December 18, 2015

TO: The Honorable Matthew H. Mead, Governor,
Members of the Legislature, and the
Citizens of the State of Wyoming:

It is my privilege to present the Comprehensive Annual Financial Report (CAFR) of the State of Wyoming as of and for the fiscal year ended June 30, 2015. In accordance with law (W.S. 9-1-403(a)(v)) the State Auditor provides annual financial statements prepared in conformance with generally accepted accounting principles (GAAP).

The CAFR is the primary means of reporting the State of Wyoming's financial activities. McGee, Hearne & Paiz, LLP, certified public accountants, has independently audited the State of Wyoming's financial statements. The independent audit is performed annually to provide reasonable assurance that the financial statements of the State of Wyoming are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the State of Wyoming's financial statements for the fiscal year ended June 30, 2015 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of the CAFR.

Management's discussion and analysis (MD&A) immediately follow the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The CAFR consists of representations by the management of each State entity concerning the finances of the State of Wyoming. Responsibility for both the accuracy of the data and the completeness and reliability of the information, including all disclosures, rests with the State. To provide a reasonable basis for making these representations, the State has established an internal control framework that is designed both to protect the State's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the State of Wyoming's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the State's framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. This is the established and accepted standard. The financial statements have been prepared primarily from accounts and records maintained by the State Auditor. To the best of my knowledge and belief, this financial report is complete and reliable in all material respects.

The independent audit of the financial statements of the State of Wyoming is part of a broader, federally mandated "single audit" designed to meet the special needs of federal grantor agencies. The standards governing single audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the State of Wyoming's separately issued Compliance Report.

Profile of the Government

On July 10, 1890, the State of Wyoming, known as the 'Equality State,' was the 44th state admitted to the Union. Located in the Rocky Mountain section of the western United States, Wyoming is bounded on the north by Montana, on the east by South Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. It is the ninth largest state in the United States, containing 97,914 square miles. The 2010 Census put Wyoming's population at 563,626. Wyoming is home to two of the country's foremost national parks, Yellowstone National Park and Grand Teton National Park, as well as the first designated national monument, Devil's Tower.

The executive branch of Wyoming government is comprised of a Governor, Secretary of State, State Auditor, State Treasurer, and the Superintendent of Public Instruction, all of whom are elected by statewide vote every four years. The legislative branch of government is comprised of 30 state senators and 60 state representatives. The term of office for senators is four years, with 15 of the members being elected at a general election at which a President of the United States is elected, and the balance are elected at the next general election. The entire body of the House of Representatives is elected every two years for a two-year term.

The State of Wyoming provides a full range of services to its constituents. The principal departments of Wyoming Government are: Administration and Information, Agriculture, Attorney General, Department of Audit, Corrections, Engineer, Environmental Quality, Family Services, Game and Fish, Health, Revenue, State Parks and Cultural Resources, Workforce Services and Enterprise Technology Services.

Among the some 21 separate operating agencies are seven entities which are legally separate but considered as component units of the State of Wyoming, as the State has significant operational and/or financial relationships with them. Seven of the component units' financial data are reported in columns separate from the financial data of the primary government (the State). Those organizations are the University of Wyoming, Department of Transportation, Wyoming Community Development Authority, Wyoming Pipeline Authority, Wyoming Infrastructure Authority, Wyoming Business Council, and Wyoming Lottery Corporation. Additional information on all seven of these legally separate entities can be found in Note 1 in the notes to the financial statements.

Budgetary Process

The biennial budget serves as the foundation for the State of Wyoming's financial planning and control. Wyoming statutes require the Governor to prepare and submit a biennial budget to the Legislature every even-numbered year. Budgets are prepared for a biennial period and are augmented, if necessary, with supplemental appropriations during the legislative sessions conducted in odd-numbered years. Budgets are adopted at the program level by agency. The Legislature may add, change, or delete any budget items proposed by the Governor. The Governor may authorize changes and revisions to approved budgets during the budget term, including increasing appropriations in the event of federal revenue above the initial budget approved by the Legislature. Budget-to-actual comparisons are provided in the CAFR for each individual governmental fund for which an appropriated biennial budget has been adopted. For the General Fund and the Foundation Program Fund, this comparison is presented as part of the Required Supplementary Information. For governmental funds other than the major funds, this comparison is presented in the Supplementary Information section of the CAFR.

Long Term Financial Planning

The State of Wyoming incorporates revenue forecasting for two principal areas: general government operations and public school financing.

For general government the State utilizes the efforts of the Consensus Revenue Estimating Group (CREG). CREG was created by mutual informal agreement between the executive and legislative branches in 1983 as a result of the need for reliable and consistent revenue estimates which could be used by the executive branch and the Legislature in the budgeting process. CREG is composed of members from various professional fields and governmental organizations, including legislative and executive branch representatives.

The CREG Report contains the following information:

- (i) Projections for major revenue sources to the General Fund are detailed including sales and use taxes, pooled interest, Permanent Wyoming Mineral Trust Fund interest, and severance taxes.
- (ii) The severance tax forecast details projected production, price and expected severance tax receipts for each major mineral and the report shows expected distributions of severance taxes to each fund or account that receives the taxes;

(iii) The federal mineral royalty forecast also details projected production, price and expected royalties for oil, natural gas and coal and details the expected distribution of royalties to each fund or account that receives the royalties;

(iv) The report also projects income derived from investment of the Common School Permanent Land Fund and projects total State-assessed valuations to project the amount of revenue generated by the assessment of twelve mills to support education.

School Finance

The Legislature is required to define the proper combination of educational goods and services every child in Wyoming should receive. The State has a continuing process to determine the resources needed to provide proper combination of educational goods and services and to ensure that school districts have adequate funding to provide those goods and services. The present day funding model is recalibrated every five years. The last recalibration was done in FY 2015 during the 2015 legislative session so the next recalibration will be done in FY 2020.

The funding model consists of three major components:

1. Legislation enacting the model. This includes the statutory language to fund schools, and an appendix, which outlines specific funding decisions made by the Legislature.
2. A set of linked worksheets which compute school and district funding allocations.
3. Additional worksheets developed by the Wyoming Department of Education to distribute funds to the school districts.

The State also has a legislatively approved plan for construction and major maintenance of State education facilities, including for the University of Wyoming.

Major Initiatives

SIPA. During the 2013 Legislative Session, legislation was enacted which created the Strategic Investment Projects Account (SIPA). The source of funding for this initiative was the excess earnings the State Treasurer's Office generated from recognized capital gains. The amount of excess earnings was limited to \$90 million. While the legislation is not specific as to what specific items may be funded, the legislation does indicate the intent is to expend these funds for "one-time" expenditures. The legislature continued deposits of unprofiled investment earnings for one time projects during fiscal year 2014 with \$45 million transferred in to the SIPA account. Funds were transferred during fiscal year 2015 to fund the new accounts created during the 2014 Legislative Session as noted below (Large Projects Account, State Facilities Construction Account and School Foundation Program Reserve Account) as well as to contribute \$13.4 million to the Gillette-Madison Project Fund which is discussed below in the Capital Projects section. The Enterprise Technology Services Department received a \$9.8 million appropriation for the Unified Network Buildout during the 2015 Legislative Session.

Large Projects Account. This account was created by legislation enacted during the 2014 Legislative Session to provide loans related to economic development projects approved by the state loan and investment board. Funding for this account was a transfer of \$25 million from SIPA. There was no additional funding committed to this account during the 2015 Legislative Session and no loans had been applied for or approved at June 30, 2015 or by the date of this letter.

State Facilities Construction Account. During the 2014 Legislative Session, legislation was enacted which created this account. The source of funding was \$20 million transferred from SIPA and \$15.7 million transferred from the General Fund for future department of health facility construction. There was no additional funding committed to this account during the 2015 Legislative Session and no construction commitments have been made as of June 30, 2015 or by the date of this letter.

Education. The Hathaway Scholarship Program. Hathaway scholarships are scholarships designed to provide an incentive for Wyoming students to prepare for and pursue postsecondary education within Wyoming. The higher education program consists of four separate merit scholarships, each with specific eligibility requirements, and a need-based scholarship for eligible students, which supplements the merit awards.

Hathaway Merit Scholarships became available for eligible recipients beginning with the class of 2006 for the fall semester. Funding: 80% of the funds appropriated for the Hathaway Scholarship Program are for the Hathaway Merit Scholarships and 20% of the funds are for Hathaway Need-Based Scholarships. Hathaway scholarships are for attendance at the Wyoming postsecondary eligible institutions. Hathaway scholarships are not entitlements, and are

subject to legislative appropriation. The Legislature has the authority to modify or terminate the Hathaway Scholarship Program at any time and to amend the requirements for eligibility.

The *School Foundation Program Reserve Account* was created by legislation enacted during the 2014 Legislative Session. The source of funding consisted of \$60 million from the General Fund and \$40 million from SIPA. The purpose of this account will be to protect the level of K-12 spending due to economic volatility. There was no additional funding committed during the 2015 Legislative Session.

Capital Projects. Major capital outlay items, which are underway or completed this fiscal year include:

- *The Science, Technology, Engineering and Mathematics (STEM) Building—UW-\$50 million.* Construction continues on the Michael B Enzi Stem building which will be contributed to the University of Wyoming upon completion.
- *Capitol Building Rehabilitation and Restoration Project-\$290 million.* Architectural design continued through fiscal year 2015 for the Capitol Building Rehabilitation and Restoration Project with expenditures totaling \$16.5 million to date. During the 2014 Legislative Session, \$259 million was appropriated from the Capitol Building Rehabilitation and Restoration Fund to the Department of Administration & Information for the Capitol Building Rehabilitation and Restoration Project to proceed with level III design and construction for renovation, rehabilitation, restoration and addition to the state capitol building, the Herschler state office building and the connection between the two buildings. An additional \$31 million was appropriated during the 2015 Legislative Session. The Capitol Building Rehabilitation and Restoration project had approximately \$131 million in cash available for the project at June 30, 2015. During each Legislative Session for 2014 and 2015, the legislature appropriated \$37,500,000 from the General Fund to the Capitol Building Rehabilitation and Restoration Fund. The State Treasurer and State Auditor are authorized to utilize interfund loans from the Permanent Wyoming Mineral Trust Fund for deposit to the Capitol Building Rehabilitation and Restoration Fund as necessary to meet appropriations from that fund and contract obligations of the Department of Administration and Information incurred for this project. There were no interfund loans outstanding at June 30, 2015. All agencies moved out of the Capitol by the beginning of December 2015 and construction is set to begin during 2016.
- *Gillette-Madison Water Project-\$217.6 million.* The State has also authorized a major water project for the city of Gillette, which is ongoing. The end result of the project will be a reliable water supply for the city. The project is being funded with grant and loan appropriations from the State as well as local government funding from a capital facilities tax. To date the State has committed approximately \$190 million from various sources which include grant funding from the budget reserve account, water development account III, general fund, abandoned mine land funds, strategic investments and project account and loan funding from the permanent mineral trust fund.

State Investments. During fiscal year 2015, the state treasurer rebalanced investment managers who went above their maximum asset allocation range. This rebalancing resulted in \$432 million of the total \$620 million generated in realized gains.

State Economy

Wyoming's economic well-being continues to depend primarily on the mineral industry. Revenues to the State of Wyoming come from severance taxes, ad valorem taxes on real and personal property, federal mineral royalties from production on federal lands in Wyoming, and sales and use taxes.

According to the publication *Economic Summary: 2Q2015* which is through the second quarter ending June 30, 2015, prepared by the Division of Economic Analysis (EA) of the Department of Administration and Information, the economic data has shown the economic recovery in the U.S. has lasted six years and continues to expand. The economy is performing well, and its prospects are good, notwithstanding the weaker performance of earlier in 2015. Job growth is robust and if the current job growth pace is sustained, the slack in the labor market will disappear and the economy will be at full employment within a year. There is little reason to believe that job growth will slow down given the recent surge in job openings and extremely low layoffs.

The Division of Economic Analysis in its report indicated that Wyoming's economy has been negatively affected by the low oil prices that continue to take their toll on the energy industry nationwide, as a result of global oversupply and weak demand. Wyoming's unemployment rate moved up to 4.1% during the second quarter of 2015, while the U.S unemployment rate fell to 5.4%. The State's pivotal industry, mining (including oil & gas extraction) suffered an annual employment contraction of 2,620 jobs or nearly 10% in the second quarter. As did other services (including

repair & maintenance) and the construction industry. Other sectors, such as leisure, hospitality, financial activities and most industrial sectors, exhibited job growth during the period. Housing and tourism industries showed continued growth while agriculture remained steady. The total taxable sales in the State, based on sales and use tax collections, decreased 13.2% from the second quarter of 2014 which was the worst performance since the great recession. This decline was largely attributable to the contraction in the mining sector which accounted for nearly two-thirds of the total decrease.

At their October 2015 revenue forecast meeting the State's revenue estimating group decreased their revenue projections for the next three years (the remainder of the 2015-2016 biennium and the 2017-2018 biennium) for the traditional spending funds (General Fund and Budget Reserve Fund) by \$617.5 million, while noting that these traditional spending funds had recognized revenue above projections for Fiscal Year 2015 by \$349.4 million, largely attributable to realized capital gains from the Permanent Wyoming Mineral Trust Fund.

For additional information on the State of Wyoming's economy, and the latest CREG revenue projections, the reader is directed to the Division of Economic Analysis (EA) of the Department of Administration and Information. The web address is <http://eadiv.state.wy.us>.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Wyoming for its CAFR for the fiscal year ended June 30, 2014. This was the eighteenth year that the State has received this prestigious award. In order to be awarded a Certificate of Achievement, the State must publish an easily readable and efficiently organized CAFR. This report must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. A copy of the GFOA certificate is included in the introductory section of the CAFR.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The CAFR represents the responsibility of the State Auditor to give the citizens of Wyoming an accurate picture of the financial condition of their State government. Great strides have been made in the past few years to improve our State's accounting and financial reporting: implementation of GAAP, preparation of the CAFR, an independent audit of our financial statements, and implementation of various Governmental Accounting Standards Board (GASB) standards. All have contributed to better financial management. My appreciation goes out to the Legislature and our staff for making these improvements possible.

In conclusion, I believe this report provides information beneficial in evaluating the financial activity of the State of Wyoming. The State Auditor's Office would like to express our appreciation to the fiscal officers and staff throughout State government for their dedicated efforts in assisting us in the completion of this report.

I would also like to express my thanks to the dedicated staff within the State Auditor's Office, who continue to take great pride in this report. I am proud to have them on my team as we reaffirm our commitment to providing the citizens of Wyoming excellence in financial reporting.

Thank you!

Respectfully submitted,

Cynthia I. Cloud, CPA

ACKNOWLEDGEMENTS

The CAFR Division of the State Auditor's Office prepares the State of Wyoming Comprehensive Annual Financial Report. Staff of the group for the fiscal year 2015 report includes:

Manager	Rhonda Harsy, CPA
Principal Accountant	Colleen Quinn, CPA
Senior Accounting Analyst	Mattie Bray, CPA
Senior Accounting Analyst	Kara Poppe
Accounting Analyst	Katie Smith
Accounting Analyst	Taylor Keast
Accounting Intern	Ethan Carlson

Special thanks are also extended to Messrs. Robert Dahill, Ken Dugas, Ms. Brandy Marrou, Ms. Stephanie Pickering, Ms. Brittany Wilson, and staff of McGee, Hearne & Paiz, LLP; staff of the State Treasurer's Office; the Department of Audit; and financial management personnel throughout Wyoming State Government. Preparation of this report would not have been possible without the efforts of these individuals.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Honorable Governor, Members of the Legislature
State of Wyoming
Cheyenne, Wyoming

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Wyoming (the "State"), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Wyoming Community Development Authority, the Wyoming Pipeline Authority, the Wyoming Infrastructure Authority, or the Wyoming Department of Transportation, which are shown as discretely presented component units. In addition, we did not audit the financial statements of the University of Wyoming Foundation (the "Foundation"), a component unit of the University of Wyoming, which is included in the balances for the University of Wyoming (the "University"), a discretely presented component unit of the State. The Foundation represents approximately 35% of the total assets and 11% of the total revenues of the University. Those statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Wyoming Community Development Authority, the Wyoming Pipeline Authority, the Wyoming Infrastructure Authority, the Wyoming Department of Transportation, and the Foundation portion of the University, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type

activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State, as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Change in Accounting Principle

As discussed in Notes 10 and 15 to the financial statements, in 2015, the State adopted new accounting guidance with the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* – an amendment of GASB 27, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* – an amendment of GASB Statement No. 68. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 17 through 31, and the Budgetary Comparison Schedules, Pension Plan Information, and Infrastructure Assets Reported Using the Modified Approach Information on pages 111 through 137 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The combining and individual nonmajor fund financial statements and the schedules of revenues and expenditures/expenses (budget and actual) on pages 139 through 203 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedules of revenues and expenditures/expenses (budget and actual) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedules of revenues and expenditures/expenses (budget and actual) are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section on pages 3 through 11 and the statistical section on pages 205 through 263 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Cheyenne, Wyoming

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The State Auditor's Office offers readers of the State of Wyoming's financial statements this narrative overview and analysis of the financial activities of the State of Wyoming for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 4-8 of this report.

Financial Highlights

Government-Wide:

- The assets and deferred outflows of resources of the State of Wyoming exceeded its liabilities and deferred inflows of resources as of June 30, 2015 by \$19.0 billion (reported as net position). GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, was implemented for the fiscal year ended June 30, 2015. This accounting change resulted in a prior period restatement which decreased the beginning net position by \$288 million. This restatement of the beginning net position along with others (totaling \$3.6 million) combined with the increase of \$502.9 million to net position for fiscal year 2015 resulted in an overall increase of \$0.2 billion from June 30, 2014 (See Note 1(F) for further details). Of this amount, \$5.4 billion is unrestricted net position that may be used to meet the government's ongoing obligations. Component units reported net position of \$7.7 billion.

Fund Level:

- As of June 30, 2015, the State of Wyoming's governmental funds reported combined ending fund balances of \$17.8 billion, an increase of \$0.4 billion.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$2.6 billion. The previously reported unassigned fund balance was \$2.5 billion. This change can be attributed to the increase of \$200 million in reserve accounts which are a part of the General Fund since implementing GASB Statement No. 54.
- All governmental funds reported a total of \$413.8 million in Deferred Inflow of Resources. Of this amount, \$317 million represented property taxes for the School Foundation Program and \$58.4 million represented sequestered federal mineral royalty revenues due from the federal government.
- The enterprise funds reported a net position at year-end of \$536.3 million, an increase of \$11.8 million from June 30, 2014.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the State of Wyoming's basic financial statements. Financial reporting is intended to provide external parties that read financial statements with information that will help them to make decisions or draw conclusions about an entity. These parties do not always have the same specific objectives. In order to address the needs of as many parties as reasonably possible, the State's annual report consists of three major sections in accordance with required reporting standards: Management's Discussion and Analysis (MD&A), the basic financial statements, and required supplemental information. The State of Wyoming's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the State of Wyoming's finances, in a manner similar to a private-sector business. The State's government-wide financial statements include the *Statement of Net Position* and *Statement of Activities*. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting.

- The purpose of the *Statement of Net Position* is to report all of the assets held and liabilities owed by the State. The State reports all of its assets held and deferred outflows of resources when it acquires ownership over the assets and reports all of its liabilities owed and deferred inflows of resources when they are incurred. The difference between the State's total assets and deferred outflows or resources and total liabilities and deferred inflows of resources is titled net position and this difference is similar to the owner's equity presented by a private-sector business.

The government-wide Statement of Net Position can be found on pages 34-35 of this report.

- The purpose of the *Statement of Activities* is to present all the revenues and expenses of the State of Wyoming. Again, the items presented on the Statement of Activities are measured in a manner similar to the approach used by a private-sector business in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the State. Revenues are recorded when earned regardless of when the cash will be received and expenses are recorded even though they may not have been paid during the current period (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide Statement of Activities can be found on pages 36-37 of this report.

Both statements report three activities:

- *Governmental Activities* – Most of the State's basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The Legislature, the Judiciary, and the general operations of the Executive departments fall within the governmental activities.
- *Business-type Activities* – The State charges fees to customers to help it cover all or most of the cost of certain services it provides. Workers' compensation and the State's unemployment compensation services are examples of business-type activities.
- *Component Units* – Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The State has 3 authorities, 1 university, 2 state agencies and 1 corporation that are reported as discretely presented component units of the State.

Fund financial statements. The major fund financial statements begin on page 38 and provide more detailed information about the State's most significant funds – not the State of Wyoming as a whole. Funds are accounting devices that the State uses to keep track of specific sources of funding and spending. Except for the General Fund, a specific fund is established to satisfy legal requirements established by external parties or governmental statutes or regulations. The State of Wyoming establishes other funds to control and manage money for particular purposes or to show that it is properly using certain resources. All of the funds of the State of Wyoming can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** Most of the State's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending.

Governmental fund financial statements consist of a Balance Sheet and Statement of Revenues, Expenditures, and Change in Fund Balances. The statements are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements. All of the State's programs are included in the governmental funds, which focus on how cash and other financial assets that can readily be converted to cash flow in and out in a short period of time. For example, amounts reported on the balance sheet include items such as cash and receivables collectable within a short period of time, but do not include capital assets such as land and buildings. Fund liabilities include amounts that are to be paid in a short period after the end of the fiscal year. The difference between a fund's total assets/deferred outflows of resources and liabilities/deferred inflows of resources is labeled as the fund balance. The unassigned portion of fund balance generally indicates the amount that can be used to finance next year's activities.

The operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid in cash, respectively, during the current period or very shortly after the end of the year. Consequently, the governmental funds statements provide a short-term view that helps determine if there are more or fewer financial resources to finance the State's programs. Because this information does not encompass the long-term focus of the government-wide statements, we provide an analysis reconciling the total fund balances to the amount of net position reported in the Statement of Net Position.

Also, there is an analysis following the Statement of Revenues, Expenditures, and Changes in Fund Balances that reconciles the change in net position of the governmental activities presented in the government-wide Statement of Activities to the change in fund balance presented in the Statement of Revenue, Expenditures and Changes in Fund Balance. These two reconciliation schedules (pages 39 and 41) provide an analysis of transitioning from modified accrual accounting (Fund Basis) to full accrual

accounting (Government-wide Basis). The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

- Capital assets used in governmental activities are not reported on governmental fund statements.
 - Internal service funds are reported as governmental activities, but reported as proprietary funds in the fund financial statements.
 - Unless due and payable, long-term liabilities, such as capital lease obligations, compensated absences, bonds payable, the net pension liability and others only appear as liabilities in the government-wide statements.
 - Certain other outflows represent either increases or decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- **Proprietary funds.** When the State charges customers for the services it provides, whether to outside customers or to other state agencies within the State, these services are generally reported in proprietary funds. Proprietary funds (enterprise and internal service) utilize accrual accounting: the same method used by private sector businesses. Enterprises funds report activities that provide supplies and services to the general public. An example is the State Workers' Compensation Insurance Fund. Internal service funds report activities that provide supplies and services for the State's other programs and activities-such as the State's Information Technology Division. Internal service funds are reported as governmental activities on the government-wide statements since their primary purpose is to support those activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise funds are broken out between major and nonmajor. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements in the supplementary information section of this report.

The basic proprietary fund financial statements can be found on pages 42-44 of this report.

- **Fiduciary funds.** The State acts as a trustee or fiduciary for its employee pension plan. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The State's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These statements include pension, investment trust, private purpose, and agency funds, which use accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent discretionary assets of the State to finance its operations.

