

# WOLFS Revenue Codes

Updated 04/2022

This document provides a list of the available State of Wyoming revenue codes.

All groups of revenue are delineated by grey fill and identify the general type of revenue, otherwise known as revenue group. The State of Wyoming reports revenue in the financial statements based on the revenue group. The name and description of the revenue group applies to all revenue source codes within the section.

*Example:*

<b>10</b>	<b>TAXES</b>
-----------	--------------

The revenue class for each revenue source code is listed in the left column. This represents the rollup class for each revenue source. The revenue class is important when creating a revenue budget with BGR121 Documents in the WOLFS application. The correct revenue class must be used or documents will not process in WOLFS. All revenue codes are listed in the second column below each revenue group in numerical order and define the specific types of revenue within the group.

*Example:*

<b>10</b>	<b>TAXES</b>	
<b>Revenue Class</b>	<b>Revenue Code</b>	<b>Revenue Source Code Name</b> Revenue source code additional information
<b>010</b>	<b>1101</b>	<b>Auto Tax</b> St General

Information on the revenue source is displayed as a note below the title of the code. This information is included to provide additional clarity to the revenue source.
