirement Plan-This fund is used to account for the activities of the Judge's Retirement System.

Wyoming Law Enforcement Retirement Plan-This fund is used to account for the activities of the Wyoming Law Enforcement Retirement Plan.

457 Plan-This fund is used to account for administration of an IRC457 deferred compensation plan.

PRIVATE-PURPOSE TRUST FUNDS

Private-Purpose Trust Funds are used to report any trust agreement not properly reported in a pension trust fund or investment trust fund.

Unclaimed Property Fund-This fund is used to account for property for which the owner is unknown. The State is obligated to maintain possession of the property until claimed.

College Savings Fund-This fund is used to account for the State's administration of an IRC529 qualified state tuition program.

AGENCY FUNDS

Agency Funds are used to account for assets that a government holds on behalf of others as their agent.

Treasurer's Agency Fund-This fund is used to account for funds held by the Treasurer's Office on behalf of citizens, counties and other municipalities.

Department of Revenue Fund-This fund is used to account for the receipt of the different taxes and the related disbursement to municipalities of these taxes.

Funds Held for Individuals-This fund is used to account for the various State agencies holding assets on behalf of individuals.

State Lands Fund-This fund is used to account for assurance deposits place for the use of public lands and funds held for other entities.

Other Agency Funds- This fund is used to account for the activity within the County Predatory Control Fund, State Park Damage Deposit Fund, Adjutant General Fund, and the Environmental Cash Bond Fund.

STATISTICAL SECTION

This part of the State of Wyoming's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the primary government's overall financial health.

Contents	Page
Financial Trends	184
<i>These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.</i>	
Revenue Capacity	190
<i>These schedules contain information to help the reader assess the government's most significant <u>own</u> source revenues. The three most significant own source revenues for the State of Wyoming include: sales and use tax, mineral severance taxes and property tax collected and designated for the state's School Foundation Program.</i>	
Debt Capacity	196
<i>These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.</i>	
Demographic and Economic Information	200
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.</i>	
Operating Information	204
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.</i>

OTHER WYOMING FACTS

Important Dates

1867 – Wyoming's first coal mine in Carbon.

1868 – Wyoming became a territory, and the first state to give women the right to vote.

1872 – Yellowstone the first official National Park.

1884 – First settlers arrived in Jackson Hole.

1890 – Wyoming became the 44th state.

1890 – Wyoming's present constitution was adopted.

1903 – Wyoming's first State Fair was held in Douglas.

1906 – Devils Tower was designated as the first National Monument.

1925-1927 – Wyoming's first female Governor, Nellie Tayloe Ross.

1994 – Wyoming leads the country in coal production with 3 million tons per week.

Geography

Area: 97,818 square miles

Highest Elevation: Gannett Park - 13,804 ft.

Lowest Elevation: Belle Fourche River – 3,099 ft.

State Motto – Equal Rights

State Bird – Western Meadowlark

State Flower – Indian Paintbrush

State Nickname – Equality State

State Tree – Cottonwood

State Flag – A bison on a blue field bordered in white and red

ACKNOWLEDGEMENTS

The CAFR Division of the State Auditors Office prepares the State of Wyoming Comprehensive Annual Financial Report. Staff of the division for the fiscal year 2006 report includes:

Thomas E. Rowe
Barbara Price

Jeanne Hartman
Dale Vanlandingham

Special thanks are also extended to Messrs Robert Dahill, Patrick McGuire, Wayne Herr, Ken Dugas and staff of McGee, Hearne & Paiz, LLP, staff of the State Treasurers Office, the Department of Audit and financial management personnel throughout Wyoming State Government. Preparation of this report would not have been possible without the efforts of these individuals.