The basic fiduciary fund financial statements can be found on pages 45-46 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 47-110 of this report.

Required Supplementary Information is presented that further explains and supports the information in the financial statements. The Required Supplementary Information includes budgetary comparisons schedules primarily prepared on a biennial basis. Also included is a discussion of the Wyoming Department of Transportation (WYDOT) and how they account for infrastructure assets using the modified approach.

Required supplementary information can be found on pages 111-137 of this report.

Other Supplementary Information includes combining statements referred to earlier in connection with nonmajor governmental, enterprise, internal service and fiduciary funds that are presented immediately following the required supplementary information.

Other supplementary information can be found on pages 139-203 of this report.

Government-Wide Financial Analysis

As noted earlier, net position, which is the residual of all financial statement elements presented in a statement of financial position, may serve over time as a useful indicator of a State's financial position. In the case of the primary government (State of Wyoming), the net position of the State is at \$19.0 billion at the close of fiscal year 2015. This was an increase of \$0.2 billion for the fiscal year. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, was implemented for the fiscal year ended June 30, 2015. This accounting change resulted in a prior period restatement which decreased the beginning net position by \$288 million. This restatement of the beginning net position combined with the increase of \$502.9 million to net position for fiscal year 2015 resulted in the overall increase of \$0.2 billion from June 30, 2014 (See Note 1(F) for further details).

The following condensed financial information was derived from the government-wide Statement of Net Position:

State of Wyoming's Net Position for Fiscal Year Ended June 30, 2015

Pension Related	-	5,139,127	-	136,541	-	5,275,668
Total Deferred Inflow of Resources	289,973,610	317,826,511	-	136,541	289,973,610	317,963,052
Net position						
Net Investment in capital assets	853,323,037	882,905,847	11,929,865	10,536,189	865,252,902	893,442,036
Restricted	11,922,955,260	12,209,751,339	484,340,625	503,106,018	12,407,295,885	12,712,857,357
Unrestricted (deficit)	5,456,015,467	5,339,482,928	28,269,491	22,696,999	5,484,284,958	5,362,179,927
Total net position	\$ 18,232,293,764	\$ 18,432,140,114	\$ 524,539,981	\$ 536,339,206	\$ 18,756,833,745	\$ 18,968,479,320

The investments in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding, is \$893.4 million. The State of Wyoming uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending. Although the State of Wyoming's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State of Wyoming's net position, \$12.7 billion, represents resources that are subject to restrictions on how they may be used. The remaining balance of unrestricted net position is \$5.4 billion.

The majority of the current assets of \$24.1 billion is comprised of various cash and pooled investments of \$21.5 billion, and accounts receivable, due from other governments and loan receivables (including interest receivable) of \$2.2 billion. The remaining amount is comprised of other assets such as inventory and prepaid expenses and amounts on deposit with the United States Treasury.

The current liabilities of \$4.1 billion are comprised of various items: \$1.5 billion is related to liabilities under security lending; \$327.7 million is related to claims and benefits payable, current portion of bonds payable and compensated absences (refer to Note 8 for additional detail); \$1.7 billion is related to various accounts payable. The amount due to component units of \$65.8 million, represents the unspent appropriations allocated to discretely presented component units. The remaining amount is made up of various other liabilities.

The majority of the long-term liabilities of \$2.1 billion is comprised of claims and benefits payable of \$1.6 billion, compensated absences of \$21 million, bonds payable of \$24 million and net pension liability of \$348.5 million. The State's estimated GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* OPEB liability is \$80.9 million. OPEB represents the State's Other Post-Employment Benefits other than pension benefits.

The State had as of June 30, 2015, deferred inflows of resources related to property taxes of \$312.7 million and related to pensions of \$5.3 million.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the State's net position changed during the fiscal year:

State of Wyoming Statement of Activities for Fiscal Year Ended June 30, 2015

The chart below represents revenues of the governmental activities for the fiscal year:

The following chart represents expenses of the governmental activities for the fiscal year:

Business-type activities

The net position of the business type activities increased by \$11.8 million during the fiscal year.

Financial Analysis of the State of Wyoming's Funds

As noted earlier, the State of Wyoming uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the State of Wyoming's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources, as stated earlier. Such information is useful in assessing the State of Wyoming's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2015, the State of Wyoming's governmental funds reported combined ending fund balances of \$17.8 billion, an increase of \$0.4 billion. Of this total fund balance, \$11.2 billion, is classified within the permanent funds as nonexpendable-corpus. The classifications of fund balance are: nonspendable, restricted, committed, assigned and unassigned. These classifications are further discussed in Note 1(E)(11) and Note 12.

General Fund. The general fund is the chief operating fund of the State of Wyoming. At the end of the current fiscal year, unassigned fund balance of the general fund was \$2.6 billion, while total fund balance was \$4.0 billion. The net change in fund balance for 2015 in the general fund was a \$250.6 million increase. The majority of the unassigned fund balance (\$2.2 billion of \$2.6 billion) is attributable to the Legislative Stabilization Reserve Fund (\$1.8 billion), and the Budget Reserve Fund (\$416 million). A more detailed comparative analysis of the activity for the General Fund can be found on pages 24-27, of this MD&A.

The State Auditor is required by statute to sweep the General Fund's unappropriated fund balance at the end of a biennium to the Legislative Stabilization Reserve Fund. Because this fund is now part of the General Fund for financial reporting purposes, these transfers will net to zero for financial reporting purposes. The State Auditor is also required by statute to sweep the Budget Reserve Fund's balance in excess of required reserves at the end of a biennium to the Legislative Stabilization Reserve Fund. Fiscal year 2015 is the first year of the biennium; therefore, no sweeps were made.

Foundation Program Fund. The fund balance at June 30, 2015 totaled \$114.7 million, a net decrease in fund balance of \$22 million. This fund carries a legislative restriction on its unobligated, unencumbered fund balance which states it shall not exceed \$100 million. In fiscal year 2015, the amount of this sweep was \$105.3 million.

Common School Land Fund. As of June 30, 2015, this fund balance totaled \$3.5 billion. This represents a net increase in nonspendable fund balance of \$135.4 million for the year.

Permanent Mineral Trust Fund. Nonspendable-corpus fund balance at June 30, 2015, totaled \$7.1 billion, a net increase in nonspendable-corpus fund balance \$138.1 million for the year.

Proprietary funds. The State of Wyoming's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

- The enterprise funds reported a net position at year-end of \$536.3 million, an increase of \$11.8 million from June 30, 2014.

General Fund Budgetary Highlights

During the 2015 Legislative General Session, the 2015-2016 Biennial Appropriations were adjusted for the General Fund totaling \$9.3 million. Major budgetary items are briefly summarized below:

- \$7.4 million for health programs;
- \$1.7 million for general government.

The total general fund revenues are presented in a pie chart on the following page to display how sources relate to total revenue. The table on the following page shows the change in 2014 and 2015 revenue sources. On pages 26-27, General Fund expenditures are similarly presented, depicting functions as they relate to total expenditures.

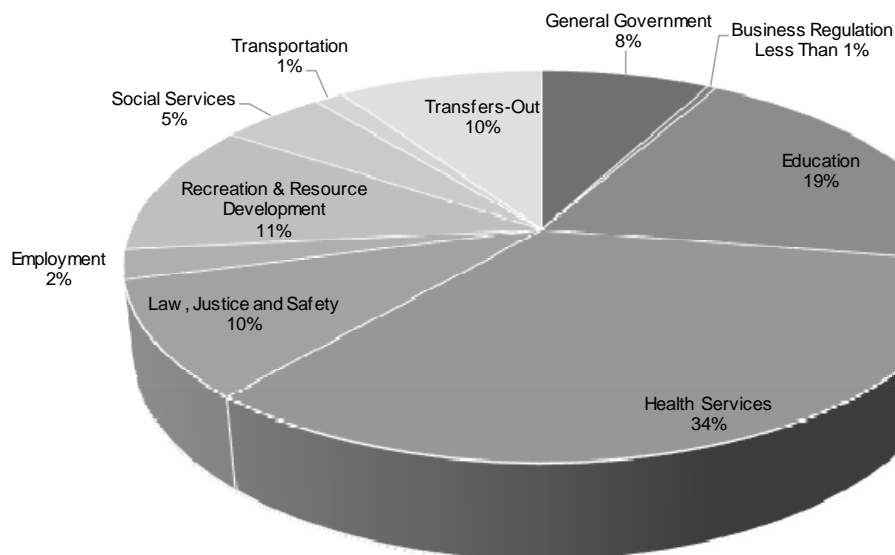

As shown in the table following, total revenues decreased overall by \$143.6 million or 5%, while other financing sources (transfers-in) decreased 15% or \$48.4 million in fiscal year 2015. Revenues received from mineral severance taxes decreased 22% while revenues from federal mineral royalties decreased 17%. Both of these decreases are due to declining energy commodity prices and production, principally coal, oil and natural gas. Another factor affecting federal mineral royalties was the federal government sequestering approximately 7.2% of each distribution for federal fiscal year 2015 (September through October). The percentage of each distribution sequestered will decrease to 6.8% for federal fiscal year 2016. In November, the federal government paid the sequestered amounts, which totaled approximately \$63.9 million for fiscal year 2015. These amounts were recognized as revenue for fiscal year 2015. The decrease in other financing sources (transfers-in) is due to less transfers required by the Legislature.

**General Fund Revenue and Other Financing Sources
for Fiscal Year Ended June 30, 2015**

	FY14	FY15	Increase (Decrease)	Percent Change

**Expenditure & Other Financing Uses-General Fund
Fiscal Year 2015**

As shown in the table following, overall expenditures increased by 3% or \$80.6 million and other financing uses also decreased by 19% or \$58.1 million in fiscal year 2015. Recreation and resource development expenditures increased \$27.7 million due to AML (Abandoned Mines Lands) funding that is due to the University of Wyoming at the end of the fiscal year. The change in other financing sources (transfers out) was a result of less transfers that were required by the Legislature.

Capital Asset and Debt Administration

Capital Assets. The State of Wyoming's net investment in capital assets, for its governmental and business type activities as of June 30, 2015, amounts to \$893.4 million (net of accumulated depreciation and debt). This investment in capital assets includes land and improvements, buildings and improvements, furniture and equipment, intangibles, and construction in progress.

Major capital asset events during the current fiscal year included the following:

- Architectural design continues for the Capitol Building and Herschler renovation, in the process of preparing the buildings for construction by beginning agency re-location with construction scheduled to begin in fiscal year 2016. Total accumulated expenditures totaled \$16.5 million at the close of the fiscal year.
- Continuing construction on the Wyoming Boys School classroom with total accumulated expenditures of \$5.7 million at the close of the fiscal year.
- Continuing construction on the Military Department Afton Readiness Center with total accumulated expenditures of \$10.8 million at the close of the fiscal year.
- Completion of Military Department Camp Guernsey Army Airfield land improvements – 9.6 million capitalized.
- Construction continues on Michael B Enzi Stem building to be contributed to University of Wyoming upon completion – total accumulated expenditures were \$35.8 million at the close of the fiscal year.
- Internally Generated Software Projects for various agencies - \$2.8 million capitalized and \$22.4 million in process at the close of the fiscal year.

More detailed information about the State's construction commitments is presented in Note 13 to the basic financial statements, on page 106.

At the end of the fiscal year 2015, the State had invested \$920.1 million, net of accumulated depreciation, in a broad range of capital assets (see the table below). The accumulated depreciation as of June 30, 2015, totaled \$604.3 million.

Capital Assets, Net of Depreciation for Fiscal Year Ended June 30, 2015

Additional information on the State of Wyoming's capital assets can be found in Note 5 on pages 76-77 of this report.

The Wyoming Department of Transportation (WYDOT), a component unit of the State, is responsible for the majority of the infrastructure (consisting of roadways and bridges). As allowed by GASB Statement No. 34, WYDOT has adopted an alternative process for recording depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, WYDOT expenses certain maintenance and preservation costs and does not report depreciation expense. More detailed information about the WYDOT capital assets and the reporting criteria are available in the Wyoming Department of Transportation Component Unit Financial and Compliance Report as of September 30, 2014 and on pages 131-133 of this report. WYDOT's goal is to maintain 85% of its National Highway System bridges and its non-National Highway System bridges in Excellent, Good, and Fair condition (i.e. 15% or less in Poor condition). In 2014, 96.1% of all NHS bridges were rated fair or above and 93% of non NHS bridges were rated fair or above. WYDOT's policy is to maintain its National Highway System streets at an average rating of 3.25 (good) and its non-National Highway System streets at 3.00 (fair), on a 0-5 point scale. In 2014, the National Highway System streets rated 3.52 and the non-National Highway System rated 3.27.

WYDOT estimated maintenance and preservation expenditures on infrastructure assets of \$390.8 million for the year ended September 30, 2014. Actual expenditures on infrastructure for maintenance and preservation were \$388.7 million, a difference of \$2.1 million. The difference is due to the size and length of the construction projects.

Bonded Debt

The State did not issue any new debt for fiscal year 2015 either as new or as refunding of old debt.

At the end of the current fiscal year, the State of Wyoming had total bonded debt outstanding of \$26.4 million. This amount represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

The State of Wyoming has a debt limitation for revenue bonds relating to capital construction in the amount of \$105 million, which is significantly in excess of the outstanding revenue bond debt.

Additional information on the State of Wyoming's long-term debt can be found in Note 8 on pages 80-85 of this report.

Economic Outlook and Condition

National Economy

According to Moody's Analytics, the currencies of commodity exporting countries have weakened sharply over the past year amid slumping commodity prices, concern about China's deteriorating economic outlook, and the anticipation of normalization in U.S. monetary policy. Capital has been flowing out of many emerging market countries and their equity markets have plummeted. However, a resilient U.S. expansion will somewhat help bolster global growth. The regional sources of global growth will also be more balanced compared with previous years when the euro area stagnated or fell back into recession.

The economic recovery in the U.S. has lasted six years and continues to expand. The economy is performing well, and its prospects are good, notwithstanding the weaker performance earlier this year. Job growth is robust at over 200,000 per month. Despite the current solid growth, which is rapidly absorbing the unemployed, labor market slack remains. This includes the number of long-term unemployed, those part-timers who want to work full time, and those who have stepped out of the workforce believing there are no suitable jobs. However, if the current job growth pace is sustained, the slack in labor market will disappear and the economy will be at full employment within a year. There is little reason to believe that job growth will slow down any time soon given the recent surge in job openings and extremely low number of layoffs.

(Source: Dr. Wenlin Liu, Chief Economist, Economics and Analysis Division-*Economic Summary: 2Q2015*)

Wyoming's Economy

It is no secret that Wyoming has the least diversified economy of the 50 states. Wyoming is dependent on the revenues and the employment from the extraction industry. This revenue drives the major state revenues of mineral severance taxes, interest from the Permanent Mineral Trust Fund, mining employment drives related sales and use tax collections, a gross products tax levied on mineral production and federal mineral royalties. These revenues continue to play an ever increasing role in the funding of general operations of state government, for city, town and county government, for primary and secondary education, and for school and general capital construction.

Employment

Compared to a year ago, total employment for the state decreased by 0.1 percent, or 190 jobs in the second quarter of 2015, the first decline since the first quarter of 2013. Wyoming's unemployment rate moved up slightly to 4.1 percent in the quarter, while in the U.S., it fell to 5.4 percent. Most industrial sectors in the state exhibited job growth during the period, with the financial activities industry demonstrating the fastest annual increase, at 3.2 percent. The wholesale trade and leisure & hospitality sectors also experienced growth rates of 2.6 percent, respectively. Amid the substantially depressed oil and natural gas prices, the State's pivotal industry, mining (including oil & gas extraction) suffered an annual employment contraction of 2,620 jobs or nearly 10 percent in the second quarter. Other services (including repair and maintenance) and the construction industry also endured job losses during the period.

As a result of global oversupply and weak demand, the low oil prices continue to take their toll on the energy industry nationwide, and Wyoming is no exception. However, after eight months of consecutive declines, the number of drilling rigs exploring for oil and natural gas in the state went up slightly in August.

Personal Income and Earnings

Wyoming's total personal income grew 2.4 percent in the second quarter of 2015 from the previous year. U.S. personal income increased 4.1 percent during the same period. Personal income is the income received by all residents from all sources. It is the sum of wage & salary and proprietors' earnings; dividends, interest, and rental income; and personal transfer receipts, such as SSI (Social Security Income), Medicare and Medicaid benefits. Total earnings in the state grew only 0.3 percent annually in the quarter, while dividends, interest, and rental income grew 5.3 percent. The earnings for most industries demonstrated increases from a year ago. The utilities, manufacturing, and transportation & warehousing sectors grew the fastest, each at more than 6.0 percent over the year. The mining industry and farm sector were the largest drags on total earnings, contracting 6.4 and 37.6 percent, respectively, from the second quarter of 2014.

Housing

The statewide home price continued to grow moderately in the second quarter of 2015, but only 2.8 percent higher than the previous year, and the speed was slower than the national average of 5.4 percent during the same period.

During the recent recession, the slump in Wyoming's real estate market was not as steep as that of the U.S. as a whole, and it also turned around faster than the national market. Due to inventory build-up and weak demand, Wyoming's home prices started to decline in the second quarter of 2008. After more than two years of declines, it turned around in 2011. However, the downturn of the U.S. housing market lasted four years, from 2008 to 2011. After the market finally turned around at the beginning of 2012, it performed strongly throughout 2013 with increases in home sales, construction, and prices. Meanwhile, Wyoming's housing market was less robust than the national market in 2013, partly due to

slower population and employment growth. Wyoming home prices in 2014 were higher than the previous year level, but still lower than the national average.

Taxable Sales

Based on sales and use tax collections, total taxable sales in the state amounted to \$4.5 billion in the second quarter of 2015, a decrease of 13.2 percent from the second quarter of 2014. It was the worst performance since the great recession. Declines occurred in majority of economic industries, with the largest contraction in the mining sector, which alone contributed nearly two-thirds of the total decrease for the quarter. About half of taxable sales occurred in the mining (including oil and gas extraction) and retail trade industries. The state does not impose a sales tax on the production of minerals, but rather on the supplies, equipment, and services used in mineral extraction. Due to the reduction in energy activities caused by the dramatic downturn of both oil and natural gas prices, sales of equipment and services in the mining sector experienced year-over-year contraction of 39.3 percent for the second quarter of 2015, the steepest drop since the fourth quarter of 2009.

Other industries that are closely associated with the mining sector, such as manufacturing, wholesale trade, and machinery & equipment rental and leasing also experienced sizable declines of at 20.0 percent, each. Leisure & hospitality services showed a 4.7 percent annual increase, in the quarter.

Across the state, over two-thirds of counties experienced declines in taxable sales, led by Johnson (-1.0%), Niobrara (-32.7%) and Converse (-32.4%). Most counties with steep drops are associated with reduced activities in mineral exploration. Three counties, Lincoln, Uinta, and Weston, demonstrated double-digit annual growth rates in the quarter.

Tourism

The number of recreational visitations to Yellowstone National Park reached 1,213,432 in the second quarter of 2015, up 20.0 percent from the previous year, and it also increased 10.0 percent to 837,040 in Grand Teton National Park. Reduced gasoline prices and the strong nationwide labor market drew more people to the Parks. The huge increases showed in the fourth quarter of 2014 were attributed to the 16-day Federal government shutdown in October 2013. Lodging sales in both the state and Teton County for the second quarter were higher than a year ago. Because of a one-time back tax payment in the fourth quarter 2014 from online travel businesses due to a court decision, the lodging sales showed an expansion rate of 104.1 percent in Teton County, and 49.1 percent for the state from fourth quarter of 2013.

Agriculture

The index of prices received by farmers for all U.S. livestock and products remained the same in the second quarter of 2015, but was slightly lower than one year ago. Reduced cattle inventory from the multiyear drought, strong beef exports, and recovery in domestic demand pushed livestock prices to an all-time high in the fourth quarter of 2014. Consequently, farm earnings in the state also reached a new record of \$391 million in the fourth quarter, but decreased significantly in 2015. In the last few years, before mid-2013, livestock producers experienced high feed costs. However, consecutive record crop yields in 2013 and 2014 pushed feed prices down substantially – close to the lowest level in more than five years. A continuation of lower crop prices should lead to reduced feed costs and improved profitability for livestock producers, but at the expense of crop growers.

Revenue

Investment income into the state general fund, including income from the Permanent Wyoming Mineral Trust Fund and state agency pooled income accounts, reached \$437.3 million in the second quarter of 2015, which was 30.2 percent higher than the amount recorded a year ago. Please note that the huge boosts in the second quarters were due to the net realized capital gains being distributed at the end of each fiscal year, which ends on June 30. The \$159.3 million in mineral severance taxes generated in the second quarter of 2015, was 29.6 percent lower than the previous year level, and was the lowest amount since the second quarter of 2012.

Reconciliation of the Balance Sheet to the Statement of Net Position

June 30, 2015

Fund balances—total governmental funds \$ 17,820,010,128

Amounts reported for *governmental activities* in the Statement of Net Position are different because:

Capital assets and assets held for donation used in governmental activities are not financial resources and therefore are not reported in the funds. 933,722,508

Certain pension trust funds have been funded in excess of the annual required contributions, creating a year-end asset. This asset is not a financial resource and therefore is not reported in the funds. 1,259,601

Other assets are not available to pay for current-period expenditures and therefore are deferred in the funds. 101,160,433

Deferred outflows of resources represent a consumption of fund equity that will be reported as an outflow of resources in a future period and therefore are not reported in the funds. 45,469,497

Deferred inflows of resources represent an acquisition of fund equity that will be recognized as an inflow of resources in a future period and therefore are not reported in the funds. (5,139,127)

Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology, and transportation to individual funds. The assets and liabilities of internal service funds are included in governmental activities in the statement of net position. 88,723,873

Some liabilities are not due and payable in the current period and therefore are not reported in the funds.

These liabilities include:

Bonds Payable	\$	(26,390,000)	
Compensated Absences		(58,970,280)	
Interest Payable, Premium on Bond Refunding		(2,014,003)	
Net Pension Liability		(339,834,949)	
OPEB Liability		(80,914,134)	
Laust Liability		(36,423,899)	
Capital Leases		(246,393)	
Benefits Payable		(8,273,141)	(553,066,799)

Net Position of Governmental Activities \$ 18,432,140,114

The notes to the financial statements are an integral part of this statement.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2015

Net change in fund balances—total governmental funds \$ 429,516,333

Amounts reported for *governmental activities* in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period these amounts are:

Capital Outlays	\$ 112,568,350	
Net Book Value on Disposal of Capital Assets	(9,720,695)	
Depreciation Expense	<u>(47,091,253)</u>	55,756,402

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 15,334,529

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 2,260,000

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These expenses consist of:

Compensated Absences	\$ (4,157,333)	
Deferred Bond Interest Payable, Premium Bond Refunding	36,814	
Benefits Payable	568,933	
Net Pension Liability	(15,493,425)	
OPEB Obligation	(8,022,556)	
Laust Liability	6,239,923	
Capital Leases	<u>123,763</u>	(20,703,881)

Internal service funds are used by management to charge the costs of certain activities, such as insurance, telecommunications, technology, and transportation to individual funds. The net revenue (expense) of internal service funds is included in governmental activities in the Statement of Activities. 1,614,519

Change in Net Position of Governmental Activities \$ 483,777,902

The notes to the financial statements are an integral part of this statement.

NOTE 1 Summary of Significant Accounting Policies

A. REPORTING ENTITY

The basic financial statements include all funds of the primary government, which is the State, as well as the component units that are determined to be included in the State's financial reporting entity. The decision to include a potential component unit in the State's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria the following is a brief review of certain entities included in the State's reporting entity.

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus*, entities with which the State has significant operational or financial relationships, such as boards, commissions, and authorities are considered component units. Component units are either discretely presented or blended. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government (the State). Blending requires the component unit's balances and transactions be reported with the balances and transactions of the State. The State has no blended component units as of June 30, 2015.

The Governor appoints the governing boards with the advice and consent of the Senate for all discretely presented component units. The State has an ability to impose its will on all discretely presented component units. Except for the Wyoming Community Development Authority and the Wyoming Lottery Corporation, all other component units would be included under the provisions of fiscal dependency due to the level of budget provided by the State.

Discretely Presented Component Units

Discretely presented component units are reported in separate columns in the government-wide statements to reflect that they are legally separate from the State. The component units separately issue their own financial statements. In general, the notes to the financial statements in this publication do not include information found in the component units' separately issued financial statements. Instead, references to the individual component unit financial statements are provided where applicable.

In determining which component units are considered as major, consideration was given to each component unit's significance relative to the other component units and the nature and significance of the unit's relationship to the State of Wyoming, as discussed below:

The following organizations comprise the State's major discretely presented component units:

The **University of Wyoming (University)** is a public land grant research university serving as a statewide resource of higher education. The Governor with the advice and consent of the Senate appoints the twelve members of the governing board and is able to remove appointed board members at will. The University receives significant support from the State in the form of taxes and state appropriations and is a recipient of pass-through Federal funding from the State. The University also has investments managed by the State of Wyoming Treasurer's Office, and offers loan programs to its students which are funded by the State. The University of Wyoming has a discretely presented component unit, the University of Wyoming Foundation, which is included within the University's financial statements. The individual financial statements may be obtained from the following address: University of Wyoming, Accounting Office, P.O. Box 3314, Room 101, Old Main, Laramie, WY 82071-3314.

The **Wyoming Department of Transportation (WYDOT)** administers the State's construction and maintenance programs for roads and bridges and is legally separate from the State. The Governor with the advice and consent of the Senate appoints a voting majority of the WYDOT's Commission and is able to remove appointed board members at will. WYDOT receives significant support from the State in the form of taxes and state appropriations. WYDOT also has investments managed by the State of Wyoming Treasurer's Office, and reports most of the infrastructure assets for the State. The financial information included for WYDOT relates to its fiscal year ended September 30, 2014. The individual financial statements may be obtained from the following address: Wyoming Department of Transportation, Financial Services, 5300 Bishop Blvd., Cheyenne, WY 82010.

The following organizations comprise the State's nonmajor discretely presented component units:

The **Wyoming Community Development Authority (WCDA)** is an independent authority that provides low interest financing for Wyoming home buyers. WCDA issues negotiable notes and bonds to fulfill its purpose. Neither the faith and credit nor taxing power of the State may be pledged for the amounts so issued. The Governor with the advice and consent of the Senate appoints a majority of WCDA board members and is able to remove appointed board members at will. The State also authorizes WCDA bond issuances. The individual financial statements may be obtained from the following address: Wyoming Community Development Authority, P.O. Box 634, Casper, WY 82062 or www.wyomingcommunitycda.com.

The **Wyoming Business Council (WBC)** is an independent authority that provides economic development and growth for the State. The Governor with the consent of the Senate appoints all of the directors. The State provides a material subsidy to WBC and WBC must submit its budget for review and approval. The individual financial statements may be obtained from the following address: Wyoming Business Council, 214 West 15th Street, Cheyenne, WY 82002 or www.wyomingbusiness.org/content/financialreport.

The **Wyoming Pipeline Authority (WPA)** is an independent authority created to plan, finance, construct, develop, acquire, maintain, and operate a pipeline system or systems within or outside the State of Wyoming. The governing board is appointed by the Governor with the consent of the Senate. The Wyoming Pipeline Authority is dependent upon the State to finance its operating costs and must submit its budget for review and approval. The individual financial statements may be obtained from the following address: Wyoming Pipeline Authority, 152 North Durbin Street, Suite 250, Casper, WY 82601.

The **Wyoming Infrastructure Authority (WIA)** is an independent authority created to diversify and expand the State's economy through improvements in Wyoming's electric transmission infrastructure and to facilitate the consumption of Wyoming energy. The Wyoming Infrastructure Authority will participate in planning, financing, constructing, developing, acquiring, maintaining, and operating electric transmission facilities and their supporting infrastructure. The Governor with the consent of the Senate appoints the five-member board, and the State now provides funding through general fund appropriations. In addition, the Wyoming Infrastructure Authority must submit its budget for review and approval. The individual financial statements may be obtained from the following address: Wyoming Infrastructure Authority, 200 East 17th Street, Suite B, Cheyenne, WY 82001.

The **Wyoming Lottery Corporation (WLC)** is an independent corporation that operates lottery games. The Governor with the consent of the Senate appoints the nine-member board. The State receives a financial benefit; therefore, the State is financially accountable for WLC. The individual financial statements may be obtained from the following address: Wyoming Lottery Corporation, 1620 Central Avenue, Suite 100, Cheyenne, WY 82001.

B. BASIS OF PRESENTATION

The accompanying financial statements of the State of Wyoming have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) applicable to governmental organizations in the United States. Such principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the standard-setting body for establishing governmental accounting and financial reporting principles in the United States of America.

C. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The **Statement of Net Position** presents the reporting entities' non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position.

The **Statement of Activities** demonstrates the degree, to which the direct expenses, of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable within a specific function or segment. The cost allocation by internal service is included in the direct expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide statements. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements, with nonmajor funds being combined into a single column.

D. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements, proprietary fund financial statements, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Revenues are classified by either program revenues or general revenues. Program revenues include 1) charges to customers or applicants for goods and services, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues consist of all revenues not considered program revenue. All taxes are considered general revenues. Certain indirect costs have been allocated to functional activities.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available, except for property taxes, if they are collected within 75 days of the end of the current fiscal period. Property taxes are considered available if they are collected within 60 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred, same as under accrual accounting. However, debt services expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Sales and use tax, mineral severance tax, federal mineral royalty tax, various other taxes and licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual accounting and have been recognized as revenues of the current fiscal period. The statutory basis for recognizing mineral severance taxes for apportionment purposes differs from the basis used to recognize revenue in the accompanying financial statements. All other revenue items are considered to be measurable and available only when cash is received by the State.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of operations.

The State uses funds and component units to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

Governmental Funds

The State reports the following major governmental funds:

General Fund is the primary operating fund of the State and accounts for all financial resources except those required to be accounted for in another fund.

Foundation Program Fund accounts for federal mineral royalties, land and mineral lease income, and other revenue sources which are restricted for payments to school districts. The other revenue sources include State

levied 12 mill property tax, school district recapture amounts, and interest income earned on the Common School Land Fund.

Common School Land Fund accounts for land donated to the State. The revenue earned by this fund is restricted for the purpose of establishing, maintaining, and supporting school facilities.

Permanent Mineral Trust Fund accounts for a portion of the severance tax. The interest earned by this fund is restricted for distribution to specific funds.

Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the State has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Revenue and expenses are classified as operating and non-operating. Operating revenues and expenses generally result from providing goods and services. All other revenues and expenses are reported as non-operating.

The State reports the following major enterprise fund:

Workers' Compensation Insurance Fund accounts for activities of the Wyoming Workers' Compensation Insurance Fund that provides workers' compensation insurance to the government and private businesses.

Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State, or to other governmental units on a cost-reimbursement basis. The Internal Service Funds include the Computer Technology Fund, Motor Vehicle Fund, Group Insurance Fund, Wyoming Surplus Property Fund, Personnel/Training Fund, and the State Self Insurance Fund.

Fiduciary Funds

Pension Trust Funds account for the assets held by WRS, as trustee, for ten retirement plans. The financial information included for WRS relates to its fiscal year ended December 31, 2014. WRS is legally separate from the State, however the State appoints a voting majority of the WRS board, sets the contribution requirements, and has a fiduciary responsibility for WRS assets.

Private-Purpose Trust Fund accounts for resources of all other trust arrangements in which principal and income benefit individuals, private organizations, or other governments (i.e., unclaimed property/escheat property).

Investment Trust Fund accounts for the assets belonging to Wyoming municipalities invested by the State Treasurer (i.e., WYO-Star).

Agency Funds account for assets that the State holds on behalf of others as their agent.

E. ASSETS, LIABILITIES, AND NET POSITION OR EQUITY

1. Deposits and Investments

Current Statutes require all cash and investments of State agencies other than those of the University and the WRS to be pooled and invested by the State Treasurer's Office. The State Treasurer maintains different cash and investment pools for the Common School Land Fund, Permanent Mineral Trust Fund, Workers' Compensation Insurance Fund, Wyoming Tobacco Settlement Fund, the Wyoming Excellence in Higher Education Endowment Funds, and one cash and investment pool for the remainder of the fund types. Earnings from the cash and investment pools are credited monthly, utilizing a formula based on the average daily balance, to the applicable accounts and funds. The majority of the funds maintained by the State are not legally allowed to earn interest. The interest earned by these funds is credited directly to the General Fund. The State reports all investments at fair value, except for investments in participating interest-earning investment contracts having a remaining maturity at the time of purchase of one year or less. Participating interest earning investment contracts having a remaining maturity at the time of purchase of one year or less are recorded at amortized cost. For the purpose of the Statement of Cash Flows the State considers all assets held in the cash and investment pool to be cash equivalents because

the investments are not identifiable to specific funds and the assets can be withdrawn at any time, similar to a demand deposit account.

2. Receivables and Payables

Due to Due From. During the course of operations numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "Due from Other Funds" or "Due to Other Funds" on the Balance Sheet/Statement of Net Position. See Note 6.

Property Taxes. The counties in the State levy property taxes in the first half of August and submit a portion of the tax levy to the State. The tax levy is divided into two billings: the first billing is mailed in the first half of September, generally September 1; the second billing is generally mailed on March 1. The billings are considered due upon receipt by the taxpayer. The taxpayer has the option of paying the full amount on December 31. Each year property taxes are assessed as of January 1.

Advances to Other Funds and Component Units. Inter-fund loans receivable are reported as advances and are offset equally by a fund balance reserve account that indicates they do not constitute expendable available financial resources and therefore are not available for appropriation.

3. Inventories and Prepaids

Inventories and prepaids are accounted for using the purchases method. Inventories are reported in the proprietary funds using the lower of average cost or market. In the governmental fund types inventories are accounted for at cost or average cost on a first-in, first-out basis. However, as inventories on hand at June 30, 2015 are significant, they have been recorded as assets in the governmental funds. Inventories are reported by the University at the lower of cost (first-in, first-out) or market. Livestock inventory is stated at estimated net realizable value. The Wyoming Department of Transportation's inventories are valued at average cost, less an allowance for obsolete items and charged to expenditures when consumed.

4. Securities Lending Collateral

Securities on loan for cash collateral are reported in the Statement of Net Position. Liabilities resulting from the security lending transactions are also reported. Additional disclosures describing security-lending transactions are provided in Note 3.

5. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets are reported in the governmental or business-type activities columns in the government-wide financial statements (Statement of Net Position). Capital assets are stated at cost when historical records are available and at an estimated historical cost when no historical records exist. Donated capital assets are stated at their estimated fair market value on the date received. The State currently does not capitalize interest costs incurred during construction, except on business-type activities. Capital assets of the business-type activities are capitalized in the fund in which they are utilized.

Property, Plant and Equipment. The State capitalizes all buildings, land, and other capital assets that have a value or cost equal to or greater than the capitalization threshold for its asset type at the date of acquisition and has a useful life that extends beyond a single reporting period. The State's capital assets are depreciated over their useful lives using the straight-line method. Capital asset thresholds and estimated useful lives are presented on the following page:

Asset Type	Estimated Life	Capitalization Threshold
Buildings	5-40 years	\$ 50,000
Improvements	5-25 years	50,000
Land	N/A	Capitalize All
Equipment	3-16 years	5,000
Vehicles	3-10 years	5,000
Infrastructure	5-40 years	1,500,000
Works of Art/Historical Treasures	N/A	Exemption
Intangible-Purchased Software	3-10 years	5,000
Intangible-Internally Generated Software	3-10 years	2,000,000
Intangible-Easements	3-Indefinite	500,000

Infrastructure. Infrastructure assets can include roads, bridges, lighting systems, drainage systems, flood control systems, and rest areas. The primary government will have infrastructure in the State Parks and Cultural Resources Division and the Department of Game and Fish and may report infrastructure on a network and subsystem basis. The Wyoming Department of Transportation (WYDOT) reports most of the infrastructure assets for the State. WYDOT's capitalization level for infrastructure is \$250,000. In accordance with the alternative approach to depreciating infrastructure assets permitted by GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, WYDOT has elected to expense all infrastructure related expenditures, except for those expenditures related to additions to or improvement of infrastructure assets, in lieu of depreciating infrastructure assets. In order to utilize the alternative system, WYDOT must maintain an asset management system which will assess asset condition and must maintain infrastructure assets at the condition level established by the WYDOT. Infrastructure acquired prior to fiscal years ending after June 30, 1980, are reported.

Art and the Wyoming State Museum Collection. The State has not capitalized works of art, historical treasures and artifacts contained in the collections of the Wyoming State Museum. The collection is held for public exhibition, education, or research in furtherance of public service, protected, kept unencumbered, cared for, preserved, and subject to an organizational policy that requires the proceeds from sales of collection items to be used to maintain the existing collection.

6. Compensated Absences

Employees of different State agencies earn vacation leave based on their number of years of service and sick leave of one day per month. Employees that are vested are allowed to accumulate up to 384 hours of vacation leave for the year ending December 31. In addition, employees are paid for one half of accumulated sick leave upon termination of employment with a maximum payment for one half (½) of 960 hours. The amount of vested accumulated leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a liability of the governmental funds in the governmental fund financial statements. All vested accumulated leave is accrued when incurred in the government-wide and proprietary fund financial statements.

7. Unearned Revenue

The State reports unearned revenue on its government-wide statements and its fund financial statements. Unavailable revenue is reported as Deferred Inflow of Resources at the fund level and entity wide level. Unearned revenue arises when resources are received by the State before it can legally claim them, such as when grant funds are received prior to the occurrence of qualified expenditures. In subsequent periods when both revenue recognition criteria are met or when the State has a legal claim to the resources, the liability for unearned revenue is removed and the revenue is recognized. Unavailable revenue arises when revenue does not meet the 'susceptibility to accrual' test, which states the revenue must be both measurable and available to finance expenditures of the current fiscal period, including property tax receivable assessed but not levied.

8. Long-term Obligations

In the government-wide statements and proprietary fund financial statements, long-term obligations are reported as liabilities. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

9. Defined Benefit Pensions

For purposes of measuring the net pension asset, net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement System (WRS) and additions to/deductions from the WRS's fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Net Position

The State's net position reported on the government-wide, proprietary fund and fiduciary fund financial statements is allocated to the following three categories:

Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position consists of net position that does not meet the definition of the two preceding categories. Unrestricted net position often is designated to indicate that management does not consider them to be available for general operations. Unrestricted net position often have constraints on resources that are imposed by management, but can be removed or modified.

11. Fund Balances

The State's fund balances are classified in a hierarchical structure with the following classifications: (1) Nonspendable—this classification represents fund balance that can never be spent (corpus that is constrained by the State's Constitution) or fund balance that are not in spendable form (inventory, loan receivables, and prepaids), (2) Restricted—this classification includes those balances that are legally restricted for specific purposes due to constraints that are externally imposed by creditors, grantors, contributors, laws or regulations of other governments, (trust agreement), constitutional provisions or enabling legislation, (3) Committed—refers to fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the legislature (the highest decision making authority for the State by enacting legislation), such as appropriations or standalone legislation, and can only be removed by an action of the legislature, (4) Assigned—this fund balance classification includes amounts that have been constrained to being used for a specific purpose, but are neither restricted or committed and may be made under statutory authority of management of the reporting organizations in the State, (5) Unassigned—fund balance is that portion of fund balance that is available for any purpose the government chooses. The General Fund is the only fund that reports a positive unassigned fund balance. In governmental funds other than the General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund. See further detail in Note 12.

Minimum Fund Balance Policy. The State does not have a minimum fund balance policy. It is current policy for the General Fund that at the end of each biennium, the unobligated, unspent portion of fund balance is swept to the LSRA account. Similarly, the State's Budget Reserve Account is swept to the LSRA as well, except for cash representing five percent of the total general fund revenues collected.

Policy on Use of Unrestricted Fund Balance. The State does not have a formal policy on the use of unrestricted fund balance and therefore adopts the GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, recommendation that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The State does not have a formal policy on the use of funds when both restricted and unrestricted resources are available for use, it is assumed that restricted resources are used first, then unrestricted resources as they are needed.

12. Inter-Fund Transactions

Inter-fund services provided and used are accounted for as revenue, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide statements. Inter-fund receivables and payables have been eliminated from the Statement of Net Position, except for the residual amounts due between governmental and business-type activities. While the effects of inter-fund activity have been eliminated, it should be noted that inter-fund services provided and used are not eliminated in the process of consolidation. See further information in Note 7.

F. BEGINNING FUND BALANCE/NET POSITION RESTATEMENTS

As shown in the table on the following page, the financial statements have been restated as of July 1, 2014, due to the following:

	Governmental Activities				
	Governmental Funds				Governmental Activities
	General Fund	Foundation Program Fund	Common School Land Fund	Nonmajor Governmental Funds	
Fund Balance/Net Position, June 30, 2014, as previously reported	\$ 3,696,595,178	\$ 137,376,755	\$ 3,346,483,093	\$ 3,216,547,029	\$ 18,232,293,764

NOTE 3 Deposits and Investments

A. DEPOSITS

Custodial Credit Risk

Deposits that have exposure to custodial credit risk are those which are not covered by depository insurance and are either uncollateralized, collateralized with securities held by the pledging financial institution, or held by pledging financial institution but not in the depositor-government's name.

Wyoming Statutes require any deposit not so insured shall be secured by depository bond or approved collateral securities as required by law.

As of June 30, 2015, the State had no deposits exposed to custodial credit risk.

Agency Funds

Deposits not collateralized and not so required by State law include those funds held on behalf of others. At year-end, \$7.5 million was held in demand and savings bank accounts and \$30.2 million was held in bank certificates of deposit. These funds are reported in the agency funds.

B. INVESTMENTS

1. Master Investment Policy

The State Loan and Investment Board (SLIB) consists of the five elected officials – the Governor, Secretary of State, State Auditor, State Treasurer, and State Superintendent of Public Instruction. The SLIB is responsible for fiduciary oversight of the State's non-pension investment portfolio. The SLIB establishes the Master Investment Policy and Sub-Policies (Policy). The SLIB reviews the Policy at least annually by law and updates the Policy throughout the year as needed.

The Policy sets forth roles and responsibilities, acceptable transactions, and performance expectations of the State portfolio. The Policy is aligned with State Statutes governing State investments.

Those managing the State's investment program are governed in part by the prudent investor rule contained in the State's Uniform Prudent Investor Advisor Act. This rule states "Trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements and other circumstances of the trust."

The Policy restates the prudent investor principle that "...investments or groups of investments shall not be evaluated in isolation but in the context of the entire investment portfolio and as part of an overall investment strategy of the trust or fund from which the investment is derived, consistent with the policies for such trust or fund established ... by the Board."

The Policy also allows a trustee to delegate investment and management functions that a prudent trustee of comparable skills could properly delegate under the circumstances. The Policy further states the trustee shall exercise reasonable care, skill and caution in:

- a) Selecting an agent;
- b) Establishing the scope and terms of the delegation, consistent with the purposes and terms of the trust; and
- c) Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the terms of the delegation.

It is the stated policy of the Board "to invest public funds of the State of Wyoming (the "State") in a manner that strives for maximum safety, provides adequate liquidity to meet all operating requirements, and achieves the highest possible investment return consistent with the primary objectives of safety and liquidity."

The current Wyoming State portfolio consists of the Permanent Mineral Trust Fund, the Permanent Land Fund, the Common School Permanent Land Fund, the University Permanent Land Fund, the Hathaway Scholarship Fund, the Higher Education Endowment Fund, the Workers' Compensation Fund, the

Tobacco Settlement Trust Fund, and the State Agency Pool. The State of Wyoming also invests the Wyoming State Treasurer's Asset Reserve (WYO-STAR), which is Wyoming's local government investment pool. All available funds are invested with the following objectives and priorities:

- a) Safety of principal. Investments are undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio;
- b) Liquidity requirements of anticipated and unanticipated expenditures;
- c) Yield;
- d) Recognition of differing objectives and needs of various fund portfolios;
- e) Conformance with State law and other pertinent legal restrictions;
- f) Maximization of the total rate of return on investment consistent with the foregoing objectives;
- g) Diversification by asset type, security and investment manager in order to smooth the volatility of quarterly returns.

These objectives and priorities apply to the funds as a whole. Specific objectives and priorities are further delineated in each fund's sub-policy. Specific objectives and priorities for individual asset managers are delineated by mandate.

At June 30, 2015, the State had external investment managers for equities, fixed income, real estate, private equity, absolute return, and cash management strategies.

During fiscal year 2015, the State continued to maintain diversification through asset allocation. State Statutes allow monies in the permanent funds to be invested in common stocks not to exceed fifty-five percent (55%). The following schedule reflects Fiscal Year 2015 weightings:

<u>Permanent Funds</u>	<u>Fixed Income and cash equivalents</u>	<u>Equities</u>
Permanent Mineral Trust Fund	46.0%	54.0%
Common School Land Fund	48.8%	51.2%
Permanent Lands Fund Pool	48.1%	51.9%
University Permanent Land Fund Pool	41.7%	58.3%
Hathaway Scholarship Endowment Fund	57.4%	42.6%
Higher Education Endowment Fund	56.2%	43.8%

State law allows the Workers' Compensation Fund an equity allocation of up to 45 percent. The actual percent is set by the direction of the State Department of Workforce Services; it is currently 30 percent.

<u>Enterprise Fund</u>	<u>Fixed Income, cash and cash equivalents</u>	<u>Equities</u>
Workers' Compensation Fund	73.1%	26.9%

The State also invests the following:

	<u>Fixed Income and cash equivalents</u>
State Agency Pool	100%
Tobacco Settlement Trust Fund	100%

The long-term (10 plus years) total return expectation is just under 6% for a portfolio with a 50/50 mix of fixed income, cash, and equity. The long-term total return expectation for portfolios containing just fixed income and cash is 4%.

The State Treasurer adopted an interpretative policy for accounting purposes whereby earnings of interest and dividends would be treated as ordinary income and distributed accordingly. The policy also provides that capital losses will be made good from future capital gains and not ordinary income.

For financial reporting purposes, the State Treasurer's policy of deferring the distribution of realized losses is reversed and has no financial impact. Accounting adjustments are made to the State's financial statements such that recognized losses are distributed as if they had been distributed as part of investment income.

Risk exposures for the different funds within the managed fund classifications including the State's managed fiduciary Unclaimed Property Fund are not significantly different than the deposit and investment

risks of the primary government. As each risk element is presented, disclosure will specify whether the Policy formally provides for management of the particular risk being discussed.

Investment Risk Categories

GASB Statement No. 40, *Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3*, requires presentation to discuss those risks associated with investment activity including credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk.

Credit Risk is the risk the issuer will not fulfill its obligation to the holder of the investment. The minimum credit ratings for investment debt securities as provided in the State's Master Investment Policy for fixed income managers are A1 or equivalent for commercial paper, BBB- for long-term corporate debt, BBB- for mortgage fixed income securities, BBB- for Mortgage-backed securities, and BBB- for Asset-backed securities. Either Standard and Poor's, or Fitch or Moody's ratings are acceptable. If the issue is rated by all three rating agencies, the middle rating will apply. If the issue is rated by two rating agencies, the lower rating will apply. N/R indicates that the investment is not rated. Legislatively authorized investments represent those investments the Treasurer has been directed to invest in by the Legislature and/or approved by the Legislature.

Custodial credit risk is for those investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent, but not in the government's name.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for the State. The information presented is based on concentrations of investments in the State's portfolio.

Interest rate risk is the exposure that the fair value of the State's fixed-income investments fluctuates in response to changes in market interest rates. An element of interest rate risk are those securities which are 'highly sensitive' to changes in interest rates. These highly sensitive securities are separately disclosed.

Foreign currency risk is when changes in foreign exchange rates adversely affect the fair value of an investment. This risk disclosure applies only to investments that are denominated in foreign currencies. The State's Master Investment Policy does not provide a policy for foreign currency diversification.

Discretely Presented Component Units

Certain discretely presented component units participate in the State Treasurer's Office pooled investment program. As of June 30, 2015, the discretely presented component units account for approximately 0.9% of the State Treasurer's pooled investment portfolio. This program enables the State Treasurer's Office to combine available cash from all funds and to invest cash that exceeds current needs.

Additional disclosures for discretely presented component units on participation in State Treasurer's Office pooled investment program are included in their separately issued financial statements. See Note 1(A) on how to obtain the discretely presented component units' separately issued financial statements.

The State of Wyoming's investments at June 30, 2015, are presented here:

Investments	Fair Value	Percent of Total
Fixed Income		
Agency Bonds	\$ 881,698,516	4.35%

Total Investments		\$ 20,270,776,954

Alternative Investments

The State of Wyoming has invested in alternative investments defined as hedge funds, private equity, venture capital, and other investments for which the fair market value is not readily attainable. Because the alternative investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material. At June 30, 2015, the State of Wyoming was holding \$1,690,984,525 of alternative investments.

Custodial Credit Risk

The State does not have any investment custodial credit risk exposure at June 30, 2015.

Concentration of Credit Risk

The Wyoming State Treasurer's fixed income portfolio holds \$3,806,901,671 or 28.7% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB), and Government National Mortgage Association (GNMA). These agency securities hold a rating of AA+. While the State's Master Investment Policy sets limits for concentration of investments, it provides that US agency bonds are eligible without limitation.

Credit Risk

The credit risk disclosures for the State's fixed income portion of its investments, not including derivatives, as of June 30, 2015, are presented on the following page:

Category	Credit Rating	Market Value	Percentage of Total Investments

Interest Rate Risk

The interest rate disclosure for the State's fixed income portion of its investments, excluding money markets but including derivatives, is presented here. The State has chosen the segmented time distribution method for its interest rate disclosure. This method most closely matches how the State manages interest rate risk.

The State has no formal policy with respect to managing interest rate risk within its Master Investment Policy, however, the Policy does provide guidance relative to safety, liquidity, and yield using the following criteria:

- Funds are analyzed by asset class including cash to determine if securities need to be purchased or sold.
- Future needs are determined and current positions are reviewed.
- Economic, market, and interest rate assumptions are considered.
- Securities are selected based on market value, price, and availability.
- Trades are executed to raise cash, to shift maturity, to change asset mix, to enhance yield, and to improve quality.

Maturity assumptions have been made using industry standards and are displayed in the Interest Rate Risk table presented here:

Category	Market	Less Than 1 Year	1-5 Yrs	6-10 Yrs	Over 10 Yrs

The foreign currency disclosure reports futures contracts, swaps, and forward currency contracts at unrealized gain or loss (URGL) and not at market value (MV) in accordance with industry best practices.

2. Derivatives

The State of Wyoming permits the use of derivatives by its international equity and external fixed income managers. Examples of derivative instruments permitted, but not limited to, are foreign exchange contracts, financial futures, forwards, options, swaps and swaptions. All derivative instruments utilized are considered "Investment derivative instruments" as defined in GASB Statement No. 53 *Accounting and Financial Reporting for Derivative Instruments*.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2015, classified by type, and the changes in fair value of such derivative instruments, which are included in investment income, for the year then ended as reported in the 2015 financial statements as presented in the table on the following page:

Derivative Instruments	Type	Change in Fair Value Amount (USD) June 30, 2014 to June 30, 2015	Fair Value at June 30, 2015	Notional Amount (Local Currency) June 30, 2015

Derivatives—Risks

Credit, interest rate and foreign currency risks affecting derivatives and other applicable investments are addressed in previous sections of Note 3. These risks, applicable to other fixed income and foreign investments, are not substantially different from the same risks affecting applicable derivative instruments.

In addition to the principal risks noted above, Forward Foreign Currencies, Credit Default Swaps, and Interest Rate Swaps are also subject to counterparty risk. In general, counterparty risk is the risk of loss of an amount expected to be delivered under an agreement in the event of the default or bankruptcy of the counterparty. Generally, counterparty risk is controlled through dealing with a number of different counterparties reasonably deemed to be creditworthy by the investment manager.

Derivatives—Counterparty Risk

Counterparty risk with swaps is limited by execution under standardized International Swap and Derivatives Association Agreements. These contracts allow for the mutual exchange of collateral should an overall unsecured market value exceed a certain threshold (e.g., \$250,000). Counterparties, which are exchanges or market places, are not rated as there is little to no risk associated with them.

Derivative instrument	Counterparty Credit Rating
Futures	
BOND INDEX FUTURES	A-
Forward Currency Contracts	
CURRENCY	AA-
CURRENCY	A+
CURRENCY	A
CURRENCY	A-
CURRENCY	BBB+

Derivatives—Contingency

Derivative instruments often contain credit-risk-related contingent features that could result in an immediate payment to the counterparty. For example, a material adverse change clause could provide the counterparty with the right to early terminate the derivative agreement. Alternatively, it could provide a basis for renegotiating the agreement if specific events occur, such as a downgrade of the entity's credit rating below investment grade. These provisions may include an obligation to post additional collateral in instances where the credit-risk contingent feature is triggered or the counterparty is provided the right to terminate the agreement early.

Contingent features that could result in the exercise of an early termination right against the counterparty include a credit ratings downgrade of the counterparty below a specified threshold, commonly A-/A3. Additionally, the counterparty may exercise an early termination right against the portfolio in the event assets under management of the portfolio decline by more than 30% in a year or 15% in a month. It is important to note that these contingent features are not compulsory; they are voluntary. Based on discussions with its investment managers, the State has determined the fair value of derivatives with contingent features held in the State's investment portfolio is not significant.

3. Securities Lending

State Statutes permit the State Treasurer to lend its securities, through the use of agents, to broker-dealers and other entities with simultaneous agreement to return the collateral for the same securities in the future. The State's agents lend securities, of the type on loan at year-end, for collateral in the form of cash or other securities at 100 percent of value for US Treasury Strips and US Treasury Bills, and 102-105 percent of value for other securities. The State, through its agents, measures the fair value of the securities loaned against the fair value of the collateral on a daily basis. Additional collateral is obtained as necessary to ensure such transactions are adequately collateralized. Securities lent for securities

collateral are classified according to the category of the collateral. At year-end, the State has no credit risk exposure to borrowers because the amounts the State owes the borrowers exceed the amounts the borrowers owe the State. The contract with the State's agent requires the agent to indemnify the State if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the State for income distributions by the securities' issuers while the securities are on loan.

The following represents the balances relating to the securities lending transactions at the financial statement date:

Securities Lent	Fair Value of Underlying Securities	Cash Collateral Received/Securities Collateral Value
Lent for Cash Collateral		
US Governments	\$ 367,921,043	\$ 376,479,304

Non US Equities	5,992,896	7,039,807
Total Lent for Bulk (Securities) Lending	704,147,344	727,514,569
Total Securities Lending	\$ 2,192,059,368	\$ 2,252,451,388

Cash collateral is invested in the lending agent's investment pool, which at year-end has a weighted-average maturity of 56 days. As of June 30, 2015, the State's sole security lending agent uses the securities final maturity to calculate the weighted-average maturity. The relationship between the maturities of the investment pool and the State's loans is affected by the maturities of securities loans made by other entities that use the agent's pool, which the State cannot determine. The State cannot pledge or sell collateral securities received unless the borrower defaults. At June 30, 2015, the cash collateral of \$1,524,936,818 was recorded as cash and investments with trustee and as a liability under security lending. The difference between the amount shown here and the amount reflected in the Statement of Net Position of \$1,512,131,509 for the primary government is due to the amounts allocated to component units and private purpose trust fund.

Securities Lending—Credit Risk

The credit risk disclosures for the State's securities lending program are presented here:

Category	Credit Rating		Market Value	Percentage of Total Investments
CERTIFICATE OF DEPOSIT	A-1+	\$	49,974,500	3.28%
CERTIFICATE OF DEPOSIT	A-1		191,532,637	12.56%
DISCOUNT NOTES	A-1+		3,999,999	0.26%
MEDIUM TERM NOTES	A-1+		19,999,620	1.31%
MONEY MARKET	AAA		445,000,000	29.18%
REPURCHASE AGREEMENTS	A-1		112,544,287	7.38%

TOTAL		\$	1,525,103,630	100.00%

Securities Lending—Custodial Credit Risk

For the State's securities lending program, the State has lent its securities for other securities. These securities have custodial credit risk, and at June 30, 2015, these securities had an amortized cost of \$734,788,494. By investment type there were \$517,896,825 in US Government securities, \$150,289,593 in corporate securities, and \$66,602,076 in equities.

Securities Lending—Concentration of Credit Risk

The State's securities lending program does not have any concentration of credit risk exposure.

Securities Lending—Interest Rate Risk

The State has chosen the segmented time distribution method for its interest rate disclosure. This method most closely matches how the State manages interest rate risk. There is minimal interest rate risk due to the average life of the security lending portfolio. The maturity assumptions or average life of the security lending portfolio are displayed in the following table:

Category		Market	Less Than 1 Year
CERTIFICATE OF DEPOSIT	\$	241,507,137	\$ 241,507,137
DISCOUNT NOTES		3,999,999	3,999,999

YANKEE C/D		421,052,587	421,052,587
TOTAL	\$	1,080,103,630	\$ 1,080,103,630

Securities Lending—Foreign Currency Risk

The State had no foreign currency exposure in its securities lending program as of June 30, 2015.

C. INVESTMENTS-FIDUCIARY FUNDS

1. Wyoming Retirement System

The fiduciary funds include pensions and other employee benefits funds of WRS. WRS' Defined Benefit Pension Plans account for 96% of these separately invested funds. WRS exercise their authority under State Statutes, bond resolutions, and investment policy resolutions. Additionally, a portion of the cash and pooled investments of the fiduciary funds are invested in the State Treasurer's pooled investment program.

Additional disclosure for WRS' investments and derivative instruments are included in their separately issued financial statements, see Note 10(A) on how to obtain WRS' separately issued financial statements.

2. WYO-STAR

The Wyoming State Treasurer's Asset Reserve Fund (WYO-STAR), which is Wyoming's local government investment pool, has been established in accordance with Wyoming statute 9-1-416 to invest funds upon request of any county, municipality, school district, or any other local governmental entity. The State Land and Investment Board oversees the WYO-STAR program and there is no involuntary participation in WYO-STAR. In accordance with GAAP, the external portion of WYO-STAR is reported as an investment trust fund in the fiduciary funds, using the economic resources measurement focus and accrual basis of accounting, due to the State's fiduciary responsibility. The internal portion of the pool is reported in the Deferred Compensation Fund of the Wyoming Retirement System and the University of Wyoming. The investments of WYO-STAR are carried at their fair value as determined at June 30 each year. A ratio based on the participants share to the total share invested in WYO-STAR is used to determine each participant's share. The State has not provided or obtained any legally binding guarantees during fiscal year 2015 to support the value of the shares.

WYO-STAR Master Investment Policy

The target asset allocation, as stated in the Master Investment Policy, comprises one hundred percent (100%) of the fund in short-term bonds and cash.

Diversification/permissible investments, as stated in the Master Investment Policy, permits purchase of the following securities:

- Asset Backed Securities
- Repurchase Agreements
- Government Securities: including obligations of the US Treasury and Obligations of the US Government Agencies or Instruments, bearing floating or fixed interest rates.
- Asset-backed securities will be limited to CMOs or pass through; the collateral for which is securities issued by Government Mortgage National Association (GMNA), Federal National Mortgage Association (FNMA), or Federal Home Loan Mortgage Corporation (FHLMC) or notes fully guaranteed as to principal and interest by the Small Business Administration. Automobile receivables and credit receivables will also be considered permissible investments.
- Currency: US dollar denomination only.

As of June 30, 2015, WYO-STAR had \$689,955,150 in investment securities with credit and interest rate risk.

WYO-STAR—Credit Risk

The credit risk disclosures for the State's WYO-STAR Program are presented here:

Category	Credit Rating	Market Value	Percentage of Total Investments
AGENCY BACKED BONDS	AA+	\$ 17,997,846	2.61%
ASSET BACKED	AAA	26,938,210	3.91%

US TREASURY NOTE	AA+	110,668,833	16.04%
TOTAL		\$ 689,955,150	100.00%

WYO-STAR—Custodial Credit Risk

The WYO-STAR Program, at June 30, 2015, had no custodial credit risk exposure.

WYO-STAR—Concentration of Credit Risk

The WYO-STAR fixed income portfolio holds \$541,025,576 or 78.41% of the fixed income securities in government agency securities such as Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), Federal Home Loan Bank (FHLB) and Government National Mortgage Association (GNMA). These agency securities hold a rating of AA+.

WYO-STAR—Interest Rate Risk

The WYO-STAR investment portfolio by description, as stated in the Master Investment Policy, administers the short-term cash deposits made with the State by local entities. The actual investments are administered to provide liquid cash reserves, placing the majority portion in a cash portfolio and the rest in an extended cash portfolio.

These guidelines afford minimal interest rate risk.

The maturity assumptions or average life of the WYO-STAR fixed income portfolio securities are displayed in the following WYO-STAR Interest Rate Risk Table:

Category	Market	Less Than 1 Year	1-5 Yrs	6-10 Yrs	Over 10 Yrs
AGENCY BACKED BONDS	\$ 17,997,846	\$ 17,997,846	\$	\$	\$

D. INVESTMENTS-DISCRETELY PRESENTED COMPONENT UNITS

The discretely presented component units consist of the University of Wyoming, Wyoming Department of Transportation, and various nonmajor component units. The University and WYDOT constitute 76% of the total investments of discretely presented component units. State Statutes, bond resolutions and investment policy resolutions allow component units to invest in securities issued or guaranteed by the US Treasury or agencies of the United States government; bonds issued by Wyoming agencies or political subdivisions; corporate notes, bonds and debentures; commercial paper; banker's acceptances; loans specifically identified by statutes; and other securities specifically authorized by the legislature.

Additional disclosures for the University's and WYDOT's investments and derivative instruments are included in their separately issued financial statements. See Note 1(A) on how to obtain the University's and WYDOT's separately issued financial statements.

NOTE 4 Loans Receivable

PRIMARY GOVERNMENT

As of June 30, 2015, the gross amount of outstanding loans for governmental type funds was \$371,274,932. The largest portion of loans outstanding are municipal infrastructure, totaling \$208,717,978, which have rates that vary between 0% and 2.5%, are primarily collateralized by pledges of revenue, and are required to be repaid within a maximum of 20 years. The second major category of loans outstanding are water loans, totaling \$77,319,690, which have rates that vary between 4% and 11%, are primarily collateralized by mortgages and pledges of revenue, are required to be repaid within a maximum of 50 years, and are for the construction and maintenance of water supply and storage facilities. At June 30, 2015, loans receivable included loans to one major loan customer totaling \$60,855,681, which comprised 16% of total loans receivable.

The State's loans receivable as of June 30, 2015, are as follows:

	General Fund	Foundation Program Fund	Common School Land Fund	Permanent Mineral Trust Fund	Nonmajor Governmental Funds	Total
Receivables						
General Fund	\$ 31,855,908	\$ -	\$ -	\$ -	\$ -	\$ 31,855,908

Infrastructure Recapture	-	-	-	-	4,149,693	4,149,693
Gross Receivables	31,855,908	519,567	58,465	48,640,870	290,200,122	371,274,932
Less: Allowance	249,064	39,002	-	420,348	1,685,110	2,393,524
Net Total Receivables	\$ 31,606,844	\$ 480,565	\$ 58,465	\$ 48,220,522	\$ 288,515,012	\$ 368,881,408

As of June 30, 2015, the State had committed \$122,051,236 in various loans for distribution after June 30.

Receivables classified as Municipal Infrastructure Loans include funds provided through the core programs of both the Clean Water State Revolving Funds (CWSRF), Drinking Water State Revolving Funds (DWSRF), and the American Recovery and Reinvestment Act of 2009 (ARRA). In each of the core programs, loans made are 80% funded by the Federal Capitalization Grant and 20% by State Match amount. In the ARRA portion, the total amount of ARRA funding made available for the loan program was \$38.7 million and is 100% federally funded. The 2010-2014 Federal Capitalization Grants for both core programs require a subsidy in the form of grants, principal forgiveness, or negative interest. Provisions of the ARRA grants allowed the State to provide borrowers with debt forgiveness and/or zero percent (0%) interest rates on loans made with ARRA funds. Loan agreements address specific conditions or requirements for debt forgiveness. The debt forgiveness provision of these loans is effective at the completion of the project. During the year ended June 30, 2015 the principal forgiven for CWSRF loans and DWSRF was \$91,579 and \$3,387,743 respectively. As of June 30, 2015, the total amount of principal forgiveness for the CWSRF program (core and ARRA) and DWSRF (core and ARRA) was approximately \$16.6 million and \$20.7 million respectively. As of June 30, 2015, the total outstanding loan balance for loans provided through the ARRA provisions for these programs was \$4 million.

DISCRETELY PRESENTED COMPONENT UNITS

University of Wyoming

As of June 30, 2015, the University of Wyoming's total amount of outstanding loans was \$41,401,712 net of an allowance for doubtful accounts. The outstanding loans primarily consist of medical school contracts, which have rates from 0% to 8%, with repayment schedules of 96 months after leaving school and allow for loan cancellation based on the number of years of residency at eligible clinics in the State of Wyoming or upon practicing full-time medicine in the State of Wyoming. The University and the University of Wyoming Foundation had pledged receivables due of \$33,443,739 for donor pledges.

Wyoming Business Council

Interest rates on loans vary from 0.5% to 4.5% and have varying maturity dates through 2035; collateral includes personal guarantees, mortgages on real estate, and liens on receivables, inventory, furniture, equipment, and crops. At June 30, 2015, loans receivable included outstanding loans to four major loan customers totaling \$8,541,556, which comprised approximately 73% of gross loans receivable as of that date. There were no loans charged off during the year ended June 30, 2015.

	Gross Balance	Allowance	Net Balance
American Recovery and Reinvestment Fund	\$ 1,406,896	\$ -	\$ 1,406,896
General Fund	8,878,308	-	8,878,308
Total Loan Receivable	<u>\$ 10,285,204</u>	<u>\$ -</u>	<u>\$ 10,285,204</u>

Wyoming Infrastructure Authority

	Gross Balance	Allowance	Net Balance
Loan Receivable-Basin Electric	<u>\$ 26,602,000</u>	<u>\$ -</u>	<u>\$ 26,602,000</u>

The Wyoming Infrastructure Authority, under its bonding authority, previously issued \$34,500,000 dollars in Revenue Bonds purchased in total by the Wyoming State Treasurer. These bonds are secured by a loan receivable from Basin Electric for the same amount. This note accrues interest at 4.84% and matures on September 15, 2025.

NOTE 5 Capital Assets

PRIMARY GOVERNMENT

Capital asset activity for the fiscal year ended June 30, 2015, was as follows:

	Balance July 1, 2014	Additions	Deletions	Transfers In	Transfers Out	Balance June 30, 2015

Depreciation expense was charged to functions/programs of the primary government as follows:

	<u>Depreciation Expense</u>
Governmental activities	
General government	\$ 36,059,443
Business regulation	238,839
Education	1,182,702
Health Services	1,819,272
Law , justice and safety	4,501,584
Employment	499,735
Recreation and resource development	7,547,061
Social services	297,979
Total depreciation expense - governmental activities	<u>\$ 52,146,615</u>
Business-type activities	
Liquor Commission	\$ 97,635
Canteen	587
Honor Farm Agricultural Sales	12,269
Workers' Compensation Insurance	1,462,364
Total depreciation expense - business-type activities	<u>\$ 1,572,855</u>

Depreciation expense on assets being acquired under capitalized leases is included with depreciation expense on owned assets.

During fiscal year 2015, the State of Wyoming Construction Management Division of Administration and Information purchased the Snowy Range Academy building, and then donated the building to the Albany County School District #1 for a total contributed capital cost of \$4,002,455.

Also, the State of Wyoming Construction Management Division of Administration and Information continues construction on the University of Wyoming Science, Technology, Engineering and Mathematics building. The total projected cost of this project is \$50 million. The amount reported in the Statement of Net Position under "Amount held for Donation" totaled \$35,807,010 at June 30, 2015. The State will continue to track these costs in this account until such time when the building is placed into service.

DISCRETELY PRESENTED COMPONENT UNITS

The discretely presented component units consist of the University of Wyoming, Wyoming Department of Transportation, and various nonmajor component units. The University and WYDOT constitute 99.9% of the total capital assets of discretely presented component units. The majority of the University buildings are financed through State Appropriations.

Additional disclosures for the University's and WYDOT's capital assets are included in their separately issued financial statements. See Note 1(A) on how to obtain the University's and WYDOT's separately issued financial statements.

NOTE 6 Receivables and Payables

PRIMARY GOVERNMENT

On the Statement of Net Position the "Due to Primary Government" and the "Due from Component Units" does not balance by \$1,913,846. This difference primarily is due to timing differences. The "Due to Component Units" and the "Due from Primary Government" do not balance by \$52,059,749. This difference is due primarily to the establishment of appropriations as payables at June 30, which is owed to component units. These appropriations include capital construction whose balance is owed at June 30; these items comprise approximately \$15.8 million of this difference.

To the extent that certain transactions between funds had not been paid or received as of June 30, 2015, balances of inter-fund amounts receivable or payable have been recorded as presented below. Amounts due to internal service funds are generally for services performed by those funds. The principle amounts of the balances within the Nonmajor Governmental Funds relate to transfers between funds as presented in Note 7.

Payable Fund	Receivable Fund			
	General Fund	Permanent Mineral Trust Fund	Workers' Comp Ins Fund	Nonmajor Govt Funds
Major Funds				
General Fund	\$ -	\$ 44,328,358	\$ 255	\$ 20,989,518
Foundation Program Fund	507	-	-	105,309,000
Workers' Comp Ins Fund	1,340,251	-	-	25,091
Nonmajor Govt Funds	124,792,584	-	253	90,001,146
Nonmajor Enterprise Funds	337,015	-	36,231	1,557,021
Internal Service Funds	-	-	-	1,282
Total Receivables	\$ 126,470,357	\$ 44,328,358	\$ 36,739	\$ 217,883,058
	Nonmajor Enterprise Funds	Internal Service Funds	Total Payables	
Major Funds				
General Fund	\$ 142,159	\$ 1,784,770	\$ 67,245,060	
Foundation Program Fund	-	5,732	105,315,239	
Workers' Comp Ins Fund	-	63,505	1,428,847	
Nonmajor Govt Funds	2,384,171	245,009	217,423,163	
Nonmajor Enterprise Funds	-	4,533	1,934,800	
Internal Service Funds	-	46,330	47,612	
Total Receivables	\$ 2,526,330	\$ 2,149,879	\$ 393,394,721	

NOTE 7 Inter-Fund Transfers

PRIMARY GOVERNMENT

The operating transfers for the year ended June 30, 2015, were as follows:

Transfers From	Transfers To			
	General Fund	Foundation Program Fund	Common School Land Fund	Nonmajor Govt Funds
Major Funds				
General Fund	\$ -	\$ -	\$ 64,914,291	\$ 174,837,515
Foundation Program Fund	93,874,480	-	-	105,308,967
Common School Land Fund	-	3,853,393	-	-
Nonmajor Govt Funds	170,654,345	-	-	9,898,813
Nonmajor Enterprise Funds	14,452,890	-	-	-
Total Transfers From	\$ 278,981,715	\$ 3,853,393	\$ 64,914,291	\$ 290,045,295
	Nonmajor Enterprise Funds	Internal Service Funds	Total Transfers To	
Major Funds				
General Fund	\$ -	\$ 9,803,456	\$ 249,555,262	
Foundation Program Fund	-	-	199,183,447	
Common School Land Fund	-	-	3,853,393	
Nonmajor Govt Funds	2,394,171	-	182,947,329	
Nonmajor Enterprise Funds	-	-	14,452,890	
Total Transfers From	\$ 2,394,171	\$ 9,803,456	\$ 649,992,321	

Transfers are used to 1) move revenues from the fund that Statute requires to collect them to the fund that Statute requires to expend them; 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; and 3) move profits from the Liquor Commission Fund (\$14.5M) as required by law.

In the fiscal year ended June 30, 2015, the significant transfers include transfers to the General Fund from Nonmajor Governmental Funds representing excess revenues not needed in those funds or required to be transferred by Statute (\$170.7M). Transfers from the General Fund to the Common School Land Fund (\$64.9M) and transfers from the Foundation Program Fund to the General Fund (\$93.9M) are transfers required by WS 9-4-719 on the investment earnings spending policy for permanent funds. Transfers from the Foundation Program Fund to Nonmajor Government Funds are required by WS 21-13-306(c).

The General Fund transfers to Nonmajor Governmental Funds included the transfer of appropriations to the Capital Construction Fund (\$80.6M) and transfers for operational activities (\$94.2M).

The Nonmajor Government transfers to Nonmajor Government Funds (\$9.9M) were for operational activities during the year.

NOTE 8 Long-Term Obligations

PRIMARY GOVERNMENT

During the year ended June 30, 2015, the following changes occurred in long-term liabilities:

	Beginning Balance	Additions	Deletions	Ending Balance	Amount Due Within One Year
Governmental Activities					
Revenue Bonds	\$ 28,650,000	\$ -	\$ 2,260,000	\$ 26,390,000	\$ 2,380,000
Premium on Bonds Payable	1,977,462	-	235,888	1,741,574	-
Compensated Absences	57,178,658	46,838,126	43,849,696	60,167,088	39,775,211
Capital Leases	370,157	23,511	147,275	246,393	136,524
Net OPEB Obligation	72,891,578	8,022,556	-	80,914,134	-
Claims/Benefits Payable	148,367,338	370,619,731	378,533,238	140,453,831	94,967,296
Total Governmental Long-term Obligations	\$ 309,435,193	\$ 425,503,924	\$ 425,026,097	\$ 309,913,020	\$ 137,259,031
Business-Type Activities					
Compensated Absences	\$ 1,463,962	\$ 4,064,623	\$ 4,038,904	\$ 1,489,681	\$ 1,333,464
Claims/Benefits Payable	1,692,030,382	270,101,696	197,518,389	1,764,613,689	189,259,486
Total Business-Type Long-term Obligations	\$ 1,693,494,344	\$ 274,166,319	\$ 201,557,293	\$ 1,766,103,370	\$ 190,592,950

Claims and benefits payable of the governmental activities are primarily liabilities of the General Fund for health and welfare benefits and the Environmental Quality Special Revenue Fund – Committed Fund for claims associated with damages from certain contaminated sites. Compensated absences are payable by the funds in which they are incurred and are primarily the General Fund, the Board and Regulatory Special Revenue Fund, the Game and Fish Special Revenue Fund, and the Special Projects Fund – Committed Fund. Revenue bonds will be liquidated by the Debt Service Fund. The net OPEB obligation is partially funded by the Retirees Prefunded Health Insurance Fund. In the business-type activities, the claims and benefits payable are primarily liabilities of the Workers' Compensation Insurance and Wyoming Health Insurance Funds.

GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, became effective for the State for the year ended June 30, 2009, requiring governmental entities to recognize a liability for the future pollution remediation costs which meet obligating events criteria defined by GASB 49. The estimated pollution remediation obligation at June 30, 2015 is \$49.8 million.

Wyoming Statute 35-11, Article 14, *Water Pollution from Underground Storage Tanks Corrective Action Act of 1990*, requires that the State establish a corrective action and a financial responsibility account which are funded by mineral severance taxes as well as certain registration fees. In addition, this statute requires the Department of Environmental Quality to establish a prioritized list of sites contaminated by tanks and to take corrective action. As of June 30, 2015, 1,616 contaminated sites have been identified and 1,185 have been resolved. The State remediates contaminated sites as funding allows, and the statute limits the State's responsibility for clean-up costs to funding available in the corrective action accounts.

The cost of remediating the sites discussed above has been estimated by the Department of Environmental Quality and is based on their experience in the remediation of previous sites.

DISCRETELY PRESENTED COMPONENT UNITS

The discretely presented component units consist of the University of Wyoming, Wyoming Department of Transportation, and various nonmajor component units. The University and WYDOT constitute 22% of the total long-term liabilities of discretely presented component units, which consist of revenue bonds, capital leases, lease purchase agreements, compensated absences, deposits held in trust, other postemployment benefits, and refundable loans.

Additional disclosures for the University's and WYDOT's long-term liabilities are included in their separately issued financial statements. See Note 1(A) on how to obtain the University's and WYDOT's separately issued financial statements.

A. CAPITAL LEASES

PRIMARY GOVERNMENT

The State has entered into various leases and lease purchase agreements for equipment that have been accounted for as capital leases in accordance with generally accepted accounting principles. Lease contracts are required by law to contain a fiscal funding clause indicating that continuation of the lease is subject to funding by the Legislature.

Future minimum lease payments under capital leases for the State's governmental activities as of June 30, 2015, are as follows:

Year Ended June 30	Governmental Activities	
2016	\$	158,155
2017		83,778
2018		25,384
2019		5,481
2020		1,370
Total Minimum Payments		274,168
Less Interest		27,775
Present Value of Lease Payments	\$	246,393

The gross cost of assets acquired under capital leases, within the asset classification of Equipment, is \$582,444 for governmental activities with accumulated depreciation of \$392,434.

B. BONDED DEBT

PRIMARY GOVERNMENT

No new bonds were issued during fiscal year 2015. The governmental funds bonded debt reported below represents the remaining principal payable on capital facilities revenue bonds. Pledged revenues for the repayment of the principal and interest on these bonds are restricted to the federal mineral royalties distributed to the school foundation program. The table below presents the State of Wyoming capital facilities revenue bonds outstanding as of June 30, 2015:

		Interest Range %		Balance
	Series	Amount Issued	On Outstanding Balance	June 30, 2015
Government-Wide Statements				
Capital Facilities Refunding Bonds	1992	\$ 28,750,000	3.0-6.25	\$ 9,595,000
Capital Facilities Refunding Bonds	2005	23,440,000	2.5-5.0	-
Capital Facilities Refunding Bonds	2012-A	15,485,000	0.7-5.0	15,485,000
Capital Facilities Refunding Bonds	2012-B	1,420,000	0.5-1.2	1,310,000
Total		<u>\$ 69,095,000</u>		<u>\$ 26,390,000</u>

Future minimum payments for revenue bonds recorded in the government-wide statements as of June 30, 2015, are as follows:

Year Ended June 30	Government-Wide Statements		
	Principal	Interest	Total
2016	\$ 2,380,000	\$ 1,041,095	\$ 3,421,095
2017	2,535,000	940,723	3,475,723
2018	2,645,000	834,981	3,479,981
2019	2,745,000	723,444	3,468,444
2020	2,860,000	591,594	3,451,594
2021-2025	13,225,000	1,137,644	14,362,644
	<u>\$ 26,390,000</u>	<u>\$ 5,269,481</u>	<u>\$ 31,659,481</u>

Total pledged specific revenues for the State to repay the principal and interest of revenue bonds as of June 30, 2015, are as follows:

Source of Pledged Revenue	Foundation Program Fund Federal Mineral Royalties (FMRs)
Current revenue pledged	\$ 3,406,845
Current year debt service	3,406,845
Total future revenue pledged	31,659,481
Description of debt	Capital Facilities Refunding Bonds Series 1992, 2005 and 2012
Purpose of debt	Refund a portion of bonds and pay certain expenses in connection with the issuance of the new bonds
Term of commitment	2013-2025
Percentage of debt service to pledged revenues (current year)	100%
Total School Foundation distribution of FMRs per W.S. 9-4-601(a)(ii)	88,704,000
Proportion of School Foundation FMR's pledged	3.84%

DISCRETELY PRESENTED COMPONENT UNITS

The discretely presented component units consist of the University of Wyoming, Wyoming Department of Transportation, and various nonmajor component units. The University has revenue bonds payable that represent the remaining principal payments on bonds used for construction of facilities. Total revenue bonds payable at June 30, 2015, was \$101.5 million.

Additional disclosures for the University's and WYDOT's bonded debt are included in their separately issued financial statements. See Note 1(A) on how to obtain the University's and WYDOT's separately issued financial statements.

Wyoming Infrastructure Authority

Wyoming Infrastructure Authority has a long-term liability for a bond held with the Wyoming State Treasurer, with interest accruing at 4.69%, maturing on September 15, 2025 with a lump sum principal payment, and secured by a mortgage receivable. The long-term liability for the year ended June 30, 2015 was \$26,591,000 with \$1,998,000 due within one year.

Interest and principal maturities for the Infrastructure Authority's long-term debt are as follows:

Year Ended June 30	Principal	Interest	Total Debt Service
2016	\$ 1,998,000	\$ 1,223,973	\$ 3,221,973
2017	2,095,000	1,129,141	3,224,141
2018	2,198,000	1,029,690	3,227,690
2019	2,306,000	925,360	3,231,360
2020	2,419,000	815,896	3,234,896
2021-2025	13,985,000	2,240,812	16,225,812
2026-2030	1,590,000	37,286	1,627,286
	<u>\$ 26,591,000</u>	<u>\$ 7,402,158</u>	<u>\$ 33,993,158</u>

C. NET OPEB OBLIGATION

PRIMARY GOVERNMENT

GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, requires the State to have an actuarial valuation of the post-retirement benefit plan (other than pensions). The net result of which is to identify the actuarial accrued liability, the annual required contribution, and the net OPEB obligation. The retiree benefits offered by the State included in this actuarial valuation are the self-insured plans, including prescription drugs, three options for early retirees and two options for Medicare retirees. Currently, the retiree benefits are subsidized by the State based on age and years of service.

Plan Description. The State participates in a single-employer defined benefit postemployment healthcare plan, the Retiree Health Insurance Plan. The Legislature has the authority for establishing and amending the plan. This plan does not issue a separate report.

A retiree is eligible for coverage under the group insurance plan at premium rates established by the State, provided:

1. Application to continue coverage is made to the State within thirty-one (31) days after termination of the retiree's employment; and
2. The retiree has had medical coverage in effect under the group insurance plan for at least one (1) year immediately prior to the date of retirement and is eligible to receive a retirement benefit under the Wyoming Retirement System; and either:
 - a. Has attained the age of fifty (50) on the date of retirement and has at least four (4) years of service credit under the Wyoming Retirement System as an employee of one (1) of the employing entities participating in the plan; or
 - b. Has at least twenty (20) years of service credit under the Wyoming Retirement System as an employee of one (1) of the employing entities participating in the plan.

Required Monthly Contributions. Contributions are required for both retiree and dependent coverage. The State of Wyoming is currently providing a subsidy to offset the retiree's contributions for the medical insurance program. The current contribution amounts are provided here:

Pre-Medicare

\$11.50 per month per year of credited service at retirement, with a maximum benefit based on 30 years of service

Medicare Eligible

\$5.75 per Month per year of credited service, with a maximum benefit based on 30 years of service

For the plan year ending June 30, 2015, there were 12,814 fully eligible active participants. The retiree's benefit description provides eligible retirees receive health care through one of three medical plans. All plans are available to those under age 65 while the Health Savings Plan is not available to those 65 and older. The actuarial valuation identified a dental benefit which is available, but does not believe there is an OPEB liability associated with this benefit since the benefit is full-contributory and there is no implicit subsidy.

GASB Statement No. 45 allows the use of one of the following actuarial cost methods for the valuation: Unit Credit, Entry Age Normal, Attained Age, Aggregate, Frozen Entry Age, or Frozen Attained Age. These methods can be amortized on either a level dollar or a level percentage of earnings basis. This actuarial valuation

assumes the use of the Unit Credit method with amortization on a level percentage basis, because it is believed the Unit Credit method provides the most logical correlation between accruing and expensing of retiree benefits.

Funding Policy. The State finances this program on a “pay-as-you-go” basis. The Legislature has the authority for establishing and amending the funding policy. For fiscal year 2015 the State’s post-retirement plan is considered an unfunded plan. While the legislature has established a fund to account for retiree health insurance contributions, to pay explicit subsidies, for purposes of this latest actuarial evaluation the plan is considered unfunded and these dollars are not treated as an asset for this analysis. The fund had a cash balance of \$22.6 million as of June 30, 2015.

Annual OPEB Cost and Net OPEB Obligation. The State’s annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The table on the following page shows the components of the State’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the State’s net OPEB obligation:

	FY 2013	FY 2014	FY 2015
Net OPEB Obligation beginning of year	\$ 57,444,987	\$ 65,960,617	\$ 72,891,578
Annual Required Contribution (ARC)	16,238,370	17,023,175	17,743,817
Interest on net OPEB obligation	2,872,249	3,298,031	3,644,579
Adjustment to annual required contribution	(2,202,833)	(2,517,307)	(2,781,819)
Annual OPEB Cost	16,907,786	17,803,899	18,606,577
Less: Employer Contributions	8,392,156	10,872,938	10,584,021
Increase in Net OPEB Obligation	8,515,630	6,930,961	8,022,556
Net OPEB Obligation at June 30	\$ 65,960,617	\$ 72,891,578	\$ 80,914,134
Percentage of OPEB cost contributed	50%	61%	57%

The Net OPEB Obligation (NOO) is the cumulative difference between the ARC and the employer’s contributions to the plan. For the fiscal year ending June 30, 2015, the NOO is \$80,914,134, and assumes the State continues on a pay-as-you-go basis (Unfunded).

The **Schedule of Funded Status and Funding Progress** is presented below for the initial and subsequent valuation dates.

Actuarial Valuation Date	Actuarial Valuation of Plan Assets	Actuarial Accrued Liabilities (AAL)	Unfunded AAL (Funding Excess)	Funded Ratio	Covered Payroll	Funding Excess as a Percentage of Covered Payroll
	(A)	(B)	(B-A)	(A/B)	C	((B-A)/C)
July 1, 2009	0	\$ 223,827,503	\$ 223,827,503	0.00%	\$ 787,153,740	28.44%
July 1, 2011	0	\$ 218,733,654	\$ 218,733,654	0.00%	\$ 804,819,529	27.18%
July 1, 2013	0	\$ 243,727,620	\$ 243,727,620	0.00%	\$ 824,107,523	29.57%

The Actuarial Accrued Liability (AAL) for this post retirement benefit plan as of July 1, 2013, is \$243,727,620. This represents the present value of all future expected postretirement medical payments and administrative costs, which are attributable to past service.

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions. Projections of benefits are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits in force at the valuation

date. Actuarial calculations reflect long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Actuarial valuation date	July 1, 2013
Actuarial cost method	Projected Unit Credit
Amortization method	Level percent of pay; Open Period
Remaining amortization period	30 years
Asset valuation method	Fair value of assets
Actuarial assumptions:	
Investment rate of return/Discount Rate	5.0%
Healthcare Cost Trend Rate (HCCTR)	<u>Pre-Medicare</u> : 8.00% for 2013; decreasing 0.35% each year until 4.50% in year 2023 and after <u>Medicare</u> : 6.50% for 2013; decreasing 0.20% each year until 4.50% in year 2023 and after
Assumed rates of increase applied to pre-retiree premiums	<u>Pre-Medicare</u> : 16.00% for 2013; 13.00% for 2014, 7.30% for 2015, then decreasing 0.35% each year until 4.50% in 2023 <u>Medicare</u> : 20.00% for 2013; 13.00% for 2014, 6.10% for 2015, then decreasing 0.20% each year until 4.50% in 2023
Annual Payroll Growth	4.0%

DISCRETELY PRESENTED COMPONENT UNITS

The discretely presented component units consist of the University of Wyoming, Wyoming Department of Transportation, and various nonmajor component units. The University provides OPEB benefits to its eligible retirees and their families. As the University is the employer providing these benefits, the State will not be reporting these benefits.

Additional disclosures for the University's OPEB are included in their separately issued financial statements. See Note 1(A) on how to obtain the University's separately issued financial statements.

NOTE 9 Leases

PRIMARY GOVERNMENT

A. LEASE REVENUE

The State possesses significant amounts of land, the majority of which was received from the federal government when the Wyoming Territory was incorporated as a State. Such land is leased to third parties under leases accounted for as operating leases.

Governmental funds lease revenue for the year ended June 30, 2015 was \$7,841,128. Future minimum rents receivable under these lease agreements as of June 30, 2015, are as follows:

Year Ended June 30	Governmental Funds
2016	\$ 7,057,015
2017	6,272,902
2018	5,488,790
2019	4,704,677
2020	3,920,564
2021-2024	7,841,128
	<u>\$ 35,285,076</u>
# of Grazing Leases	5,043
# of Special Use Leases	478
Total Acres Under Lease	3,565,319

B. OPERATING LEASES

The State is committed under various leases that are considered operating leases. The operating lease expenditures/expenses are recognized as incurred or paid.

Governmental funds rental expenditures under operating leases for the year ended June 30, 2015 were \$11,558,219. Future rental commitments for operating leases are as follows:

Year Ended June 30	Governmental Funds
2016	\$ 10,169,485
2017	9,207,715
2018	8,091,877
2019	6,744,901
2020	2,206,256
Thereafter	37,594,665
	<u>\$ 74,014,899</u>

In addition, as of June 30, 2015, the State has signed lease agreements for the relocation of the agencies/employees that work in the Capitol. The lease commitments range from 3 to 5 year commitments that begin during fiscal year 2016. The future rental commitments are as follows, with \$782,744 of the year ending June 30, 2016 payments being prepaid during the year ended June 30, 2015:

Year Ended June 30	Governmental Funds
2016	\$ 1,189,200
2017	2,101,928
2018	2,101,928
2019	669,264
2020	539,280
	<u>\$ 6,601,600</u>

NOTE 10 Pensions

PRIMARY GOVERNMENT

A. GENERAL

State employees are eligible to participate in five different pension plans (1, 2, 5, 6, or 7 as listed below), depending on their current employment position. In addition, the State allows employees to elect participation in the Wyoming Deferred Compensation (457) plan. These plans are administered by the Wyoming Retirement System (WRS).

The Wyoming Retirement System was established in 1943 as a teachers' retirement program and amended in 1949 to incorporate State employees. Over 500 counties, municipalities, school districts, and other units of government participate in plans administered by the Wyoming Retirement System.

The Wyoming Retirement System administers nine defined benefit pension plans and one defined contribution plan. The defined benefit plans are all cost-sharing, multiple-employer plans with the exception of the Judicial Pension Plan and the Air Guard Fire Fighters Pension Plan, which are single-employer plans with participants who are State employees.

1. Public Employees Pension Plan
2. State Patrol, Game & Fish Warden & Criminal Investigator Pension Plan
3. Paid Firemen's Pension Plan A
4. Paid Firemen's Pension Plan B
5. Judicial Pension Plan
6. Law Enforcement Pension Plan
7. Air Guard Fire Fighters Pension Plan
8. Volunteer Emergency Medical Technician Pension Plan
9. Volunteer Firemen's Pension Plan
10. Deferred Compensation 457 Plan

The authority for establishing and amending the benefits and contribution rates rests with the Legislature of the State of Wyoming. The obligation to collect and remit the contribution rests with the employers of each plan. Administrative costs are deducted from the plan assets of each plan. The costs of administering the plan are financed by both the investment income and contributions. The responsibility for the administration and operation of the first seven retirement plans and the Deferred Compensation 457 Plan is vested in the Wyoming Retirement Board. The Board is composed of eleven members, ten appointed by the Governor and the eleventh being the State Treasurer.

The Deferred Compensation 457 Plan (defined contribution plan) is substantially funded by participants. The State's maximum contribution is \$20 per month per employee. Participation in the Plan is elective. Effective July 1, 2015, State employees are auto-enrolled into the Plan.

The Volunteer Firemen's Pension Plan is controlled by a separate board and administered by the Executive Director of the Wyoming Retirement System. The Board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer fireman with a minimum of five years as a member of a volunteer fire department in the State of Wyoming.

The Volunteer Emergency Medical Technician Pension Plan is controlled by a separate board and administered by the Executive Director of the Wyoming Retirement System. The Board consists of six members who shall be appointed by the Governor for staggered terms of three years. Each member is a volunteer emergency medical technician with a minimum of five years of service as a volunteer EMT in the State of Wyoming.

During the 2015 Legislative Session, the Legislature passed a bill which was signed by the Governor which will combine the Volunteer Firemen's Pension Plan and the Volunteer Emergency Medical Technician Pension Plan. The combination of both plans will provide permanent funding.

The State reports all the plans administered by the Wyoming Retirement System as Pension Trust Funds. The Pension Trust Funds are presented on the accrual basis of accounting with investments valued at fair value determined, primarily, by the latest bid price or the closing exchange price at the balance sheet date.

The table following represents the aggregate pension amounts for all plans subject to the requirements of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27*, for the State as an employer, for fiscal year 2015:

Aggregate Pension Amounts - All Plans	
Net Pension Asset	\$ (1,259,601)
Net Pension Liability	\$ 348,507,110
Deferred Outflow s of Resources-Pension Related	\$ 46,508,407
Deferred Inflow s of Resources-Pension Related	\$ 5,275,668
Pension expense/expenditures	\$ 45,503,236

Fiduciary Net Position. WRS issues a stand-alone financial report that is compliant with the requirements of GASB Statement No. 67. Detailed information about each of the following pension plan's fiduciary net position is available in the separately issued WRS financial report available from the Wyoming Retirement System, 6101 Yellowstone Road, Cheyenne, Wyoming 82002 or at <http://retirement.state.wy.us/home/index.html>. The Fiduciary Net Position as reported in the Fiduciary Funds' Statement of Net Position has been determined on the same basis as the Pension Plan's net position as reported in WRS's stand-alone financial statements. WRS accounts for the Plan using the accrual basis of accounting, which requires investments to be updated at fair market value. WRS recognizes benefits, refunds, and contribution returns when due and payable in accordance with the terms of the Plan.

B. STATE PARTICIPATION IN PLANS ADMINISTERED BY WRS

The State is not an employer in the following plans: Paid Firemen's Pension Plan A, Paid Firemen's Pension Plan B, Volunteer Emergency Medical Technician Pension Plan, or Volunteer Firemen's Pension Plan.

Public Employees Pension Plan

Plan description. Substantially all employees of the State are provided with pensions through the Public Employee Pension Plan - a cost-sharing, multiple-employer defined benefit pension plan. WRS is granted the authority to administer the Plan by Wyoming State Statutes 9-3-401 through 432.

Benefits provided. The determination of retirement benefits is dependent upon the employee's initial employment date.

Service Retirement Tier 1: Full retirement at age 60 or qualifies for the Rule of 85. Early retirement is permitted at age 50 or 25 years of service. Formula for retirement equals 2.125% times the number of years of service times 3 years highest average salary for the first fifteen years and 2.25% time the number of years of service times 3 year highest average over fifteen years.

Service Retirement Tier 2: Full retirement at age 65 or qualifies for the Rule of 85. Early retirement is permitted at age 55 or 25 years of service. Formula for retirement equals 2% times the number of years of service times the 5 year highest average salary.

Contributions. Per Title 9-3-412 and 413 of State Statutes, for the year ended June 30, 2015, member contributions were required to be 8.25% of compensation and employer contributions were required to be 7.62% of compensation. In accordance with Title 9-3-412 (c) (ii) of State Statutes, the State of Wyoming has elected to pay 6.195% of the members' contribution in addition to the employers' contribution. Effective July 1, 2015, the total contribution increased to 16.62% of which 8.37% is the employer contribution. Total contributions to the pension plan from the State of Wyoming were \$51,649,910 for the year ended June 30, 2015.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions. At June 30, 2015, the State of Wyoming reported a liability of \$328,047,329 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2015. The State of Wyoming's proportion of the net pension liability was based on the relationship of the State of Wyoming's total contributions to the plan for the year ended December 31, 2014,

to the contributions of all participating employers for the same period. At December 31, 2014, the State of Wyoming's proportion was 18.59%, which was a decrease from its December 31, 2013, proportion of 19.04%.

For the year ended June 30, 2015, the State of Wyoming recognized pension expense of \$39,908,735. At June 30, 2015, the State of Wyoming reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources as shown in the table below:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 26,897,042	\$ -
Changes in proportionate share of contributions	-	5,165,024
Contributions subsequent to the measurement date	12,402,467	-
	<u>\$ 39,299,509</u>	<u>\$ 5,165,024</u>

\$12,402,467 reported as deferred outflows of resources related to pensions resulting from State of Wyoming contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2016	\$ 5,010,525
2017	5,010,525
2018	5,010,525
2019	6,700,443
Total	<u>\$ 21,732,018</u>

Actuarial assumptions. The total pension liability in the January 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25% – 6.0%, including inflation
Investment rate of return	4.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB.

Long-Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	15.00%	0.98%
Equity	55.00%	6.66%
Marketable Alternatives	15.50%	4.19%
Private Markets	12.00%	7.13%
Cash	<u>2.50%</u>	0.50%
Total	<u>100.00%</u>	

Experience analysis. An experience study was conducted on behalf of all WRS' plans covering the five year period ended December 31, 2011. That study provided a detailed analysis concerning the development of the long-term inflation rate, real rate of return, and discount rate. The study also analyzed each major actuarial assumption (e.g., mortality, salary increases, retirement, termination, and disability) and proposed assumptions consistent with the findings.

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate. The following presents the State of Wyoming's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the State of Wyoming's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
Proportionate share of the net pension liability	\$ 512,638,460	\$ 328,047,329	\$ 173,033,324

Law Enforcement Pension Plan

Plan description. Any county sheriff, deputy county sheriff, municipal police officer, Wyoming correctional officer, Wyoming law enforcement academy instructor, University of Wyoming campus police officer, detention officer, or dispatcher for law enforcement agencies and certain investigators of the Wyoming Livestock Board are provided with pensions through the Law Enforcement Pension Plan - a cost-sharing, multiple-employer defined benefit pension plan. WRS is granted the authority to administer the Plan by Wyoming State Statutes 9-3-401 through 432.

Benefits provided. The determination of retirement benefits is dependent upon the employee's initial employment date.

Service Retirement. Full retirement at age 60 with 4 or more years of service or at least 20 years of service regardless of age. Formula for retirement equals 2.5% times the number of years of service times 5 years highest average salary with a maximum of 75%.

Contributions. Per Title 9-3-432 of State Statutes, for the year ended June 30, 2015, member contributions were required to be 8.6% of compensation and employer contributions were required to be 8.6% of

compensation. In accordance with Title 9-3-412 (c) (ii) of State Statutes, the State of Wyoming has elected to pay 6.195% of the members contribution in addition to the employers contribution. Total contributions to the pension plan from the State of Wyoming were \$6,327,068 for the year ended June 30, 2015.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions: At June 30, 2015, the State of Wyoming reported a liability of \$7,079,433 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2015. The State of Wyoming's proportion of the net pension liability was based on the relationship of the State of Wyoming's total contributions to the plan for the year ended December 31, 2014, to the contributions of all participating employers for the same period. At December 31, 2014, the State of Wyoming's proportion was 24.03%, which was a decrease from its December 31, 2013, proportion of 24.78%.

For the year ended June 30, 2015, the State of Wyoming recognized pension expense of \$3,170,841. At June 30, 2015, the State of Wyoming reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources as shown in the table below:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 2,795,900	\$ -
Changes in proportionate share of contributions	-	110,644
Contributions subsequent to the measurement date	1,573,107	-
	<u>\$ 4,369,007</u>	<u>\$ 110,644</u>

\$1,573,107 reported as deferred outflows of resources related to pensions resulting from State of Wyoming contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30		
2016	\$	672,855
2017		672,855
2018		672,855
2019		672,855
2020		(6,164)
Total	\$	<u>2,685,256</u>

Actuarial assumptions. The total pension liability in the January 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25% – 8.0%, including inflation
Investment rate of return	4.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB.

Long-Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	15.00%	0.98%
Equity	55.00%	6.66%
Marketable Alternatives	15.50%	4.19%
Private Markets	12.00%	7.13%
Cash	2.50%	0.50%
Total	100.00%	

Experience analysis. An experience study was conducted on behalf of all WRS' plans covering the five-year period ended December 31, 2011. That study provided a detailed analysis concerning the development of the long-term inflation rate, real rate of return and discount rate. The study also analyzed each major actuarial assumption (e.g., mortality, salary increases, retirement, termination, and disability) and proposed assumptions consistent with the findings.

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate. The following presents the State of Wyoming's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the State of Wyoming's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
Proportionate share of the net pension liability	\$ 24,719,153	\$ 7,079,433	\$ (7,477,476)

State Patrol, Game & Fish, Warden & Criminal Investigator Pension Plan

Plan description. Sworn officers of the Wyoming State Highway Patrol, law enforcement officers employed by the Wyoming State Game & Fish Department and sworn peace officers of the Division of Criminal Investigation are provided with pensions through the State Patrol, Game & Fish Warden & Criminal Investigator Pension Plan - a cost-sharing, multiple-employer defined benefit pension plan. WRS is granted the authority to administer the Plan by Wyoming State Statutes 9-3-601 through 620.

Benefits provided. The determination of retirement benefits is dependent upon the employee's initial employment date.

Service Retirement. Full retirement at age 50. Formula for retirement equals 2.5% times the number of years of service times 3 years highest average salary, limited to 75% of highest average salary.

Contributions. Per Title 9-3-604 and 605 of State Statutes, for the year ended June 30, 2015, member contributions were required to be 14.56% of compensation and employer contributions were required to be 13.86% of compensation. In accordance with Title 9-3-604 (a) of State Statutes, State of Wyoming has elected to pay 0.96% of the members contribution in addition to the employers contribution. Effective July 1, 2015, the employer's contribution percentage increased to 14.88%. Total contributions to the pension plan from the State of Wyoming were \$2,487,588 for the year ended June 30, 2015.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions. At June 30, 2015, the State of Wyoming reported a liability of \$12,854,631 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2015. The State of Wyoming's proportion of the net pension liability was based on the relationship of the State of Wyoming's total contributions to the plan for the year ended December 31, 2014, to the contributions of all participating employers for the same period. At December 31, 2014 and 2013, the State of Wyoming's proportion was 38.72%.

For the year ended June 30, 2015, the State of Wyoming recognized pension expense of \$1,852,585. At June 30, 2015, the State of Wyoming reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 1,056,278	\$ -
Contributions subsequent to the measurement date	609,978	-
	<u>\$ 1,666,256</u>	<u>\$ -</u>

\$609,978 reported as deferred outflows of resources related to pensions resulting from State of Wyoming contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30		
2016	\$	264,069
2017		264,069
2018		264,069
2019		264,071
Total	\$	<u>1,056,278</u>

Actuarial assumptions. The total pension liability in the January 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25% – 8.0%, including inflation
Investment rate of return	4.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB.

Long-Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	15.00%	0.98%
Equity	55.00%	6.66%
Marketable Alternatives	15.50%	4.19%
Private Markets	12.00%	7.13%
Cash	2.50%	0.50%
Total	100.00%	

Experience analysis. An experience study was conducted on behalf of all WRS' plans covering the five-year period ended December 31, 2011. That study provided a detailed analysis concerning the development of the long-term inflation rate, real rate of return and discount rate. The study also analyzed each major actuarial assumption (e.g., mortality, salary increases, retirement, termination and disability) and proposed assumptions consistent with the findings.

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate. The following presents the State of Wyoming's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the State of Wyoming's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
Proportionate share of the net pension liability	\$ 20,248,354	\$ 12,854,631	\$ 6,684,116

Judicial Pension Plan

Plan description. Any Justice of the Supreme Court, District Judge or County Court Judge appointed to any of these offices on or after July 1, 1998, and with no prior service as a justice of the Supreme Court or district judge at the time of appointment are provided with pensions through the Judicial Pension Plan - a single-employer defined benefit pension plan. WRS is granted the authority to administer the Plan by Wyoming State Statutes 9-3-701 through 713.

Benefits provided. The determination of retirement benefits is dependent upon the employee's initial employment date.

Service Retirement. Full retirement at age 60 with at least 20 years of service, age 65 with at least 4 years of service or age 70 with continuous service. Formula for retirement equals the sum of 4% per year for the first 5 years plus 3% per year for the next 10 years plus 2% per year for the next 5 years plus 1% per year over 20 years times 3 years highest average salary.

Contributions. Per Title 9-3-704 and 705 of State Statutes, for the year ended June 30, 2015, member contributions were required to be 9.22% of compensation and employer contributions were required to be 14.5% of compensation. In accordance with Title 9-3-704 (b) of State Statutes, State of Wyoming has elected to pay 9.22% of the members contribution in addition to the employers contribution. Total contributions to the pension plan from the State of Wyoming were \$1,510,707 for the year ended June 30, 2015.

Pension asset, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions. At June 30, 2015, the State of Wyoming reported an asset of \$1,259,601 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2015. The State of Wyoming's proportion of the net pension liability was based on the relationship of the State of Wyoming's total contributions to the plan for the year ended December 31, 2014 to the contributions of all participating employers for the same period. At December 31, 2014 and 2013, the State of Wyoming's proportion was 100%.

For the year ended June 30, 2015, the State of Wyoming recognized pension expense of \$609,129. At June 30, 2015, the State of Wyoming reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 501,466	\$ -
Contributions subsequent to the measurement date	462,326	-
	<u>\$ 963,792</u>	<u>\$ -</u>

\$462,326 reported as deferred outflows of resources related to pensions resulting from State of Wyoming contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30		
2016	\$	125,367
2017		125,367
2018		125,367
2019		125,365
Total	\$	<u>501,466</u>

Actuarial assumptions. The total pension liability in the January 1, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	3.75% including inflation
Investment rate of return	4.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB.

Long-Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	15.00%	0.98%
Equity	55.00%	6.66%
Marketable Alternatives	15.50%	4.19%
Private Markets	12.00%	7.13%
Cash	<u>2.50%</u>	0.50%
Total	<u>100.00%</u>	

Experience analysis. An experience study was conducted on behalf of all WRS' plans covering the five-year period ended December 31, 2011. That study provided a detailed analysis concerning the development of the long-term inflation rate, real rate of return and discount rate. The study also analyzed each major actuarial assumption (e.g., mortality, salary increases, retirement, termination, and disability) and proposed assumptions consistent with the findings.

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate. The following presents the State of Wyoming's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the State of Wyoming's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Current Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
Proportionate share of the net pension liability	\$ 1,084,822	\$ (1,259,601)	\$ (3,285,065)

Air Guard Firefighter Pension Plan

Plan description. All full time Air Guard Firefighters are provided with pensions through the Air Guard Firefighters Pension Plan - a single-employer defined benefit pension plan. WRS is granted the authority to administer the Plan by Wyoming State Statutes 9-3-401 through 432.

Benefits provided. The determination of retirement benefits is dependent upon the employee's initial employment date.

Service Retirement: Full retirement at age 60 or qualifies for the Rule of 75, or is at least age 50 with 25 years of service. Early retirement is permitted at age 50 with less than 25 years of service, or under age 50 with 25 years of service. Formula for retirement equals 2.5% times the number of years of service times 3 years highest average salary.

Contributions. Per Title 9-3-412 and 413 of State Statutes, for the year ended June 30, 2015, member contributions were required to be 7.0% of compensation and employer contributions were required to be 7.12%

of compensation. In accordance with Title 9-3-412 (c) (ii) of State Statutes, State of Wyoming has elected to pay 6.195% of the members contribution in addition to the employers contribution. Total contributions to the pension plan from the State of Wyoming were \$528,960 for the year ended June 30, 2015.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions. At June 30, 2015, the State of Wyoming reported a liability of \$525,717 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2015. The State of Wyoming's proportion of the net pension liability was based on the relationship of the State of Wyoming's total contributions to the plan for the year ended December 31, 2014 to the contributions of all participating employers for the same period. At December 31, 2014 and 2013, the State of Wyoming's proportion was 100%.

For the year ended June 30, 2015, the State of Wyoming recognized pension expense of \$(38,054). At June 30, 2015, the State of Wyoming reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 129,254	\$ -
Contributions subsequent to the measurement date	80,589	-
	<u>\$ 209,843</u>	<u>\$ -</u>

\$80,589 reported as deferred outflows of resources related to pensions resulting from State of Wyoming contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30		
2016	\$	32,314
2017		32,314
2018		32,314
2019		32,312
Total	\$	<u>129,254</u>

Actuarial assumptions. The total pension liability in the January 1, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary increases	4.25% – 6.0%, including inflation
Investment rate of return	4.5%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale BB.

Long-Term Expected Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of

pension plan investment expense and inflation) are developed for each major asset class. These real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Fixed Income	15.00%	0.98%
Equity	55.00%	6.66%
Marketable Alternatives	15.50%	4.19%
Private Markets	12.00%	7.13%
Cash	2.50%	0.50%
Total	100.00%	

Experience analysis. An experience study was conducted on behalf of all WRS' plans covering the five-year period ended December 31, 2011. That study provided a detailed analysis concerning the development of the long-term inflation rate, real rate of return and discount rate. The study also analyzed each major actuarial assumption (e.g., mortality, salary increases, retirement, termination and disability) and proposed assumptions consistent with the findings.

Discount rate. The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate: The following presents the State of Wyoming's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the State of Wyoming's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
Proportionate share of the net pension liability	\$ 1,463,178	\$ 525,717	\$ (256,550)

C. TABLES FOR SINGLE EMPLOYER PLANS ADMINISTERED BY WRS

Table 1 Single Employer Plan Membership

Number of Participating Members				
Plans	Inactive Members (Or Beneficiaries) Currently Receiving Benefits	Inactive Members Entitled to But Not Yet Receiving Benefits	Active Members	Total Members

Plan Fiduciary Net Position-Beginning	21,130,312	5,275,280
Plan Fiduciary Net Position-Ending (b)	<u>\$ 22,874,709</u>	<u>\$ 5,884,598</u>
Plan's Net Pension Liability/(Asset)-Beginning	\$ (1,465,904)	\$ 529,481
Plan's Net Pension Liability/(Asset)-Ending (a)-(b)	\$ (1,259,601)	\$ 525,718

DISCRETELY PRESENTED COMPONENT UNITS

All discretely presented component units, with the exception of Wyoming Infrastructure Authority, participate in the defined benefit pension plans provided by Wyoming Retirement System.

Additional disclosures for discretely presented component units on pension plan participation are included in their separately issued financial statements. See Note 1(A) on how to obtain the discretely presented component units' separately issued financial statements.

NOTE 11 Risk Management

PRIMARY GOVERNMENT

A. SELF INSURANCE FUNDS

The State maintains two self-insurance plans: the State Self Insurance Program and the State employee medical, life, and dental insurance programs. Each of these plans is reported as an internal service fund. Estimated claims liabilities do not include non-incremental claims adjustment expense. A brief description of each of the plans is provided below:

State Self Insurance Fund

Wyoming statute 1-41-103 created the State Self Insurance Fund to handle liability insurance claims brought against the State. The range of losses financed includes general liability, automobile liability, police liability, property, medical malpractice liability, and civil rights. In addition, this plan covers peace officers liability for the political subdivisions within Wyoming. For peace officers liability claims, the State and the University of Wyoming or local government employing the peace officer will pay for claims up to \$20,000 on a dollar for dollar matching basis. The self-insurance account shall maintain sufficient reserves for incurred but unpaid claims as well as incurred but unreported claims; losses are covered by a combination of appropriations from the State's general fund, Wyoming Department of Transportation, Game & Fish Commission, and by assessing other State agencies a deductible of up to \$2,500 per claim when the agency is determined to be liable for the loss. The estimated liability for claims against the State including incurred but not reported claims is approximately \$3.7 million as of June 30, 2015. The claims liability estimate is based on an analysis of past, current, and future estimated loss experience, a review of pending claims, and an actuarial evaluation. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liabilities may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The above estimate is not discounted and includes all allocated loss adjustment expenses estimated necessary to properly settle the claim. The claims liability does not include unallocated loss adjustment expenses. There is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2015.

Group Insurance Fund

The State co-administers employee medical, life, and dental insurance plans with a third party administrator. The State self-insures medical costs and assumes all the risk for claims incurred by plan participants. Insurance providers solely administer the life insurance plan. The State does not retain any risk of loss under the life insurance plan, as the insurance provider of the plan assumes all the risk for claims incurred by the participants.

During the year ended June 30, 2015, the State contributed up to 85% a month for insurance premiums for each covered active employee towards these plans. Participants are responsible for paying premium charges in excess of this amount. As of June 30, 2015, the medical claims liability, including incurred but not reported claims, was approximately \$29.1 million. A liability is recorded in the accompanying financial statements for the estimated claims liability. The claims liability estimate is based on an analysis of past, current, and future estimated loss experience, a review of pending claims, an actuarial evaluation. Because actual claims liabilities depend on such factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liabilities may not result in an exact amount. Claims liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. The above estimate is not discounted and includes all claims adjustment expenses estimated necessary to properly settle the claim. There is no outstanding amount of claims for which annuity contracts have been purchased in the claimant's name as of June 30, 2015. No significant reductions in insurance coverage were made in the last fiscal year.

The following is a reconciliation of the unpaid claims liability:

	State Self Insurance Fund		Group Insurance Fund	
	2014	2015	2014	2015
Claims Liability, at Beginning of Fiscal Year	\$ 5,978,784	\$ 6,161,929	\$ 18,248,289	\$ 30,290,561
Current Year Claims & Changes in Estimates	2,293,707	36,622	250,536,301	271,350,297
Claim Payments	(2,110,562)	(2,506,281)	(238,494,029)	(272,561,350)
Claim Liability, at End of Fiscal Year	\$ 6,161,929	\$ 3,692,270	\$ 30,290,561	\$ 29,079,508

B. INSURANCE ENTERPRISES AND PUBLIC ENTITY RISK POOLS

The State administers three insurance enterprises: the Workers' Compensation Insurance Program, the Wyoming Health Insurance Pool, and the Mine Subsidence Insurance Program which are reported in enterprise funds. None of these funds have acquisition costs, therefore, no cost is amortized for the period. Unpaid claims and claim adjustment expenses are estimated based on the ultimate cost of settling the claim, including the effects of inflation and other social and economic factors. These funds use the accrual basis of accounting. The insurance enterprises do not consider anticipated investment income in determining if a premium deficiency exists. A brief description of the insurance enterprises and the pool are provided below:

Workers' Compensation Insurance Fund

Wyoming Statute 27-14-101-806 created the Wyoming Workers' Compensation Act (Act). This Act requires all employers engaged in extra hazardous employment to obtain liability coverage for the payment of benefits to employees for job related injuries and diseases through the Workers' Compensation Insurance Fund. Eligible employers complying with the provisions of the Act are generally protected from suit by employees. Employers not required by the Act to participate in this program may elect to do so at their option. As of June 30, 2015, there were 19,358 employers insured under this Act.

The fund is used to account for the State's Workers' Compensation Program that provides time-loss, medical, and disability payments to qualifying individuals sustaining work-related injuries, or death benefits to dependent families if the worker were to die from such injuries. To fund these benefits, the State charges employers' monthly premiums based on rates it establishes for each employment classification, the employer's experience rating, and the total payroll for covered employees in each particular classification. The Act requires that rates be established at a level to maintain an actuarially sound insurance program. The State maintains funding of the workers' compensation liabilities through annual premium rate adjustments.

An actuarial study has estimated the liabilities and the ultimate cost of settling claims that have been reported but not settled and of claims that have been incurred but not reported. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liabilities, claims adjudication, and judgments, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are re-computed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic, legal and social factors.

A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. The Department of Workforce Services uses an undiscounted Workers' Compensation Insurance Fund balance when determining industry base rates for employer premiums. For consistency between the Department of Workforce Service's Workers' Compensation Insurance Fund balance used for rate setting purposes and Workers' Compensation Insurance Fund balances shown in the CAFR, the Workers' Compensation Insurance Fund balance is shown at an undiscounted value. At June 30, 2015, approximately \$1,758 million of claims and adjustment expenses have been accrued. The State does not use reinsurance agreements; therefore, the State retains full liability as the direct insurer.

Wyoming Health Insurance Fund

This fund is comprised of two programs, as follows:

Wyoming Health Insurance Pool (WHIP)

Wyoming Statute 26-43 created the Wyoming Health Insurance Pool (Pool) for the purpose of providing health insurance for State residents. Qualifying State residents who are denied insurance by private carriers or leave coverage because of excessively high premiums or restrictive coverage may join the Pool. The Pool began providing health insurance coverage to participants on January 1, 1991. Under State Statute, the Pool will terminate June 30, 2020. The State co-administers the Pool along with a third party insurance provider, Blue Cross Blue Shield of Wyoming; however, the Pool retains all risk of loss for claims filed by Pool participants. As of June 30, 2015, 893 residents were covered under the Pool. A copy of the Pool's financial report may be obtained by contacting Blue Cross Blue Shield of Wyoming in writing at 4000 House Avenue, Cheyenne, Wyoming 82001.

The Pool's liability exposure per participant is a maximum lifetime benefit of \$750,000 for one Plan and \$1,000,000 for an alternate Plan. Premiums are collected from Pool participants to pay Pool expenses; however, if such premiums are insufficient to meet expenditures, the State has the authority to assess all carriers who write health insurance policies in the State to cover Pool deficits.

The estimated liability for unpaid claims and loss adjustment expense is based on data developed by the Pool's third-party administrator. Since the Pool has limited historical experience of its own, industry experience is also considered in determining the estimated liability. The liability includes estimates of the costs to settle individual claims that have been reported, plus a provision for losses incurred but not yet reported. The undiscounted liability for unpaid claims and claim adjustment expenses is \$630,000 at June 30, 2015.

Wyoming Small Employer Health Reinsurance Program (WSEHRP)

Wyoming Statute 26-19-301, et. seq. created the Wyoming Small Employer Health Insurance Availability Act (the Act). The purposes of the Act are to 1) promote the availability of accident and health insurance coverage to small employers, 2) to provide reinsurance as a mechanism to fairly share risk, and 3) to improve the efficiency and fairness of the small employer group accident and health insurance marketplace.

The WSEHRP (the Program) is created under Wyoming Statute 26-19-307. The program is funded by reinsurance premiums paid by participating carriers and assessments against all authorized insurers who pay premium taxes to the State of Wyoming. Each year the Program's net earnings are determined. If net earnings are negative (i.e. the Program has operated at a loss), the loss is recovered by assessments against all authorized insurers. An independent board determines each authorized insurer's assessment in accordance with statutory provisions. As of June 30, 2015, the Program is reinsuring 85 lives. Whole group plans no longer reinsure lives and 75 individual plans reinsure 85 lives. A copy of the Pool's financial report may be obtained by contacting the Wyoming Department of Insurance at 106 East 6th Avenue, Cheyenne, Wyoming 82002.

The estimated liability for unpaid claims and loss adjustment expense is based on data maintained by the Program's reinsurance intermediary manager, Pool Administrators, Inc., Wethersfield, CT. The Program's claim loss reserve is made up of two amounts, one being claims payable and the other being claims incurred but not reported (IBNR). Claims payable are claims that have been submitted by carriers to the administrator for reimbursement but, as of the date of the financial statements, have not been paid. Claims incurred but not reported are estimated claims, based on the past experience of the Program, that have been incurred by the carriers participating in the Program that have not yet been submitted to the administrator for reimbursement. The basis for this estimate is a loss ratio applied to current earned premium. The Program is currently estimating incurred claims at a rate of 600% of premium. As of December 31, 2014, the claims payable balance was \$943,391 and the IBNR was estimated at \$2,584,120 for a total loss reserve balance of \$3,527,511. As of June 30, 2015, the claims payable balance was \$812,984 and the IBNR was estimated at \$3,763,348 for a total loss reserve balance of \$4,576,332.

Subsidence Insurance

Wyoming Statute 35-11-13 requires the Department of Environmental Quality (DEQ) to administer an insurance program to cover mine subsidence loss to specified structures in the State. The Wyoming Mine Subsidence Insurance Program provides insurance to any individual whose home or business exists, over or near, any underground mine in the State. On October 29, 1986, the DEQ received a funding grant from the Federal

Department of Interior's Office of Surface Mining to assist with administrative and claim costs. A grouting program was initiated in Rock Springs in 1986. A cement type of material is used to fill those abandoned mines subject to the greatest risk of subsidence. As of June 30, 2015, there were 90 policyholders with in-force premiums. The insured value of these policies is \$10,685,803. There were no unresolved or pending claims as of June 30, 2015. This program had an actuarial valuation performed in 2009 that is used to determine that premiums charged to participants are sufficient to meet anticipated claim expense. This evaluation concluded that current premium rates are more than adequate to cover expected claims and expenses of the program.

The following table summarizes current period activity for the State's insurance enterprise funds:

	Workers' Compensation Insurance Fund		Wyoming Health Insurance Fund	
	2014	2015	2014	2015
Claims Liability at Beginning of Fiscal Year	\$ 1,546,421,797	\$ 1,685,110,026	\$ 8,253,032	\$ 5,476,332
Incurred Claims & Claim Adjustment Expenses:				
Provisions for Insured Events of the Current Year	277,222,541	231,200,880	16,141,053	14,385,119
Increase in Provision for Insured Events of Prior Years	56,465,000	24,567,000	(3,661,405)	(1,565,505)
Total Incurred Claims & Claim Adjustments Expense	333,687,541	255,767,880	12,479,648	12,819,614
Claims & Claim Adjustment Expenses Attributable to Insured Events of Current Year	(47,892,003)	(42,256,377)	(12,555,689)	(9,753,775)
Claims & Claim Adjustment Expenses Attributable to Insured Events of Prior Year	(147,107,309)	(140,728,374)	(2,700,659)	(3,335,839)
Total Payments	(194,999,312)	(182,984,751)	(15,256,348)	(13,089,614)
Total Unpaid Claims & Claim Adjustment Expenses at End of Fiscal Year	\$ 1,685,110,026	\$ 1,757,893,155	\$ 5,476,332	\$ 5,206,332

NOTE 12 Governmental Fund Balances

PRIMARY GOVERNMENT

A. GOVERNMENTAL FUND BALANCES

The State's governmental fund balances are reported according to the constraints that control how amounts can be spent. Classifications include nonspendable, restricted, committed, assigned and unassigned, which are further described in Note 1(E)(11).

Below is a presentation of the fund balance classifications for the governmental funds:

Fund Balances	General Fund	Foundation Program Fund	Common School Land Fund	Permanent Mineral Trust Fund	Nonmajor Governmental Funds	Totals
Nonspendable						
Corpus	\$ -	\$ -	\$ 3,482,565,700	\$ 7,079,798,651	\$ 681,442,712	\$ 11,243,807,063
Loans Receivable	31,606,844	480,565	58,465	48,220,522	288,515,012	368,881,408
Prepays	9,600,067	-	-	-	58,178,569	67,778,636
Inventory	4,659,548	-	-	-	490,004	5,149,552
Total Nonspendable	\$ 45,866,459	\$ 480,565	\$ 3,482,624,165	\$ 7,128,019,173	\$ 1,028,626,297	\$ 11,685,616,659
Restricted						
Cultural Resources	-	-	-	-	14,826,436	14,826,436
Wildlife Trust	-	-	-	-	129,257,684	129,257,684

B. STABILIZATION FUND (RAINY DAY FUND)

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, states a government may set aside amounts for use in emergency situations or when revenue shortfalls or budgetary imbalances arise. Those amounts are subject to controls that dictate the circumstances under which they can be spent. Governments may have formal arrangements to maintain amounts for budget or revenue stabilization, working capital needs, contingencies or emergencies, and other titled purposes. The authority to set aside those amounts generally comes from statute, ordinance, resolution, charter, or constitution.

For purposes of reporting fund balance, stabilization is considered a specific purpose as defined in GASB 54 and should be reported as restricted or committed if they meet the above criteria. Because the State does not have a formal stabilization arrangement, the fund balance of the State's Rainy Day Fund, the Legislative Stabilization Reserve Account (LSRA), is presented in the General Fund as unassigned fund balance.

The balance of the LSRA at June 30, 2015 was \$1.8 billion.

Note 13 Commitments and Contingencies

PRIMARY GOVERNMENT

A. FEDERAL GRANTS

Grant monies received and disbursed by the State are for specific purposes and are subject to audit by the grantor agency. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience and current knowledge, the State does not believe that such disallowances, if any, would have a material effect on the financial position or results of operations of the State.

B. CONSTRUCTION COMMITMENTS

As of June 30, 2015, the State has signed agreements for contracts/obligated amounts—totaling approximately \$994.1 million with school districts throughout the State that commit the State to provide funding for school district capital construction projects. As of June 30, 2015, approximately \$448.9 million was unexpended under these agreements.

As of June 30, 2015, the State has signed agreements for contracts/obligated amounts—totaling approximately \$50 million with component units that commit the State to provide funding for capital construction projects. As of June 30, 2015, approximately \$14 million was unexpended under these agreements.

As of June 30, 2015, there were 85 uncompleted projects. The remaining commitment to complete these projects totaled approximately \$453.6 million. The completion costs will be financed by a combination of State appropriations and federal grants. The following table shows these construction projects summarized by agency level:

Agency	Appropriation Amount	Expended Amount	Remaining Encumbrance	Remaining Balance to Obligate
Department of Administration & Information Construction Projects	\$ 312,061,500	\$ 24,772,781	\$ 39,080,195	\$ 248,208,524
Military Department Construction Projects	41,457,134	23,075,952	5,633,905	12,747,277
Department of Environmental Quality Software Development	3,815,977	2,870,457	-	945,520
Department of Parks and Cultural Resources Construction Projects	3,852,301	1,420,125	290,619	2,141,557
Department of Game and Fish Construction Projects	2,649,541	1,517,073	281,838	850,630
Fire Prevention & Electrical Safety Software Development	1,717,509	1,717,509	-	-
Department of Workforce Services	71,677,712	15,332,024	47,947,174	8,398,514
Department of Corrections Construction Projects	87,598,832	501,217	356,362	86,741,253
Legislature Service Office Software Development	2,468,890	2,468,890	-	-
	<u>\$ 527,299,396</u>	<u>\$ 73,676,028</u>	<u>\$ 93,590,093</u>	<u>\$ 360,033,275</u>

C. INVESTMENT COMMITMENTS

The State has committed to provide funding to certain private equity and real estate investments. The State's total commitment amount is \$1,318 million. This includes \$1,285 million in capital for investment and management fees. The State had invested \$798.2 million in these investments at June 30, 2015.

At December 31, 2014, WRS was committed to the future purchase of investments at an aggregate cost of \$352.1 million.

D. ENCUMBRANCES

The State of Wyoming utilizes encumbrance accounting to identify fund obligations.

The following table shows encumbrances, \$500,000 or greater, in total by major and nonmajor fund as of the fiscal year ended June 30, 2015.

Governmental Funds	Encumbrances
General Fund	\$ 391,625,049
Foundation Program Fund	1,556,145
Nonmajor Governmental Funds	300,517,381

E. CONTINGENCIES

Under the School District Bond Guarantee Program, the Wyoming State Loan and Investment Board approved the guarantee of approximately \$3.4 million of bonds by the State through the year ended June 30, 2015. The State approved the following bonds as of June 30, 2015:

School Districts Approved	Issued Date	Issued Amount	Outstanding Bond
			Principle
Fremont County School District #1	May 24, 2012	\$ 3,450,000	\$ 2,160,000
		\$ 3,450,000	\$ 2,160,000

Wyoming Statute 9-4-701(j) authorizes \$300 million of the Common School Land Permanent Land Fund to be pledged for repayment of the guaranteed bonds in the event of a district's default under the School District Bond Guarantee Program. Of this \$300 million cap, \$297.8 million is still available. This guarantee program only applies to refunding issues for bonds issued by school districts on or before November 1, 2001 and no longer applies to original issues after this date.

The State is also a party to various legal proceedings arising in the normal course of business. The State believes that the outcome of these matters will not have a material adverse impact on the State's financial position or results of operations.

DISCRETELY PRESENTED COMPONENT UNITS**University of Wyoming**

The University has contracted and/or appropriated funds for the planning and construction or maintenance of several facilities with an aggregate cost of approximately \$422.2 million. As of June 30, 2015, the remaining commitment to complete these projects totaled approximately \$224.8 million. These completion costs will be financed by a combination of State appropriations and private gifts and grants.

Wyoming Business Council

The Council has contracted and/or committed funds for various projects, services, and other items arising in the normal course of operations. The amounts remaining to complete these commitments totaled \$42.2 million as of June 30, 2015. These commitments will be funded by a combination of restricted net position, State appropriations, and Federal revenues.

Note 14 Subsequent Events

PRIMARY GOVERNMENT

A. BUDGET REDUCTIONS

The State of Wyoming has determined, as of December 2015, the fiscal year 2016 budget will have a \$159 million shortfall. The State bases its budget on projected revenues, which have been decreased due to decreased oil production, low oil and gas prices, oversupply of oil and gas, and coal market challenges. The Governor has been given the authority to reduce appropriations to prevent budget deficits through Section 310 of the 2015-2016 Budget Bill. The Governor has identified appropriations set aside for important projects where the funds are not immediately necessary and has reduced these appropriations to cover the shortfall.

For the 2017-2018 biennium, the Governor has asked agencies to reduce their standard budgets and prioritize programs. The standard budget being presented to the Legislature has been reduced by nearly \$19 million. The Legislature will be able to use the program priorities shown in the agency budgets if they determine that further budget reductions are necessary during the 2016 Legislative Session.

B. ABANDONED MINE LANDS (AML) FUNDING

In December 2015, the federal highway bill was passed by Congress and signed by the President. The AML provision included in the bill restores the full amount of funding that was due to Wyoming and other states that take part in the program, which had been reduced by Congress in 2012. It also eliminates the cap that prevented states from getting more than \$15 million per year. According to Wyoming's congressional delegation, Wyoming should have \$242 million available in grant funding for fiscal year 2016 and can expect \$350 million more over the next decade.

C. CAPITOL RENOVATION CONTRACT AND RELATED LEASES

The construction phase of the State of Wyoming Capitol building will begin in early 2016. The construction contract commitment has been included in Note 13(B) under Department of Administration & Information construction projects. The related leases, for the new locations which house the former occupants of the Capitol building, are disclosed in Note 9(B).

Note 15 New Pronouncements

Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions, which replaces GASB Statement No. 27, Accounting for Pensions by State and Local Government Employers*, for the most government pensions. This statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual cost of the pension benefits. The statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI).

This statement is effective for years beginning after June 15, 2014. Accounting changes adopted to conform to the provisions of this statement were applied beginning in the year ended June 30, 2015 retroactively by restating the beginning net position. See discussion of prior period restatement in Note 1(F).

Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*

In November 2013, the GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. This Statement was issued to improve accounting and financial reporting by addressing an issue in Statement No 68, *Accounting and Financial Reporting for Pensions*, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

The provisions of this Statement should be applied simultaneously with the provisions of Statement No. 68, which is effective for years beginning after June 15, 2014. Accounting changes adopted to conform to the provisions of this statement were applied beginning in the year ended June 30, 2015.

Statement No. 72, *Fair Value Measurement and Application*

In February 2015, the GASB issued Statement No. 72, *Fair Value Measurement and Application*. This statement was issued to address accounting and financial reporting issues related to fair value measurements. The definition of *fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In addition, this statement provides guidance for determining a fair value measurement for financial reporting purposes and provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

This statement is effective for fiscal years beginning after June 15, 2015, fiscal year 2016 for the State of Wyoming. The effect that the adoption of Statement No. 72 will have on the State's financial statements has not been determined.

Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*

In June 2015, the GASB issued Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. This statement was issued to establish requirements for defined benefit pensions that are not within the scope of Statement No. 68, *Accounting and Financial Reporting for Pensions*, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement No. 68. It also amends certain provisions of Statement No. 67, *Financial Reporting for Pension Plans*, and Statement No. 68 for pension plans and pensions that are within their respective scopes.

The requirements of this Statement that address accounting and financial reporting by employers and governmental nonemployer contributing entities for pensions that are not within the scope of Statement No. 68 are effective for financial statements for years beginning after June 15, 2016 (fiscal year 2018 for the State of Wyoming), and the requirements of this Statement that address financial reporting for assets accumulated for purposes of providing those pensions are effective for fiscal years beginning after June 15, 2015 (fiscal year 2016 for the State of Wyoming). The requirements of this Statement for pension plans that are within the scope of Statement No. 67 or for pensions that are within the scope of Statement No. 68 are effective for fiscal years beginning after June 15, 2015.

Earlier application is encouraged. The effect that the adoption of Statement No. 73 will have on the State's financial statements has not been determined.

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*

In June 2015, the GASB issued statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This statement was issued to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability.

This statement is effective for fiscal years beginning after June 15, 2016, fiscal year 2017 for the State of Wyoming. The effect that the adoption of Statement No. 74 will have on the State's financial statements has not been determined.

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This statement was issued to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local government employers about financial support for OPEB that is provided by other entities.

This statement is effective for fiscal years beginning after June 15, 2017, fiscal year 2018 for the State of Wyoming. The effect that the adoption of Statement No. 75 will have on the State's financial statements has not been determined.

Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*

In June 2015, the GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This statement was issued to identify – in the context of the current governmental financial reporting environment – the hierarchy of generally accepted accounting principles (GAAP).

This statement is effective for fiscal years beginning after June 15, 2015, fiscal year 2016 for the State of Wyoming. The effect that the adoption of Statement No. 76 will have on the State's financial statements has not been determined.

Statement No. 77, *Tax Abatement Disclosures*

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. This statement was issued to include disclosure of information about the nature and magnitude of tax abatements which will make these transactions more transparent to financial statement users. As a result, users will be better equipped to understand (1) how tax abatements affect a government's future ability to raise resources and meet its financial obligations and (2) the impact those abatements have on a government's financial position and economic condition.

This statement is effective for financial statements for periods beginning after December 15, 2015, fiscal year 2017 for the State of Wyoming. The State has determined that Statement No. 77 will have no effect on the State's financial statements.

***INFRASTRUCTURE ASSETS REPORTED
USING THE MODIFIED APPROACH***

WYOMING DEPARTMENT OF TRANSPORTATION

The Wyoming Department of Transportation (WYDOT) accounts for its infrastructure assets using the modified approach. The infrastructure consists of the road subsystem, the bridge subsystem and communication subsystem.

WYDOT manages its road network with a pavement management system developed by the Department. A consulting firm is contracted to collect the data. The pavement condition is rated in three areas: ride, rutting, and cracking. The ride is measured by suspension movement using an index called the present surface index (PSI). The rutting is measured using the height difference between the lane center and each wheel path of a cross section of the road to determine the rut index (RUT). The cracking measures the width and frequency of the cracks to establish the pavement condition index (PCI). A composite rating is derived from the three condition ratings called the pavement serviceability rating (PSR). The pavement management system establishes a PSR on a scale from 0 to 5 for each road section with the following categories: excellent 5.0 to 3.5, good 3.5 to 3.0, fair 3.0 to 2.5 and poor 2.5 to 0. It is WYDOT's goal to maintain its National Highway System (NHS) at an average rating of 3.25 (good) for the NHS system as a whole and it's Off the National Highway System (Non-NHS) at an average rating of 3.00 (fair) for the Non-NHS system as a whole. Each road section has data collected every other year. The road subsystem condition assessment is done every year.

As of September 30, 2014, the overall PSR for the NHS was 3.52 and Non-NHS was 3.27. As of September 30, 2013, the overall PSR for the NHS was 3.54 and the Non-NHS was 3.23. As of September 30, 2012, the overall PSR for the NHS was 3.46 and the Non-NHS was 3.19. The number of miles of NHS and Non-NHS with excellent to good condition and fair to poor condition are as follows:

PSR Condition Rating	NHS						NON-NHS					
	2012		2013		2014		2012		2013		2014	
	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent	# of Miles	Percent
Good to Excellent	2,603	67.8%	2,891	72.8%	2,821	70.8%	1,625	45.8%	1,662	48.5%	1,776	51.8%
Poor to Fair	1,235	32.2%	1,081	27.2%	1,161	29.2%	1,921	54.2%	1,764	51.5%	1,651	48.2%
	3,838	100.0%	3,972	100.0%	3,982	100.0%	3,546	100.0%	3,426	100.0%	3,427	100.0%

The Department uses a comprehensive bridge management system, AASHTOWare BrM (formerly PONTIS), to assist in managing the State's bridges. Each bridge is inspected at least once every two years. This inspection measures, assesses, and records the required National Bridge Inventory (NBI) items, including dimensions, clearances, alignment, waterway data and structural condition. The structural condition is evaluated by using structural elements. Each component of the bridge (girders, deck, railing, columns, piling, etc.) is assigned an element and the condition of each element is evaluated based on several condition assessments. The structure's NBI data is then used to determine its Wyoming Bridge Index (WBI).

The new highway bill, Moving Ahead for Progress in the 21st Century (MAP-21), has restructured the core highway formula programs into the National Highway Performance Program (NHPP). The Highway Bridge Program (HBP) was one of the programs that was restructured, and as such, there is no longer a select list to determine deficient bridges. WYDOT has elected to use the WBI to replace the select list criteria used in the past.

The WBI provides a high level view for reporting purposes while individual components help distinguish differences in bridge attributes that may otherwise go unnoticed when using a single rating or index (e.g. Sufficiency Rating). It is composed of a Structural Condition Rating (SCR), Maintenance Rating (MR), Functionality Rating (FR), and Risk Rating (RR). These ratings are assessments of a bridge's current structural adequacy, condition of commonly maintained components, attributes affect on users, and vulnerability to extreme events. The bridges are given an overall WBI Performance Category of Excellent 100 to 93, Good 93 to 85, Fair 85 to 65, and Poor 65 to 0, based on a composite score of the four component ratings. The formula for the WBI and performance category bonds are as follows: $WBI = 0.55 \times SCR + 0.25 \times MR + 0.11 \times FR + 0.09 \times RR$. The Department's goal is to maintain 85% of its NHS and Non-NHS bridges in Excellent, Good, and Fair condition (i.e. 15% or less in poor condition).

Using the BMSINBI conversion program, the NBI data supplied to the Federal Highway Administration in March of 2014 results in the following Structure Condition Ratings. Please note the highway bill, Moving Ahead for Progress in the 21st Century (MAP-21), reassigned the status of several routes not on the National Highway System (NHS) to the NHS. The 2013 data reflects a decrease in the number of Non-NHS bridges and an increase NHS bridges due to this reassignment. The 2013 and 2012 structure condition rating has been converted and presented in the WBI formula.

Structure Condition Rating	NHS						NON-NHS					
	2012		2013		2014		2012		2013		2014	
	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent	Bridges	Percent
Excellent	104	8.1%	111	8.2%	110	8.1%	98	14.6%	89	14.6%	82	13.4%
Good	491	38.3%	509	37.9%	510	38.0%	281	41.9%	253	41.4%	255	41.7%
Fair	637	49.6%	668	49.7%	671	50.0%	255	38.0%	229	37.5%	232	37.9%
Deficient	51	4.0%	56	4.2%	52	3.9%	37	5.5%	40	6.5%	43	7.0%
Total	1,283	100.0%	1,344	100.0%	1,343	100.0%	671	100.0%	611	100.0%	612	100.0%

The Department's new communication infrastructure facilitates statewide radio communications for and between public safety agencies, including law enforcement, fire, emergency medical, transportation and other entities. The Governor has appointed a Public Safety Communications Commission to provide guidance regarding system operations and participation, and advice to promote system development, improvement, and efficiency.

To assess and monitor the communication system's operating effectiveness, Telecom Infrastructure Asset ratings are calculated from the Telecommunications Program maintenance measures. Ratings are grouped as WyoLink Base/Repeater, and Other-Telecom (Radio Site and Microwave). Telecom maintained this communications infrastructure following the technical evaluation and documentation procedures detailed in the programs policies. The Department's policy is to maintain 100% of its communication system in acceptable condition; actual overall rating was 100% at the end of the year.

Tabular summary of the quantity and percentage of Telecom infrastructure assets in acceptable condition follows:

Condition Rating	Number of WyoLink Assets						Number of Other Telecom Assets					
	2012		2013		2014		2012		2013		2014	
	Assets	Percent	Assets	Percent	Assets	Percent	Assets	Percent	Assets	Percent	Assets	Percent
Acceptable	54	100.0%	8	100.0%	61	100.0%	168	100.0%	166	100.0%	166	100.0%
Deficient	0	0.0%	0	0.0%	0	0.0%	0	0.0%	0	0.0%	0	0.0%
	54	100.0%	8	100.0%	61	100.0%	168	100.0%	166	100.0%	166	100.0%

The Department estimated maintenance and preservation expenditures on infrastructure assets of \$390.8 million for the year ended September 30, 2014. Actual expenditures on infrastructure for maintenance and preservation were \$388.7 million, a difference of \$2.1 million. The difference is due to the size and length of the construction projects.

Estimated and actual amounts used to maintain or preserve the Department's infrastructure systems at the Department's target PSR ratings for the past five years are as follows:

Year Ended September 30	Estimated			Actual		
	Road Network	Bridges	Communication System	Road Network	Bridges	Communication System
2010	373.4 million	23.8 million	*	444.6 million	26.2 million	*
2011	349.5 million	20.3 million	.8 million	418.4 million	32.9 million	.8 million
2012	408.9 million	39.1 million	2.88 million	409.2 million	12.1 million	2.9 million
2013	394.2 million	25.4 million	2.5 million	356.2 million	11.7 million	3.5 million
2014	347.7 million	40.7 million	2.4 million	369.3 million	17.1 million	2.3 million

*No maintenance or operation budget had been established as of this date.

***NOTES TO REQUIRED SUPPLEMENTARY
INFORMATION***

Notes to Required Supplementary Information

Budgetary Comparison Schedules

The Legislature appropriates substantially cash basis budgets for a majority of the funds at the program level (administration, revenue division, investigations, etc.) within an agency. The State budget office maintains budgets for budgeted funds at the series level (personnel services, support services, etc.) within a program. Agency budget analysts are allowed to transfer appropriations from one series to another series within an agency's program but the Governor must approve all changes in appropriations at the program level. The State's legal level of budgetary control is at the program level.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation, is employed for governmental fund types. Encumbrances outstanding at June 30, 2015, for which the goods or services have not been received, are disclosed as commitments of the primary government.

Reconciliation from the Budgetary Basis of Accounting to the GAAP Basis

	General Fund	Foundation Program Fund
Budgetary Basis Excess (Deficit)		
Revenues over (under) Expenditures	\$ (158,680,316)	\$ (189,324,994)
Changes in certain revenue and expenditure accruals	(4,446,772)	175,682,620
Activities not included in the General Fund budget	240,695,331	-
Revenue and/or Expenditures from previous biennium budgets	(52,059,895)	(11,987,039)
Encumbrances as of June 30, 2015	236,081,478	3,331,219
Non-budgeted expenditures	(11,006,933)	267,856
GAAP Basis Excess (Deficiency) of Revenues and Other Financing Sources over (Under) Expenditures and Other Financial Uses for the biennium	\$ 250,582,893	\$ (22,030,338)
Net Change in Fund Balance:		
Year ended June 30, 2015	\$ 250,582,893	\$ (22,030,338)
Year ended June 30, 2016	-	-
Total net change for the biennium	\$ 250,582,893	\$ (22,030,338)

Supplemental appropriations and additional appropriations approved by the Governor are included in the column titled "B11's & Supplemental Budget." In the budget and actual statements, encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded as expenditures and liabilities in order to reserve that portion of the applicable appropriation, is employed for budgetary control purposes. Some unencumbered appropriations lapse at the end of each biennium. Revenue budgets are not legislatively established but are determined by individual agencies or the Consensus Revenue Estimating Group.

Most governmental and special revenue funds have legally adopted biennial budgets except for the Game and Fish Fund (this fund has an annual legally adopted budget) and the following permanent funds – Permanent Mineral Trust Fund, Wyoming Wildlife Trust Fund, Wyoming Tobacco Settlement Fund, Wyoming Military Asst. Fund, Montgomery Home for the Blind Fund, the Wyoming Cultural Trust Fund, the Sundry Trust Fund and the Higher Education Endowment Trust Fund. The Debt Service Fund does not have an adopted budget. The Capital Project Fund utilizes the method of adopting project-length budgets for the capital projects, accordingly, therefore supplementary budgetary reporting does not apply to the Capital Project Fund.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Environmental Quality Restricted Fund-This fund is used to account for litigated settlements clean-up projects. This fund is used for reporting restricted fund balance for GASB 54.

Environmental Quality Committed Fund-This fund is used to account for fees, fines, penalties, forfeitures, and grants received which are committed for use in the reclamation of the environment quality clean-up projects. This fund is used for reporting committed fund balance for GASB 54.

Board & Regulatory Fund-This fund is used to account for the licensing fees paid by professionals as well as the related expenditures of regulating the specific professionals.

Game and Fish Fund-This fund is used to account for all revenues, which are restricted for the purpose of habitat, recreational facility, wildlife conservation and enhancement.

Special Projects Committed Fund-This fund is used to account for revenues for conferences and services as well as the related expenditures, which are committed for use in special projects. This fund is used to report committed fund balance for GASB 54.

American Recovery & Reinvestment Fund-This fund is used to account for the funds that were obtained through the American Recovery & Reinvestment Act.

Special Projects Restricted Fund-This fund is used to account for revenues for conferences and services as well as the related expenditures, which are restricted for use in special projects. This fund is used to report restricted fund balance for GASB 54.

Community College Grants Fund-This fund is used to account for mineral severance tax, which is granted to community colleges for emergency repairs.

Water Fund-This fund is used to account for mineral severance tax revenue which are restricted for the purpose of maintaining and rehabilitating current water facilities, capital construction, and fees received for water sales and storage at Fontenell, Sheridan and Palisades and the related costs of providing these services.

Workforce Development Fund-This fund is used to account for expenditures relating to workforce development activities for the Department of Workforce Services.

Mineral Royalties Fund-This fund is used to account for mineral royalties, which are restricted for the specific purpose of school capital construction.

Government Royalty Distributions Fund-This fund is used to account for royalties received on mineral production, which is restricted for grants and loans to municipalities, local governments, counties and special districts.

Farm Loan Loss Reserve Fund-This fund is used to account for a percentage of farm loan revenue, which is restricted for the repayment of defaulted loans and to pay the administrative and legal expenses of the Farm Loan Board in making collections on defaulted loans and foreclosing mortgages.

State Revolving Fund (SRF)-This fund is used to account for federal grants from the U.S. Environmental Protection Agency; state funds from the Department of Environmental Quality (DEQ) corrective action account and from SRF loan repayments, which were to DEQ for water pollution control projects.

Miners' Hospital Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the Miners' Hospital.

Omnibus Land Fund-This fund is used to account for land and the income generated from land, which was donated to the State for the specific purpose of the establishing, maintaining and support of charitable, educational, penal and reform institutions.

Donations and Bequests Fund-This fund is used to account for bequests and donations made for specific purposes.

Wyoming Wildlife Fund-This fund is for payments made by the State for the purpose of enhancing Wyoming wildlife resources.

Endowment Fund-This fund is used to account for the endowment funds.

Retirees Prefunded Health Insurance Fund-This fund is used to account for Retirees Prefunded Health Insurance.

Oil Surcharge Conservation Fund-This fund is used to account for fines and forfeitures charged to Mobil Oil, Texaco, Beldridge, Palo Pinto, Stripper Wells, Diamond Shamrock and Exxon, which are required to be used to help conserve energy through special grant programs.

State Land Fund-This fund is used to account for land which was donated to the State and the land income, which is restricted to establishing, maintaining and supporting public buildings, fish hatcheries and various State institutions.

DEBT SERVICE FUND

Debt Service Funds are used to account for the accumulation of, and the payment of, general long-term principal and interest.

CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

PERMANENT TRUST FUNDS

Permanent trust funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Wyoming Wildlife Trust Fund-This fund is used to account for assets of a trust agreement. The interest on this fund is restricted for the purpose of enhancing Wyoming wildlife resources.

Montgomery Home for the Blind Fund-This fund is used to account for assets of a legal trust agreement. The income from this fund is restricted for the purpose of establishing, maintaining and supporting a school for blind individuals.

Wyoming Tobacco Settlement Fund-This fund is used to account for assets of the tobacco settlement. The income from this fund is restricted for the purpose of improvement of the health of Wyoming's citizens.

Wyoming Military Assistance Trust Fund-This fund is used to account for appropriations for the military assistance. The income from this fund is restricted for the purpose to alleviate financial hardships faced by various military members and their families.

Wyoming Cultural Trust Fund- This fund is used to account for appropriations for the Wyoming Cultural Trust Fund. The income from this fund is restricted for the purposes to preserve, promote and enhance the unique cultural heritage of the Wyoming citizens.

Sundry Trust Funds- This fund is used to account for appropriations for various trust funds. The income from this fund is restricted for the purposes of the trust funds.

Wyoming Excellence in Higher Education Endowment Funds- This fund is used to account appropriations for higher education endowments. The income from this fund is restricted for the purpose of faculty recruitment and retention, other educational needs, funding for future scholarships, imposing reporting requirements, directing legislative committees to determine higher education accomplishments, and provides for committees to study and prepare plans of implementation as specified.

PROPRIETARY FUNDS

NONMAJOR ENTERPRISE FUNDS

Enterprise funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprise, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Liquor Commission Fund-This fund is used to account for the operation of the State Liquor Commission, which purchases and sells alcohol products to businesses throughout the State.

Canteen Fund-This fund is used to account for the purchase and sale of consumable goods to residents at the State institutions.

Subsidence Insurance Fund-This fund is used to account for insurance premiums received and claims payments made for house and land subsidence in subsurface mining areas. (Note that claims payments are currently being made from a federal grant in another fund. This fund is currently only receiving premiums, but it is the goal of the federal program to eventually make this program self sufficient.).

Honor Farm Agricultural Sales Fund-This fund is used to account for the revenues and expenses of producing and selling agricultural products to State institutions and other consumers by the Honor Farm.

Wyoming Health Insurance Fund-This fund is used to account for premiums received from residents unable to obtain health insurance and the expense of purchasing insurance for these residents.

Unemployment Insurance Fund-This fund is used to account for payments made for unemployment insurance benefits.

INTERNAL SERVICE FUNDS

The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost reimbursement basis.

Computer Technology Fund-This fund is used to account for the activities of the Computer Technology Division, which provides computer services to State agencies.

Motor Vehicle Fund-This fund is used to account for the activities of the Motor Vehicle Division, which provides transportation services to State agencies.

Group Insurance Fund-This fund is used to account for the activities of the Group Insurance Board, which provides insurance coverage to State employees.

Wyoming Surplus Property Fund-This fund is used to account for the activities of the Surplus Property Division, which collects, distributes, and sells surplus property to federal, state, and local governments.

Personnel/Training Fund-This fund is used to account for the training classes and services provided by the State's Personnel Division.

State Self Insurance Fund-This fund is used to account for the activities of the State's Self Insurance Pool, which insures agency property against theft and damage.

FIDUCIARY FUNDS

PENSION TRUST FUNDS

Pension trust funds are used to account for the assets held by a government as trustee for employee retirement systems.

Public Employees Pension Plan-This fund is used to account for the activities of the Wyoming Public Employee Retirement System.

State Patrol, Game and Fish Warden, and Criminal Investigator Pension Plan-This fund is used to account for the activities of the Wyoming State Highway Patrol, Game and Fish Warden, and Criminal Investigator Retirement System.

Volunteer Firemen's Pension Plan-This fund is used to account for the activities of the Volunteer Firemen's Retirement System.

Paid Firemen's Pension Plan A-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired prior to July 1, 1981.

Paid Firemen's Pension Plan B-This fund is used to account for the activities of the Paid Firemen's Retirement System for firemen hired after July 1, 1981.

Judicial Pension Plan-This fund is used to account for the activities of the Judge's Retirement System.

Law Enforcement Pension Plan-This fund is used to account for the activities of the Wyoming Law Enforcement Retirement Plan.

Volunteer Emergency Medical Technician (EMT) Pension Plan-This fund is used to account for the activities of the Volunteer Emergency Medical Technician Retirement Plan.

Air Guard Fire Fighters Pension Plan-This fund is used to account for the activities of the Air Guard Fire Fighters Pension Plan.

Deferred Compensation 457 Plan-This fund is used to account for administration of an IRC457 Deferred Compensation Plan.

PRIVATE-PURPOSE TRUST FUND

Private-purpose trust fund is used to report any trust agreement not properly reported in a pension trust fund or investment trust fund.

Unclaimed Property Fund-This fund is used to account for property for which the owner is unknown. The State is obligated to maintain possession of the property until claimed.

AGENCY FUNDS

Agency funds are used to account for assets that a government holds on behalf of others as their agent.

Treasurer's Agency Fund-This fund is used to account for funds held by the Treasurer's Office on behalf of citizens, counties and other municipalities.

Department of Revenue Fund-This fund is used to account for the receipt of the different taxes and the related disbursement to municipalities of these taxes.

Funds Held for Individuals-This fund is used to account for the various State agencies holding assets on behalf of individuals.

Environmental Cash Bond Fund-This fund is used to account for compliance bonds held by the Department of Environmental Quality.

Other Agency Funds- This fund is used to account for the activity within the County Predatory Control Fund, State Lands Fund, Adjutant General Fund, and the Sundry Agency Funds.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the State of Wyoming's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the primary government's overall financial health.

Financial Trends – These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Schedule 1 – Changes in Net Position.....	208
Schedule 2 – Net Position by Component.....	210
Schedule 3 – Fund Balances of Governmental Funds.....	212
Schedule 4 – Changes in Fund Balances of Governmental Funds.....	216

Revenue Capacity Information – These schedules contain information to help the reader assess the government's most significant own-source revenues. The three most significant own-source revenues for the State of Wyoming include: sales and use tax, mineral severance taxes and property tax collected and designated for the state's School Foundation Program.

Schedule 5 – Governmental Activities Tax - Revenues by Source.....	218
Schedule 6 – General Governmental Tax - Revenues by Source.....	218
Schedule 7 – Revenue Capacity.....	219
Schedule 8 – Major Own Source Revenue – Mineral Severance Taxes.....	220
Schedule 9 – Revenue Rates.....	221
Schedule 10 – Revenue Rates for Mineral Severance Tax.....	222
Schedule 11 – Sales Tax Collections by Industry.....	224
Schedule 12 – Sales Tax Collections for Retail, Accommodation and Food Service Sectors.....	226
Schedule 13 – Use Tax Collections by Industry.....	228
Schedule 14 – Revenue Base - Assessed Value of Property.....	230
Schedule 15 – Locally Assessed Value and Estimated Actual Value of Taxable Property.....	232
Schedule 16 – State Assessed Value and Estimated Actual Value of Taxable Property.....	234
Schedule 17 – School Foundation 12-Mill Property Tax Collections.....	235
Schedule 18 – Principal Mineral Production Tax Payers.....	236
Schedule 19 – Principal Non-Mineral Tax Payers.....	237

Debt Capacity Information – These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Schedule 20 – Revenue Bond Coverage.....	238
Schedule 21 – Legal Debt Margin.....	240
Schedule 22 – Ratios of Outstanding Debt by Type.....	242

Demographic and Economic Information – These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Schedule 23 – Demographic and Economic Statistics.....	244
Schedule 24 – Personal Income by Major Source.....	246
Schedule 25 – Principal Employers by Industry.....	248

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Schedule 26 – Capital Asset Statistics by Functional Category and Fund Class	250
Schedule 27 – State Government Authorized Full-Time Positions and Number of Active Employees	254
Schedule 28 – Operating Indicators by Function/Program	256
Schedule 29 – Department of Workforce Services, Workers' Compensation Division	260
Schedule 30 – Department of Workforce Services, Workers' Compensation Division	261
Schedule 31 – Trends in AFDC/TANF and Food Stamp Caseloads and Expenditures	262
Other Wyoming Facts	263

Notes:

Taxes do not directly coincide with the entity wide statements due to the amounts including cities, towns, counties, and component units' portions.

¹ Fiscal Years 2006 and 2007 natural gas revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes from prior production years.

² Actual property tax information was not available. The property tax figures listed are estimates based on property assessment values. Estimated property taxes for Fiscal Year 2015 were \$312,687,384.

Source: Dept. of Administration & Information, Economic Analysis Division; Wyoming State Government Revenue Forecast Fiscal Year 2016-2020

Notes:

Taxes do not directly coincide with the entity wide statements due to the amounts including cities, towns, counties, and component units' portions. Mineral Severance Taxes include all collections, even those distributed to other governmental entities.

¹ Fiscal Year 2006 and 2007 natural gas revenues include \$19.5 million and \$13.3 million respectively in previously protested severance taxes from prior production years.

The amounts reported above for Fiscal Years 2006 through 2013 have been changed from what was reported in previous Comprehensive Annual Financial Reports. The Fiscal Year totals are the same as previously reported; however, the breakdown by mineral has changed due to a correction by the Department of Administration & Information, Economic Analysis Division, to properly account for the the leaking underground storage tanks (LUST) distribution. This distribution represents the severance taxes distributed for the leaking underground storage tanks. An incorrect assumption was made that the LUST distribution came from natural gas severance taxes only when, in fact, it is taken from the severance taxes on all minerals.

Notes:

All rates are set by the Legislature.

¹The State of Wyoming does not levy a corporate income tax.

²The State of Wyoming does not impose or levy income taxes, earning taxes or any other form of tax based on wages or other income.

³Beginning July 1, 1993, the sales and use tax rate was increased by one percent. Counties could levy up to 2% in additional sales and use tax upon voter approval. Beginning July 1, 2007, counties may levy up to 3% in additional sales and use tax upon voter approval.

⁴A temporary sales and use tax exemption for food for domestic home consumption commenced on July 1, 2006 and ended on June 30, 2008. This was made a permanent exemption with House Enrolled Act 88 revised on July 14, 2008.

⁵The Legislature passed an increase tax rate for cigarettes effective July 1, 2003. A discount of 6% is given to wholesalers on purchases of stamps or metering machine settings.

⁶One percent of the tax equals 10 mills. Therefore, the Foundation Program Fund Mill Levy of 12.000 is equal to 1.2000% of the assessed real property value, which is Estate Taxes are set under the United States laws governing federal estate taxes and the IRS Code. Estate tax proceeds are deposited in the State General Fund.

Notes:

Due to confidentiality issues, the names of the ten largest sales tax payers are not available. The categories presented are intended to provide alternative information regarding the source of the State's revenue.

¹North American Industry Classification System

The NAICS coding was developed by the Federal Office of Management and Budget. Under the system, a business is classified by primary activity, determined by principal product, or group of products produced, distributed, and/or services rendered.

Only the State imposed 4% sales tax collections are included.

Estimates of sales may be obtained by dividing the collection amount by the effective tax rate.

Penalty and interest funds are excluded in this table.

Sales tax collections do not directly coincide with the entity-wide statements due to the amounts including portions distributed to cities, towns, and counties.

Notes:

"Locally assessed" values represent property assessed by the county assessor.

"State assessed" values are those properties assessed by the Department of Revenue's Mineral Division or Property Tax Division.

"Real property" is land and appurtenances affixed thereto, including buildings.

"Personal property" is property not permanently affixed to the land.

The Non-Minerals classification 'Cable and Satellite' began being used in 2008.

¹ As of June 30, 2012 the exemption includes POW, Disabled and Indian License Fee Exemptions.

Notes:

The Legislature requires that county assessors annually update property values. The county assesses property at approximately nine and one-half percent (9.5%) of actual value for agricultural land, residential, and commercial property and eleven and one-half percent (11.5%) for industrial property. Estimated actual value is calculated by dividing assessed value by those percentages.

^a Includes tax-exempt property.

Source: Department of Revenue; Annual Reports

Notes:

A detailed listing of non-mineral and mineral property is stated in Schedule #14, Assessed Value of Property.

The State assesses property annually and the assessment of minerals occurs annually following the year of production. The State assesses non-mineral property at approximately eleven and one-half percent (11.5%) of actual value. Mineral property is assessed as gross product of minerals or mine productions at actual value or one hundred percent (100%). Estimated actual value is calculated by dividing assessed value by those percentages.

Source: County Treasurers.

Notes:

¹ The estimated tax levy for the fiscal year is based on the Department of Revenue's valuation of all taxable property on January 1st.

² The actual total tax levy for the fiscal year is the county commissioners' levy for the tax year and adjustments to the original taxes levied. Crook County and Bighorn County did not report for fiscal year 2012. Bighorn County did not report for fiscal year 2011.

Note:

¹The assessed valuation is the total locally & state-assessed valuation calculations obtained from Schedule #14, Revenue Base - Assessed Value of Property.

²The statutory State debt limit is one percent (1%) of the assessed value of all taxable property in the State, as set forth in Chapter 97-16-001 of the State of Wyoming Constitution.

³The legal debt margin is the State's available borrowing authority set by the financial Statutes and is calculated by subtracting the net debt applicable to the limit from the debt limit.

Notes:

^a Total personal income is the income that is received by all persons from all sources. It is composed of wages and salaries, proprietors' income, personal interest and dividend income, rental income and personal current transfer receipts, less contributions for government social insurance.

^b Per capita personal income is calculated by dividing total personal income by population.

Differences between the Demographic and Economic Statistics schedule for Labor Force and Employment estimates and information contained in Schedule #24, Personal Income by Major Source and Schedule #25, Principal Employers by Industry, are due to differences in survey information between the U.S. Department of Commerce and U.S. Department of Labor, including sample size, estimation procedures, coverage, and definitions.

Notes:

¹North American Industry Classification System

²Contributions for government social insurance are included in earnings by type and industry, but they are excluded from personal income.

³The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers: wage and salary disbursements to U.S. residents commuting to Canada less wage and salary disbursements to Canadian and Mexican residents commuting into the United States.

⁴Rental income of persons includes the capital consumption adjustment.

⁵This component of personal income is payments to persons for which no current services are performed. It consists of payments to individuals and to nonprofit institutions by federal, state, and local governments and by businesses. Government payments to individuals includes retirement and disability insurance benefits, medical payments (mainly Medicare and Medicaid), income maintenance benefits, unemployment insurance benefits, veterans' benefits, and federal grants and loans to students. Government payments to nonprofit institutions excludes payments by the federal government for work under research and development contracts. Business payments to persons consists primarily of liability payments for personal injury and of corporate gifts to nonprofit institutions.

Sources: Session Laws of Wyoming; Department of Administration & Information and State Auditor's Office

Notes:

¹ Authorized positions including time-limited & those authorized by the Governor. Excludes legislators, the University of Wyoming, Wyoming Community Development Authority, and Wyoming Business Council.

² Includes central position-pool positions and the five elected official positions.

³ 2007 and thereafter figures include the legislative and judicial branches of government.

⁴ Established by Commission; Legislature does not establish authorizations for this department.

⁵ Active employees include at will positions and board members.

Source: Various State departments.

Notes:

¹ Registered voter data is not available for some years due to an old voter registration system and information not being collected in non-election years.

² Purchasing card program was implemented in 2005.

³ Figures are based on October 1 enrollment.

⁴ The annual drop-out rate is calculated by taking one year's drop-out counts from grades 9 - 12, divided by an average enrollment using October 1 enrollments and completer figures. Information obtained from the Department of Education.

⁵ Starting in 2006-2007, the academic year definition was changed to more accurately reflect Banner's academic year definition of fall, spring, and summer terms. Prior to 2006-2007, the academic year definition included summer, fall, and spring terms. For example, academic year 2005-2006 includes August 2005, December 2005, and May 2006 while academic year 2006-2007 includes December 2006, May 2007, and August 2007.

⁶ Figures obtained by averaging end-of-semester data for fall and spring semesters, except for 2007 which only includes fall 2007 enrollment figures. Data also includes all outreach enrollment.

⁷ The agency changed their data collection system in fiscal year 2007. Information prior to fiscal year 2007 is not comparable and therefore, is not provided.

⁸ Based on the NAICS Industries classifications.

⁹ The Emergency Unemployment Compensation 2008 (EUC08) program began in July 2008 and continued into fiscal year 2014. The program ended in December 2013.

¹⁰ In 2013, Wyoming State Parks, Historic Sites & Trails began to collect traffic data for the entire calendar year so there is a substantial increase in visitation numbers.

N/A = Information is not available.
